[1] Not including squatting stations to which no purchased land is attached, nor allotments which do not exceed one acre in extent, nor holdings which are not occupied or which are occupied for other purposes than agriculture or the keeping of live stock.

[2] The figures in this column express the quantity of alienated land in *bond fide* occupation for agricultural or pastoral purposes. This is always considerably less than the whole area of land alienated.

[3] No return is made of the nature or produce of crops grown in gardens or orchards. The crops respecting which particulars are given are in addition to these.

* In 1863-4, and to a certain extent in the following year, the wheat crop was much affected by "rust."

† The tobacco crop in 1875-6 failed in most of the districts.

HENRY HEYLYN HAYTER, Government Statist.
