FORTHCOMING ISSUES	ISSUE	RELEASE DATE			
	September 2003 October 2003 November 2003 December 2003 January 2004 February 2004	 September 2003 October 2003 November 2003 December 2003 January 2004 February 2004 			
INTRODUCTION	1 This publication contains latest figures for a comprehensive range of economic indicators. Statistics shown in this publication are the latest available at the date of preparation and may be subject to revision in subsequent issues. Reference should therefore always be made to the latest issue or to the statistical publication on the specific subject.				
SEASONAL ADJUSTMENT AND TREND ESTIMATION	2 Seasonal adjustment is a means of removing the estimated effects of normal seasonal variation from the series so that the effects of other influences on the series can be more clearly recognised. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour.				
	3 The smoothing of seasonally adjusted series reduces the impact of the irregular components of the seasonally adjusted series and created trend estimates. These trend estimates are derived by applying a 13-to Henderson-weighted moving average to all months except the last six The last six monthly trend estimates are obtained by applying surrogator of the Henderson average to the seasonally adjusted series.				
	4 While this smoothing technique enables estimates to be produced for the latest month, it does result in revisions to the most recent months a additional observations become available. Generally, subsequent revisions become smaller and after 3 months have a negligible impact on the series.				
	impacts of The New 1 July 2000. Further	S data series will reflect significant and subsequent Tax System (TNTS), introduced in Australia from information can be found in <i>Information Paper: ABS</i> <i>w Tax System</i> (cat. no. 1358.0).

MAIN FEATURES

THE LABOUR FORCE	
Trend estimates	There were an estimated 221,600 persons (based on <i>trend</i> estimates) in the labour force in June 2003 and an estimated 378,000 civilian Tasmanians aged 15 years or more, yielding a labour force participation rate of 58.7%, compared to 57.9% in June 2002. The Australian labour force participation rate for June 2003 was 63.9%, an increase from the June 2002 estimate of 63.6% — see table 36 and <i>Labour Force, Australia</i> (cat. no. 6202.0).
	For Tasmanian males, the <i>trend</i> estimate of the participation rate was 66.6% in June 2003, compared to 65.9% in June 2002. For Tasmanian females, the <i>trend</i> estimate of the participation rate was 51.2% in June 2003, compared to 50.4% in June 2002 (see table 3).
EMPLOYMENT	
Trend estimates	The <i>trend</i> estimate of the total number of employed persons in Tasmania in June 2003 was 203,700, compared to 198,200 in June 2002, an

in June 2003 was 203,700, compared to 198,200 in June 2002, an increase of 2.8%. Employment over the same period increased in New South Wales by 2.0%, Victoria by 1.6%, Queensland by 3.3%, South Australia by 4.1% and Western Australia by 2.4%. The increase in the national employment figure over the same period was 2.2% — see table 36 and *Labour Force, Australia* (cat. no. 6202.0).

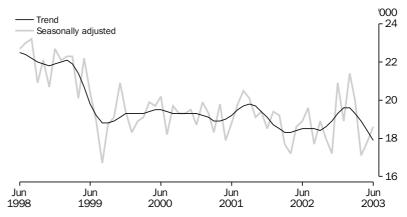

UNEMPLOYMENT

Trend estimates

The *trend* estimate of the number of unemployed persons in Tasmania for June 2003 was 17,900, compared to 18,500 in June 2002. The *trend* estimate of the unemployment rate for June 2003 was 8.1%, a decrease from the June 2002 figure of 8.5%. The Australian *trend* estimate of the unemployment rate was 6.1% in June 2003 compared to 6.3% in June 2002 — see table 3 and 36, and *Labour Force, Australia* (cat. no. 6202.0).

UNEMPLOYMENT, TASMANIA

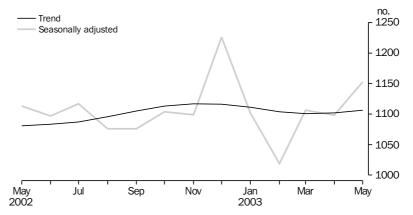

HOUSING FINANCE

Trend estimates

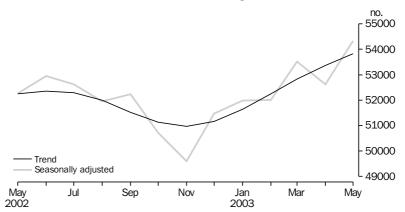

In *trend* terms, the number of housing finance commitments in Tasmania for May 2003 was 1,106, an increase of 0.4% from the previous month. In the same period, the *trend* estimate for Australia increased by 0.9%.

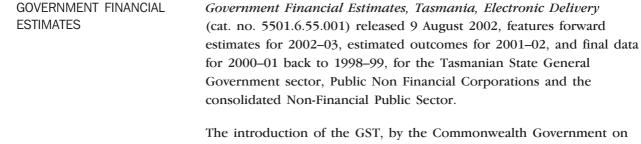

The Tasmanian *trend* series shows an increase of 2.3% between May 2002 and May 2003, while the national *trend* estimate increased by 3.0%. The changes in the number of housing finance commitments over the same period for the other states/territories were New South Wales (-2.9%), Victoria (1.1%), Queensland (11.9%), South Australia (6.9%), Western Australia (7.4%), Northern Territory (27.6%) and Australian Capital Territory (-6.9%) — see table 26 and *Housing Finance for Owner Occupation, Australia* (cat. no. 5609.0).

HOUSING FINANCE AUSTRALIA, Number of dwellings

1 July 2000, has seen the elimination of a number of state taxes and in particular the petroleum, liquor and tobacco franchise taxes from 1 July 2000. The decrease in state taxes was accompanied by increases in Commonwealth grants under the arrangements agreed to by the states and the Commonwealth. The abolition of Financial Institutions Duty and the Electricity Levy from 1 July 2001 further reduced state taxes for 2001–02. Collections from duty on conveyances peaked in the year ended 30 June 2002 because of the impact of the Commonwealth Government's grants for First Home Owners. Along with the abolition or reduction in other state taxes, the drop-off in the expected duties on conveyances resulted in state tax collections expected to be lower again in 2002–03.

Expenditure on new fixed assets by Public Non-Financial Corporations in the year ended 30 June 2002, increased dramatically due to the acquisition of the two new Bass Strait ferries at a total cost of \$290m. Increased spending on electricity infrastructure also contributed to the high figure. Capital expenditure for 2002–03 is expected to return to more normal levels.

BUILDING APPROVALS

Original terms There were 251 dwelling units approved during May 2003, including 186 new houses. This compares to 173 dwelling units approved during April 2003, including 146 new houses. The number of dwelling units approved increased 52.1% from the 165 approvals recorded in May 2002.

BUILDING APPROVALS continued	At current prices, the value of total building was \$49.2m in May 2003, which was 5.1% above the April 2003 figure of \$46.8m and 36.7% above the May 2002 figure of \$36.0m. Residential building contributed \$33.2m and non-residential building \$16.0m in May 2003 — see table 25 and <i>Building Approvals, Australia</i> (cat. no. 8731.0).
SALES OF NEW MOTOR VEHICLES	
Trend estimates	In <i>trend</i> terms, there were 1,466 new motor vehicles sold in June 2003, compared to 1,417 sold in May 2003. The number of new motor vehicles sold in June 2003 increased by 15.9% from the June 2002 figure of 1,265. Passenger vehicles represented 60.0% of all new vehicles sold in Tasmania in June 2003. Nationally, the <i>trend</i> estimate of new motor vehicles sold in June 2003 was 77,396, an increase of 11.9% from the June 2002 figure of 69,187 — see table 31 and <i>Sales of New Motor Vehicles, Australia</i> (Electronic Publication) (cat. no. 9314.0).
RETAIL	
Trend estimates	In <i>trend</i> terms, the estimate of retail turnover in Australia for May 2003 was \$14,797.7m, a 5.1% increase from the May 2002 estimate of \$14,083.8m. In <i>trend</i> terms, the estimate of retail turnover in Tasmania for May 2003 was \$305.3m, 4.8% above the figure recorded in May 2002 (\$291.3m) — see table 32 and <i>Retail Trade, Australia</i> (cat. no. 8501.0).
CAPITAL EXPENDITURE	
Original terms	In <i>original</i> terms, the estimate of total capital expenditure at current prices for Australia in the March quarter 2003 was \$11,655m, a 19.0% decrease from the December quarter estimate of \$14,395m. In <i>original</i> terms, the estimate of total capital expenditure at current prices for Tasmania in the March quarter 2003 was \$222m, a 17.2% decrease from the December quarter 2002 estimate of \$268m.
	For Tasmania in the March quarter 2003, the estimate for expenditure on buildings and structures increased by 32.7% and the estimate for expenditure on equipment, plant and machinery decreased by 30.0%. The estimates of expenditure by Mining and Manufacturing each increased in the March quarter — see table 27 and <i>Private New Capital Expenditure and Expected Expenditure</i> (cat. no. 5625.0).
LIVESTOCK SLAUGHTERING	
Trend estimates	In May 2003, the <i>trend</i> estimate for Tasmania for the number of cattle and calves slaughtered decreased by 5.2% over the previous month. Over the same period, the <i>trend</i> estimate for the number of sheep and lambs slaughtered increased by 4.5%, but the <i>trend</i> estimate for the number of pigs slaughtered fell by 4.9%.
	The <i>trend</i> estimate for the number of cattle and calves slaughtered in May 2003 was 20,400, up by 25.2% on the estimate for May 2002 and up by 11.8% on the estimate for May 2001.

LIVESTOCK SLAUGHTERING continued	The <i>trend</i> estimate for the number of sheep and lambs slaughtered in May 2003 was 72,500, up by 18.5% on the estimate for May 2002 and up by 24.2% on the estimate for May 2001.
	The <i>trend</i> estimate for the number of pigs slaughtered in May 2003 was 3,480, down by 14.6% on the estimate for May 2002 and down by 26.4% on the estimate for May 2001 (see table 21).
OVERSEAS TRADE	The value of Tasmania's exports for the month of May 2003 was \$232m, an increase of 13% on the month of April 2003. Australia's exports for May 2003 totalled \$9,041m, an increase of 4% on the previous month.
	Tasmania's major export destinations for the month of May 2003 were Japan (\$49.8m), Korea (\$16.7m) and Hong Kong (\$13.8m). Major commodity groups exported for the month were road vehicles and transport equipment (\$56.5m), non-ferrous metals (\$48.0m) and metallic ores and metal scrap (\$14.9m).
ESTABLISHED HOUSE PRICE INDEX	The Established House Price Index for Hobart increased by 6.7% in the March quarter of 2003, followed by Brisbane with 5.1%. Melbourne recorded the lowest quarterly increase (1.9%).

(a) Usual residents of Tasmania.

(b) Deaths of children under one year of age.

(c) Total fertility rate. The sum of age specific fertility rates (live births at each age of a mother per female population of that age). It represents the number of children a woman would bear during her lifetime if she experienced age-specific fertility rates at each age of her reproductive life.

(d) Standardised death rate. The overall death rate, per 1,000 persons, that would have prevailed in a standard population if it had experienced at each age the death rates of the population being studied. The standard population used in these calculations is all persons in the 1991 Australian population.

(e) Rate per 1,000 live births.

(f) Crude marriage rate is the number of marriages registered during the financial year, per 1,000 estimated resident population at 31 December of that year.

(a) Base of each index: September quarter 1997 = 100.0.

(b) These indexes are a measure of quarterly changes in wage and salary costs for employee jobs. They are one of four sets of indexes that together comprise the Wage Cost Index. For explanation of terms and concepts, refer to Wage Cost Index, Australia (cat. no. 6345.0).

(c) Industry is shown at the ANZSIC division level for selected divisions.

(d) Excludes Agriculture, forestry and fishing.

(a) Source: Australian Dairy Corporation.

(b) Includes the whole milk equivalent of farm cream intake.

(c) Includes butter equivalent of butter oil. From July 2002 the Australian Dairy Corporation advised that Factory butter production data are confidential.
 (d) Includes spinning, weaving and carpet making. Reported by establishments which manufacture textiles only, or manufacture clothing and textiles in the one plant.

(e) Metallurgical refining index (Base year: 1979–80 = 100.0). Output from selected establishments covering the smelting and refining of ferro-alloys, zinc and aluminium. The weighting pattern is based on the establishments' value added as derived from the 1979–80 manufacturing Census. For multi-product establishments, value added was apportioned to products on the basis of gross receipts from each product.

(a) A 'person entry' occurs whenever a visitor enters a National Park. Freycinet data, in particular, reflects repeat entries. Measurement occurs at the designated sites in brackets.

(b) Estimated through a combination of traffic and booth counts.

(c) As of July 2002, estimates of person entries is derived using traffic counts only. As a result, pre and post-July 2002 data are not strictly comparable.

(d) Estimated through traffic counts.

(e) Number of people taken on a guided tour.

(f) The sum of ferry arrivals only. From July 2000, excludes estimated plane passengers. Services disrupted during December 2002.

(a) Numbers include only walkers who registered and represented their intention.

(b) Sum of registrations at Cradle Mt and Lake St Clair.

(c) Sum of registrations to walk the length of the track in any direction, irrespective of starting point.

(d) All overnight walkers registered in the park.

(a) Excludes motor vehicles, parts, petrol, etc.

(b) ABS retail seasonally adjusted and trend estimates for earlier periods are revised each month. See Retail Trade, Australia (cat. no. 8501.0) for more details.

(c) Data from July 2000 reference month onwards are recorded inclusive of GST. See *Retail Trade, Australia* (cat. no. 8501.0) and page 2 of this publication for more details. A break in the trend series occurred between June and July 2000 because of the impact of The New Tax System on retail turnover.

(d) Includes Department stores and Other retailing.

Source: Retail Trade, Australia (cat. no. 8501.0).

(a) It is difficult to get a complete picture of Tasmania's trade performance as imports recorded by the ABS include only goods imported directly into the State from overseas, and reported by the Australian Customs Service. Many of Tasmania's goods imported for direct consumption, or input into further processing industries, arrive via interstate ports, and are not included in this table.

(b) Includes re-exports.

Hotels, motels & guest houses, & serviced apartments with facilities, — March quarter 2003 (%)	60.6	60.7	58.6	55.3	56.6	70.3	59.1
Australian National and State Accounts % change in Domestic (State) Final Demand(d), Chain Volume measures (trend series)							
December quarter 2002 to March quarter 2003	1.1	0.7	1.4	1.0	1.1	0.4	1.1
March quarter 2002 to March quarter 2003	4.9	4.5	7.1	6.0	6.3	3.8	5.4

(a) Australian totals include the ACT and NT, with the exception of Agriculture, which excludes both.

(b) CPI applies to state capitals.

(c) This data is new and replaces the Registration of New Motor Vehicles data. The Australian Bureau of Statistics is no longer collecting and disseminating statistics relating to the registration of new motor vehicles. For more information please refer to the Information Paper: Developments in New Motor Vehicle Statistics, 2001 (cat. no. 9313.0).

(d) Total of four types of expenditure: Private investment, Private consumption, Government investment, Government consumption.
