PUBLICATION OF TASMANIAN STATISTICS

HOW TO OBTAIN CURRENT PUBLICATIONS

General

The Tasmanian Office of the Commonwealth Bureau of Census and Statistics is located on the fourth floor of the *T. and G. Building, Collins Street, Hobart*. Requests for statistical publications can be made by calling at this address; by 'phoning "*Hobart 2-2741*"; or by writing to the *Deputy Commonwealth Statistician, Box 66A, G.P.O., Hobart*.

Service to the public is not restricted to the distribution of publications. If no publication adequately covers the subject matter of the enquiry, then a special extraction of the data required may be undertaken if they are available from the basic records held in the office.

Historical

The first Government Statistician in Tasmania was E. C. Nowell who took up duty in 1867. Before this appointment, statistics had been published in the official "Blue Books" compiled by the Colonial Secretary during the period 1822-1855, and in volumes entitled "Statistics of Tasmania" after self-government was granted.

By the *Commonwealth and State Statistical Agreement Act 1924*, the Tasmanian Parliament ratified an agreement for the establishment of an office of the Commonwealth Bureau of Census and Statistics, such office to meet the statistical needs of the State Government; provision was made for the Deputy Commonwealth Statistician, a Commonwealth Officer, to hold at the discretion of the State Government, the title of State Statistician. The first officer appointed in this way was L. F. Giblin, M.C., D.S.O., who had previously been the State Government Statistician. (It was not till the late 1950's that similar arrangements were made in the other Australian States.)

Statistics from 1804

In the Archives Office of Tasmania, the following series are available:

- (i) Official "Blue Books" for period 1822-1855.
- (ii) "Statistical Account of Van Diemen's Land or Tasmania, 1804 to 1854" compiled by Hugh M. Hull (Office of the Colonial Secretary).

(iii) "Statistics of Tasmania"—annual publications from 1856 to 1922-23.

(iv) "Statistics of the State of Tasmania"—annual publications commencing 1923-24 and still being produced annually. (Copies of these volumes are held at the University Library, the State Library in Hobart and the Public Library in Launceston; volumes covering 1962-63 or 1963-64 can be purchased from the Tasmanian Office of the Commonwealth Bureau of Census and Statistics.)

Copies of publications listed from (ii) to (iv) inclusive are available at the Tasmanian Office of the Bureau.

Current Publications of the Tasmanian Office

The Tasmanian Office of the Commonwealth Bureau of Census and Statistics is engaged in a continuous publications programme, the statistics appearing in two forms: (i) *Printed*; (ii) *Mimeographed*.

In general, the mimeographed publications (which are obtainable free of charge) have been compiled to make information available at the earliest possible moment. Printed publications contain information in very much greater detail but, because of the inevitable delay imposed by manuscript preparation and the printing process, may be issued a year later than the period to which they refer. (The printed *Monthly Summary of Statistics* is an exception and the "lag" is no more than about two months.)

Printed Publications

The following table sets out details of all printed publications issued by the Tasmanian Office:

TASMANIAN STATISTICS IN CENTRAL OFFICE PUBLICATIONS

General

Although publications of the Tasmanian Office of the Bureau of Census and Statistics make available statistics on many aspects of the State, there are some fields in which additional or more frequent information is available in publications of the Central Office.

How to Obtain Central Office Publications

Central Office printed publications may be *bought* direct from the Government Printer, Canberra and from the Tasmanian Office of the Bureau of Census and Statistics; they may also be ordered from leading booksellers in the principal centres. A standing order may be placed with the Government Printer, Canberra, with whom a credit account may be arranged.

In addition to printed publications for which a charge is made, there are other Central Office publications (mimeographed, &c.) which may be obtained free of charge from the Commonwealth Statistician, Canberra.

Subject Matter of Central Office Publications

The fields of statistical enquiry covered in Central Office publications are very wide and the best way to obtain a guide to the material available is to write to: "*The Commonwealth Statistician, Canberra*" and ask for "*Publications of the Commonwealth Bureau of Census and Statistics*". Copies of this guide are also available at the Tasmanian Office of the Bureau. This free 40-page guide lists the publications of the Central Office and of the State Offices; in addition, it contains a subject index.

Readers with interest in a particular field are invited to call at, or write to, the Tasmanian Office which is in a position to give advice on what publications are available.

Listing of all Central Office publications is beyond the scope of this Appendix but attention is called to the Population Census Volumes (Volume VI, Tasmania, 1961 Census); the Official Year Book of the Commonwealth of Australia; Secondary Industries Bulletin; Demography Bulletin; Finance Bulletin; Labour Report; National Income and Expenditure; Oversea Trade Bulletin; Primary Industries Bulletins; Transport and Communication Bulletin. In addition to annual publications, there is a very wide range of information released monthly, quarterly and half-yearly.
