

## DWELLING UNIT COMMENCEMENTS REPORTED BY APPROVING AUTHORITIES QUEENSLAND, JULY AND AUGUST 1995

### MAIN FEATURES

NUMBER OF DWELLING UNITS COMMENCED  
BY TYPE OF NEW RESIDENTIAL BUILDING

### Houses

- There were 2,053 new houses reported as commenced during July 1995 and 1,842 during August 1995. This total of 3,895 for the two months ended August 1995 was 31.8% lower than the same period in 1994. For the two months ended August 1995, there were 3,862 private sector houses reported as commenced in Queensland.

### New other residential buildings

- During July 1995 there were 707 new other residential buildings reported as commenced, while for August 1995 the total was 536. This total of 1,243 for the two months ended August 1995 was 67.6% lower than the same period in 1994. For the two months ended August 1995, there were 1,138 private sector other residential buildings reported as commenced in Queensland.

### Total dwellings

- There were 2,760 new dwelling units reported as commenced during July 1995 and 2,378 during August 1995. Brisbane City reported 2,356 dwelling unit commencements for the two months to August 1995.

**NOTE: (a)** This publication has been released with both the July 1995 and August 1995 data. A separate publication WILL NOT be released for July 1995.

**(b)** The statistics in this publication reflect the changes made to the ASGC spatial units from 1 July 1995. See paragraphs 10–15 of the explanatory notes for more detail.

### INQUIRIES

- for more information about statistics in this publication and the availability of related unpublished statistics, contact Damian Sparkes on Adelaide (08) 237 7590 or any ABS State Office.
- for information about other ABS statistics and services please contact Information Services on Brisbane (07) 222 6351, (fax (07) 229 6042) or write to Information Inquiries, Australian Bureau of Statistics (ABS), GPO Box 9817, Brisbane Qld 4001.

## EXPLANATORY NOTES

### Introduction

This publication contains monthly details of the number of new dwelling units reported by approving authorities as having commenced in each legal local government area.

### Scope and coverage

2. The statistics were compiled from monthly reports, provided by local and other government authorities, of commencements of new houses and new other residential buildings for which:

- (a) building permits were issued by local government or other government authorities in areas subject to building control by those authorities; and
- (b) contracts were let or day labour work was authorised by Commonwealth, State, semi-government and local government authorities.

3. Major dwelling unit commencements in areas not subject to the normal administrative approval processes (e.g. buildings on remote mine sites) are also included.

4. The number of dwelling units created by alterations and additions to existing buildings and through the construction of new non-residential buildings is not included.

### Comparability of statistics

5. Because of the difference in data sources, collection methodologies and timing of notification of commencements, care should be exercised in comparing quarterly data derived from monthly dwelling unit commencement statistics with the quarterly dwelling unit commencement statistics from the Building Activity Survey.

### Definitions

6. A *dwelling unit* is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long term residential use. Units (whether self-contained or not) within buildings offering institutional care, such as hospitals, or temporary accommodation e.g. motels, hostels and holiday apartments, are not defined as dwelling units.

7. A *residential building* is defined as a building predominantly consisting of one or more dwelling units. Residential buildings can be either houses or other residential buildings as follows:

- (a) A *house* is defined as a detached building predominantly used for long term residential purposes and consisting of only one dwelling unit. Thus, detached 'granny flats' and detached dwelling units (such as caretakers' residences) associated with non-residential buildings are defined as houses for the purpose of these statistics.
- (b) An *other residential building* is defined as a building which is predominantly used for long term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. includes townhouses, duplexes, apartment buildings etc.).

8. *Commencements.* For the purposes of this statistical series, a dwelling unit is regarded as being commenced on the date when:

- (a) the residential building is first inspected by a local authority or other government authority building inspector or surveyor, whether the work is passed or not; or
- (b) the residential building is determined as commenced by a building inspector or surveyor.

9. *Ownership* of a building is classified as either Public Sector or Private Sector according to the sector of the intended owner of the completed building as evident at the time of approval. Residential buildings being constructed by private sector builders under government housing authority schemes whereby the authority has contracted, or intends to contract, to purchase the buildings on or before completion, are classified as public sector.

### Australian Standard Geographical Classification (ASGC)

10. Area statistics are now being classified to the *Australian Standard Geographical Classification, Edition 2.5* (1216.0) and ASGC terminology has been adopted in the presentation of building statistics.

11. The legal local government area structure has been cross-classified with the statistical division level of the main structure. The use of this cross-classification requires the combination of the Brisbane and Moreton Statistical Divisions, as some legal local government areas cross the contiguous boundary of these two statistical divisions.

12. *Legal local government areas* (LGAs), as defined under the *Local Government Act 1936*, are spatial units which represent the geographical areas of incorporated local government councils, such as cities (C), towns (T) and shires (S).

13. *Statistical divisions*, which are groupings of whole or part of LGAs, are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region.

14. Statistical districts have been defined around selected urban areas to provide comparable statistics over a period of time. These districts, which are intended to contain the anticipated urban spread for at least 20 years, are generally defined as having a population of 25,000 or more and experiencing urban growth beyond the LGA boundaries.

15. From July 1995 the statistics reflect the changes made to the ASGC spatial units. A new City of Gold Coast, comprising the combined areas of the former Shire of Albert and the former City of Gold Coast, and including/excluding small parts of the Shire of Beaudesert has been created. A new City of Cairns, comprising the combined areas of the former City of Cairns, the former Mulgrave Shire, a small part of Douglas Shire, and small parts of Mareeba Shire has been created. Further details are:

- (a) The existing SLA's of Berrinba and Karawatha are being amalgamated to form the new SLA of Berrinba-Karawatha.
- (b) The existing SLA of Albert (S) Bal in BSD is being split and abolished, the major part forming the new SLA of Gold Coast (C) Bal in BSD and a very small part becoming part of the existing SLA of Beaudesert (S) Bal in BSD.
- (c) Part of the existing SLA of Beaudesert (S) Bal in BSD is being transferred to the new SLA of Gold Coast (S) Bal in BSD.

- (d) Part of the existing SLA of Beaudesert (S) – Pt B is being transferred to the new SLA of Gold Coast (S) – Pt B Bal. The existing SLA of Beaudesert (S) – Pt B is to also include parts of the existing SLA of Albert (S) – Pt B Bal.
- (e) The remaining portion of the existing SLA of Albert (S) – Pt B Bal has been renamed Gold Coast (C) – Pt B Bal.
- (f) The existing SLA's of Cairns (C) and Mulgrave (S) – Pt A are being amalgamated to form the new SLA of Cairns (C) – Pt A. The new SLA will also include parts of the existing SLA's of Douglas (S) and Mareeba (S).
- (g) The existing SLA of Mulgrave (S) – Pt B has been renamed Cairns (C) – Pt B.
- (h) The existing SLA of Ipswich (C) has been renamed Ipswich (C) – Central and a small part of Ipswich (C) has been transferred to the SLA of Wacol as well as small part of the SLA of Carole Park.
- (i) The boundary of the existing SLA of Camira has also been altered slightly to include part of the SLA of Greenbank – Pt B and the major part of the SLA of Carole Park, which has been abolished.
- (j) The existing SLA of Moreton (S) Bal in BSD – Nth has been renamed Ipswich (C) Bal in BSD – Nth. The new SLA also includes part of the old SLA of Moreton (S) – Pt B, and excludes part of the existing SLA of Moreton (S) Bal in BSD – Nth, which has been transferred to the existing SLA of Esk (S).
- (k) The existing SLA of Moreton (S) Bal in BSD – Sth has been renamed Ipswich (C) Bal in BSD – Sth.
- (l) The area covered by the existing SLA of Esk (S) has been enlarged to include parts of the old SLA's of Moreton (S) Bal in BSD – Nth and Moreton (S) – Pt B.
- (m) Those areas of the old SLA of Moreton (S) – Pt A not transferred to either the SLA's of Esk (S) or Ipswich (C) Bal in BSD – Nth now make up the new SLA of Ipswich (S) – Pt B. For further details, inquiries should be made to your local ABS office listed at the back of this publication.

#### Unpublished data

16. The ABS can also make available certain dwelling unit commencement data which are not published. Where it is not practicable to provide the required information by telephone, data can be provided in the following forms: microfiche, photocopy, computer printout and clerically extracted tabulation. A charge may be made for providing unpublished information in these forms.

#### Related publications

17. Other ABS publications which may be of interest include:

*Building Approvals, Australia* (8731.0) – Monthly  
*Building Approvals, Queensland* (8731.3) – Monthly  
*Building Activity, Australia: Dwelling Unit Commencements, Preliminary* (8750.0) – Quarterly  
*Building Activity, Queensland* (8752.3) – Quarterly

18. Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Release Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Release Advice are available from any ABS office.
