Total	396	11	345	45	388	64	1 749

(a) The figures relating to mining accidents do not in all cases correspond with those published by the State Mines Departments, the discrepancies being partly due to the fact that accidents occurring in certain metallurgical works and quarries are not included in the figures issued by the Mines Departments, and partly to the lack of uniformity regarding the definition of a non-fatal accident. (b) Complete reports of non-fatal accidents are not available. (c) Includes quarries, brick and clay pits, &c. (d) Includes accidents reported by Chief Inspectors of Factories in States other than New South Wales as having occurred in ore-dressing, smelting and metallurgical works.

During the year 1948, 29 fatal mining accidents occurred below ground in Australia as compared with 14 above ground. Fatal accidents in metalliferous mines in 1948 numbered 25 as against 18 in coalmines. The number of non-fatal mining accidents below ground was 1,237 and above ground 512.

CHAPTER V.—ASSOCIATIONS.

§ 1. Labour Organizations.

1. General.—In Labour Report No. 2 an outline was given of the method adopted to ascertain the number of members of labour organizations in Australia, and tabulated results up to the end of 1912 were included. From the beginning of 1913 quarterly returns were obtained from a considerable number of trade unions, both as to membership and unemployment, and these were supplemented at the end of each year by special inquiries as to the membership of those unions which, owing to the nature of the callings and industries covered, were unable to furnish quarterly unemployment returns. The following pages show the general situation in regard to the trades union movement in Australia at present, and its development since 1939. The affairs of single unions are not disclosed in the published results and this has assisted in securing complete information. The Bureau is greatly indebted to the secretaries of trade unions for their cordial co-operation in regard to the supply of information.

In this chapter figures for the years 1945 to 1948 are compared with 1939. Particulars for earlier years will be found in preceding issues of the Labour Report.

2. Trade Unions and Branches—Number and Membership, 1939 and 1945 to 1948—The following table gives particulars of the number of separate unions and branches with the number of members at the end of the years 1939 and 1945 to 1948:—

Trade Unions : Branches and Membership.

(a) Allowing for interstate duplication. The figures represent the number of distinct organizations and interstate groups of organizations. They do not represent the total number of organizations which are practically independent and self-governing (see following remarks). (b) Includes not only branches of separate State unions and sub-branches in each State of interstate unions, but also head State branches of interstate unions. (c) On preceding year.

NOTE.—Minus sign (—) denotes decrease.

The types of trade unions in Australia vary greatly, and range from the small independent association to the large interstate organization, which, in its turn, may be a branch of an international union. Broadly speaking, there are four distinct classes of labour organizations:—(i) the local independent; (ii) the State; (iii) the interstate; and (iv) the Australasian or international.

In the table just given, under the heading "Number of Separate Unions," each union represented in a State is counted once only, regardless of the number of branches in that State. In the total number of separate unions in each State (see last column but one), it is obvious that there will be duplication in the case of interstate and similar unions, since each such union is counted once in each State in which it is represented by a Branch. The figures in the last column, therefore, have been obtained by making due allowance for this duplication.

3. Trade Unions—Industrial Groups, 1939 and 1945 to 1948.—The following table gives the number and membership of trade unions in Australia in industrial groups at the end of the years 1945 to 1948 compared with 1939.

Trade Unions: Industrial Groups, Australia.

(a) Allowing for interstate duplication.

4. Trade Unions: Numbers of Male and Female Members and Percentage on Total Wage and Salary Earners.—(i) States, 1948.—Prior to 1939 the numbers of male and female wage and salary earners (including unemployed) aged 20 years and over were estimated by increasing the numbers of such persons enumerated at the 1933 Census in ratio to the annual increases in males and females aged 20 to 64 years. Similarly, for wage and salary earners (including unemployed) under 20 years the numbers of such persons at the 1933 Census were increased in ratio to the annual increases in males and females 15 to 19 years. Further, allowance was made for (a) increase in the proportion of females who became wage and salary earners and (b) youths and girls who were without occupation but were not recorded in the wage-earning group at the 1933 Census. While the foregoing method of estimation would produce fairly accurate results during normal times, the drastically altered conditions of employment over the period of the recent war necessitated the adoption of more direct methods.

Since 1939, therefore, the estimates are based on data obtained largely from the National Register of July, 1939, the Civilian Register of June, 1943, the Occupation Survey of June, 1945, records of Defence Forces and the 1947 Census. The estimated numbers of wage and salary earners for these years include (a) estimated numbers of wage earners enlisted in the Defence Forces and (b) persons who were "not gainfully occupied" before the outbreak of war, but who subsequently entered wage-earning employment and (c) persons who in normal times would be occupied in their own business but undertook wage and salary earning employment during the war and immediate post-war period.

The following table shows for each State the number of males, females and persons who are members of trade unions and the percentage of all adult wage and salary earners who are members of unions. The estimated number of wage and salary earners includes all persons 20 years of age and over in receipt of wages or salary, as well as those unemployed, and therefore embraces a large number of adults who are not eligible for membership of any trade union, such as certain persons employed in professional occupations, as well as others who, while eligible for membership so far as the nature of their trade or occupation is concerned, do not reside in a locality which is covered by any union devoted to their particular trade or occupation. Moreover, the age at which persons are eligible for membership varies in different unions. The census results are classified in five-yearly age groups, and age 20 years is taken as approximating to the age of admission to membership. A line has also been added showing the estimated numbers of "junior" workers under 20 years of age.

Trade Unions: Number of Male and Female Members, and Percentage on Total Wage and Salary Earners(a), States, 1948.

PERCENTAGE ON TOTAL MEMBERSHIP.											
1939 ..	62.1	9.5	14.7	6.5	4.0	1.1	0.8	0.8	0.3	0.2	100.0
1945 ..	70.2	10.4	9.4	5.3	2.2	0.9	0.7	0.5	0.3	0.1	100.0
1946 ..	69.7	11.4	9.7	4.9	2.1	0.8	0.6	0.5	0.2	0.1	100.0
1947 ..	70.5	13.3	8.7	3.7	2.0	0.7	0.4	0.4	0.2	0.1	100.0
1948 ..	71.6	12.9	8.2	3.8	1.9	0.7	0.4	0.3	0.1	0.1	100.0

In the last part of the preceding table the percentage which the membership in each group bears to the total membership of all groups is given. The tendency towards closer organization is evidenced by the fact

that although membership of trade unions has increased since 1912 by 229 per cent., the number of unions having less than 2,000 members has considerably decreased, namely, from 360 to 222. In 1948, 7.4 per cent. of trade union members belonged to unions having less than 2,000 members as compared with 13.7 per cent. in 1939 and 28.1 per cent. in 1912.

6. **Interstate or Federated Trade Unions.**—The following table gives particulars regarding number and membership of interstate or federated trade unions having branches in two or more States. The figures include interstate unions registered under the Commonwealth Conciliation and Arbitration Act, as well as federated unions which are not so registered :—

Interstate or Federated Trade Unions: Number and Membership.

PARTICULARS.	UNIONS OPERATING IN—					TOTAL.

(a) Certain unions in this group have, in addition to branches in each of the six States, branches in the Northern Territory and in the Australian Capital Territory.

The number of organizations operating in two or more States has increased from 72 in 1912 to 118 in 1948, and the percentage of the membership of such organizations on the total membership of all organizations has risen from 65 per cent. to 88 per cent. during the same period.

7. **Central Labour Organizations.**—In each of the capital cities, as well as in a number of other industrial centres, delegate organizations, consisting of representatives from a group of trade unions, have been established. Their revenue is raised by means of a *per capita* tax on the members of each affiliated union. In the majority of the towns where such central organizations exist, most of the local unions are affiliated with the central organization, which is usually known as the Labour or the Trades Hall Council, or the Labour Federation. In Western Australia a unified system of organization extends over the industrial centres throughout the State, and there is a provincial branch of the Australian Labour Party, having a central council and executive, and metropolitan and branch district councils to which the local bodies are affiliated. The central council, on which all district councils are represented, meets periodically. In the other States, however, the organization is not so close, and though provision usually exists in the rules of the central council in the capital city of each State for the organization of district councils, or for the representation on the central council of the local councils in the smaller industrial centres of the State, the councils in each State are, as a matter of fact, independent bodies. The following table gives the number of metropolitan and district or local labour councils, together with the number of unions and branches of unions affiliated therewith, in each State at the end of the years 1939 and 1945 to 1948.

Central Labour Organizations: Number, and Branch Unions Affiliated.

	1948 ..	268	274	151	141	314	90	19	1,257

The figures regarding number of unions do not necessarily represent separate unions, since the branches of a large union may be affiliated with the local trades councils in the several towns in which they are represented.

Between the trade union and the central organization of unions may be classed certain State or district councils organized on trade lines and composed of delegates from separate unions whose member's interests are closely connected by reason of their occupations. Delegate councils of bakers, bread carters and mill employees, or of unions connected directly or indirectly with the metal trades, or with the building trades, may be so classed.

A Central Labour Organization, called the Australasian Council of Trade Unions, came into being during 1927. The Council was created to function on behalf of the Trade Unions of Australia, and was founded at an All-Australian Trade Union Congress held in Melbourne in May, 1927. The Australasian Council is based on the Metropolitan Trades and Labour Councils in each State, such bodies having the right to appoint two representatives to act on the Executive of the Council. In addition to the representatives from the Metropolitan Councils, the Executive consists of four officers, viz., the President, two Vice-Presidents, and a Secretary, who are elected by and from the All-Australian Trade Union Congress.

The objective of the Council is the socialization of industry, i.e., production, distribution and exchange. The methods to be adopted are:— (a) The closer organization of the workers by the transformation of the Australian Trade Union Movement from the craft to an industrial basis by the establishment of one Union in each industry; (b) the consolidation of the Australasian Labour Movement with the object of unified control, administration, and action; (c) the centralized control of industrial disputes; and (d) educational propaganda among Unions.

The A.C.T.U. is the first interstate body in Australia with authority to deal with industrial matters of an interstate character affecting the Trade Union movement generally. It is also the body responsible for submitting the names of suitable persons from which the Commonwealth Government selects the Australian Workers' delegate to the Annual International Labour Conference.

8. Organizations Registered under Commonwealth Conciliation and Arbitration Act.—Under Part V. of the Commonwealth Conciliation and Arbitration Act any employer or association of employers in any industry who has employed not less than 100 employees during six months preceding

application for registration, and any association of not less than 100 employees in any industry may be registered.* Registered unions include both interstate associations and associations operating within one State only.

Early in 1949 the number of employers' organizations registered under the provisions of the Act was 48. The number of unions registered early in 1949 was 163, with a membership of approximately 1,286,942 representing 90 per cent. of the total membership of all trade unions in Australia.

§ 2. International Labour Organization.

1. General.—The International Labour Organization originated in the Peace Treaty of 1919 which made provision for the holding of International Labour Conferences and the institution of the International Labour Office. In the inter-war period, the International Labour Organization was an autonomous associate of the League of Nations, and in 1946 became the first of the specialized agencies of the United Nations. Under the terms of agreement, the United Nations recognizes the International Labour Organization as a specialized agency having responsibility in the field defined by its Constitution which embraces labour conditions, industrial relations, employment organization, social security, and other aspects of social policy. The Organization has three basic parts. These are the International Labour Conference, its highest authority, which, as a rule, meets annually; the Governing Body, its executive council which usually meets four times a year; and the International Labour Office which provides the secretariat of the Organization. The Conference is composed of national delegations comprising two government delegates and one delegate each of employers and workers, together with their advisers. The Governing Body comprises the representatives of sixteen governments, eight worker members and eight employer members. Particulars are given in previous Labour Reports of the proceedings at International Labour Conferences up to the 30th Session which opened in Geneva on 19th June, 1947.

2. The 31st Session.—The 31st Session of the International Labour Conference was held in San Francisco, United States of America, during the period 17th June to 16th July, 1948. The President of the Conference was M. Justin Goddard, Government Delegate for France.

The Australian Delegation comprised the following—Government Delegates: Hon. Norman Makin, Australian Ambassador to the United States of America, and Mr. H. A. Bland; Government Advisers: Messrs. A. H. Tange, E. K. Smart and K. W. Pring; Employers' Delegate: Mr. R. C. Wilson; and Workers' Delegate: Mr. A. A. Drummond.

The Conference adopted four Conventions, a Recommendation and an Instrument for the amendment of the Schedule to the Labour Standards (Non-metropolitan Territories) Convention (1947). The Conventions and Recommendation adopted were—Convention No. 87 concerning Freedom of Association and Protection of the Rights to Organize; Convention No. 88 concerning Organization of the Employment Service; Convention No. 89 concerning Night Work of Women Employed in Industry (revised 1948); Convention No. 90 concerning Night Work of Young Persons Employed in Industry (revised 1948); Recommendation No. 83 concerning Organization of the Employment Service.

The Conference, at which 51 members were represented, elected the Australian Government to membership of the Governing Body for a further three years.

* Under the Arbitration (Public Service) Act an association of less than 100 employees may be registered as an organization, provided that its members comprise at least three-fifths of all persons engaged in that industry in the Service.

Mr. Albert Monk, then General Secretary of the Australasian Council of Trade Unions was re-elected as one of the eight workers' representatives on the Government Body for the same period.

3. The 32nd Session.—The 32nd Session of the International Labour Conference was held at Geneva from 4th June to 2nd July, 1949.

The Australian Delegation comprised the following—Government Delegates: Dr. E. R. Walker, Economic Counsellor for Europe, and Mr. D. G. Apsley, Department of Labour and National Service; Government Advisers: Messrs. C. H. Bellemore, P. Lawrence and J. W. Cumes; Workers' Delegate: Mr. J. P. Walsh; Workers' Adviser: Mr. A. E. McNulty; Employers' Delegate: Commander Lionel Robinson, M.V.O., D.S.C. and Mr. F. J. R. Gibson, Employers' Adviser.

The Conference adopted the following Conventions and Recommendation—Convention No. 91 concerning Vacation Holidays with pay for Seafarers (revised 1949), Convention No. 92 concerning Crew Accommodation On Board Ship (revised 1949); Convention No. 93 concerning Wages, Hours of Work On Board Ship and Manning (revised 1949); Convention No. 94 concerning Labour Clauses in Public Contracts; Convention No. 95 concerning the Protection of Wages; Convention No. 96 concerning Fee-charging Employment Agencies (revised 1949); Convention No. 97 concerning Migration for Employment (revised 1949); Convention No. 98 concerning the Application of the Principles of the Right to Organize and to Bargain Collectively; and Recommendation No. 84 concerning Labour Clauses in Public Contracts.

4. Governing Body—Since 1946, the Governing Body has met in its 101st to 109th Sessions. The Australian Government was represented by Dr. E. R. Walker at the 101st, 102nd, 104th, 108th and 109th Sessions, by Mr. Mighell, Deputy Australian High Commissioner in the United Kingdom at the 103rd, and by Mr. E. R. Heyward of the Department of External Affairs at the 107th. All of these sessions were held at Geneva. At the 105th and 106th Sessions which met at San Francisco, Australian Government Delegates were Mr. H. A. Bland, Assistant Secretary, Department of Labour and National Service, and Mr. N. J. O. Makin respectively.

(a) The rents are shown to the nearest penny. Revised series comparable only with averages published since December Quarter, 1936. See footnote (b) on page 10 and sub-paragraph (vi) on page 2 as to meaning of these averages. Rentals of new tenanted houses completed since the end of the war are not taken into account in the above table.

(b) Weighted Average.

SECTION III.

Average Retail Prices of Food in Principal Cities : Australia and Other Countries, 1948.

(Particulars extracted from Official Publications and Reports. Prices are in the currency of the country concerned.)

(b) Weighted average.

NOTE.—To convert "Court" Index (First Series) (Base = 87.0) to Second Series (Base = 87.0) multiply First Series by factor 1.0741 and to convert Second to First Series, multiply by factor 0.931.

SECTION V.

Minimum Rates of Wage for Adult Male Workers in the Main Occupations in the Capital City of each State for a Full Week's Work at 31st December, 1948.

NOTE.—These rates are quoted from the latest Awards, Determinations, or Agreements which were in force at 31st December, 1948. Where two or more Award, Determination, or Agreement Rates are quoted, the reason for such is that different rates of wage have been fixed for various classes or grades of work. In certain cases of this nature the wages are shown in the form (say) 129s. 0d. to 136s. 6d., indicating that in addition to the two rates specified there are also certain intermediate rates in force. In other cases the rates are shown in the form 117s. 0d. and 122s. 0d., indicating that there are only two minimum or standard rates in force for different classes or grades of work, and that there are no intermediate minimum or standard rates. Except where otherwise specified by a numerical prefix in small type, the hours of labour constituting a full week's work are 40. (See footnotes below).

(a) The index-numbers given in the separate columns of the table cannot be compared with each other in order to show, for example, the relative cost of housing, and food and groceries, since the cost in 1911 in each group or combination of groups is made equal to 1,000.

(b) See footnote (b) on page 10.

(c) Index of nominal weekly wage rates for adult males divided by "C" Series Retail Price Index-number.

(d) Taken back from true base (November, 1914) by means of the "A" Series Index (Food and Rent of All Houses).
