

CATALOGUE NO. 8741.4 EMBARGOED UNTIL 11.00 A.M. 8 MARCH 1996

# DWELLING UNIT COMMENCEMENTS REPORTED BY APPROVING AUTHORITIES SOUTH AUSTRALIA, DECEMBER 1995

#### MAIN FEATURES

- In December 1995 there were 515 new dwelling units reported as commenced in South Australia. Of these, 333 were private sector houses and 52 were public sector dwelling units.
- The Adelaide Statiscal Division (ASD) accounted for 353 of the new dwelling units commenced, while 162 were in the rest of the State.
- Within the ASD the councils that reported the most private sector house commencements were Tea Tree Gully (31), Munno Para (22) and Noarlunga with 20.
- Outside the ASD, the regions with the most private sector house commencements were, Mount Barker and Victor Harbor with 11. These were the only areas excluding the ASD to report more than 10 private sector house commencements in December.

### **EXPLANATORY NOTES**

# Introduction

This publication contains monthly details of the number of new dwelling units reported by approving authorities as having commenced. Data for selected statistical local areas are included.

#### Scope and coverage

- 2. The statistics were compiled from monthly reports, provided by local and other government authorities, of commencements of new houses and new other residential buildings for which:
  - (a) building permits were issued by local government or other government authorities in areas subject to building control by those authorities;
     and
  - (b) contracts were let or day labour work was authorised by Commonwealth, State, semi-government and local government authorities.

Major dwelling unit commencements in areas not subject to the normal administrative approval processes (e.g. buildings on remote mine sites) are also included.

3. The number of dwelling units created by alterations and additions to existing buildings and through the construction of new non-residential buildings is not included.

#### Comparability of statistics

4. Because of the difference in data sources, collection methodologies and timing of notification of commencements care should be exercised in comparing quarterly data derived from monthly dwelling unit commencement statistics with the quarterly dwelling unit commencement statistics from the Building Activity Survey.

#### **Definitions**

- 5. A dwelling unit is defined as a self-contained suite of rooms, including cooking and bathing facilities and intended for long term residential use. Units (whether self-contained or not) within buildings offering institutional care, such as hospitals, or temporary accommodation e.g. motels, hostels and holiday apartments, are not defined as dwelling units.
- 6. A residential building is defined as a building predominantly consisting of one or more dwelling units. Residential buildings can be either bouses or other residential buildings as follows:
  - (a) A *bouse* is defined as a detached building predominantly used for long term residential purposes and consisting of only one dwelling unit. Thus, detached 'granny flats' and detached dwelling units (such as caretakers' residences) associated with non-residential buildings are defined as houses for the purpose of these statistics.
  - (b) An other residential building is defined as a building which is predominantly used for long term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. includes townhouses, duplexes, apartment buildings etc.).
- 7. Commencements. For the purposes of this statistical series, a dwelling unit is regarded as being commenced on the date when:

#### **INQUIRIES**

- for more information about statistics in this publication and the availability of related unpublished statistics, contact Damian Sparkes on Adelaide (08) 237 7590 or any ABS State Office.
- for information about other ABS statistics and services please contact Information Services on Adelaide (08) 237 7100, call at 55 Currie Street, Adelaide, or write to Information Services, ABS, GPO Box 2272, Adelaide SA 5001.

- (a) the residential building is first inspected by a building inspector or surveyor, whether the work is passed or not. In general, the first inspection is undertaken at the foundations or footings stage of construction; or
- (b) the residential building is determined as commenced by a building inspector or surveyor.
- 8. Ownership of a building is classified as either Public Sector or Private Sector according to the sector of the intended owner of the completed building as evident at the time of approval. Residential buildings being constructed by private sector builders under government housing authority schemes whereby the authority has contracted, or intends to contract, to purchase the buildings on or before completion, are classified as public sector.

# Australian Standard Geographical Classification (ASGC)

9. Area statistics are now being classified to the Australian Standard Geographical Classification, Edition 2.5 (1216.0) and ASGC terminology has been adopted in the presentation of building statistics.

#### Unpublished data

10. The ABS can also make available certain dwelling unit commencement data which are not published. Where it is not practicable to provide the required information by telephone, data can be provided in the following forms: microfiche, photocopy, computer printout and clerically extracted tabulation. A charge may be made for providing unpublished information in these forms.

## Related publications

11. Other ABS publications which may be of interest include:

Building Approvals, Australia (8731.0) Building Approvals, South Australia (8731.4) Building Activity, Australia: Dwelling Unit Commencements, Preliminary (8750.0) Building Activity, South Australia (8752.4)

12. Current publications produced by the ABS are listed in the *Catalogue of Publications and Products*, *Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Release Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Release Advice are available from any ABS office.
