In Section V. is given a summary of some of the leading Demographic Statistics of States and Commonwealth from 1860 to the end of 1910.

Since the last issue the population and migration figures for the decennium 1901-10 have been adjusted on the basis of the results disclosed by the Census of 3rd April, 1911, and all rates have been re-computed on the basis of the amended populations and mean populations so ascertained.
