## SEPTEMBER QTR KEY POINTS

### DEMAND AND MOST OCCUPANCY RATES INCREASE

- All accommodation types recorded increases in demand in the September quarter 1995 compared with September quarter 1994. In particular, guest nights in visitor hostels increased by 13.8%, while room nights occupied in hotels, motels and guest houses rose by 6.1%. More modest demand rises of 1.6% and 0.6% respectively were recorded for unit nights occupied in holiday flats, units and houses and for site nights occupied in caravan parks.
- The bed occupancy rate for visitor hostels rose from 49.4% to 56.2% which was the highest September quarter result achieved since this accommodation type was first included in the Survey in 1991. For hotels, motels and guest houses, the room occupancy rate increased by 3.0 points to 60.2%, which was the highest September quarter rate recorded since 1988.
- Increased supply for holiday flats, units and houses exceeded the increase in demand and the unit occupancy rate fell marginally. For caravan parks, the site occupancy rate rose slightly.

### INCREASES IN TAKINGS FROM ACCOMMODATION

- All accommodation types recorded increases in takings from accommodation greater than occupancy demand increases. Average takings increased from \$87 to \$94 per room night occupied in hotels, motels and guest houses and from \$56 to \$61 per unit night occupied in holiday flats, units and houses.

(a) Statistical Local Areas are not shown separately in this table when data for them are confidential or nil. Data for these are aggregated and shown as the Balance of the particular Statistical Division. (b) Snow field resorts are included continuously as capacity (potentially) available irrespective of any off-season closures. The average occupancy rates of establishments in Snowy River (S) actually remaining open during the snow fields off season, therefore, are significantly higher than the overall rates published.

## INTRODUCTION

**1** This publication contains data for New South Wales from a quarterly survey of tourist accommodation establishments.

## SCOPE

**2** Tourist accommodation establishments currently included in the survey comprise two groups:

- Establishments which provide predominantly short-term accommodation (i.e. for periods of less than 2 months) to the general public. These include:
  - *Hotels, motels and guest houses, with facilities* being hotels licensed to operate a public bar and motels, private hotels and guest houses all of which provide a bath (or shower) and toilet in most guest rooms and have breakfast available for guests. NOTE: From December quarter 1993, hotel, motel and guest house establishments with fewer than five rooms have been formally excluded from the scope of this statistical collection.
  - *Holiday flats, units and houses* (excluding establishments predominantly operated on a time share basis) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short-term letting. They are mainly self-contained in terms of cooking, bath (or shower) and toilet facilities and do not have breakfast available for guests. Data for holiday flats, units and houses include short-term owner occupation as well as paying guest occupation.
  - *Visitor hostels* which provide accommodation to visitors on a bed basis (rather than by the room). This category does not include establishments providing charity type accommodation (e.g. Salvation Army hostels) nor hotels, motels and guest houses without in-room facilities which provide accommodation on a per room basis.
  - *Caravan parks* which provide either predominantly short-term (i.e. for periods of less than 2 months) or predominantly long-term (i.e. for periods of 2 months or more) accommodation to the general public and which provide powered sites for caravans and toilet, shower and laundry facilities for guests.

**3** Data collected and published for each type of establishment (other than holiday flats, units and houses) include both long-term and short-term guests at these establishments.

**4** Establishments which provide more than one type of accommodation (e.g. a motel with attached caravan park) are treated as two or more separate establishments. However, self-contained units, flats, cabins, etc. attached to hotels, motels or to caravan parks are included in the capacity for those establishments and not treated as separate holiday flat, unit or house establishments.

## AUSTRALIAN STANDARD GEOGRAPHICAL CLASSIFICATION

**5** Statistics presented in this publication have been classified according to the Australian Standard Geographic Classification (ASGC), Edition 2.5. This classification incorporates a number of hierarchic structures of geographic areas. The appropriate spatial units of the main structure of the ASGC used in this publication are defined as follows.

# EXPLANATORY NOTES

AUSTRALIAN STANDARD  
GEOGRAPHICAL CLASSIFICATION  
continued

STATISTICAL LOCAL AREAS (SLAs) are in most cases either identical with, or have been aggregated to, the previously published whole or part legal Local Government Areas (LGAs) as defined under the (State) Local Government Act 1919 and comprising cities (C) and, from 1 July 1994, areas (A) to replace previous municipalities (M) and shires (S). In other cases they are identical to each previously published unincorporated area. In aggregate, SLAs cover the whole of the State without gaps or overlaps. In some cases, legal LGAs overlap Statistical Subdivision boundaries and therefore comprise two SLAs (Part A and Part B) or three SLAs in the case of Cabonne (A) (Part A, Part B and Part C).

STATISTICAL SUBDIVISIONS (SSDs) consist of one or more SLAs and form the intermediate size spatial unit for the presentation of regional data.

STATISTICAL DIVISIONS (SDs) consist of one or more SSDs. The divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region, under the unifying influence of one or more major towns or cities.

For more detailed information, refer to the ASGC (1216.0).

Details of the grading scheme are contained in the RACV-RAASA members' publication <i>Accommodation Australia</i> , or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, half star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.
<b>Unit lettings</b>	The total number of times a holiday flat, unit or house was occupied by a new tenant, counted only on the first night it was occupied by the new tenant.
