## PREFACE.

---

Owing to considerations of space, Section VI. Statistical Summary was not published for the years 1928 to 1930. An abridged Summary giving details for States and Territories from 1901 to 1934 is included in the present issue. The leading Demographic Statistics for States and Territories from 1860 to 1927 may be found in Demography Bulletin No. 45, 1927.

The present issue, which is the fifty-second of its series, furnishes particulars for 1934 and previous years, and has been amplified to give fairly complete figures under each section for the intercensal period 1921 to 1933. The sections comprehended are as follow, viz. :—

I. Population (including migration) ; II. Births ; III. Deaths ; IV. Marriages ; V. Rates and Percentages in respect of births, deaths and marriages ; VI. Statistical Summary ; VII. Appendix.

In Sections II., Births, and III., Deaths, the tabulations have been made according to the place of usual residence. The classification of occupations appearing in Sections II., III. and IV., follows the classification used in the Census of England and Wales, 1931, which was adapted to the requirements of the Australian Census of 1933. In Section III., Deaths, the classification of causes of death is in accordance with the " International List of Causes 1929 " (International Commission, Paris, 1929).

The following additions have been made :—Migration—Countries from which Persons Arrived and Class Travelled, 1934—Table 17*q* ; Countries to which Persons Departed and Class Travelled—Table 17*p* ; Appendix—Death Rates from Certain Puerperal Causes, 1921–1934—Table 123.

The population and migration figures have been adjusted on the basis of the results of the various censuses including that of the 30th June, 1933 (revised figures), and all rates have been computed on the amended mean population figures so ascertained.

I take this opportunity of expressing my thanks to the various State Departments responsible for the registration of births, deaths, and marriages for the valuable assistance rendered by them in supplying the data for the compilation of Vital Statistics, and to the Government Statistician, Sydney, for kindly furnishing data for the State of New South Wales. Special thanks are due to Mr. K. F. Andrews, B.A., B.Com., the officer responsible for the compilation of Vital Statistics in this Bureau, for the care and attention which he has devoted to the work involved.

E. T. MCPHEE,  
Commonwealth Statistician.

NOTE.—The reference to the different States indicates the place where immigrants left the overseas ship and where emigrants embarked upon the overseas ship. The figures do not indicate the effect of migration on the populations of the several States; for that purpose it is necessary to take into account the interstate migration.

(a) Number of births per 1,000 of mean population as adjusted in accordance with the revised figures of the 1933 Census. (b) The birth rates for the Federal Capital Territory in the above table are based on births which occurred in the Federal Capital Territory. About 20 per cent. of births in respect of which the mother's usual residence is the Federal Capital Territory, take place in Queanbeyan just over the New South Wales border; while the number of births, in respect of which the mother's usual residence is New South Wales, which take place in the Federal Capital Territory is practically negligible. Consequently the following rates, based on births in respect of which the mother's usual residence is the Federal Capital Territory are a fairer measure of birth-rates in the Federal Capital Territory:—1921, 14.96; 1922, 20.46; 1923, 11.79; 1924, 17.26; 1925, 20.87; 1926, 22.41; 1927, 21.10; 1928, 23.38; 1929, 23.28; 1930, 22.07; 1931, 21.40; 1932, 20.09; 1933, 19.11; 1934, 17.93.
