PREFACE.

The Annual Statement of the Trade of the Commonwealth of Australia with other countries, and of the Customs and Excise Revenue, for the year 1913, has been compiled from documents acquired under the Customs Act and supplied to the Commonwealth Bureau of Census and Statistics by the Department of Trade and Customs.

In the Tables of Imports and Exports herein, commodities of analogous character have been brought together under categories in accordance with a Statistical Classification specially designed to this end. This will be found, together with an extensive Alphabetical Index, in Table I., page 7 (Imports); and Table III., page 251 (Exports).

In Table XXII. of this issue, a statement is given shewing the trade of the Commonwealth with the East Indies as a whole, instead of with Java only, as in former years. A similar statement is given for the whole of the Pacific Islands (British and Foreign) in addition to the statements of the trade with particular Islands or groups of Islands.

G. H. KNIBBS,
Commonwealth Statistician.

Commonwealth Bureau of Census and Statistics,
Melbourne, 1st September, 1914.

ERRATUM.

Since the printing of the Tables relating to Exports, it has been notified that 583,200 gallons of Whale Oil, of Australian Origin, valued at £48,000, exported from New South Wales to the United Kingdom, were omitted from the returns. The value of Item 255, page 325, and all totals affected, must, therefore, be increased by £48,000.

IMPORTS

INTO

THE COMMONWEALTH OF AUSTRALIA DURING 1913.

Value of Imports.—The value of goods imported from Countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, the values only have been inserted.

N.E.I. means "not elsewhere included."

Import Duties.—The Duties charged on Imports into the Commonwealth of Australia were collected under the *Customs Tariff* 1908–1911 (Acts No. 7 and No. 13 of 1908, No. 39 of 1910, and No. 19 of 1911), and the *Customs Tariff* 1906 (South African Preference), No. 17 of 1906.

Classification of Items.—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7.

EXPORTS

FROM

THE COMMONWEALTH OF AUSTRALIA DURING 1913.

Value of Exports.—The value of goods exported is the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured in Australia from imported materials are shewn under the heading "Australian Produce."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports have been declared in packages without an indication being given of the number, capacity, or weight of the articles exported, only the values have been inserted.

Ships' Stores.—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board oversea ships, have not been included in Exports. For Ships' Stores see Table VI.

N.E.I.—Means "not elsewhere included."

Exporting States.—In this Table the value of goods transferred from one State of the Commonwealth to another State thereof, for shipment to oversea countries is shown as an export from the State from which the goods were finally despatched.

Classification of Articles.—The position of any item in the following table will be found on reference to the Alphabetical Index on page 251.

‡ The increase in this Division is mainly due to changes in the Tariff Classification whereby articles which, under the Tariff of 1902, were included in other Divisions, have, under the Tariff of 1908, been transferred to Division XVI. The principal articles affected are "Manures" (transferred from Division IV.), and "Minor Articles for use in the manufacture of goods" (transferred from Division V., X., XII., and XIV.).

* The figures given in this Summary represent the gross Exports of Australian produce from each State, *i.e.*, the whole of such goods shipped oversea direct from each State. Owing to the abandonment by the Customs Department, in September, 1910, of the records of inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transhipment to an oversea country.

† Included in South Australia.

Classified List of Articles of Foreign Produce Re-exported (exclusive of Ships' Stores) from the Commonwealth of Australia, 1909-1913.

* The figures given in this Summary represent the gross Re-exports from each State, i.e., the whole of such goods shipped overseas direct from each State. Owing to the abandonment by the Customs Department, in September, 1910, of the records of inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transhipment to an overseas country. † Included in South Australia.

* The figures given in this Summary represent the gross exports from each State, i.e., the whole of the goods shipped oversea direct from each State. Owing to the abandonment by the Customs Department in September, 1910, of the records of Inter-State trade, it is no longer possible to make any adjustment on account of goods transferred from one State to another for transshipment to an oversea country. † Included in South Australia.

* The smaller quantity of Spirits on which Excise Duty was paid during 1908, was due to the provisions of the Excise (Spirits) Act 1906, which required that, from the 1st January, 1908, Spirits (other than Gin, Geneva, Hollands, Schnapps, or Liqueurs), distilled in Australia, should be matured in wood for two years.

† The rates on these goods varied, owing to the passage of a new Tariff through Parliament in this year.
