.. Structure of primary and secondary schooling	5
1. Summary of statistics of all schools, full-time students and teaching staff (FTE): category of school, States and Territories, 1984 and 1985	7
2. All schools : category (and non-government affiliation) and level of school, States and Territories, 1985	8
3. Number of schools (excluding special schools) : size of primary and secondary student enrolments measured in full-time equivalent (FTE) units and category of school, Australia, 1985	9
4. Number of full-time students : category of school (and non-government affiliation) and level of education, States and Territories, 1985	10
5. Number of full-time students : category of school and level of education, States and Territories, 1984 and 1985	11
6. Number of full-time students : category of school (and non-government affiliation), sex and level/year of education, States and Territories, 1985	12
7. Number of full-time students in Government schools : age and level/year of education, States and Territories, 1985	30
8. Number of full-time students in Government schools : age, sex and level/year of education, Australia, 1985	38
9. Number of full-time students in Non-government schools : age and level/year of education, States and Territories, 1985	41
10. Number of full-time students in Non-government schools : age, sex and level/year of education, Australia, 1985	49
11. Apparent retention rates of secondary school students to Year 12, States and Territories, 1980 to 1985	54
12. Apparent retention rates of secondary school students to Year 10, Year 11 and Year 12 by sex, Australia, 1980 to 1985	54
13. Apparent retention rates of secondary school students to Year 10, Year 11 and Year 12 by category of school (and non-government affiliation), Australia, 1985	54
14. Number and FTE of school staff : type of employment, sex, category of school (and non-government affiliation) and area of activity, States and Territories, 1985	55
15. Number and FTE of school and non-school staff in Government schools by sex, States and Territories, 1983 to 1985	64
16. Number of executive staff in Government schools by sex, States and Territories, 1985	65
 <i>Diagram</i>

MAIN FEATURES

In July 1985 there were 10,063 schools operating in Australia. Of these, 7,561 (75.1 per cent) were government schools operated by the State Directors-General of Education (or equivalent) and 2,502 (24.9 per cent) were non-government schools.

The number of full-time students attending these schools in July 1985 totalled 3,006,169 comprising 2,230,833 (74.2 per cent) in government schools and 775,336 (25.8 per cent) in non-government schools. In 1984 non-government comprised 25.1 per cent of full-time students.

The number of full-time students attending government schools in July 1985 decreased by 1.3 per cent (29,718) from the 2,260,551 attending in 1984, whilst the number of full-time students attending non-government schools increased by 2.4 per cent (18,284) from the 757,052 attending in 1984.

The apparent retention rate of secondary school students in Year 12 rose from 45.0 per cent in 1984 to 46.4 per cent in 1985. As in previous years, the retention rate for female students (49.5 per cent) was higher than the corresponding figure for males (43.5 per cent). The rate varied between States and Territories, ranging from 28.7 per cent in Tasmania to 77.1 per cent in the Australian Capital Territory.

The number of teaching staff at government and non-government schools in July 1985 comprised 185,421 full-time teachers and 23,301 part-time teachers who contributed 11,709 full-time equivalent (FTE) units of effort, giving a total FTE teaching staff of 197,130.

There was the equivalent of 150,383 full-time teaching staff in government schools in July 1985, an increase of 1.2 per cent (1,823) since 1984, whilst teaching staff in non-government schools totalled 46,747 full-time equivalent units, an increase of 4.4 per cent (1,950). The non-government sector comprised 23.7 per cent of teaching staff (FTE) in 1985 and 23.2 per cent in 1984.

EXPLANATORY NOTES

Introduction

This publication contains statistics of government and non-government schools, students and staff, as at July 1985.

2. The National Schools Statistics Collection (NSSC) series was established through the work of the Australian Education Council School Statistics Committee (AECSSC), of which the ABS is a member. The AECSSC was established in 1979 by the Australian Education Council to improve the quality of education statistics relating to government and non-government primary and

secondary education and has developed a set of concepts, definitions and classifications for use in the National Schools Statistics Collection.

3. The statistics are now compiled from collections conducted, in co-operation with the AECSSC, by the State/Territory Departments of Education (government series) and the Commonwealth Department of Education (non-government series).

4. With the implementation of the NSSC concepts, definitions, classifications and coverage were revised. The new government series was implemented in 1981 and the non-government in 1984. Therefore, care should be exercised when comparing data in this publication with that prior to 1981 and 1984 for the government and non-government series respectively, and between the two series from 1981 to 1983.

Scope and coverage

5. The statistics in this publication relate to establishments which have as their major activity the administration and/or provision of full-time day primary, secondary or special education, or primary or secondary education by radio or correspondence. Major activity is based on the activity of students or, where this is not appropriate, on the activity of staff in full-time equivalent units (FTE). See paragraph 27 for details of the calculations of FTE. Those establishments at which some other activity is major are excluded, therefore the statistics presented do not include establishments, students or staff engaged in such activities as the Tertiary Orientation Programs conducted by Technical and Further Education Institutions in Victoria.

6. Statistics for the *government* series relate to all establishments administered by the Department of Education under the Director-General of Education (or equivalent) in each State, students attending those establishments and all staff engaged in the administration/provision of government school education at those establishments. Statistics for the *non-government* series relate to all establishments not administered by the Departments of Education and include special schools administered by Government authorities other than the State/Territory Departments of Education.

Census date

7. The census date for the collection was 1 July 1985 (or as near as possible to that date).

Definitions

8. A *non-special school* must satisfy the following criteria:

(a) Its major activity is:

(i) the provision of full-time day primary or secondary education or,

(ii) the provision of primary or secondary education by radio or correspondence;

- (b) It is headed by a principal (or equivalent) responsible for its internal operation; and
- (c) It is possible for students to enrol for a minimum of four continuous weeks, excluding breaks for school vacations.

9. A *special school* is one which provides special instruction for physically and/or mentally handicapped students, or those with social problems. Students must exhibit one or more of the following characteristics before enrolment is allowed:

- (i) mental or physical handicap, slow learning ability;
- (ii) social or emotional problems;
- (iii) in custody, on remand, in hospital.

10. The term 'school' in this publication includes schools in institutions and hospitals, mission schools and similar establishments. The term excludes pre-schools, kindergarten centres, pre-primary schools or classes in or attached to non-special schools, senior technical and agricultural colleges, evening schools, continuation classes, and institutions such as business or coaching colleges.

11. An *Ancillary Education Establishment* (AEE) is an establishment where the major activity is the provision of aspects of primary, secondary or special education to students supplementary to that provided by schools. AEEs include those education establishments in institutions and hospitals where students cannot enrol for a period exceeding four continuous weeks, certain holiday excursion centres, etc.

Note: In this publication AEE data include students and staff only.

12. *Other education establishments* within the scope of these statistics, but not defined as schools or Ancillary Education Establishments, include:

- (a) Administrative offices which have as their major activity the administration of primary, secondary or special education; and
- (b) Teacher resource centres operated by a State Director-General of Education.

13. *Category of school* refers to the classification of schools/AEEs to the government or non-government sector for the purposes of this collection.

14. *Affiliation of non-government schools* are classified to three groups; Anglican, Catholic and Other. Included in the 'Other' category are schools with specific religious affiliations (other than Anglican and Catholic) and schools that are inter-denominational, non-denominational or which have no religious affiliation.

15. *Level/Year of education* is defined as follows:

- (a) *Primary education* is that full-time education which typically commences at around age 5 and lasts for seven to eight years. It does not include sessional education such as pre-school education. In New South Wales, Victoria, Tasmania and the Australian Capital Territory, primary education may extend from Pre-Year 1 to Year 6 (or equivalent). In South Australia and Northern Territory it may extend from Pre-Year 1 to Year 7 (or equivalent). In Queensland and Western Australia it may extend from Year 1 to Year 7 (or equivalent).
- (b) *Secondary education* is that education which typically commences at around age 12 after completion of primary education and lasts for five or six years. In New South Wales, Victoria, Tasmania and the Australian Capital Territory, secondary education may extend from Year 7 to Year 12 (or equivalent). In Queensland, Western Australia, South Australia and Northern Territory it may extend from Year 8 to Year 12 (or equivalent).
- (c) *Special education* in this collection refers only to that education provided at special schools. There is no lower or upper age limit for students in special schools.

Note: In previous NSSC collections some full-time students attending special classes at non-special schools were classified to the 'special education' category. The data relating to 1984 in this publication have been revised to reflect the current definition and align with the data reported for 1985.

16. There is no Australia-wide standard method of allocating students and classes to a certain year of education (grade). A number of schools (other than special schools) do not maintain a formal grade structure. Students at these schools have been allocated to equivalent grades where possible but otherwise appear against the category *ungraded* in either the primary or secondary levels of education.

17. A *student* is a person who is enrolled in a school and active in a course of study other than pre-school or Technical and Further Education (TAFE) courses. Persons absent at the reference date are included if they were expected to be absent for less than four continuous weeks (excluding schools vacations) and are excluded if they had left the school or had been absent without explanation for four continuous weeks (excluding school vacations) prior to the reference week.

18. A *full-time student* is one who undertakes a workload specified as full-time in the government or non-government sector.

Note: This publication details full-time students only.

19. The apparent retention rate is the percentage of students of a given cohort group who continued to a particular year/level of education. In this publication, *apparent retention rates* are calculated for students who continued to Years 10, 11 and 12 of secondary schooling. Care should be exercised in the interpretation of apparent retention rates since a range of factors affecting calculation have not been taken into account. At the Australia level these include students repeating a year of education, migration/immigration and other net changes to the school population. At lower levels of disaggregation, additional factors of inter-sector transfer and interstate movements of students which would also influence the data have not been taken into account.

20. One example of the calculation of *apparent retention rates* is as follows:

— to calculate the apparent retention rate, at the Australia level, of the student cohort group who are currently (1985) in Year 10 from their commencement in secondary schooling (as shown in Tables 12 and 13 and Diagram 3), the total number of students in Year 10 in 1985 is divided by the sum of students in Year 7 in New South Wales, Victoria, Tasmania and the Australian Capital Territory in 1982 and those students in Year 8 in Queensland, Western Australia, South Australia and the Northern Territory in 1983 (since those Years represent the commencement of the secondary school system in the respective States) and convert the resultant figure to a percentage.

21. *Staff* are persons who are involved in the administration or provision of primary, secondary or special education. Staff are categorised as school staff or as non-school staff. They are placed in the former category if they usually spend more than half of their time actively engaged in duties at one or more schools or Ancillary Education Establishments. School staff include all teaching staff and those non-teaching staff who spend more than half their time actively engaged in duties in schools/AEEs.

Note: This publication contains details of non-school staff for the government series only, since equivalent data are not available for the non-government series.

22. *Teaching staff* are those staff normally paid under a Teachers Salary Award (or equivalent) and who are in contact with students, i.e. support students either by direct class contact or on an individual basis. They include classroom and general teachers, librarians/teacher librarians, guidance/counselling/careers advisors and relieving teachers but exclude staff who provide professional support to teachers.

Note:

- (a) Public Service Awards are not considered to be equivalent to Teachers Salary Awards;

- (b) Teachers in promotional positions, such as principals and deputy principals, are considered to be teaching staff.

23. *Non-teaching staff* are those who are not in contact with students, or who are not normally paid under a Teachers Salary Award (or equivalent).

24. *Executive staff* are non-teaching staff generally undertaking functions of a senior administrative type of a nature broader than that of a principal and whose salary generally exceeds that of a principal. They are non-school staff and include Directors-General of Education, directors and their deputies and inspectors/superintendents.

25. *Full-time staff* are those who perform the full allocation of duties specified as full-time in the relevant award, contract or administrative arrangement. However, persons who are employed full-time but part of whose duties are out-of-scope of the collection (e.g. pre-school, TAFE, etc.) have been regarded as part-time.

26. *Part-time staff* are staff who are not employed full-time, or who are employed full-time but part of whose duties are out-of-scope of this collection (e.g. pre-school, TAFE, etc.).

27. The *full-time equivalent (FTE)* of a full-time staff member (i.e. employed full-time and engaged solely on in-scope activities) is equal to 1.0. The calculation of FTE for part-time staff is as follows:

- (a) The full-time equivalent of part-time staff performing some out-of-scope activities is calculated on the basis of the proportion of time spent on in-scope activities compared with that spent by a full-time staff member solely occupied by in-scope activities.
- (b) The full-time equivalent of part-time staff performing solely in-scope activities is calculated on the basis of time worked compared with that worked by full-time staff performing similar duties.

Note: Some States are not able to calculate full-time equivalent on a time spent basis for all staff functions but use wages paid as a fraction of full-time rate, or a resource allocation based formula. Some also use a pro-rata formula based on student or teacher numbers to estimate aggregate FTE for some categories of staff.

28. The *area of activity* of staff is considered to be primary education, secondary education or education conducted in special schools. As a rule, the FTE of staff are apportioned across areas of activity on the basis of time spent in the various areas of activity.

Methodology

29. These statistics are compiled from collections conducted in co-operation with the AECSSC by the State/Territory Departments of Education (government series) and the Commonwealth Department of Education (non-government series).

Note:

- (a) The methodologies employed by State Departments of Education in the government sector in compiling the State aggregates on which the statistics in this publication are based vary from State to State. They range from manipulation of central administrative records to direct collection of data from establishments.
- (b) The Commonwealth Department of Education collects data directly from establishments in the non-government sector for all States and Territories. The statistics in this publication are a summary of that collection.

Interpretation of results

30. In interpreting the figures in this publication, users should be aware that, because of the diversity of the Australian education system and its administration, the statistics reported in this publication are not entirely comparable. Comparability between States and between government and non-government schools in any one State is affected by differences in the organisation of grades, policy on student advancement, flows from secondary to vocational education and the recruitment and employment of teachers.

31. The S.A. Education Department have advised that the apparent increase in the number of students in Reception Year for 1985 is the result of the implementation of the 'First Years of School Policy' which commenced at the beginning of 1985 requiring all students to spend 7 to 10 terms under the 3-term year (or 10 to 13 terms under the 4-term year) prior to entry to Year 3. Previously students could move from Reception to Year 1 in the same year or from a full Reception year to Year 2 in the following year. The new policy has resulted in additional students being retained in the lower Year levels. In particular, prior to 1985, in order to retain a cohort group of Year 1 (for statistical purposes), any Reception students expected to be in Year 2 in the following year were designated as Year 1 students.

Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

STRUCTURE OF PRIMARY AND SECONDARY SCHOOLING

The structure of primary and secondary schooling in Australia varies between the different States and Territories. There are three basic patterns evident, as illustrated below.

In South Australia and Northern Territory the primary system comprises a Reception or Transition grade followed by Years 1 to 7. The secondary system comprises Years 8 to 12.

In New South Wales, Victoria, Tasmania and the Australian Capital Territory the primary system comprises a Kindergarten or Preparatory grade followed by Years 1 to 6. The secondary system comprises Years 7 to 12.

In Queensland and Western Australia the primary system comprises Years 1 to 7 and the secondary system Years 8 to 12.

Each State and Territory also has a pre-school sector which is separate from primary and secondary schooling. Data on pre-school education within schools have been excluded from primary enrolments in this publication.

(a) See Explanatory Notes, paragraph 31, for the impact of changes to reporting methodology on Australia level data. (b) Figures for Victoria and Western Australia include full-time students attending special schools administered by government authorities other than the State Departments of Education. (c) 'Pre-year 1' does not exist in Queensland or Western Australia. See diagram on page 5 for a more detailed explanation.

(a) Includes 'Age unspecified'. (b) 'Pre-year 1' does not exist in Queensland or Western Australia. See diagram on Page 5 for more details. (c) Includes full-time students attending special schools administered by government authorities other than the State Departments of Education in Victoria and Western Australia.

DIAGRAM 3. APPARENT RETENTION RATES OF SECONDARY SCHOOL STUDENTS TO YEARS 10, 11 AND 12, BY CATEGORY OF SCHOOL, AUSTRALIA, 1985

The apparent retention rates illustrated below show the percentage of students who continued to Years 10, 11 or 12 in 1985 from their respective cohort groups at the commencement of their secondary schooling (e.g. Year 10 in 1985 retained 92 per cent of students who commenced Year 7 in N.S.W., Vic., Tas. and A.C.T. in 1982 and Year 8 in Qld, W.A., S.A. and N.T. in 1983, representing the first year of their secondary schooling). For further explanation of *apparent retention rates*, see Explanatory Notes, paragraphs 19 and 20.

GOVERNMENT

Each figure represents 10 per cent of the base population

NON-GOVERNMENT

Each figure represents 10 per cent of the base population

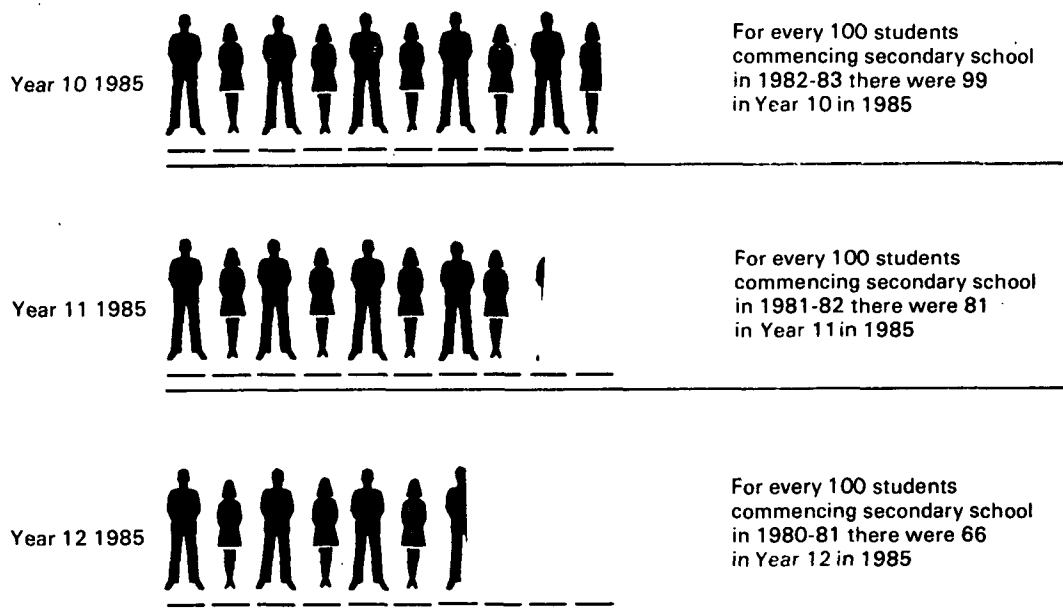

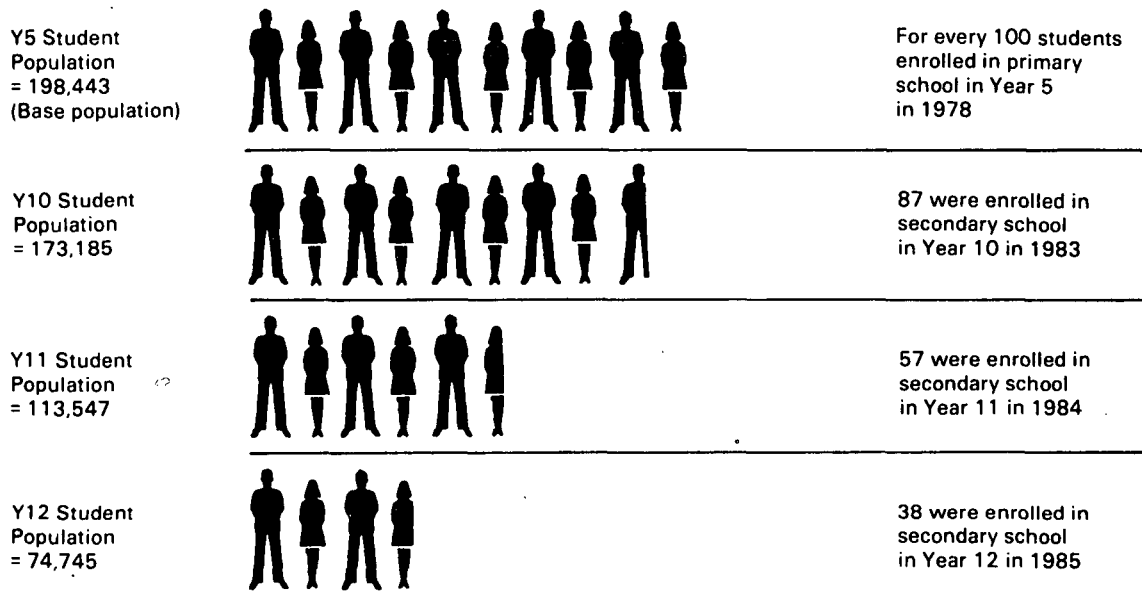

DIAGRAM 4. APPARENT RETENTION RATES OF YEAR 5 PRIMARY SCHOOL STUDENT COHORTS IN 1978 THROUGH TO YEAR 12 IN 1985 BY CATEGORY OF SCHOOL, AUSTRALIA

The apparent retention rates illustrated below are measures of the tendencies of members of the student cohort groups in Year 5 of primary school in 1978 to continue at school until their final grade of secondary school (Year 12 in 1985), by category of school attended. The diagram illustrates the effect of inter-sector movement of students in the transition from primary to secondary schooling, particularly on non-government school retention rates. However, other factors affecting retention rates are not apparent from the diagram. See Explanatory Notes, paragraphs 19 and 20 for further details.

GOVERNMENT

Each figure represents 10 per cent of the base population

NON-GOVERNMENT

Each figure represents 10 per cent of the base population

(a) See Explanatory Notes, paragraph 27, for details of the calculation of FTE. Since FTE figures have been rounded, discrepancies may occur between the sums of component items and totals. (b) A change in collection methodology for 1985 in Victoria resulted in the inclusion of approximately 3,000 non-teaching staff and their FTE not previously counted.

(a) See Explanatory Notes, paragraph 27, for details of the calculation of FTE. Since FTE figures have been rounded, discrepancies may occur between the sums of component items and totals. (b) A change in collection methodology for 1985 in Victoria resulted in the inclusion of approximately 3,000 non-teaching staff and their FTE not previously counted.

(a) See Explanatory Notes, paragraph 27, for details of the calculation of FTE. Since FTE figures have been rounded, discrepancies may occur between the sums of component items and totals. (b) A change in collection methodology for 1985 in Victoria resulted in the inclusion of approximately 3,000 non-teaching staff not previously counted. (c) Number of school staff for Queensland for 1983 and 1984 excludes teacher aides, for whom only FTE could be provided.

Note: No comparable table has been produced for the non-government sector as figures were not available for non-school staff.
