CENSUS OF POPULATION AND HOUSING, 30 JUNE 1986

CENSUS 86 — AGE AND SEX OF PERSONS IN STATISTICAL LOCAL AREAS AND STATISTICAL DIVISIONS

Northern Territory

IAN CASTLES

Australian Statistician

CONTENTS

EXPLANATORY NOTES

1. Introduction

This publication is one of a series containing results from the 1986 Census of Population and Housing for each State and Territory. It presents census counts of the age and sex of persons in statistical local areas (SLAs) and statistical divisions (SDs), based on place of enumeration (i.e. the counts for each area are of persons enumerated in the area on census night, 30 June 1986).

Census counts on a place of enumeration basis (C) are not comparable with census counts on a place of usual residence basis (U), or the estimated resident population figures released by the ABS. A brief description of the two bases of enumeration and the estimated resident population is in Section 3. More details can be found in *The 1986 Census Dictionary* (2174.0). All census table numbers are prefixed as appropriate with the letter 'C' or 'U'. However, this publication contains only tables in the 'C' category.

Printed census publications contain broad summaries only, and represent a very small amount of the total census data released. More detailed cross tabulations for the larger geographic levels (e.g. States or statistical regions), and somewhat less detailed tabulations for small areas (e.g. collection districts or postcodes), are available on microfiche and magnetic tape. For further information see *Census 86 — Data Release Plans* (2173.0).

2. Scope and coverage

The 1986 Census of Population and Housing aimed at counting every person who spent census night, 30 June 1986, in Australia, including persons on vessels in or between Australian ports, or on board long-distance trains, buses or aircraft. All private dwellings were counted, whether occupied or unoccupied. Occupied non-private dwellings, such as hospitals, prisons, hotels, etc., were also included. People were counted where they were on census night, which may not have been where they usually lived. Place of usual residence was asked of each person, and answers, where they differed from enumeration address, were coded to SLA level. Census counts based on place of usual residence are available in other output products. Visitors to Australia were enumerated regardless of how long ago they had arrived or how long they planned to stay. Australian residents out of the country on census night were excluded from the count.

Diplomatic personnel and their families are out of the scope of the census, as are diplomatic residences.

3. Definitions

Census Count — Place of Enumeration (C)

Persons were counted where they were actually located on census night. Overseas visitors are included and Australians overseas are excluded. No adjustment is made for census underenumeration.

Census Count — Place of Usual Residence (U)

Persons were counted according to their stated place of usual residence (i.e. answer to question 6 — see a facsimile of the 1986 Census household form at Appendix B). Overseas visitors and Australians overseas are excluded, and no adjustment is made for census underenumeration. Statistics on a place of usual residence basis are not included in this publication.

Estimated Resident Population (ERP)

These estimates are formed by adding estimates of Australians overseas, and of the census undercount, to the census count at place of usual residence. The ERP at census date is updated between population censuses. ERP statistics are not included in this publication.

Migratory

Persons enumerated on census night on off-shore oil rigs, drilling platforms and the like, on board vessels in and between Australian ports, or on board long-distance trains, buses or aircraft are classified as migratory. Such persons are not included in the population of specific statistical local areas, but are shown as a balancing item (Off-Shore Areas and Migratory) for each State and the Northern Territory. The Australian Capital Territory has no migratory population.

4. Geographic Areas

The two geographic spatial units used in this publication are statistical local area (SLA) and statistical division (SD).

SLAs are a new spatial unit for the 1986 Census. The 1981 Census equivalent was the census local government area. SLAs are for the most part legal local government area (LGA) based. In special cases, where a legal LGA is much larger and more populous than the general run of legal LGAs (as is the City of Brisbane), or where there are no legal government authorities (as in the Australian Capital Territory), the SLAs are officially defined suburbs or localities. SLAs cover, in aggregate, the whole of Australia without gaps or overlaps.

SDs consist of one or more statistical subdivisions (SSDs) which, in turn, consist of one or more SLAs and cover, in aggregate, the whole of Australia without gaps or overlaps. They are used as a large, general purpose regional type geographic area. SDs are designed to be relatively homogeneous regions, characterised by identifiable social and economic links between the inhabitants and the economic units within the region, under the unifying influence of one or more major towns or cities.

For definitions of other census geographic areas see Appendix A.

5. Maps

The statistical division maps contained in Appendix D of this publication show the boundaries, names and codes of SDs and SLAs listed in this publication.

Information about the prices of additional copies of the maps can be obtained from *Census 86 — Census Products Price List* (2177.0) or the nearest ABS office (see Appendix C for addresses and telephone numbers).

6. Geographic codes

The geographic areas referred to in tables in this publication can be located by reference to the maps in Appendix D. The geographic codes describing areas in the maps also appear in the tables. For further details, refer to *Census 86 — Australian Standard Geographical Classification : Geographic Code List* (2188.0).

7. Data quality

Statistical collections such as the census are subject to a number of sources of error. While some errors (such as deliberate misreporting) defy detection and correction procedures, the number of errors in overall census results is expected to be generally insignificant. Information on data quality will be released from late 1987.

Main sources of error in the census are:

(a) *Underenumeration.* Despite efforts to obtain full coverage of persons and dwellings (other than those associated with overseas diplomatic missions), some undercounting still occurs. A measure of the extent of underenumeration is obtained from a small survey of households undertaken very shortly after the census. While results from this source for the 1986 Census are not yet available, undercounting of persons in the 1981 Census was estimated to be 1.9 per cent for Australia as a whole.

(b) *Partial response.* In those instances where the householder omitted to provide a response to a question, a 'not stated' code was allocated; with the exception of non-response to age, sex and marital status, and SLA of usual residence. These variables were imputed using other information on the census form, and specially constructed random tables.

(c) *Respondent error.* Computer editing procedures are used to detect obvious errors made by individuals in completing the form (for example, a six year old male who was married). Such procedures cannot detect all respondent errors and some remain in final output.

(d) *Processing error.* Errors created during the processing of the census are kept at an acceptable level by means of a quality control system, which involves sample checking at different stages of the coding and keying operations, and taking corrective action where necessary.

(e) *Introduced random adjustments.* Adjustments are made to table cells to allow the maximum of detailed census data to be released, while protecting the confidentiality of information about individual persons. For this reason, and since possible respondent and processing errors have greatest relative impact on small cells, no reliance should be placed on cells of three or less. For further information on sources of error, refer to the appropriate entries in *The 1986 Census Dictionary* (2174.0).

8. Abbreviations

B — Borough
C — City
DC — District Council
M — Municipality
S — Shire
T — Town

Where none of these abbreviations is shown alongside the SLA name, the SLA is only a part of either a legal LGA or of an unincorporated area.

9. Further information

Further information about 1986 Census statistics is available from the nearest ABS office (see Appendix C for addresses and telephone numbers). The information paper *Census 86 — Data Release Plans* (2173.0) describes standard output products to be released from the 1986 Census. Details of tabulations are contained in the *Catalogue of 1986 Census Tables* (2175.0).

10. Census 86 publications

Other statistical publications (standard series) currently planned from the 1986 Census of Population and Housing are:

Census 86 — Persons and Dwellings in Legal Local Government Areas, Statistical Local Areas and Urban Centres/(Rural) Localities (2462.0-2468.0) (A series of separate publications for each State and the Northern Territory)

Census 86 — Persons and Dwellings in Statistical Local Areas: Australian Capital Territory (2469.0)

Census 86 — Profile of Legal Local Government Areas —Usual Residents Counts (2470.0-2476.0) (A series of separate publications for each State and the Northern Territory)

Census 86 — Profile of Statistical Local Areas — Usual Residents Counts: Australian Capital Territory (2477.0)

Census 86 — Profile of Statistical Local Areas — Usual Residents Counts: Brisbane Statistical Division (2478.0)

Census 86 — Summary Characteristics of Persons and Dwellings (2479.0-2489.0) (A series of separate publications for each State, Territory, Australia and the external Territories of Cocos (Keeling) Islands and Christmas Island)

Census 86 — Cross-classified Characteristics of Persons and Dwellings (2490.0-2498.0) (A series of separate publications for each State, Territory and Australia)

Census 86 — Aboriginals and Torres Strait Islanders: Australia, States and Territories (2499.0)

Census 86 — Characteristics of Persons in Hobart Suburbs, 30 June 1986 (2201.6)

Census 86 — Characteristics of Persons in Launceston Suburbs, 30 June 1986 (2202.6)

Census 86 — Characteristics of Persons in Burnie-Devonport Suburbs, 30 June 1986 (2203.6)

In addition, a further stream of statistical publications (special series) providing information and analysis of selected topics is planned. For more details on the statistical publications (special series) see *Census 86—Data Release Plans* (2173.0)

Users may also request non-standard census output from the ABS. For more details see *Census 86 — Special Data Services* (2181.0). *The 1986 Census Dictionary* (2174.0) contains definitions of terms and explains concepts used in the collection, processing and output phases of the census.

The following information papers are being published:

Census 86 — New South Wales Publishing Information (2101.1)
Census 86 — Data Release Plans (2173.0)
The 1986 Census Dictionary (2174.0)
Catalogue of 1986 Census Tables (2175.0)
Census 86 — How Australia Takes a Census (2176.0)

Census 86 — Census Products Price List (2177.0)
Census 86 — Collection District Master File (2179.0)
Census 86 — Census Data for Microcomputers (2180.0)
Census 86 — Special Data Services (2181.0)
Census 86 — Australian Standard Classification of Occupations/Classification and Classified List of Occupations: Link (2182.0)
Census 86 — Maps (2183.0)
Census 86 — Sample Files on Magnetic Tape (2184.0)
Census 86 — Microfiche (2185.0)
Census 86 — Standard Tables on Magnetic Tape (2186.0)
Census 86 — Australian Standard Geographical Classification: Geographic Code List (2188.0)

11. Related ABS publications

Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the immediate few days. The Catalogue and Publications Advice are available from any ABS office.

12. Electronic services

VIATEL. Key *656# for selected current economic, social and demographic statistics.

AUSSTATS. Thousands of up-to-date time series are available on this ABS on-line service through CSIRONET.

For further information phone the AUSSTATS Help Desk on (062) 52 6017.

TELESTATS. This service provides foreign trade statistics tailored to users' requirements.

Further information is available on (062) 52 5404.

APPENDIX A

CENSUS GEOGRAPHIC AREAS — DEFINITIONS

A. AUSTRALIAN STANDARD GEOGRAPHICAL CLASSIFICATION (ASGC)

The *Australian Standard Geographical Classification* (1216.0) is a new geographic classification used for the dissemination of 1986 Census data. It incorporates a number of hierarchic structures of geographic areas (also referred to as 'spatial units') and defines the individual structures and the area types of which each structure is composed. Each geographic area in the classification is identified by a unique numeric code.

The ASGC has been adopted as the standard geographic classification for ABS output. This will ensure greater comparability of statistics within the ABS and a standardisation of terminology.

Abbreviated definitions of the ASGC geographic areas which are used in 1986 Census output follow below. More detailed definitions can be found in *The 1986 Census Dictionary* (2174.0) or *Census 86 — Australian Standard Geographical Classification: Geographic Code List* (2188.0).

Collection districts (CDs)

These are the smallest type of geographic area in the ASGC and are the building blocks of which all other ASGC geographic areas are composed. They have been designed for use in population censuses and, in aggregate, cover the whole of Australia without gaps or overlaps.

Statistical subdivisions (SSDs)

These consist of one or more SLAs and cover, in aggregate, the whole of Australia without gaps or overlaps. They are used as an intermediate level, general purpose regional type geographic area.

States and Territories (S/Ts)

These consist of two or more SDs and cover the whole of Australia (as defined for statistical purposes) without gaps or overlaps. They encompass the geographic areas of the six Australian States and two mainland Territories.

Statistical districts (S DISTs)

These consist of one or more SSDs and represent large urban areas of Australia outside State capital city SDs. Because of their nature they can and, in some cases, do straddle SD and S/T boundaries. An example is the 'Gold Coast-Tweed' Statistical District which encompasses an urban area which lies partly in the State of Queensland and partly in the State of New South Wales.

Legal local government areas (legal LGAs)

These are the geographical areas of incorporated local government councils, such as towns and shires, and consist of one or more SLAs. In aggregate, these cover only part of Australia. (The major areas of Australia not governed by incorporated local government councils include the northern parts of South Australia, most of the Northern Territory and all of the Australian Capital Territory.) Legal LGAs can, and sometimes do, straddle SSD, S DIST and SD boundaries. An example is 'Tweed Shire' in New South Wales. The predominantly urban part of this Shire is treated as an SLA as well as an SSD in its own right, and constitutes the New South Wales part of the 'Gold Coast-Tweed' Statistical District. The predominantly rural remainder of this Shire constitutes a separate SLA outside the 'Gold Coast-Tweed' Statistical District and lies within a different SSD.

Statistical regions (SRs)

These consist of one or more SLAs and cover, in aggregate, the whole of Australia without gaps or overlaps. They were designed primarily as geographic areas containing sufficient population to be suitable for the presentation of both population census and labour force statistics, within the frameworks for standard statistical outputs from these collections. The smallest region in terms of population is the Northern Territory, which was expected to have a population of around 147,000 at the time of the 1986 Census.

Major statistical regions (MSRs)

These consist of one or more SRs and cover, in aggregate, the whole of Australia without gaps or overlaps. They do not cross State or Territory boundaries and serve the same purpose as SRs, though at a broader geographic (i.e. Capital City SD versus Balance of State) level. (However, even this dissection could not, due to population size limitations, be implemented in the case of Tasmania, the Northern Territory and the Australian Capital Territory, each of which equates with an MSR.)

Urban centres and (rural) localities (UC/Ls)

These consist of one or more adjoining whole CDs with urban characteristics and represent, in the case of rural localities, population clusters of between 200 and 999 people and, in the case of urban centres, population clusters of 1,000 or more people (including known holiday resorts of smaller size). Because of their nature they can, and sometimes do, straddle SLA, legal LGA, SSD and other ASGC geographic area boundaries.

Section of State

Within a State or Territory, each section of State represents an aggregation of non-contiguous geographic areas with particular urban or rural characteristics. The sections of State within each State and Territory are the following:

Major Urban — all urban centres with a population of 100,000 and over;

Other Urban — all urban centres with a population of 1,000 to 99,999 and known holiday resorts of less population if they contain 250 or more dwellings of which at least 100 are occupied on census night;

Locality — all population clusters of 200 to 999 persons; and

Rural Balance — the remainder of the State/ Territory.

The above section of State categories can be used in conjunction with other CD-based ASGC geographic areas to show section of State components within, say, statistical subdivisions or statistical divisions.

In addition to the above section of State categories, persons who were enumerated on off-shore oil rigs, drilling platforms and the like, aboard ship in Australian waters, or on an overnight journey by train or bus, were included in an additional category, Off-Shore Areas and Migratory. There is one such category for each State and the Northern Territory.

B. NON-ASGC AREAS

Census data are also available for Commonwealth and State electoral divisions and postcode areas.

AUSTRALIA

AUSTRALIAN BUREAU OF STATISTICS

30 JUNE 1986
Census 86

Household Form

Dear Householder,

Census Night is on Monday, 30 June 1986.

The Census is like a stocktake of our nation carried out at the one time. Census Night. Statistics from it show how many people there are in each part of Australia, what they do and how they live. The Census is the only practical way to get this information and is essential for planning our future.

So the Census helps to make a better Australia.

The Census is authorised by the *Census and Statistics Act 1905* which provides for the compulsory completion of this form and its return to your Census Collector. The same Act also protects your privacy. It forbids the publication of, or passing to anyone outside the Statistics Bureau, any information or statistics that could identify any person. Under no circumstances are any names or addresses kept.

To help you, below is an easy guide to filling in your Census Form. Use it with your Census 86 booklet.

Who to include on your form.

In question 1, list all persons (INCLUDING VISITORS) who spent the night of Monday, 30 June 1986, in this household. Include any persons who returned on Tuesday, 1 July 1986, without having been counted somewhere else. USE ONE COLUMN FOR EACH PERSON.

If there are more than 8 persons in this household, ask your Census Collector for extra Personal Forms.

What is a Household?

Persons living and eating together as a domestic unit are a household. A person who lives alone is also a household. If there is more than one household at this address, ask your Census Collector for as many extra Household Forms as you need. A SEPARATE FORM MUST BE USED FOR EACH HOUSEHOLD.

How to answer each question.

Please use black or blue ball point pen, or ink.

Read everything carefully. Give your answer, then go to the next question.

Most questions only need a tick in the answer box. Numbers and letters alongside the boxes are only for processing purposes.

If you do not know the exact answer, give the best answer you can.

Your privacy.

If any person in this household prefers a separate Census Form for privacy reasons, ask your Census Collector for a Personal Form and a Privacy Envelope. For that person, enter name, sex, relationship to Person 1 and write "P.F." in the age question on this form. The completed Personal Form should be sealed in the envelope and given unopened to the collector.

You may also ask for a Privacy Envelope if you do not want your collector to see your completed Census Form.

Finished?

After filling in the Census Form, please sign it and write the household address in the address panel below.

Your collector will return as soon as possible after Monday, 30 June 1986, for the completed Census Form.

If you have any difficulty filling out this form, please refer to your Census 86 booklet. If you still have a problem, ask your Census Collector for help or phone the Census Hotline on___

Thank you for your help.

26. LAST WEEK, did the person have a full-time or part-time job of any kind?

	1	2	3
	4☐ Yes, worked for payment or profit	4☐ Yes, worked for payment or profit	4☐ Yes, worked for payment or profit
	5☐ Yes, but absent on holidays, on sick leave, on strike or temporarily stood down	5☐ Yes, but absent on holidays, on sick leave, on strike or temporarily stood down	5☐ Yes, but absent on holidays, on sick leave, on strike or temporarily stood down
	6☐ Yes, unpaid work in a family business	6☐ Yes, unpaid work in a family business	6☐ Yes, unpaid work in a family business
	7☐ Yes, other unpaid work	7☐ Yes, other unpaid work	7☐ Yes, other unpaid work
	8☐ No, did not have a job	8☐ No, did not have a job	8☐ No, did not have a job

Answer question 27 for each person ticked in box 7 or 8 in question 26, otherwise go to question 28.

27. Did the person actively look for work at any time during the LAST 4 WEEKS?

- Actively looking for work means checking or being registered with the Commonwealth Employment Service; writing, telephoning or applying in person to an employer for work; or advertising for work.

	1	2	3
	1☐ No, did not look for work	1☐ No, did not look for work	1☐ No, did not look for work
	2☐ Yes, looked for full-time work	2☐ Yes, looked for full-time work	2☐ Yes, looked for full-time work
	3☐ Yes, looked for part-time work	3☐ Yes, looked for part-time work	3☐ Yes, looked for part-time work

ANSWER QUESTIONS 28 TO 34 FOR EACH PERSON TICKED IN BOX 4, 5 or 6 IN QUESTION 26

28. In the main job held LAST WEEK, was the person:

- Tick one box only.

	1	2	3
	4☐ A wage/salary earner?	4☐ A wage/salary earner?	4☐ A wage/salary earner?
	5☐ Conducting own business but not employing others?	5☐ Conducting own business but not employing others?	5☐ Conducting own business but not employing others?
	6☐ Conducting own business and employing others?	6☐ Conducting own business and employing others?	6☐ Conducting own business and employing others?
	7☐ A helper not receiving wages or salary?	7☐ A helper not receiving wages or salary?	7☐ A helper not receiving wages or salary?

29. In the main job held LAST WEEK, what was the person's occupation?

- Give full title.

- For example, Civil Engineering Draftsman, Accounts Clerk, Fast Foods Cook, 1st Class Welder, Extruding Machine Operator, Coal Miner.

- Armed Services personnel state rank as well as occupation.

	1	2	3
	Occupation	Occupation	Occupation ....

30. What are the main tasks or duties that the person usually performs in that occupation?

- Describe as fully as possible.

- For example, preparing drawings for dam construction, recording and paying accounts, cooking hamburgers and chips, welding of high pressure steam pipes, operating plastic extruding machine, operating continuous mining machine.

Please turn to dwelling questions

PLEASE ANSWER QUESTIONS ABOUT THIS DWELLING

H1. How many rooms are there in this dwelling?

- Write the number of each type of room,

  for example, `2` ....Bedroom(s).

- Count each room once only.

- A room shared with another household should be counted only by the principal householder.

- Do not count toilets, pantries, laundries, storerooms, halls or corridors.

Number	Type of Room
☐	.......Bedroom(s)
☐	.......Combined lounge/dining room
☐	.......Lounge room
☐	.......Dining room
☐	......Kitchen
☐	.......Bathroom
☐	.......Family room
☐	.......Study
☐	.......Other rooms (please state)

....

H2. How many registered motor vehicles owned or used by members of this household were garaged or parked at or near this dwelling for the night of Monday, 30 June 1986?

- Exclude motor bikes, motor scooters, tractors.

- Include company vehicles kept at home.

- 0 ☐ None
- 1 ☐ 1 motor vehicle
- 2 ☐ 2 motor vehicles
- 3 ☐ 3 motor vehicles
- 4 ☐ 4 motor vehicles or more

Go to Question H3

H3. Is this dwelling rented by you or any usual member of this household?

- 1 ☐ No
- 2 ☐ Yes

To whom is rent paid?

- 3 ☐ State Housing Authority
- 4 ☐ Other Government Agency
- 5 ☐ Other

What is the weekly rent?

$.............................. per week.

Is this dwelling rented furnished or unfurnished?

- 1 ☐ Furnished
- 2 ☐ Unfurnished

Is this dwelling owned (or being bought) by you or any usual member of this household?

- 6 ☐ Yes, owned (paid-off)
- 7 ☐ Yes, being bought
- 8 ☐ No

If being bought:

What monthly payment (or average monthly payment) is being made on the loan(s) for this dwelling?

$.............................. per month.
