PREFACE.

The Annual Statement of the Oversea Trade of the Commonwealth of Australia with other countries, and of the Customs and Excise Revenue, for the year 1922-23, has been compiled from documents acquired under the Customs Act and supplied to the Commonwealth Bureau of Census and Statistics by the Department of Trade and Customs.

In order to meet the demand for more detailed information relating to Imports and Exports, a conference between officers of the Department of Trade and Customs and a representative from this Bureau was held during the early part of 1922. As a result of the conference, the Statistical Classification of Imports and Exports was revised and considerably extended. Provision was made for recording particulars concerning over 500 additional Import items, while the number of Export items was also increased. The new classification is divided into 21 classes, with 1,453 separate Import items and 505 Export items. The particulars in this Bulletin are shown in accordance with the revised classification. An extensive Alphabetical Index of Imports is given in Table I (page 7); and of Exports in Table III. (page 477).

My best thanks are due to the officers of the Department of Trade and Customs for the prompt supply of the data required for the preparation of this Bulletin, and for their courteous response to numerous inquiries arising from time to time in the course of compilation. I am especially indebted to Mr. H. J. Petrie, the Supervisor of Trade Statistics in this Bureau, for the care and attention which he has given to the compilation of this Bulletin, and to the work of seeing it through the Press, and also to the staff under his control for their cordial co-operation.

CHAS. H. WICKENS,
Commonwealth Statistician.

IMPORTS

INTO

THE COMMONWEALTH OF AUSTRALIA DURING 1921-22 AND 1922-23.

Value of Imports.—The value of goods imported from Countries beyond Australia represents the amount on which duty is payable or would be payable if the duty were *ad valorem*. Section 154 (1) of the *Customs Act* 1901-1922 provides that “when any duty is imposed according to value, the value for duty shall be the sum of the following:—

- (a) (i) the actual money price paid or to be paid for the goods by the Australian importer plus any special deduction, or
- (ii) the current domestic value of the goods, whichever is the higher;
- (b) all charges payable or ordinarily payable for placing the goods free on board at the port of export; and
- (c) ten per centum of the amounts specified under paragraphs (a) and (b) of this sub-section.”

“Current domestic value” is defined as “the amount for which the seller of the goods to the purchaser in Australia is selling or would be prepared to sell for cash, at the date of exportation of these goods, the same quantity of identically similar goods to any and every purchaser in the country of export for consumption in that country.”

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where the cental is used the unit equals 100 pounds avoirdupois. Where imports have been declared in packages without an indication being given of the number, capacity, or weight of the articles imported, the values only have been inserted.

N.E.I. means “not elsewhere included.”

Import Duties.—The duties charged on Imports into the Commonwealth of Australia during the year 1922-23 were collected in accordance with the Tariff Schedule which was placed on the Table of the House of Representatives on the 25th March, 1920, and which, with amendments, subsequently became the Customs Tariff, 1921 (Act No. 25 of 1921, assented to 16th December, 1921). Amendments to the Customs Tariff 1921 were made in Acts No. 16 and 32 of 1922, and the Principal Act, as amended by these Acts, is known as the Customs Tariff 1921-1922. During the year special duties on certain imports have been charged under the provisions of the Customs Tariff (Industries Preservation) Act (No. 28 of 1921).

Extra Duty.—The amounts shown under the heading “Rate of Duty and Gross Amount Received” as “extra duty” are amounts which were lodged on deposit pending the ratification of higher duties, paid into Trust Funds, and brought to revenue at a later date.

Classification of Items.—In the following table commodities of analogous character have been arranged under categories. The position of any item will be readily found by reference to the alphabetical index on page 7. The items in the table are shown according to the revised Statistical Classification of Imports which came into operation on 1st July, 1922. Comparative figures for the two years are shown against all items which were common to the superseded and revised classifications. Separate particulars relating to the imports of a large number of new items have been recorded since 1st July, 1922. Comparative figures for the year 1921-22 are not available for these new items, but in the table reference is made to the headings under which these items were previously recorded. In all cases where there was no import of a classified item during the year the classification number has been omitted.

EXPORTS

FROM

THE COMMONWEALTH OF AUSTRALIA DURING 1922-23.

Value of Exports.—The value of goods exported is, generally, the value in the principal markets of the Commonwealth in the ordinary commercial acceptance of the term.

Exports.—Goods exported from Australia are shown under two headings—"Australian Produce" and "Other Produce."

"Australian Produce" comprises—

- (i) Raw materials produced in Australia.
- (ii) Articles manufactured therefrom.
- (iii) Articles wholly or partly manufactured in Australia from imported materials.

"Other Produce" represents the re-export of articles produced elsewhere than in Australia.

Ships' Stores.—Since the 1st January, 1906, goods shipped as Ships' Stores in Australian Ports, on board overseas ships, have not been included in Exports. For Ships' Stores see Table VI.

N.E.I.—Means "not elsewhere included."

Exporting States.—In this Table goods transferred from one State of the Commonwealth to another State thereof, for shipment to overseas countries, are shown as exports from the State from which the goods were finally despatched.

Classification of Articles.—The position of any item in the following table will be found on reference to the Alphabetical Index on page 477. The items in the Table are shown according to the revised Statistical Classification of Exports which came into operation on 1st July, 1922. In all cases where there was no export of a classified item during the year, the Classification number has been omitted from the table.
