## **PREFACE**

Final results from the 1971 Census of Population and Housing are being released in a series of 14 bulletins covering single and cross-classified characteristics of population and dwellings.

It should be recognised that in processing census data for 13 million persons and 4.5 million households there are innumerable possibilities for error. As in other areas of statistics, much of the effort of statisticians is directed to devising procedures which prevent most errors from occurring or which detect and eliminate those which do occur. Despite such efforts, it is impracticable to eliminate every inaccuracy but special steps such as editing and quality control procedures are taken to measure and control the level of such inaccuracy. Thus while some minor errors and discrepancies may be evident in the final results, it is unlikely that they would have any practical significance in the interpretation of the Census data.

A large number of tabulations are being produced for the 1971 Census which, because of their size and complexity, will not be published. In some cases, classifications of characteristics will be available at a finer level than those published in the Bulletins. A complete list of the tabulations produced (published and unpublished) and the levels of classification available will be published in the Catalogue of 1971 Census Tabulations (Bulletin 14). For information on the more detailed classifications and the availability of unpublished tabulations please contact the office of the Bureau of Census and Statistics in each State capital city or in Canberra.

### HOUSEHOLDER'S SCHEDULE

Under the provisions of the *Census and Statistics Act 1905-1966* you are required to fill in this form to the best of your knowledge and belief. However, there is no penalty for omitting information on a person's religious denomination.

The information supplied in this form is **CONFIDENTIAL**. The Act provides that it cannot be seen by any persons other than officers of the Bureau of Census and Statistics. It will be used only for obtaining totals for statistical purposes.

The completed schedule should be ready to hand to the Census Collector who will call on **THURSDAY 1 JULY** or as soon as possible after that day.

I certify that to the best of my knowledge and belief this form has been correctly filled in.

## A FEW FACTS ABOUT THE CENSUS

*At the Census everybody in Australia contributes  
to Australia's knowledge about itself*

**YOUR FORM IS ABSOLUTELY CONFIDENTIAL.** The LAW prevents anyone but the Commonwealth Statistician and his officers from seeing your return. OTHER PERSONS OR GOVERNMENT DEPARTMENTS CANNOT see your return for any purpose whatsoever.

**THE STATISTICS ARE ESSENTIAL TO PEOPLE WORKING ON SUCH NATIONAL PROBLEMS AS:**

- HOUSING NEEDS
- BETTER LIVING STANDARDS
- EDUCATION (SCHOOLS, TEACHERS, ETC.)
- WELFARE OF THE AGED, WIDOWS, ABORIGINES, MIGRANTS, ETC.
- CITY GROWTH, TRAFFIC PROBLEMS, ROADS
- SEWERAGE, WATER AND POWER SUPPLY
- EMPLOYMENT, UNEMPLOYMENT, VOCATIONAL TRAINING
- DECENTRALISATION, RURAL DEPOPULATION, LOCATION OF INDUSTRY

**MOST CENSUS INFORMATION CANNOT BE OBTAINED IN ANY OTHER WAY.** The great value of the Census is that all the information about everybody is obtained at the one time. This means that it can be added together and cross-referenced to give a very detailed statistical picture of AUSTRALIA at a single point in time. Without you the picture would be incomplete.

**THE STATISTICS ARE AVAILABLE TO YOU.** All the statistical tables which are compiled from the Census serve important Governmental purposes, but they are also available to private individuals, the business community and researchers.

#### For Census Collector's use only

List in Column 1 all persons (including visitors) who spent the night of **Wednesday 30 June** in this household (or returned on **Thursday 1 July** without having been counted elsewhere), and then fill in Columns 2 to 6 for each person.

## HOW TO FILL IN THIS FORM

After you have read the instructions:

- **Step 1:** Lift this flap and fill in page 1 for all persons who spent the night of Wednesday 30 June in this household.
- **Step 2:** Give particulars of this dwelling on pages 2 and 3.
- **Step 3:** Complete a double page of personal particulars for each person listed on page 1.
- **Step 4:** Sign the form on the front page.

## INSTRUCTIONS

- FILL IN A SEPARATE FORM FOR EACH HOUSEHOLD.**  
A household is a domestic group living and eating together. A person living alone is also a household.
- IF THERE IS MORE THAN ONE HOUSEHOLD OBTAIN EXTRA FORMS FROM THE CENSUS COLLECTOR WHEN HE RETURNS.**
- THIS BOOKLET HAS PAGES FOR 8 PERSONS. IF THERE ARE MORE THAN 8 PERSONS IN THE HOUSEHOLD OBTAIN PERSONAL SLIPS FOR THESE EXTRA PERSONS FROM THE CENSUS COLLECTOR WHEN HE RETURNS.**
- IF ANY PERSON IN THE HOUSEHOLD, SUCH AS A VISITOR OR BOARDER, PREFERENCES TO FILL IN A SEPARATE FORM TO MAINTAIN PRIVACY, ASK THE COLLECTOR FOR A 'PERSONAL SLIP' AND AN ENVELOPE.** The Personal Slip should be filled in and sealed in the envelope by the person concerned, for delivery by you unopened to the Census Collector with this schedule.
- FOR ANY PERSON WHO COMPLETES A PERSONAL SLIP, ENTER ON PAGE 1 OF THIS SCHEDULE THE NAME, RELATIONSHIP AND SEX OF THE PERSON AND WRITE 'P.S.' IN THE AGE COLUMN.**
- Not all questions have to be answered by everybody. Read each question carefully, give your answer, then follow the directions to the next question which applies. Most questions can be answered simply by placing a tick in the appropriate box, e.g.  

Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>
-----	--------------------------	----	-------------------------------------
- If you do not know the exact answer to a question, give the best estimate you can.
- Please use ink or ball point pen.
- The completed schedule should be ready to hand to the Census Collector who will call on **THURSDAY 1 JULY** or as soon as possible after that day.
- If you need any help with this form, telephone the Divisional Returning Officer for your Commonwealth Electoral Division, or ask the Census Collector when he returns.

**14. (a) Did this person have a full or part-time job, or business or farm of any kind last week?**  
 • Tick 'yes' even if this person was temporarily absent from a job because of sickness, holidays, industrial dispute, etc.  
 • Tick 'no' if this person did not have a job or did only unpaid housework.  
 Yes  No

(b) Did this person do any work at all last week for payment or profit?  
 • Tick 'yes' even if this person was working only part-time or helping without pay in a family business.  
 • Tick 'no' if this person did not work or did only unpaid housework.  
 Yes  No

(c) Was this person temporarily laid off by his employer without pay for the WHOLE of last week?  
 Yes  No

(d) Did this person look for work last week?  
 • Looking for work means being registered with the Commonwealth Employment Service, or approaching a prospective employer, or placing or answering advertisements, or writing letters of application, or awaiting the results of recent applications.  
 Yes, looking for first job   
 Yes, but not for first job   
 No

**IF THE ANSWERS TO QUESTIONS 14 (a) and 14 (b) ARE BOTH 'NO', ANSWER NO MORE QUESTIONS FOR THIS PERSON**

## EXPLANATORY NOTES

### GENERAL

In this publication, details are shown of the characteristics of population and dwellings enumerated in local government areas. These details relate to local government areas as constituted at 30 June 1971 and do not take account of boundary changes since that date. Separate figures are also shown for individual statistical divisions and the whole State.

In the few cases where local government areas do not provide satisfactory geographical dissections for census purposes, details are given for a number of additional, smaller areas. Such cases are noted below.

City of Brisbane — Fifty-eight statistical areas defined within this city are shown separately.

Northern Territory — In addition to the City of Darwin and Proposed Greater Darwin, a number of urban centres (centres of 1,000 or more persons) are shown separately.

City of Canberra — Administrative divisions within this city are shown separately.

For purposes of these explanatory notes, the term 'local government area' is also used to cover the geographical areas indicated above.

For the 1971 Census all information for each local government area or statistical division is contained in three consecutive pages. For previous censuses a series of single-characteristic tables for every local government area was shown. Though the former method aids comparison on individual characteristics between local government areas it is considered that the new presentation will provide easier access to data for detailed studies of particular local government areas.

The sequence in which local government areas and statistical divisions appear in this publication, and their locations, are indicated in the Index following these notes.

In a few cases, statistical division boundaries dissect legal local government areas and each part is shown separately in the appropriate statistical division. In addition, details for the complete local government area are shown at the end of the tables.

The codes accompanying the local government area names in this bulletin are also printed on maps issued by this Bureau and consequently are useful when reference to these maps is necessary. Details of maps showing local government and statistical division boundaries are given on the last page of this publication.

Persons who on Census night were on board ships in Australian ports or travelling between two Australian ports, or who were enumerated on long-distance trains, buses or aircraft, are classed as 'migratory' and excluded from the tables for individual local government areas and statistical divisions, but have been included in the tables for the State or Territory total. Such persons were not regarded as living in a dwelling for census purposes.

In addition to the data shown in this publication, the following are available for local government areas:

- (i) finer levels of classification for some of the characteristics included in this publication;
- (ii) data for characteristics additional to those shown in this publication;
- (iii) some further limited cross-classifications of some characteristics.

The figures in this publication, and those indicated above, are also available separately for 'local government area sections', i.e. for centres with a population of 200 or more, and for Census collector's districts. For information on the detail and availability of unpublished data, please contact the office of the Bureau of Census and Statistics in the State or Territory for which data are required. If data are required for several States, please contact the Bureau of Census and Statistics in Canberra.

## THE HOUSEHOLDER'S SCHEDULE

The Householder's Schedule used for the 1971 Census of Population and Housing represents a major departure in design from that used at the 1966 and earlier Censuses. The single large sheet used previously, with provision for a maximum of 8 persons, was replaced by a booklet-type schedule with extensive use of the tick-box type question. In this schedule (a facsimile of which appears on pages ix to xii), the first page (page 1) provided for a list of persons in the dwelling, pages 2 and 3 contained questions relating to the dwelling, while the remaining 16 pages provided for two pages of questions to be completed in respect of each person listed on page 1.

The ordering of the questions was designed to minimise the number of questions to be answered by any one person. For persons under 5 years of age a maximum of 12 questions required an answer and 15 questions applied to those under 15 years of age. Males were not required to answer questions on issue and duration of marriage (Question 11) and only employed persons completed details of hours worked, occupational status, industry and occupation (Questions 15-18).

In the following notes on the individual topics appearing in this bulletin, reference to the specific question in the Householder's Schedule appears in parentheses.

### CHARACTERISTICS OF THE POPULATION (in the order in which they appear in the tables)

#### Age (Column 4, page 1 of Schedule)

Before the 1954 Census, cases where age was not given were distributed to specific ages subsequent to tabulation in accordance with the frequency of stated ages. In the 1954 and later Censuses, ages were allocated by first establishing the minimum age range within which the correct age most probably lay (as indicated by answers to other questions on the Schedule) and then by selecting an age, within that range, from a table of random ages based on the most currently available data on age distribution.

(NOTE. Two tables on age are provided; the first relates to total population, the second relates to total labour force)

#### Religion (Question 6, page 4 of Schedule)

Section 21 of the *Census and Statistics Act 1905-1966* provides that 'No person shall be liable to a penalty for omitting or refusing to state the religious denomination or sect to which he belongs or adheres' which accounts for the rather high incidence of 'not stated'. In 1971 at the request of a number of users, the instruction 'if no religion write "none"' was added to the question. The result has been a significant rise in the 'no religion' category compared to previous censuses and a fall in the 'not stated' category.

#### Marital status (Column 5, page 1 of Schedule)

It will be seen from the wording of the question that the status referred to is that at the time of enumeration regardless of any previous status.

In the very small proportion of cases where the question on marital status was not answered a status was allocated as follows:

Males under 18 years and females under 17 years were allocated to 'never married' unless there was definite evidence to the contrary in other answers on the Schedule. For other persons 'never married' was imputed if Questions 10 and 11 were not answered, 'widowed' if 10(b) was answered, and 'now married' if the answer was 'yes' to the question 'Is this person at present married?' in Question 11(a). Otherwise a marital status was selected from a random list according to age, compiled from the most currently available data on the distribution of the population by age and marital status.

(NOTE. Two tables on marital status are provided; the first relates to total population, the second relates to total labour force. In the labour force table, 'other' comprises 'permanently separated', 'divorced' and 'widowed'.)

#### Nationality (Question 3(b), page 4 of Schedule)

British nationality includes all persons who, by virtue of the *Nationality and Citizenship Act 1948-1966* (Section 7 and Regulation 5A), are deemed to be British subjects. In a small number of cases persons of British nationality and birthplace have inadvertently been shown as having 'other nationality' rather than 'British'.

**Birthplace** (Question 3(a), page 4 of Schedule)

**Period of residence** (Question 3(c), page 4 of Schedule)

For the first time in Australian censuses, overseas-born persons were asked whether they were a resident of, or a visitor to, Australia. The number of years an overseas-born person has been a resident of Australia has been defined as commencing from the date of *first* arrival as a *resident*.

(NOTE. The information on period of residence in this publication relates only to overseas-born *residents* of Australia.)

**1966 Residence** (Question 9, page 4 of Schedule)

The details shown for 1966 residence in the tables relate only to those persons aged 5 years and over who were enumerated in 1971 at their usual place of residence (see Column 6, page 1 of Schedule).

Centres with a population of 1,000 or more, and a small number of holiday resorts below this figure, are included under 'urban'. The balance of the population is treated as rural.

The category 'other and not stated' includes persons whose residence in 1966 was overseas and also persons who failed to give details of the location of their place of residence in 1966.

**Usual Residence in 1971** (Column 6, page 1 of Schedule)

The table on usual residence shows persons enumerated in each area on 30 June 1971 classified according to their stated usual place of residence.

**Usual major activity** (Question 2, page 4 of Schedule)

The classification of persons according to their stated *usual* major activity should not be confused with the labour force classification which is based on the actual activity of persons during the specific week prior to the Census. Thus the number of persons classed as working represents those people who *usually* do so and therefore is unlikely to agree with the number of persons in the labour force.

(NOTE. Two tables on usual major activity are provided; the first relates to total population, the second relates to total labour force.)

**Schooling** (Question 7, page 4 of Schedule)

At the 1966 Census persons were asked to state the highest level of schooling *completed*. For the 1971 Census the question was redesigned to obtain a measure of the highest level *attended*.

Persons no longer at school were requested to mark the grade in the current local system corresponding to the highest grade which they had attended.

Education systems differ between the Australian States and the question on schooling was varied appropriately in Schedules used in different States.

The following table was used to assign grades (or forms) in each State or Territory to an approximately comparable level.

<i>State or Territory</i>	<i>Grade or form reported</i>									
N.S.W., VIC., A.C.T., TAS.	1 & 2	3	4	5	6	1	2	3	4	5 & 6
QLD	1,2 & 3	4	5	6	7	8	9	10	11	12
S.A., N.T.	1,2 & 3	4	5	6	7	1	2	3	4	5
W.A.	1,2 & 3	4	5	6	7	1	2	3	4	5 & 6
	1	2	3	4	5	6	7	8	9	10
Level assigned	Primary school					Secondary school				

The category 'Child not yet attending school' includes children aged 0-4 years and a small number of 5 and 6 year olds who had not commenced schooling. Persons aged 5-15 years who failed to answer the question were allocated a level based on the modal level for that age in each State using the most currently available information on the distribution of the school population by age and level.

**Qualifications (Questions 12 and 13, page 5 of Schedule)**

The levels of qualifications held, or being studied, were determined as follows:

**Trade :** formal recognition of competency in a skilled manual occupation which is usually obtained through an apprenticeship and satisfactory progress in part-time studies concurrently with practical training (e.g. plumber, fitter, compositor, carpenter, hairdresser).

**Technician :** a level which requires theoretical knowledge, as well as practical skills, e.g. wool classing or nursing. Certificates issued by technical colleges following periods of 4 or 5 years part-time study after passing intermediate or final secondary school examinations are classified as 'technician'.

**Non-degree tertiary :** a level relating to qualifications obtained following substantial advanced study beyond matriculation conferred by institutions and professional associations, e.g. Associate of Australian Society of Accountants, Diploma in Business Studies, Teaching Certificate, Diploma of Engineering.

**Bachelor degree :** usually conferred by a university following a period of at least 3 years full-time study or equivalent part-time study and includes post-graduate diplomas.

**Higher degree :** conferred by a university in recognition of substantial studies beyond the Bachelor level.

Some qualifications could not be classified to any of the above levels. Most of these relate to short specialised courses in such fields as typewriting and shorthand, farm book-keeping, dressmaking, automotive maintenance.

**The labour force and occupational status (Questions 14 and 16, page 5 of Schedule)**

The term 'labour force' is used throughout 1971 Census publications in place of 'work force' in conformity with the Bureau's quarterly population survey and with international usage.

The labour force is defined as those persons 15 years of age and over who answered 'yes' to any of the four parts of Question 14. Thus the labour force comprises those persons who worked, those who had a job from which they were temporarily absent, those who were temporarily laid off without pay for the whole of the reference week *and* those who did not work, did not have a job and were actively looking for work.

Persons helping but not receiving wages or salary who usually worked less than 15 hours a week are excluded from the labour force. Bonded trainees (including trainee teachers) and cadets engaged in full-time study at educational institutions are also excluded, even though such institutions were conducted by their employer.

The unemployed members of the labour force are those persons who answered 'No' to Questions 14(a) and 14(b) and 'Yes' to Question 14(d) AND those who answered 'Yes' to Question 14(a), 'No' to Question 14(b) and 'Yes' to Question 14(c). Thus the unemployed consist of those persons who did no work during the reference week *and* either looked for work (having no job) or were temporarily laid off from a job.

The approach adopted in the 1971 Census for determining the labour force conforms closely to the recommendations of the Eighth International Conference of Labour Statisticians held in Geneva in 1954 and to the approach used at the 1966 Census.

According to the definition any labour force activity during the previous week, however little, results in the person being counted in the labour force.

Thus many persons whose main activity is not a labour force one (e.g. housewife, full-time student) are drawn into the labour force by virtue of part-time or occasional labour force activity in the previous week. Answers to Question 2 on the Schedule indicate that there were substantially more of such persons at the Census of 1971 than at the Census of 1966 and that they were predominantly females.

On the other hand, the definition excludes persons who may frequently or usually participate in the labour force but who in the previous week happened to have withdrawn from the labour force. Answers to Question 2 on the Schedule indicate that there were substantially more of such persons at the Census of 1971 than at the Census of 1966, especially among males.

A similar definition of the labour force is used in the quarterly population sample survey conducted by the Bureau by the method of personal interview. This survey is used to measure changes in the labour force from quarter to quarter in the intercensal period.

Evidence from post-enumeration surveys and pilot tests indicates that the personal interview approach tends to identify a larger number of persons as in the labour force than does the filling in of the census questions on the Schedule by the householder and that this tendency has increased between the 1966 and 1971 Censuses.

The above considerations should be borne in mind if comparisons of the total labour force or labour force participation rates are made between the 1966 and 1971 Censuses, or between the 1971 Census and the 1971 labour force quarterly estimates.

The relationship between the terms 'occupational status', 'employment status' and 'labour force status' as used in 1971 Census publications is illustrated by the following classifications:

<i>Occupational status</i>	<i>Employment status</i>	<i>Labour force status</i>
1. Employer 2. Self-employed 3. Employee 4. Helper	Employed	In the labour force
5. Looking for first job 6. Other unemployed	Unemployed	
7. Not in the labour force	Not in the labour force	Not in the labour force

#### Industry (Question 17, page 5 of Schedule)

Industry is defined as the branch of productive activity, business or service carried out by the establishment in which a person is employed.

For the 1971 Census the classification of industry was based on the Preliminary Edition of the Australian Standard Industrial Classification (ASIC).

Because of space considerations some of the full industry titles of the ASIC have had to be abbreviated for inclusion in this publication. The table below sets out the corresponding ASIC codes for each of the industry titles used in this publication so that reference to the ASIC document itself (*Australian Standard Industrial Classification, Preliminary Edition 1969, Volume 1*), and to other statistics classified according to ASIC, will be facilitated.

For the purposes of the population census an 'undefined' category was added, where appropriate, to individual Divisions, Subdivisions and Groups of the classification to facilitate the coding of imprecise or generalised descriptions of industrial activities on the census schedules.

At the 1966 and previous Censuses, industry was determined from the respondent's own stated description of the 'kind of industry, business or service' in which he worked. With the adoption of ASIC for the 1971 Census comparability with previous censuses is greatly impaired, not only because of changes in the classification itself but also because in 1971 the industry coding in general was not determined from the stated description. Instead the name and address of the establishment at which the respondent worked (Question 17(a), (b), (c)) in general provided the industry code for employees of that establishment. However, in a number of cases, due to deficient replies concerning name and address of employer or because the establishment had not been pre-coded for industry, recourse still had to be made in coding to the respondent's own description (Question 17(d)) of the industry in which he worked.

**AUSTRALIAN STANDARD INDUSTRIAL CLASSIFICATION**  
**Abbreviated Industry Titles used in this Publication**

<i>Industry title</i>	<i>Corresponding ASIC Code</i>	<i>Industry title</i>	<i>Corresponding ASIC Code</i>
Agriculture, etc.	A	Communication	H
Mining	B	Finance, etc.	I
Manufacturing	C	Public admin., defence	J
Electricity, etc.	D	Community services	K
Construction	E	Entertainment, etc.	L
Wholesale and retail	F	Other and not stated	99
Transport, storage	G		

**Occupation (Question 18, page 5 of Schedule)**

Occupation is defined as the type of work performed by an employed person and should not be confused with the type of productive activity, business or service carried out by the establishment in which a person works, e.g. a carpenter employed by a steel-making establishment would have the occupation of 'carpenter' and industry 'steel manufacture'; an electrician working at an oil refinery would have the occupation of 'electrician' but his industry would be that of 'oil refining' (see Industry).

In accordance with the International Standard Classification of Occupations the structure of the Australian classification used for the 1971 and previous censuses is based primarily on the nature of the work done. The 1971 classification was prepared from the International Standard Classification of Occupations 1958 (revised 1966). The changes in the revised classification were given careful consideration in the preparation of the 1971 Australian classification. A number of new entries have been created to maintain convertibility to the international classification and others created to give more precise codes in certain occupation groups.

**DEFINITION OF DWELLING**

An occupied dwelling is defined as any habitation occupied on Census night by a household and may comprise the whole or only a part of a building. A household is a person or group of persons living and eating together. The number of occupied dwellings and the number of households are therefore identical.

An unoccupied dwelling is defined as a structure built specifically for private living purposes and which is habitable, though unoccupied at the time of the Census.

Non-private dwellings are those dwellings which provide group accommodation such as hotels, motels, hostels, and staff quarters' and institutions such as hospitals, nursing homes, prisons, boarding schools, etc., and which were occupied on Census night. For such dwellings no details of the characteristics other than class of dwelling were sought.

Persons classified as 'campers out' include those living temporarily in tents, caravans or houseboats or who were camped out on Census night. Such persons are regarded as not living in dwellings for Census purposes and consequently no dwelling details are shown in this publication in respect of these persons. In Bulletin 6, however, due to a processing difficulty, a notional dwelling has been allocated to each person or group of persons camping out. These have been included in Bulletin 6 with non-private dwellings and amount to 2,383 in Australia as a whole.

Note that tents, huts, caravans and houseboats used to provide *permanent* or *semi-permanent* accommodation are classified as dwellings.

**CHARACTERISTICS OF DWELLINGS (in the order in which they appear in the tables)**

**Class of dwelling (Question D1, page 2 of Schedule)**

For the 1971 Census the question on the Schedule was expanded by means of illustrations and descriptions to assist householders in assigning their dwelling to an appropriate dwelling type. This was particularly necessary to enable identification of villa units, an important type of medium-density dwelling which has become common in Australian cities since the 1966 Census. The terms used to describe this type of dwelling vary over Australia and the Census Schedule used in each State and Territory was varied appropriately. The term 'villa unit' used in this bulletin covers dwellings described variously as villa unit, town house, cottage unit, villa development, cottage flats.

In this publication, 'houses' represents dwelling types 1 to 5 on the Schedule, 'flats' represents dwelling type 6, and 'other' includes dwelling types 7,8 and 9.

In cases where the question was not answered a class was allocated on the basis of other information on the Schedule and answers given for adjacent dwellings.

**Number of flats in block** (Question D1 (b), page 2 of Schedule)

**Weekly rent** (Question D11(d), page 3 of Schedule)

The table on average weekly rent has been edited to the extent that averages based on less than 5 dwellings are not shown.

**Unoccupied dwellings – reason for being unoccupied** (back page of Schedule)

For dwellings not occupied on the night of the Census, collectors were required to indicate on the Schedule the class of dwelling and, as far as they could determine it, the basic reason why the dwelling was unoccupied.

**Household Classification** (derived mainly from Column 2, page 1 of Schedule)

A 'household' is defined as a 'person or group of persons living and eating together'. Within a household there can be more than one distinct family unit and these units are identified using blood and marriage relationships as indicated by Column 2 on the Schedule and other information such as name, sex, age and marital status.

Separate family units within a household are classified into two types:

*Primary Family Units (PFU's)* are those family units where the head of the family is also the head of the household. Such families may consist of only one person.

*Secondary Family Units (SFU's)* are all other family units within the household. Such families are defined as having at least two persons of immediate family relationship (husband, wife, son, daughter).

The classification of households consists of various combinations of PFU's, SFU's and other persons of either too distant a relationship to be included in a family or unrelated persons resident in the dwelling on Census night. The classification is shown below:

*Household Classification*

*Components of Household*

A	Single family household
B	A PFU <i>and</i> related SFU(s) <i>and/or</i> other distant relatives of the PFU
C	A PFU of one person <i>and</i> non-related SFU(s) <i>and/or</i> non-related persons
D	A PFU of more than one person <i>and</i> non-related SFU(s) <i>and/or</i> non-related persons
E	A PFU <i>and</i> related SFU(s) <i>and/or</i> other distant relatives of the PFU <i>and</i> non-related SFU(s) <i>and/or</i> non-related persons

**Number of rooms** (Question D4, page 3 of Schedule)

For census purposes 'rooms' exclude bathrooms, toilets, pantries, laundries, storerooms, halls and rooms used only for business purposes, but include permanently enclosed sleep-outs. Combined purpose rooms such as a living-dining room were treated as one room.

When no answer had been given to this question a number was allocated on the basis of the answer given for the geographically nearest dwelling of the same class, except in the case of improvised homes, caravans, houseboats, etc. when a number was allocated from a table of random numbers based on the distribution of the number of rooms recorded in those types of dwelling at the 1966 Census.

**Number of bedrooms** (Question D5, page 3 of Schedule)

**Nature of occupancy** (Questions D10 and D11 (a)(b), page 3 of Schedule)

**Facilities** (gas, electricity, television) (Question D9, page 3 of Schedule)

**Sewerage** (Question D8, page 3 of Schedule)

**Motor vehicles at dwelling** (Question D14, page 3 of Schedule)

**Material of outer walls** (Question D3, page 3 of Schedule)

At the 1966 and 1971 Censuses cases where no answer was given were allocated a material based on the answer given for the geographically nearest dwelling of the same class.
