## COMMONWEALTH DEMOGRAPHY.

### PREFACE.

The present Bulletin contains in one issue the information which prior to 1911 had been furnished in two Bulletins, under the titles "Commonwealth Demography" and "Vital Statistics of the Commonwealth for the Year." During the year 1911 it was decided to discontinue the publication of Quarterly Bulletins of Vital Statistics which had been issued by the Bureau from 1907 onwards, and to include in the annual publication the leading particulars relative to months and quarters. The Statistics contained in the present issue thus represent full details of Vital Statistics for the year 1913, together with a summary for the eleven years, 1903-13. These are furnished under the following heads :—

- I. Population.
- II. Births.
- III. Deaths.
- IV. Marriages.
- V. Rates and Percentages.
- VI. Statistical Summary.

In Section V. are given some of the more important demography rates and percentages for the year 1913, while Section VI. contains a summary of some of the leading Demographic Statistics of States and Commonwealth from 1860 to the end of 1913.

The population and migration figures given herein have been adjusted on the basis of the results disclosed by the several Censuses, and all rates have been computed on the basis of the amended populations and mean populations so ascertained.

G. H. KNIBBS,  
Commonwealth Statistician.
