PREFACE

National Aboriginal and Torres Strait Islander Survey 1994: Regional Statistics, is a series of 36 publications which present a summary of the results from the 1994 National Aboriginal and Torres Strait Islander Survey. A *Regional Statistics* publication has been produced for each of the ATSIC Regions and the Torres Strait Area. These publications do not present community level statistics; such statistics are available from the Census of Population and Housing.

The 1994 National Aboriginal and Torres Strait Islander Survey provides a wealth of information about the social, economic, and health status of Aboriginal and Torres Strait Islander people. An important use of the statistics from the Survey is to assist Aboriginal and Torres Strait Islander organisations and individuals in making their planning decisions.

The *Regional Statistics* publications result from a joint venture between the Australian Bureau of Statistics and the Aboriginal and Torres Strait Islander Commission.

These publications present summary statistical information in graphical form without explanation. Each publication contains a range of statistics relating to family and culture; health; housing; education and training; employment and income; and law and justice.

The publications in this series are presented in a common format to allow information for different regions to be easily compared.

Lois O'Donoghue CBE AM

February 1996

ACKNOWLEDGEMENTS

The success of the 1994 National Aboriginal and Torres Strait Islander Survey would not have been possible without the contributions of:

- Aboriginal and Torres Strait Islander people who participated in the final survey and the earlier survey trials;
- Aboriginal and Torres Strait Islander interviewers who collected the information throughout Australia;
- members of the Survey Advisory Committee and Technical Reference Groups who provided detailed advice on the survey content and methodology; and
- Aboriginal and Torres Strait Islander organisations, Government departments and other organisations which assisted the ABS and advisory groups to design the survey and lay the groundwork for a successful data collection.

CAUTIONS

- Statistics can have a high level of uncertainty due to small sample sizes. This is indicated by asterisk (**) and must be recognised when interpreting figures and percentages referred to in this publication. The level of uncertainty in statistics can be derived from the standard errors table shown in Appendix C.
- Population projections, based on June 1991 experimental estimates, have been prepared by the ABS for each ATSI region using assumptions agreed to by ATSI. Sampling variation within ATSI regions can result in discrepancies between survey estimates and population projections.
- Statistics based on self-reported information or people's opinions should be interpreted cautiously.

LIST OF FIGURES

CHAPTER 1: FAMILY AND CULTURE

Figure		Page
1.1	Household type	7
1.2	Number of persons in household	7
1.3	Family type	8
1.4	Composition of family	8
1.5	Taken away from natural family	9
1.6	Childcare arrangements	9
1.7	Identification with clan, tribal or language group	10
1.8	Role of elders	10
1.9	Recognition of homelands	11
1.10	Characteristics of persons who recognise homelands	11
1.11	Attendance at cultural activities	12
1.12	Reasons why could not attend all cultural activities	12
1.13	Aboriginal or Torres Strait Islander languages	13
1.14	Main language spoken at home	13

CHAPTER 2: HEALTH

Figure		
2.1	Experienced a recent illness	17
2.2	Type of health related actions	17
2.3	Long term illness conditions	18
2.4	Gone away for treatment	18
2.5	Self assessed health status	19
2.6	Main health problems in local area	19
2.7	Period since last drank alcohol	20
2.8	Cigarette smoking	20
2.9	Attitudes to local health services	21
2.10	Importance of Indigenous involvement in health services	21
2.11	Distance to nearest community health centre	22
2.12	Used bush medicine	22
2.13	Worried about going without food	23
2.14	Relative weight	23

CHAPTER 3: HOUSING

Figure		Page
3.1	Type of dwelling	27
3.2	Nature of occupancy	27
3.3	Type of landlord	28
3.4	Weekly rent	28
3.5	Satisfaction with dwelling	29
3.6	Main problems with dwelling	29
3.7	Level of satisfaction by type of landlord	30
3.8	Utilities not working in last 4 weeks	30
3.9	Dwelling has bathroom or shower	31
3.10	Summary of dwelling characteristics	31
3.11	Number of bedrooms	32
3.12	Housing stress	32
3.13	Condition of houses	33

CHAPTER 4: EDUCATION AND TRAINING

Figure		
4.1	Type of school attended	36
4.2	Level of school attending	36
4.3	School participation rate	37
4.4	Characteristics of schooling	37
4.5	Involvement in decision making at children's school	38
4.6	Preference for children to attend community school	38
4.7	Age left school	39
4.8	Highest level of educational attainment	39
4.9	Post-school study	40
4.10	Main difficulty in undertaking further study/training	40
4.11	Completion of training course in last 12 months	41
4.12	Use made of information gained from recent training course	41

CHAPTER 5: EMPLOYMENT AND INCOME

Figure		Page
5.1	Labour force status	45
5.2	Type of employment	45
5.3	Sector of employment	46
5.4	Number of hours a week usually worked	46
5.5	Number of employed persons in household	47
5.6	Whether work commitments allowed cultural obligations to be met	47
5.7	Length of time unemployed	48
5.8	Main difficulty in finding a job	48
5.9	Main reason not looking for work	49
5.10	Type of voluntary work undertaken	49
5.11	Main source of income	50
5.12	Type of government payments received	50
5.13	Annual personal income	51
5.14	Annual household income	51

CHAPTER 6: LAW AND JUSTICE

Figure		
6.1	Needed legal services in the last 12 months	54
6.2	Types of legal services used	54
6.3	Physically attacked or verbally threatened	55
6.4	Reasons for not reporting last incident to police	55
6.5	Arrested in the last 5 years	56
6.6	Reasons for last arrest	56
6.7	Family violence was a common problem in the local area	57
6.8	Police did a good job dealing with family violence	57
6.9	Police did a good job dealing with crime	58
6.10	Police did a good job dealing with violence	58
6.11	Indigenous police in local area	59
6.12	Local Indigenous police did a good job	59
6.13	Perception of current relations with police	60
6.14	Voted in last elections	60

INTRODUCTION

Map 1 Location of Port Augusta ATSI Region

Location The Port Augusta ATSIC Region covers an area of 533,200 square kilometres in the north of South Australia and takes in the major centres of the Spencer Gulf. The Region shares borders with New South Wales, Queensland, the Northern Territory and Western Australia as well as the other two South Australian regions of Ceduna and Adelaide.

Nulla Wimila Kutju Regional Council The Nulla Wimila Kutju Regional Council comprises fifteen Regional Councillors elected by the Aboriginal and Torres Strait Islander voters of the region to look after their interests. Regional Councillors from the Nulla Wimila Kutju, Wangka Wilurrara and Patpa Warra Yunti Regional Councils elect a Commissioner to represent the South Australia Zone on the Aboriginal and Torres Strait Islander Commission.

Main population centres The Port Augusta Region has the second largest Aboriginal and Torres Strait Islander population of the South Australia regions. At the time of the 1991 Census the largest centres of Indigenous population in the region were Port Augusta (1360 people), Whyalla (400 people), Coober Pedy (170 people) and Port Pirie (150 people).

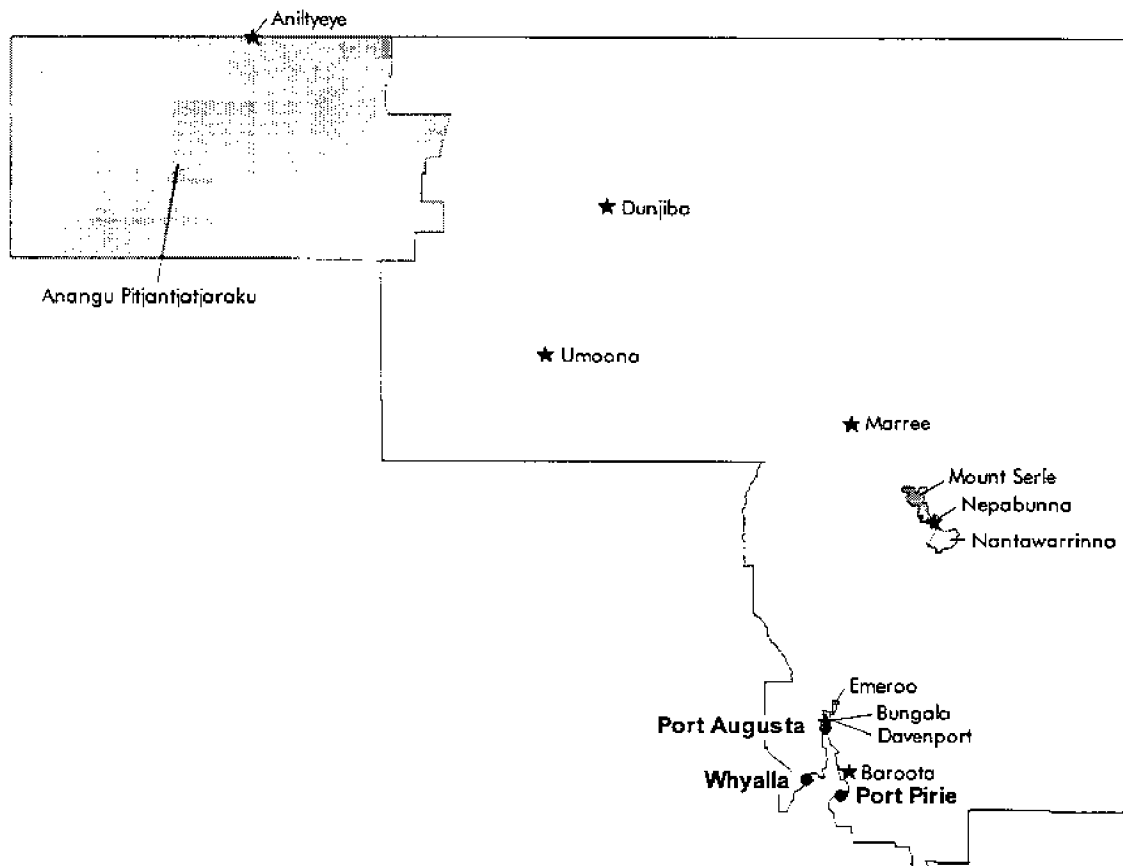

Population growth The Aboriginal and Torres Strait Islander population in the region was projected to be some 5,810 people at 30 June 1994. This was an increase of 4.7 per cent on the June 1991 estimate of 5,550 people.

FIGURE 1.1 HOUSEHOLD TYPE

Households living in private dwellings

Household type

Some 1,490 households were living in the Port Augusta region.

The various household types identified were:

- one family (1,060 households)
- two family (130** households)
- three or more family (55** households)
- lone person (210 households)
- Group household (40** households)

see page (iv) for explanation of **

Number of people in household

The number of people in these households was estimated to be:

- one or two people (500 households)
- three to five people (550 households)
- six or seven people (250 households)
- eight or more people (190 households)

FIGURE 1.2 NUMBER OF PERSONS IN HOUSEHOLD

Households living in private dwellings

FIGURE 1.3 FAMILY TYPE

Family type

There were some 1,530 families living in the Port Augusta region. The various family types identified were:

- one parent families (370 families)
- two parent families (880 families)
- couple only (200 families)
- other related individuals only (80**)

Composition of family

The composition of these families was:

- Indigenous members only (1,270 families)
- both Indigenous and non-Indigenous members (260 families)

FIGURE 1.4 COMPOSITION OF FAMILY

All families

FIGURE 1.5 TAKEN AWAY FROM NATURAL FAMILY

Persons aged 25 years and over

Separation from families Some 350 people aged twenty-five years and over reported that they were taken away from their natural families.

Childcare The childcare arrangements of the 1,080 families with children aged twelve years and under were:

- did not use childcare (500 families)
- family and friends only (440 families)
- formal childcare only (70** families)
- combination of formal childcare and family/friends (50** families)

FIGURE 1.6 CHILDCARE ARRANGEMENTS

Families with children aged 12 years and younger

FIGURE 1.7 IDENTIFICATION WITH CLAN, TRIBAL OR LANGUAGE GROUP

Persons aged 13 years and over

Identification with clan, tribal or language group Some 3,080 of those 3,960 people aged thirteen years and over said that they identified with a clan, tribal or language group.

Role of elders People aged thirteen years and over stated that the role of elders was:

- important (3,480 people)
- not important (190 people)
- did not know (290 people)

FIGURE 1.8 ROLE OF ELDERS

Persons aged 13 years and over

FIGURE 1.9 RECOGNITION OF HOMELANDS

Persons aged 13 years and over

Recognition of homelands

Of people aged thirteen years and over:

- 3,330 people recognised an area as their homelands
- 630 people did not recognise any area as their homelands

Characteristics of people who recognise homelands

Of those people who reported that they recognise an area as their homelands:

- 2,160 grew up in their homelands
- 1,080 were living on their homelands
- 3,000 said that their ancestors came from the area that they recognise as their homelands

FIGURE 1.10 CHARACTERISTICS OF PERSONS WHO RECOGNISE HOMELANDS

Persons aged 13 years and over who recognise homelands

FIGURE 1.11 ATTENDANCE AT CULTURAL ACTIVITIES (a)

Persons aged 13 years and over

(a) includes involvement with indigenous organisations

Attendance at cultural activities

Over the past year, 3,300 people aged thirteen years and over reported that they had attended one or more Indigenous cultural activity or were involved with Aboriginal or Torres Strait Islander organisations.

Reasons why could not attend all cultural activities

The main reasons why people could not attend all cultural activities over the past year were:

- no transport (720 people)
- too far away (650 people)
- not enough money (620 people)
- work commitments (160 people)

FIGURE 1.12 REASONS WHY COULD NOT ATTEND ALL CULTURAL ACTIVITIES (a)

Persons aged 13 years and over

(a) Persons may have given more than one reason for not being able to attend

FIGURE 1.13 ABORIGINAL OR TORRES STRAIT ISLANDER LANGUAGES

Persons aged 5 years and over

Speaks an Indigenous language

Some 2,260 of the 5,160 people aged five years and over reported that they could speak an Aboriginal or Torres Strait Islander language.

Main language spoken at home

The main language spoken at home by people aged five years and over was:

- English (3,770 people)
- Aboriginal or Torres Strait Islander language (1,200 people)
- Kriol/Creole or Aboriginal English (30** people)

FIGURE 1.14 MAIN LANGUAGE SPOKEN AT HOME

HEALTH

Map 3 Indigenous Health Services and Projects Funded by ATSIC Port Augusta Region

Note: The provision of primary health care transferred from
ATSIC to the Department of Human Services and Health in 1995.
Source: National Aboriginal Health Strategy, 1994.

FIGURE 2.1 EXPERIENCED A RECENT ILLNESS

Recent illness Some 3,000 people experienced an illness in the two weeks prior to the survey.

Health related actions An estimated 3,230 people took one or more health related actions in the two weeks prior to the survey. The most common actions taken were:

- used medication (2,370 people)
- consulted a doctor (1,510 people)
- consulted an Aboriginal health worker (950 people)
- visited emergency/outpatients clinic (920 people)
- reduced daily activities (820 people)
- consulted a nurse (600 people)

FIGURE 2.2 TYPE OF HEALTH RELATED ACTIONS (a)

(a) Persons may have indicated more than one type of action

FIGURE 2.3 LONG TERM ILLNESS CONDITIONS (a) (b)

(a) Long term conditions are conditions which have lasted for 6 months or more (b) Persons may have indicated more than one condition (c) Excludes eye problems which can be corrected by glasses

Long term illness conditions

Some 2,310 people, or thirty-nine per cent of the total population, reported one or more long term illness conditions. The most common conditions were:

- ear or hearing problems (730 people)
- asthma (730 people)
- high blood pressure (560 people)
- diabetes (460 people)
- chest problems (390 people)
- skin problems (330 people)

Health related travel

Some 660 people reported that during the last twelve months they had gone away from the area for treatment of a health problem.

FIGURE 2.4 GONE AWAY FOR TREATMENT (a)

(a) Refers to health related treatment during the last 12 months

FIGURE 2.5 SELF ASSESSED HEALTH STATUS

Self-assessed health status The self-assessed health status of the 5,970 people in the Port Augusta region was:

- excellent or very good (3,240 people)
- good or fair (2,630 people)
- poor (100** people)

Local health problems The main local health problems identified by the 3,960 people aged thirteen years and over were:

- alcohol (2,570 people)
- drugs/other substances (1,560 people)
- diabetes (1,290 people)
- diet/nutrition (1,250 people)
- heart problems (770 people)

FIGURE 2.6 MAIN HEALTH PROBLEMS IN LOCAL AREA (a)

(a) Persons may have indicated more than one health problem

FIGURE 2.7 PERIOD SINCE LAST DRANK ALCOHOL

Persons aged 13 years and over

Alcohol consumption People aged thirteen years and over reported that the period since they last drank alcohol was:

- one week or less (1,460 people)
- more than one week but less than one month (420 people)
- one month or more but less than three months (220 people)
- three months or more but less than twelve months (190 people)
- twelve months or more (530 people)
- never drank (1,150 people)

Tobacco use Some 2,120 people aged thirteen years and over reported that they smoked cigarettes.

FIGURE 2.8 CIGARETTE SMOKING

Persons aged 13 years and over

FIGURE 2.9 ATTITUDES TO LOCAL HEALTH SERVICES

Persons aged 13 years and over

Attitudes to local health services

People aged thirteen years and over said they were:

- happy with local health services (3,020 people)
- sometimes happy (390 people)
- not happy (410 people)

Involvement in health services

Some 2,840 people aged thirteen years and over thought that it was important for Aboriginal and Torres Strait Islander people to be involved in local health services.

FIGURE 2.10 IMPORTANCE OF INDIGENOUS INVOLVEMENT IN HEALTH SERVICES

Persons aged 13 years and over

FIGURE 2.11 DISTANCE TO NEAREST COMMUNITY HEALTH CENTRE

Nearest health centre

The distance that the 1,490 households had to travel to attend the nearest community health centre was estimated to be:

- less than 10 km (1,170 households)
- between 26 and 50 km (110** households)
- between 51 and 100 km (60** households)
- over 250 km (70** households)

Bush medicine

Some 340 people reported using bush medicine in the last six months.

FIGURE 2.12 USED BUSH MEDICINE (a)

(a) Refers to the last six months

FIGURE 2.13 WORRIED ABOUT GOING WITHOUT FOOD

Persons aged 13 years and over

Food security

Some 1,560 people aged thirteen years and over said that they worried, or sometimes worried, about going without food.

Relative weight

The 3,470 people aged eighteen years and over were grouped according to their body mass index (BMI) scores. On this basis:

- 370 people were underweight
- 690 people were an acceptable weight
- 1,100 people were overweight
- 980 people were obese
- 330 people chose not to have their weight and height measurements taken

FIGURE 2.14 RELATIVE WEIGHT (a)

Persons aged 18 years and over

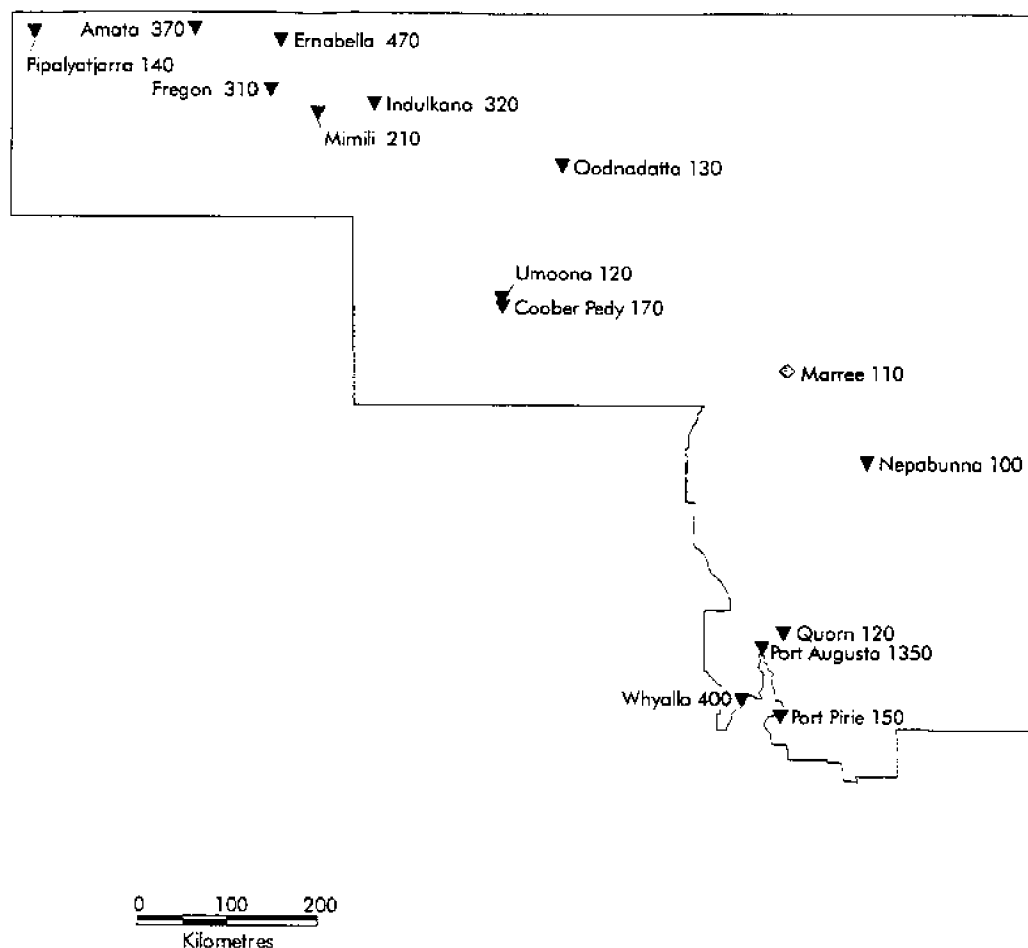

(a) Based on body mass index (BMI) score. The BMI equals a person's weight in kilograms divided by the square of the person's height in metres.

CHAPTER THREE

HOUSING

Map 4 Major Communities and Population Port Augusta Region

- ▼ Source: ABS 1991 Census of Population and Housing. Urban Centre/ Localities with a population greater than 50 persons and ABS Aboriginal Communities locations.
- ◊ Source: 1992 Community Housing and Infrastructure Needs Survey, Communities with a population greater than 50 persons.

FIGURE 3.1 TYPE OF DWELLING

Households living in private dwellings

Type of dwelling

The types of dwellings occupied by the 1,490 households living in the Port Augusta region were:

- house with own facilities (1,070 households)
- house with shared facilities (30** households)
- flat, unit or townhouse (350 households)

Nature of occupancy

The nature of occupancy of these dwellings was:

- rented (1,180 households)
- owned (150** households)
- being purchased (100** households)
- other arrangements (40** households)

FIGURE 3.2 NATURE OF OCCUPANCY

Households living in private dwellings

FIGURE 3.3 TYPE OF LANDLORD

Households living in rented private dwellings

(a) Includes employer provided housing and not stated

Type of landlord

The 1,180 households that were renting their dwelling reported that they were renting from:

- private landlords (20** households)
- community organisations (310** households)
- state housing authorities (740 households)

Weekly rent

These households reported that their weekly rent was:

- less than \$48 (570 households)
- \$48-\$77 (340 households)
- \$78-\$107 (260 households)
- \$108-\$137 (10** households)

FIGURE 3.4 WEEKLY RENT

Households living in rented private dwellings

FIGURE 3.5 SATISFACTION WITH DWELLING

Households living in private dwellings

Satisfaction with dwelling

Some 1,060 households reported that their current dwelling satisfied the needs of the household.

Main problems with dwelling

The 410 households that were not satisfied with their current dwelling reported that the main problems with the dwelling were

- needs repair (300 households)
- inadequate bathing facilities (220 households)
- needs better insulation/ventilation (220 households)
- not enough bedrooms (220 households)
- not enough living area (230 households)

FIGURE 3.6 MAIN PROBLEMS WITH DWELLING (a)

Households living in private dwellings and dissatisfied with their dwelling

(a) Households can indicate more than one problem with dwelling

FIGURE 3.7 LEVEL OF SATISFACTION BY TYPE OF LANDLORD

Level of satisfaction by type of landlord

Of those 1,060 households that were satisfied with their current dwelling, some 840 were renting their accommodation from:

- private landlords (20** households)
- community organisations (110** households)
- state housing authorities (620 households)

Utilities not working in last 4 weeks

Some 180** of the total 1,490 households reported utilities not working in the last four weeks. The utilities not working were (in order):

- electricity/gas
- water
- toilet

FIGURE 3.8 UTILITIES NOT WORKING IN THE LAST 4 WEEKS

The number in each category and this figure have not been printed because all entries have high standard errors (**).

FIGURE 3.9 DWELLING HAS BATHROOM OR SHOWER

Households living in private dwellings

Bathroom or shower

Some 1,490 households living in private dwellings had their own bathroom or shower. 40** households had access to a communal bathroom or shower.

Summary of dwelling characteristics

In summary, the dwelling characteristics of the 1,490 households living in private dwellings were:

- running water connected (1,470 households)
- electricity/gas connected (1,390 households)
- garbage collected (1,280 households)
- dwelling situated on sealed road (1,080 households)
- satisfied needs of household (1,060 households)
- being rented (1,180 households)

FIGURE 3.10 SUMMARY OF DWELLING CHARACTERISTICS

Households living in private dwellings

FIGURE 3.11 NUMBER OF BEDROOMS

Households living in private dwellings

Number of bedrooms

The number of bedrooms in the private dwellings was:

- none or one (190 households)
- two (190 households)
- three (830 households)
- four (210 households)
- five or more (70** households)

Housing stress

Detailed analysis of the 1991 Census of Population and Housing results for the Port Augusta region (Jones, R (1994) *The Housing Need of Indigenous Australians, 1991*: Canberra: Centre for Aboriginal Economic Policy Research, ANU) concluded that some 240 families were homeless and a further 140 families were in housing stress from overcrowding.

FIGURE 3.12 HOUSING STRESS

All families

Source: 1991 Census of Population and Housing: Jones, 1994.

**1992 ATSIIC
Housing and
Community
Infrastructure
Needs Survey**

Another source of information about the condition of community infrastructure in the Port Augusta Region is the final report of Stage 1 of the 1992 ATSIIC Housing and Community Infrastructure Needs Survey. This report identified:

- 76 per cent of discrete communities surveyed (including homelands/outstations) in which the quality of water available for human consumption complied with National Health and Medical Research Council guidelines.
- 83 per cent of discrete communities (excluding homelands/outstations) in which the sewerage system normally worked satisfactorily.
- 8 per cent of discrete communities (excluding homelands/outstations) in which the internal roads were all sealed.

**Condition of
houses**

At the time of the Needs Survey, it was estimated that there were some 320 houses in the Port Augusta region owned and/or administered by Indigenous organisations. The condition of these houses was found to be:

- no repairs required (100 houses)
- minor repairs required (110 houses)
- major repairs required (90 houses)
- replacement required (20 houses)

FIGURE 3.13 CONDITION OF HOUSES (a)

Owned and/or administered by Aboriginal or Torres Strait Islander organisations

(a) Relates only to Centres surveyed

CHAPTER FOUR

EDUCATION AND TRAINING

FIGURE 4.1 TYPE OF SCHOOL ATTENDED
Primary and secondary school students

Type of school attended The type of school attended by the 1,490 primary and secondary school students was:

- government (1,200 students)
- Aboriginal independent (270 students)
- Catholic (10** students)

Level of school attended The level of school these students attended was:

- primary (890 students)
- secondary (300 students)
- combined primary/secondary (300 students)

FIGURE 4.2 LEVEL OF SCHOOL ATTENDED
Primary and secondary school students

FIGURE 4.3 SCHOOL PARTICIPATION RATE (a)

(a) the number of enrolled school students of a particular age, expressed as a proportion of the population of the same age

School participation rates

The overall school participation rate was calculated to be slightly more than 50 per cent. For thirteen and fourteen year olds the participation rate was 100 per cent, while for fifteen and sixteen year olds the rate had fallen to around 55 per cent.

Characteristics of schooling

Students in the Port Augusta region reported that they were:

- taught about Indigenous culture (1,130 students)
- not taught about culture but want to be (260 students)
- taught by an Indigenous teacher (360 students)
- taught by an Indigenous education worker (1,090 students)
- taught by a community member (500 students)
- taught Indigenous languages (810 students)

FIGURE 4.4 CHARACTERISTICS OF SCHOOLING

Primary and secondary school students

FIGURE 4.5 INVOLVEMENT IN DECISION MAKING AT CHILDREN'S SCHOOL

Persons with children attending primary or secondary school

Involvement in decision making

Some 550 of the 1,370 people with children attending primary or secondary school felt that they were involved in decision making at their children's school.

Preference for children to attend community school

Parents' preference for sending their children to an Aboriginal community controlled school was:

- yes (460 parents)
- no (600 parents)
- already attends (260 parents)
- did not know (60** parents)

FIGURE 4.6 PREFERENCE FOR CHILDREN TO ATTEND COMMUNITY SCHOOL

Persons with children attending primary or secondary school

FIGURE 4.7 AGE LEFT SCHOOL

Persons aged 15 years and over who had left school

Age left school

The 3,580 people aged fifteen years and over who had left school reported that the age they left school was:

- 13 years or less (400 people)
- 14 years (330 people)
- 15 or 16 years (1,790 people)
- 17 years or more (670 people)

Some 380 people reported that they had never attended school.

Highest level of educational attainment

The highest level of education attained by people aged fifteen years and over who had left school was:

- post-school qualifications (610 people)
- year 12 school certificate (60** people)
- year 10 school certificate (930 people)
- below year 10 (1,980 people)

FIGURE 4.8 HIGHEST LEVEL OF EDUCATIONAL ATTAINMENT

EMPLOYMENT AND INCOME

Map 5 Community Development Employment Projects Port Augusta Region

Source: Aboriginal and Torres Strait Islander Commission, 1994.

FIGURE 5.1 LABOUR FORCE STATUS

Persons aged 15 years and over

(a) Community Development Employment Projects

Labour force status

There were some 3,750 people aged fifteen years and over in the Port Augusta region. The labour force status of these people was:

- employed (1,120 people)
- unemployed (1,100 people)
- not in labour force (1,530 people)

Nature of jobs

Some 330 of the 1,120 employed people reported that they were working in a Community Development Employment Project (CDEP) scheme.

Type of employment

Those employed people reported that their type of employment was:

- full-time (580 people)
- part-time (530 people)

FIGURE 5.2 TYPE OF EMPLOYMENT

Employed persons aged 15 years and over

FIGURE 5.3 SECTOR OF EMPLOYMENT

Employed persons aged 15 years and over
%

Sector of employment

The 1,120 employed people reported that their employer was:

- Commonwealth government (80** people)
- State/Territory government (300 people)
- local government (20** people)
- Indigenous community organisation (460 people)
- other private organisation (240 people)

Number of hours a week usually worked

Employed people reported that the number of hours a week they usually worked was:

- 15 or fewer (120** people)
- 16-24 (130** people)
- 25-34 (280 people)
- 35 or more (580 people)

FIGURE 5.4 NUMBER OF HOURS A WEEK USUALLY WORKED

Employed persons aged 15 years and over

%

FIGURE 5.5 NUMBER OF EMPLOYED PERSONS IN HOUSEHOLD

Households living in private dwellings

Number of employed persons in household

It was estimated that there was some 570 households in which no one was working. For the remaining 920 households one or more people reported that they were working.

Whether work commitments allowed cultural obligations to be met

The 1,120 employed people reported that their work commitments meant that they:

- could meet cultural obligations (660 people)
- could not meet cultural obligations (330 people)

There were 50** people who reported that they did not have cultural obligations

FIGURE 5.6 WHETHER WORK COMMITMENTS ALLOWED CULTURAL OBLIGATIONS TO BE MET

Employed persons aged 15 years and over

FIGURE 5.7 LENGTH OF TIME UNEMPLOYED

Unemployed persons aged 15 years and over

Length of time unemployed

The 1,100 unemployed people reported that the length of time they had been unemployed was:

- less than 3 months (180 people)
- 3 months to less than 6 months (110** people)
- 6 months to less than 12 months (160** people)
- 12 months or more (650 people)

Main difficulty in finding a job

The main difficulty that these unemployed people experienced in finding a job was:

- insufficient education, training or skills (250 people)
- no jobs at all (220 people)
- no jobs in area or line of work (210 people)
- transport problems or too far to travel (120** people)

FIGURE 5.8 MAIN DIFFICULTY IN FINDING A JOB

Unemployed persons aged 15 years and over

FIGURE 5.9 MAIN REASON NOT LOOKING FOR WORK
Persons aged 15 years and over not in the labour force but who wanted a job

Persons not in the labour force who wanted a job

Some 480 of those 1,530 people not in the labour force, that is, not working and not looking for work, said they wanted a job. The main reason for not looking for work was:

- childcare and other family responsibilities (170 people)
- studying or returning to study (80** people)
- no jobs in local area/line of work or no jobs at all (60** people)

Voluntary work

Some 1,080 people aged fifteen years and older said that they were engaged in voluntary work. The type of voluntary work undertaken was:

- caring for sick or aged people (180 people)
- working for community or sporting organisation (280 people)
- working at a school or with youth groups (280 people)
- working on committees (270 people)
- hunting, fishing or gathering bush food (420 people)

FIGURE 5.10 TYPE OF VOLUNTARY WORK UNDERTAKEN (a)
Persons aged 15 years and over who undertook voluntary work

(a) Persons may have given more than one answer

FIGURE 5.11 MAIN SOURCE OF INCOME

Persons aged 15 years and over

Main source of income The 3,750 people aged fifteen years and over reported that their main source of income was:

- non-CDEP employment (660 people)
- CDEP employment (250 people)
- government payments (2,370 people)
- no income (250 people)

Government payments received It was estimated that some 2,830 people aged fifteen years and over received government allowances, pensions and other payments. The main types of payments received were:

- family payment (1,240 people)
- age pension (320 people)
- Newstart allowance (660 people)
- Jobsearch allowance (310 people)
- rent assistance (460 people)
- sole parent pension (220 people)

FIGURE 5.12 TYPE OF GOVERNMENT PAYMENTS RECEIVED

Persons aged 15 years and over who received government payments

(a) Persons may have received an allowance or pension in addition to one or more of these payments (b) includes Abstuday

FIGURE 5.13 ANNUAL PERSONAL INCOME (\$)

Persons aged 15 years and over

Personal income The 3,750 people aged fifteen years and older reported that their annual personal income (\$) was:

- less than 3,000 (410 people)
- 3,001 - 8,000 (1,200 people)
- 8,001 - 12,000 (820 people)
- 12,001 - 16,000 (380 people)
- 16,001 - 25,000 (370 people)
- 25,001 - 35,000 (320 people)
- 35,001 or more (40** people)

Household income The annual income (\$) of the 1,490 households was estimated to be:

- less than 12,000 (210 h'holds)
- 12,001 - 16,000 (90** h'holds)
- 16,001 - 20,000 (110** h'holds)
- 20,001 - 25,000 (150 h'holds)
- 25,001 - 30,000 (130** h'holds)
- 30,001 - 40,000 (230 h'holds)
- 40,001 - 50,000 (80** h'holds)
- 50,001 - 60,000 (50** h'holds)
- 60,001 or more (40** h'holds)
- Inadequately described (410 h'holds)

LAW AND JUSTICE

FIGURE 6.1 NEEDED LEGAL SERVICES IN THE LAST 12 MONTHS

Persons aged 13 years and over

Needed legal services

Some 860 of the 3,960 people aged thirteen years and over reported that they needed to use legal services in the last twelve months.

Types of legal services used

Of the 860 people who reported that they needed to use legal services, some 100** people indicated that they did not use a legal service. The main types of legal services used were:

- Aboriginal legal service (720 people)
- legal aid commission (40** people)

FIGURE 6.2 TYPES OF LEGAL SERVICES USED (a)

Persons aged 13 years and over who needed legal services in the last 12 months

(a) Persons may have indicated more than one type of legal service.

FIGURE 6.3 PHYSICALLY ATTACKED OR VERBALLY THREATENED (a)
Persons aged 13 years and over

Personal safety Some 720 people aged thirteen years and over reported being physically attacked or verbally threatened in the last twelve months.

Reasons for not reporting last incident to police Some 380 of those people who said they were physically attacked or verbally threatened did not report their last attack to the police. The main reasons for not doing so were:

- not serious enough (210 people)
- solved it themselves/perpetrator known to them (70** people)
- fears/dislike of police (50** people)
- police would not do anything (40** people)

FIGURE 6.4 REASONS FOR NOT REPORTING LAST INCIDENT TO POLICE (a)
Persons aged 13 years and over who had been attacked in the last 12 months but did not report last incident to police

(a) Persons may have indicated more than one reason

FIGURE 6.5 ARRESTED IN THE LAST 5 YEARS

Persons aged 13 years and over

Arrested in last 5 years

Some 1,070 people aged thirteen years and over said that they had been arrested in the last five years. The number of times they reported they had been arrested was:

- one (530 people)
- two (210 people)
- three (100** people)
- four or more (200** people)

Reasons for last arrest

Those people who had been arrested reported that the main reasons for their last arrest were:

- disorderly conduct/drinking in a public place (490 people)
- outstanding warrants/breach of order (220 people)
- assault/assault with grievous bodily harm (200 people)

FIGURE 6.6 REASONS FOR LAST ARREST(a)

Persons aged 13 years and over who had been arrested in the last 5 years

(a) Persons may have indicated more than one reason

FIGURE 6.7 FAMILY VIOLENCE WAS A COMMON PROBLEM IN THE LOCAL AREA

Whether family violence was a common problem

When asked if they thought family violence was a common problem in the Port Augusta Region:

- 2,480 people aged 13 years and over said yes
- 760 people said no
- 700 people said they did not know

Whether police did a good job dealing with family violence

When asked if they thought police did a good job dealing with family violence:

- 1,350 people aged 13 years and over said yes
- 1,310 people said no
- 590 people said police sometimes did a good job
- 700 people said that they did not know

FIGURE 6.8 POLICE DID A GOOD JOB DEALING WITH FAMILY VIOLENCE

FIGURE 6.9 POLICE DID A GOOD JOB DEALING WITH CRIME

Persons aged 13 years and over

Perceptions of police dealing with crime

When asked if they thought police did a good job dealing with crime:

- 1,280 people aged 13 years and over said no
- 1,670 people said yes
- 560 people said sometimes
- 450 people said the did not know

Perceptions of police dealing with violence

When asked if they thought police did a good job dealing with violence:

- 1,170 people aged 13 years and over said no
- 1,560 people said yes
- 750 people said sometimes
- 470 people said they did not know

FIGURE 6.10 POLICE DID A GOOD JOB DEALING WITH VIOLENCE

Persons aged 13 years and over

FIGURE 6.11 INDIGENOUS POLICE IN LOCAL AREA

Persons aged 13 years and over

Whether there were Indigenous police in local area

People aged thirteen years and over were asked whether there were Indigenous people working in their local area as police aides, police liaison officers or police officers. The responses were:

- yes (3,010 people)
- no (780 people)
- did not know (160 people)

Whether local Indigenous police did a good job

The views of the 3,010 people on whether Indigenous police aides, police liaison officers and police officers did a good job were:

- yes (1,610 people)
- no (710 people)
- sometimes (290 people)
- did not know (370 people)

FIGURE 6.12 LOCAL INDIGENOUS POLICE DID A GOOD JOB

Persons aged 13 years and over who reported that there were Indigenous police in the local area

FIGURE 6.13 PERCEPTION OF CURRENT RELATIONS WITH POLICE (a)

(a) Compared to 5 years ago

Perceptions of current relations with police compared to 5 years ago

People aged thirteen years and over stated that current relations with police compared to five years ago were:

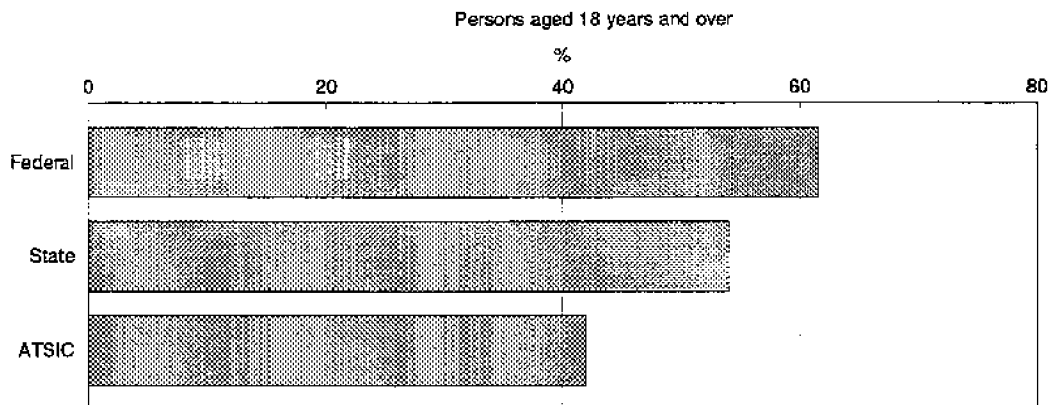

- better (1,170 people)
- about the same (1,430 people)
- worse (950 people)
- did not know (400 people)

Whether voted in last elections

The reported voting patterns of the 3,470 people aged eighteen years and over were:

- 2,140 people voted in the last Federal election
- 1,870 people voted in the last State election
- 1,460 people voted in the last ATSIC election

FIGURE 6.14 VOTED IN LAST ELECTIONS

Total	2,925	2,886	5,811	9,223	9,202	18,425	152,406	150,855	303,261

Note: Population projections for ATSI Regions have been prepared by ABS using assumptions agreed to by ATSI. As these regional projections were prepared at a later date using more up-to-date assumptions than the State population projections presented in this attachment, minor discrepancies can exist between these State totals and the sums of component Regions.

CAUTION: For ATSI Regions discrepancies may occur between survey estimates and population projections.

APPENDIX C: STANDARD ERRORS

Two types of error are possible in an estimate based on a sample survey: sampling error and non-sampling error. The sampling error is a measure of the variability that occurs by chance because a sample, rather than the entire population, is surveyed. The estimates in the survey are subject to sampling variability. One measure of the likely difference between survey estimates and true values is given by the standard error, which indicates the extent to which an estimate might have varied by chance because only a sample of dwellings was included. There are about two chances in three that the sample estimate will differ by less than one standard error from the figure that would have been obtained if all the dwellings had been included.

Another measure of the likely difference is the relative standard error which is obtained by expressing the standard error as a percentage of the estimate. The relative standard error is a useful measure in that it provides an immediate indication of the percentage errors likely to have occurred due to sampling.

The size of the standard error of an estimate of a number of persons increases with the level of the estimate, so that the larger the estimate the larger is the standard error. However, it should be noted that the larger the sample estimate the smaller will be the standard error in percentage terms. Thus, larger sample estimates will be relatively more reliable than smaller estimates.

As the standard errors in the following table show, very small estimates are subject to such high standard errors (relative to the size of the estimate) as to detract seriously from their value for most reasonable purposes. Estimates and percentages with larger relative standard errors have been included and are preceded by two asterisks if it is greater than 25 per cent (e.g., **2.5), indicating they are subject to high standard errors and should be used with caution.

GLOSSARY

Aboriginal	Persons 13 years and over, who identified themselves to be of Aboriginal origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Aboriginal community controlled school	Where Aboriginal and Torres Strait Islander people make decisions on the curricula, teachers employed, school budget and school policy.
Aboriginal English	Includes Broken English, Pidgin English and Kriol/Creoles.
Aboriginal Independent School	A school run solely by Aboriginal people, who make decisions on school policy, staffing, curricula, and school budget.
Aboriginal Legal Service	Established to assist Aboriginal and Torres Strait Islander people with legal matters.
Aboriginality	Where a person identifies as being of Aboriginal or non-Aboriginal origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Actions taken	Refers to specific actions persons took with regard to their health in the two weeks prior to interview.
ATSIC Regions & Torres Strait Area	Refers to 36 defined geographic areas, each represented by an ATSIC Regional Council or the Torres Strait Regional Authority.
Attack	Where a person has suffered physical force from another person(s), for example, pushed, hit, kicked or speared.
CDEP	See Community Development Employment Projects.
Clan, tribal or language group	Refers to Aboriginal and Torres Strait Islander groups within Australia.

Combined primary & secondary school	A school which teaches students at both primary and secondary levels.
Community landlord	Refers to dwellings owned by community organisations, predominantly Aboriginal or Torres Strait Islander organisations. It includes housing associations, land councils and community councils.
Community Development Employment Projects	The Community Development Employment Projects (CDEP), operate through grants from ATSIC to Indigenous community organisations to enable individuals to undertake community managed activities in return for wages.
Couple only family	Two persons who are in a registered or de facto marriage without children present in the household.
Crime	Includes crimes relating to drugs, thefts, vandalism as well as violence.
Cultural activities	Includes funerals, ceremonies, Indigenous festivals and carnivals and involvement with Aboriginal or Torres Strait Islander organisations.
Cultural obligations	Refers to attending Indigenous cultural activities such as funerals, ceremonies and festivals and extended family responsibilities.
Earned income	Income derived from wages and salaries, or from own business, trade or profession.
Education worker	A person who assists a teacher during class lessons and may give some lessons such as story telling.
Employed	Persons aged 15 years and over who in the week prior to the interview worked for pay, profit, commission or payment in kind in a job or business, or on a farm (comprising employees, employers and self-employed persons).

Family	Two or more persons who live in the same household and are related to each other by blood, marriage (including de facto marriage), fostering or adoption. For the purpose of this survey, one or more members of the family had identified as being of Aboriginal or Torres Strait Islander origin.
Family violence	Includes verbal threats, intimidation, fear of physical attacks and actual physical attacks, occurring between family members within a household.
Formal childcare	Refers to regulated care such as pre-school/kindergarten before and after school care program, long day care centres, family day care and other formal care.
Government payments	Includes Newstart allowance, Jobsearch, age pension, sickness allowance, disability support pension, sole parent pension, family payments, rent assistance, ABSTUDY and other Government payments.
Homelands	An area of land to which Aboriginal or Torres Strait Islander people have ancestral and/or cultural links.
Household	Consists of a person living alone, or two or more related or unrelated persons who live and eat together in private residential accommodation. For the purpose of this survey, one or more members of the household had identified as being of Aboriginal and/or Torres Strait Islander origin.
Household income	Refers to the total gross income from wages and salaries and Government payments of all persons 15 years and over who usually live in the household. The total household income was not calculated if usual residents of the household were missing at the time of the interview.
Indigenous	Persons 13 years and over, who identified themselves to be of Aboriginal or Torres Strait Islander origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.

Indigenous language	Aboriginal and Torres Strait Islander languages. Excludes Aboriginal English and Kriol/Creoles.
Labour force	Persons aged 15 years and over who were either employed or unemployed.
Labour force status	A classification of persons 15 years and over into employed, unemployed or not in the labour force.
Language spoken	A person was considered to be able to speak a language (such as an Aboriginal language) if they could hold a conversation in that language.
Last year	12 month period prior to interiew.
Long-term condition	Condition (illness, injury, or disability) which had lasted for six months or more.
Main language	Refers to the language the person is most comfortable with or speaks most fluently.
Making decisions at the school	Includes involvement in the Aboriginal Student Support and Parent Awareness Program (ASSPA) and Parents and Citizens (P&C) school meetings where decisions about fund raising and maintenance of the school are made.
Non-family household	A lone person household or a household consisting of two or more unrelated people.
Not in the labour force	Persons aged 15 years and over who were not employed or unemployed as defined.
One parent family	Family that consists of one parent and that parent's child(ren) plus all other people in the household related to them, provided those people do not have a spouse or child of their own.

Other government landlord	Refers to dwellings owned by Commonwealth, State/Territory and local governments other than housing authorities and employer provided housing.
Other legal services	Includes private solicitors and barristers.
Perceived health problems	A respondents' opinions of the main health problems confronting people in their local area.
Personal income	Refers to the gross income a person received at the time of interview in the form of wages and salaries and Government payments.
Post-school study	Attendance at a course at the time of a survey to gain a qualification.
Private landlord	All privately owned dwellings rented directly or through a real estate agent.
Private dwelling	The premises occupied by a household and includes houses, flats, home units, garages, tents and improvised houses. It excludes hostels, hospitals, prisons and so on.
Private sector	Non-government organisations. The private sector has been split into 'Community organisations' and 'Other private'. Community organisations are those private organisations that have been declared to be eligible for ATSiC funding.
Public sector	Includes all government authorities, departments, agencies and authorities created by the Commonwealth or State/Territory Parliaments. Also covered are organisations such as the Northern or Central Land Councils which were created by Commonwealth legislation and the NSW Land Council which was created by NSW legislation.
Recent illness	Conditions (illness, injury or disability) experienced in the two weeks prior to interview. It may include long-term conditions experienced in the period.

Relative weight	Weight and height measurements taken during interview have been used to derive a person's body mass. The body mass index equals a person's weight in kilograms divided by the square of the person's height in metres. The categories used are consistent with recommendations of the National Health and Medical Research Council.
School participation rate	The number of enrolled school students of a particular age, expressed as a proportion of the population of the same age.
Self-assessed health status	Refers to the overall level of health as reported by respondents 13 years and over. For persons 12 years and under information was provided by the child's parent or a responsible adult member of the household.
Specific long term condition	Where a person had one of the following conditions which had lasted for six months or more; asthma, diabetes, heart problems, chest problems, skin problems, high blood pressure, ear or hearing problems, eye or sight problems not corrected by glasses, and/or kidney problems.
State housing (landlord)	Refers to dwellings owned by State/Territory housing authorities.
Taken away from natural family	People who have been removed from their natural family as a child as part of a government policy. 'Family' may include parents and siblings and extended family members such as aunts, uncles and grandparents. Excludes people who were removed from their family for less than 6 months.
Taught Aboriginal or Torres Strait Islander languages	Students who are taught to speak, read or write an Aboriginal or Torres Strait Islander language.
Taught about Indigenous cultures	Includes subjects which give an understanding of Aboriginal or Torres Strait Islander cultures, eg. history and language.
Taught by a community member	Where community members teach at least once in a month or on 10 or more occasions over the school year.

Torres Strait Islander	Persons 13 years and over, who identified themselves to be of Torres Strait Islander origin. Persons 12 years and under were identified by a responsible adult in the household, usually a parent.
Training course	Includes courses which are planned to develop skills or assist in learning about a subject. Excludes courses leading to an educational qualification and on-the-job training.
Type of landlord	Refers to the legal entity to which rent is paid.
Unemployed persons	Persons aged 15 years and over who were not employed during the week prior to interview, and who had actively looked for work at any time during the last four weeks prior to interview, and who were available to start work in the last week.
Usual residents	Persons who live in a particular private dwelling and regard it as their own or main home.
Verbal threats	Any verbal abuse to a person where no weapon was seen and no physical violence occurred. It includes verbal threats to harm the respondent or his/her property.
Violence	Refers to violence in the community, that is streets, hotels, schools, etc. It includes fights, bashing, rape, murder or any act which involves violence.
Voluntary work	Includes any unpaid community work such as caring for sick or aged people, working for community or sporting organisations, working at a school or with youth groups, working on committees and hunting, fishing or gathering bush food.
Year 10 Certificate	Completion of a Year 10 Certificate, Aboriginal Access Course or equivalent.
Year 12 Certificate	Completion of a Year 12 Certificate, General Certificate of Education or equivalent.

**1991 CENSUS OF POPULATION AND HOUSING
ABORIGINAL AND TORRES STRAIT ISLANDER
COMMUNITY PROFILE**

**PORT AUGUSTA
ATSIC REGION**

Explanatory Notes

The **Aboriginal Community Profile** is available as a standard product for communities of 80 or more Aboriginal and Torres Strait Islander persons, Statistical Local Areas of 80 or more Aboriginal and Torres Strait Islander persons and ATSI regions. Also available are Section of State, Statistical Divisions and States and Territories. It is based on place of enumeration.

Each table title in the Aboriginal Community Profile consists of two parts. The first part lists the variables included in the table. The second part describes the table population.

Figures in proportion columns have been rounded, so discrepancies may occur between the totals and the sums of the component items.

A glossary of the terms and concepts used in the Community Profiles appears below. For more information see the 1991 Census Dictionary (Cat. No. 2901.0) and the 1991 Census Directory of Classifications (Cat. No. 2904.0).

Glossary

Caravans etc. in caravan parks includes occupied tents, cabins, camper vans etc in caravan parks, and occupied boats in marinas.

A **ceusus household** is either a person living alone or people who usually reside and eat together. A household resides in a private dwelling. The household type is based on information about relationships between residents present and persons temporarily absent. The relationships of visitors to one another or to any resident are not considered.

Aboriginal/Torres Strait Islander household, for the purpose of this publication, is one in which the reference person (person number one on the Census form) or spouse of the reference person identifies as being of Aboriginal or Torres Strait Islander origin. This definition excludes *Lone Person households* where the person was of Aboriginal or Torres Strait Islander origin. There were just over 7,000 Lone Person Aboriginal and Torres Strait Islander Households in Australia in 1991.

Employed full-time means that the person worked 35 hours or more in the main job held in the week before the Census.

Employed part-time means that the person worked 0-34 hours in the main job held in the week before the Census.

A **family** is a group of related individuals in a household where at least one person is aged 15 years or more. A census household can contain up to three families. Census families do not include visitors to dwellings. If a family was at a holiday home or a non-private dwelling on census night, it was not counted as a census family.

A **primary Aboriginal/Torres Strait Islander family** is one in which the reference person or spouse of the reference person in the primary family identifies as being of Aboriginal or Torres Strait Islander origin. In a multiple family household the family with dependent children is designated as the primary family. If there was more than one family, or no children were present, then the primary family is arbitrarily chosen.

Family income is the sum of the personal incomes of each resident family member aged 15 years or more. If any of these family members has an income 'not stated', or a spouse or offspring is temporarily absent, family income is classified as 'partial income stated' in Community Profile tables. Parental income is similar to family income except that only the income of the parent(s) is included. Parental income compares most closely with the family income variable of the 1986 Census.

Household income is the sum of the personal incomes of each resident household member aged 15 years or more. If any of these residents has an income 'not stated', or a spouse, offspring or co-tenant is temporarily absent, household income is classified as 'partial income stated' in Community Profile tables.

n.e.i. means 'not elsewhere included'.

n.f.d. means 'not further defined'.

An **occupied private dwelling** is defined as the premises occupied by a household on census night. A private dwelling is normally a house, flat, part of a house, or even a room; but can also be a house attached to, or rooms above shops or offices; an occupied caravan in a caravan park or on a residential allotment or boat in a marina; a houseboat; or a tent if it is standing on its own block of land.

An **Aboriginal/Torres Strait Islander dwelling**, for the purpose of this publication, is one in which the reference person or spouse of the reference person identifies as being of Aboriginal or Torres Strait Islander origin. This definition excludes *Lone Person households* where the person was of Aboriginal or Torres Strait Islander origin. There were just over 7,000 Lone Person Aboriginal or Torres Strait Islander households in Australia in 1991.

Dependent offspring are 0-14 years of age, or are full-time students aged 15-24 years. (In the 1986 Census, 21-24 year olds were excluded from this category). Unrelated children can be classified as dependent offspring.

Other offspring are 15-24 years of age and not full-time students, or 25 years of age or more. In the 1986 Census, these 21-24 year old full-time students were classified as 'related adults'. As a result, sole parents with adult children were classified as families of related adults: in the 1991 Census, these cases are classified as one parent families.

The census count based on **place of enumeration** is a count of every person who spent census night in Australia. People are counted where they are on census night, which may not be where they usually live. In determining family and household type visitors to dwellings are excluded and usual residents who are temporarily absent are included. (See *temporarily absent*).

The **table population** is a description of what the table is counting. For example, tables containing marital status usually have a table population of persons aged 15 years or more. It appears under the table title.

Temporarily absent spouses, offspring and co-tenants are considered when determining household and family types. Other persons temporarily absent are not considered.

Data Quality

The Census is subject to a number of inaccuracies resulting from errors by respondents or mistakes in collection or processing of the data. Some of these are overcome or 'repaired' by careful processing procedures and quality control measures applied to the processing itself. The effect of those that remain is generally slight, although it may be more important for small groups in the population. The main kinds of error to keep in mind are:

Partial non-response: In some cases where an answer was not provided to a question an answer was imputed (often from other information on the form). In other cases a 'not stated' code was allocated.

Processing error: While such errors can occur in any processing system, careful quality control measures are used to keep errors to an acceptable level.

Random adjustment: Cells containing small values are randomly adjusted to avoid releasing information about particular individuals, families, or households. The effect of random adjustment is statistically insignificant.

Respondent error: Because processing procedures cannot detect or repair all errors made by persons in completing the form, some remain in final data.

Undercount: Although the census aims to count each person once, there are some people who are missed and others are counted more than once. The data are not adjusted for the net undercount which is estimated to be 1.9% for Australia in the 1991 Census.

Further information on data quality will be provided progressively in Census Update and in 1991 Census data quality working papers.

Section of State Data: Data for the Migratory section of each state/territory has been combined with the Other Rural section to avoid the release of confidential data. The number of Aboriginal and Torres Strait Islander people in migratory sections was small.

AUSTRALIAN BUREAU OF STATISTICS 1991 Census of Population and Housing
Aboriginal and Torres Strait Islander Community Profile Catalogue No. 2722.0
