Details of stated purpose of journey for the long-term movement (i.e. for visitors arriving who intend to stay in Australia for twelve months or more and residents departing who intend to stay temporarily in a country abroad for twelve months or more) may be found in the notes at the foot of Table 7 (visitors) and Table 10 (residents).

For the classification of visitors arriving (long-term movement) by country of last residence, and of Australian residents departing (long-term movement) according to the country in which they next intend to stay for twelve months or more, - see "Overseas Arrivals and Departures, Part 1."

EXPLANATORY NOTES

This publication provides, in Section I, statistics of total overseas arrivals and departures and, in Section II, statistics of overseas arrivals and departures in the short-term movement, during the June quarter 1967. Section III, which refers to the six months ended June 1967, contains statistics of certain demographic characteristics. These refer to permanent and long-term as well as total movements.

2. More detailed statistics of permanent and long-term movement have appeared in Part 1 of this publication, entitled "Overseas Arrivals and Departures, June Quarter 1967. Part 1. - Permanent and Long-term Movement" and issued on 23 October 1967. Monthly figures of overseas arrivals and departures are also issued, the latest being in respect of July 1967 (see "Overseas Arrivals and Departures - July 1967, issued on 18 October").

3. The statistics of overseas arrivals and departures exclude passengers passing through Australia on board the same ship or on the same flight (variously called direct transit passengers or "through" passengers), passengers on short pleasure cruises in the South West Pacific commencing and finishing in Australia on ships not then engaged in regular voyages, and all air crew and ships' crew. For statistics of direct transit and pleasure cruise sea passengers, see paragraphs 9 and 10 of these Explanatory Notes.

4. The classification into permanent, long-term and short-term is based on information supplied by the traveller on arrival in or departure from Australia. THESE STATEMENTS REPRESENT THE TRAVELLER'S INTENTION AT THE TIME. MANY TRAVELLERS SUBSEQUENTLY CHANGE THEIR INTENTIONS AND THIS MUST BE BORNE IN MIND IN INTERPRETING THE STATISTICS.

5. Permanent movement consists of persons arriving with the stated intention of settling permanently in Australia, and Australian residents departing with the stated intention of residing permanently abroad. Settlers are persons who, on arrival in Australia, indicated that they came intending to settle. Former Settlers are persons who, on departure from Australia, stated that they had come to Australia intending to settle, had stayed for a period of twelve months or more, and were now departing permanently.

6. Long-term movement consists of the arrival of visitors and the departure of residents with the stated intention of staying (in Australia or in a country abroad, respectively) for twelve months or more and the departure of visitors and the return of Australian residents who have stayed (in Australia or in a country abroad, respectively) for twelve months or more.

7. Short-term movement consists of all other movements, including the movement of Australian troops irrespective of period of stay.

8. Visitors arriving and residents departing in the long-term and short-term movements are further classified according to their stated purpose of journey, the categories being : for visitors, "in transit", "business", "holiday", "education" and "other purposes"; and for residents, "business", "holiday", "education" and "other purposes". "In transit" visitors include those who show "in transit" as their stated purpose of journey to Australia provided that their intended length of stay in Australia does not exceed one month.

9. The numbers of direct transit shipping passengers in 1966, classified according to the length of time between arrival in the first and departure from the last Australian port, together with the corresponding numbers of passenger-days, are shown in the statement below. The numbers are based on vessels which departed in the quarter shown. These passengers include "through" passengers on regular voyages and also passengers on cruises from overseas which visit Australian ports.

10. Passengers on the 23 short pleasure cruises in the South West Pacific outward from Australia which were completed in 1966 numbered 17,466. As explained above, neither direct transit passengers nor passengers on the short pleasure cruises are counted in the arrivals and departures in the tables of this bulletin.
