

# NATIONAL ABORIGINAL AND TORRES STRAIT ISLANDER SOCIAL SURVEY (NATSISS)

2002

## Output data items

---

This document provides a list of the output data items available from the 2002 National Aboriginal and Torres Strait Islander Social Survey (NATSISS), together with an indication of the level of detail which will be made available in standard 2002 NATSISS outputs such as the summary publication (National Aboriginal and Torres Strait Islander Social Survey, 2002 (cat. no. 4714.0)); state/territory tabulations; and the basic Confidentialised Unit Record File (CURF).

"All persons" refers to persons selected for interview in the 2002 NATSISS. All persons interviewed were aged 15 years or over.

"All households" refers to data provided by a household spokesperson in the 2002 NATSISS.

---

C = Community only (data collected via Pen-and-paper interviewing).

MR = items with multiple response categories (i.e. these categories are not mutually exclusive).

NC = Non-Community only (data collected via Computer assisted interviewing).

---

Items marked with an asterisk (\*) indicate that these items were collected in more detail than shown. Where feasible, more highly disaggregated data may be made available via the expanded CURF and/or specific ad hoc tabulations.

### Footnotes

(a) Data is available for non-remote areas only. Refer to the 2002 NATSISS (cat. no. 4714.0), Explanatory Notes paragraphs 46–47.

(b) Data is restricted to the set of criteria used to identify disability in remote areas. Refer to the 2002 NATSISS (cat. no. 4714.0), Explanatory Notes paragraphs 46–47.

(c) Information on substance use will not be released for persons living in remote areas due to data quality concerns.

(d) Based on national income quintile boundaries from the ABS 2002 General Social Survey.

(e) May include persons who were held in protective custody.
