# IMPORTS

INTO

## THE COMMONWEALTH OF AUSTRALIA DURING 1920-21 AND 1921-22.

**Value of Imports.**—The value of goods imported from Countries beyond Australia represents the amount on which duty is payable or would be payable if the duty were *ad valorem*. The value of goods subject to duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

**Quantities.**—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where the cental is used the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, the values only have been inserted.

**N.E.I.** means "not elsewhere included."

**Import Duties.**—The duties charged on Imports into the Commonwealth of Australia during the year 1921-22 were collected in accordance with the Tariff Schedule which was placed on the Table of the House of Representatives on the 25th March, 1920, and which, with amendments, subsequently became the Customs Tariff, 1921 (Act No. 25 of 1921, assented to 16th December, 1921).

**Extra Duty.**—The amounts shown under the heading "Rate of Duty and Gross Amount Received" as "extra duty" are amounts which were lodged on deposit pending the ratification of higher duties, paid into Trust Funds, and brought to revenue at a later date.

**Classification of Items.**—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 5. The items in the table are shown according to the Statistical Classification of Imports. In all cases where there was no import of a classified item during the year the classification number has been omitted.

# EXPORTS

FROM

## THE COMMONWEALTH OF AUSTRALIA DURING 1921-22.

**Value of Exports.**—The value of goods exported is, generally, the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term. Some modification of this practice has, however, been necessary in consequence of the policy of price fixing arising from the war.

**Exports—Australian Produce.**—Articles which were partly or entirely manufactured in Australia from imported materials are shown under the heading "Australian Produce."

**Ships' Stores.**—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board oversea ships, have not been included in Exports. For Ships' Stores see Table VI.

**N.E.I.**—Means "not elsewhere included."

**Exporting States.**—In this Table the value of goods transferred from one State of the Commonwealth to another State thereof, for shipment to oversea countries, is shown as an export from the State from which the goods were finally despatched.

**Classification of Articles.**—The position of any item in the following table will be found on reference to the Alphabetical Index on page 289. The items in the Table are shown according to the Statistical Classification of Exports. In all cases where there was no export of a classified item during the year, the Classification number has been omitted from the table.
