Note: The scope of the ABS quarterly Survey of Tourist Accommodation (STA) has changed since the December quarter 1997. Some units will have been reclassified and as a result, data will not be strictly comparable with previously published data for particular accommodation types.

From the March quarter 1998, only those in-scope establishments with 15 or more rooms or units are covered by the survey.

From the March quarter 1998, survey results are aggregated to Tourism Regions as defined by relevant State and Territory Tourist Commissions or equivalent organisations.

As part of the future collection strategy of the STA, significant caravan parks, visitor hostels and remaining holiday flats, units and houses will be surveyed triennially, commencing with a year 2000 reference year.

For more information regarding the changes to the STA and the data available from this collection, please refer to the ABS publication Catalogue No. 8635.0.

Note: The waterfront dispute which commenced on 7 April 1998 has been excluded from the industrial disputes statistics in this publication, because the industrial action that took place did not constitute an 'industrial dispute' as defined by the ABS for purposes of collecting and compiling these statistics.

In ABS industrial disputes statistics, an industrial dispute is defined as a withdrawal from work by a group of employees (i.e. a strike), or a refusal by an employer or a number of employers to permit some or all of their employees to work (i.e. a lockout), each withdrawal or refusal being made in order to enforce a demand, to resist a demand, or to express a grievance. That is, the statistics cover employee strikes and employer lockouts, but do not cover other action due to labour disputes. (See *Industrial Disputes, Australia*, cat no. 6321.0 Explanatory Notes and Glossary for more details.)
