AUSTRALIAN DEMOGRAPHY.

PREFACE.

Owing to considerations of space Section VI. Statistical Summary has not been republished. The leading Demographic Statistics of States and Territories from 1860 to 1927 may be found in Demography Bulletin No. 45, 1927.

The present issue, which is the forty-seventh of its series, furnishes particulars for 1929 and previous years in respect of the following matters :—

I. Population (including migration); II. Births; III. Deaths; IV. Marriages; V. Rates and Percentages in respect of births, deaths and marriages for 1929.

In Sections II., Births, and III., Deaths, the tabulations have been made according to the place of usual residence.

In Sections I. to V. details are given under each of the categories for the year 1929, and in Section III., table 49, the standardized death rates are given for each sex as well as for persons.

The population and migration figures have been adjusted on the basis of the results of the various censuses, and all rates have been computed on the amended mean population figures so ascertained.

Owing to the necessity for economy the size of the present Bulletin has been considerably reduced by the condensation or omission of the less important tables.

I take this opportunity of expressing my thanks to the various State Departments responsible for the registration of births, deaths, and marriages for the courteous assistance rendered by them in supplying the data for the compilation of Vital Statistics, and to the Government Statistician, Sydney, for kindly furnishing data for the State of New South Wales. Special thanks are due to Mr. H. J. Exley, M.A., Supervisor of Census, the officer in charge of the compilation of Vital Statistics in this Bureau, for the unremitting care and attention which he has devoted to the onerous duties involved.

CHAS. H. WICKENS,
Commonwealth Statistician and Actuary.
