**POPULATION  
WESTERN AUSTRALIA  
30 JUNE 1997**

**C.J. Nagle  
Regional Director**

**MAIN FEATURES**  
SUMMARY

- At 30 June 1997 the Estimated Resident Population of Western Australia was 1,798,129 persons, an increase of 32,873 or 1.86% from 30 June 1996.
- The population of the Perth Statistical Division increased by 23,882 persons (1.84%). The other main area of growth was the South West Statistical Division which increased by 4,847 persons (2.90%).
- Growth was also recorded in the South Eastern, Kimberley, Lower Great Southern, Pilbara, Central and Midlands Statistical Divisions, whereas the population of the Upper Great Southern Statistical Division dropped by 100 persons.

**ANNUAL GROWTH RATE - ESTIMATED RESIDENT POPULATION**  
**Statistical Divisions and Western Australia**  
**1996-97**

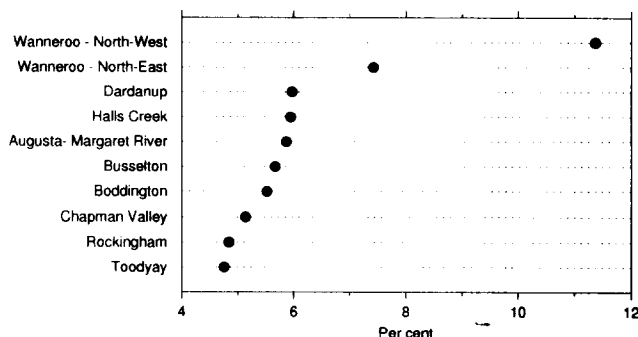

- The Statistical Local Areas (SLAs) with the greatest population growth were Swan (3,044), Rockingham (2,991), Wanneroo - North-West (2,029), Gosnells (1,756) and Mandurah (1,612). These five SLAs contributed 35% of the State's population increase.
- The SLAs with the greatest percentage increase in the population were Wanneroo - North-West (11.37%), Wanneroo - North-East (7.43%), Dardanup (5.98%), Halls Creek (5.95%), Augusta - Margaret River (5.87%), Busselton (5.67%) and Boddington (5.52%).
- Decreases were recorded in 53 SLAs in the State, with the largest fall being 98 in the Town of Northam. The largest percentage decrease occurred in the Shire of Tammin (5.51%).

PERTH STATISTICAL DIVISION

- The increase of 23,882 persons in the population of the Perth Statistical Division represents 72.65% of the total increase in the State population.
- The SLAs in the Perth Statistical Division with the greatest population increases were Swan (3,044 persons), Rockingham (2,991), Wanneroo - North-West (2,029), Gosnells (1,756) and Cockburn (1,603). These five SLAs contributed 48% of the population increase in the Perth Statistical Division.

**ANNUAL GROWTH RATE - ESTIMATED RESIDENT POPULATION  
Top Ten Statistical Local Areas  
1996-97**

REST OF THE STATE

- There were population increases in 14 of the 16 SLAs in the South West Statistical Division. Growth rates ranged from 5.98% in the Shire of Dardanup and 5.87% in the Shire of Augusta-Margaret River to minus 1.55% in the Shire of Boyup Brook. The Statistical Subdivision of Vasse experienced a growth rate of 5.73% compared to a rate of only 0.57% in Blackwood Statistical Subdivision.
- In the remainder of the agricultural area, there were 10 SLAs with rates of growth in excess of the State rate, with the Shires of Chapman Valley (5.14%), Toodyay (4.76%), Gingin (4.22%), Irwin (4.16%) and Denmark (3.88%) having the highest rates. The Shires of Tammin (-5.51%), Mullewa (-4.89%) and Nungarin (-4.86%) experienced the highest rates of negative growth.
- Growth continued in the Kimberley Statistical Division, with the Shires of Halls Creek and Broome increasing by 5.95% and 4.19%, respectively.

**INQUIRIES**

- Contact Peter Ruthven on Perth (08) 9360 5367 for further information about statistics in this publication and the availability of related unpublished statistics.
- For information about other ABS statistics and services please refer to the back cover of this publication.

<sup>1</sup> Legal local government area comprising a number of Statistical Local Areas.

## EXPLANATORY NOTES

### INTRODUCTION

1 This publication replaces *Estimated Resident Population in Statistical Local Areas, Western Australia, Preliminary* (Catalogue Number 3204.5). It presents the estimates of the resident population of Western Australia at 30 June 1997. Data have been compiled for Statistical Divisions, Subdivisions and Statistical Local Areas (SLAs). Estimates of SLA populations at 30 June 1991 and 30 June 1996 are included for comparison.

### METHODOLOGY

2 The estimated resident population is the official population estimates series compiled according to the place of usual residence of the population. An explanation of the conceptual basis is given in the ABS Information Paper entitled *Population Estimates: Concepts, Sources and Methods* (Catalogue Number 3228.0) issued on 23 June 1995.

3 The estimated resident population as at 30 June 1991 and 30 June 1996 for each SLA is based on usual residence census counts, adjusted for census underenumeration and the number of residents temporarily overseas at the census date.

4 For intercensal years, the estimated resident population at 30 June 1997 for each SLA is calculated using a linear regression model. In this method a mathematical relationship is established between changes in population and changes in other variables, known as predictor variables, over the period between the two most recent censuses for which detailed information is available (i.e. 1991 and 1996). This relationship is then used to estimate the change in population of each area since the date of the last census (i.e. 1996), based on the changes in the predictor variables since that date. The predictor variables in the current model are private dwellings and medicare enrolment data.

5 Other relevant information is also used to supplement the estimates from the regression model when preparing the published estimates. This includes information on significant local factors which might have caused population changes during the relevant period.

### AREA STATISTICS

6 ABS area statistics are classified according to the *Australian Standard Geographical Classification, 1996 Edition* (Catalogue Number 1216.0). Figures previously published for local government areas, statistical sub-divisions and divisions are directly comparable with this classification. The Cities of Perth, Fremantle, Stirling and Wanneroo comprise a number of SLAs. However, estimates for individual SLAs were not compiled for these areas prior to 1986.

7 SLAs are marked (C) for City, (T) for Town or (S) for Shire. The names and designations are as they existed at 30 June 1997.

### REVISIONS

8 The estimates for 30 June 1991 and 30 June 1996 contained in this publication are final figures. The estimates for 30 June 1997 are preliminary and subject to revision.

### RELIABILITY

9 Although estimates are calculated and presented to the nearest whole number, accuracy to this level is not claimed and should not be assumed.

## RELATED PUBLICATIONS

### 10 Other ABS publications which may be of interest include:

<b>AUSTRALIA</b>	<b>CATALOGUE NO.</b>
Population by Age and Sex; Australia	3201.0
Methods and Procedures in the Compilation of Estimated Resident Population, 1982 and in the Construction of the 1971-81 Time Series (Technical Paper)	3103.0
Demographic Estimates: Concepts, Sources and Methods, Conceptual Basis of ABS Population Estimates (Information Paper)	3228.0
Regional Population Growth	3218.0
Estimated Resident Population by Marital Status, Age and Sex, Australia (1994 Final Issue)	3220.0
Estimated Resident Population by Country of Birth, Age and Sex, Australia (1994 Final Issue)	3221.0
Population Projections	3222.0
<b>WESTERN AUSTRALIA</b>	<b>CATALOGUE NO.</b>
Population by Age and Sex, Western Australia	3235.5
Demography, Western Australia	3311.5
Deaths, Western Australia (1993 Final Issue)	3312.5

**11** Current publications produced by the ABS are listed in the *Catalogue of Publications and Products* (1101.0). The ABS also issues twice weekly a *Release Advice* (1105.0) which lists publications to be released in the next four working days. These are available from any ABS office.

**12** The ABS has available estimates of the resident population by age and sex from June 1991 to June 1994 based on 1991 postcode areas. There are also estimates available by census collection districts (CDs) and SLAs based on the 1991 census boundaries. Prices start from \$100 for 1 year and depend on the level of detail requested.

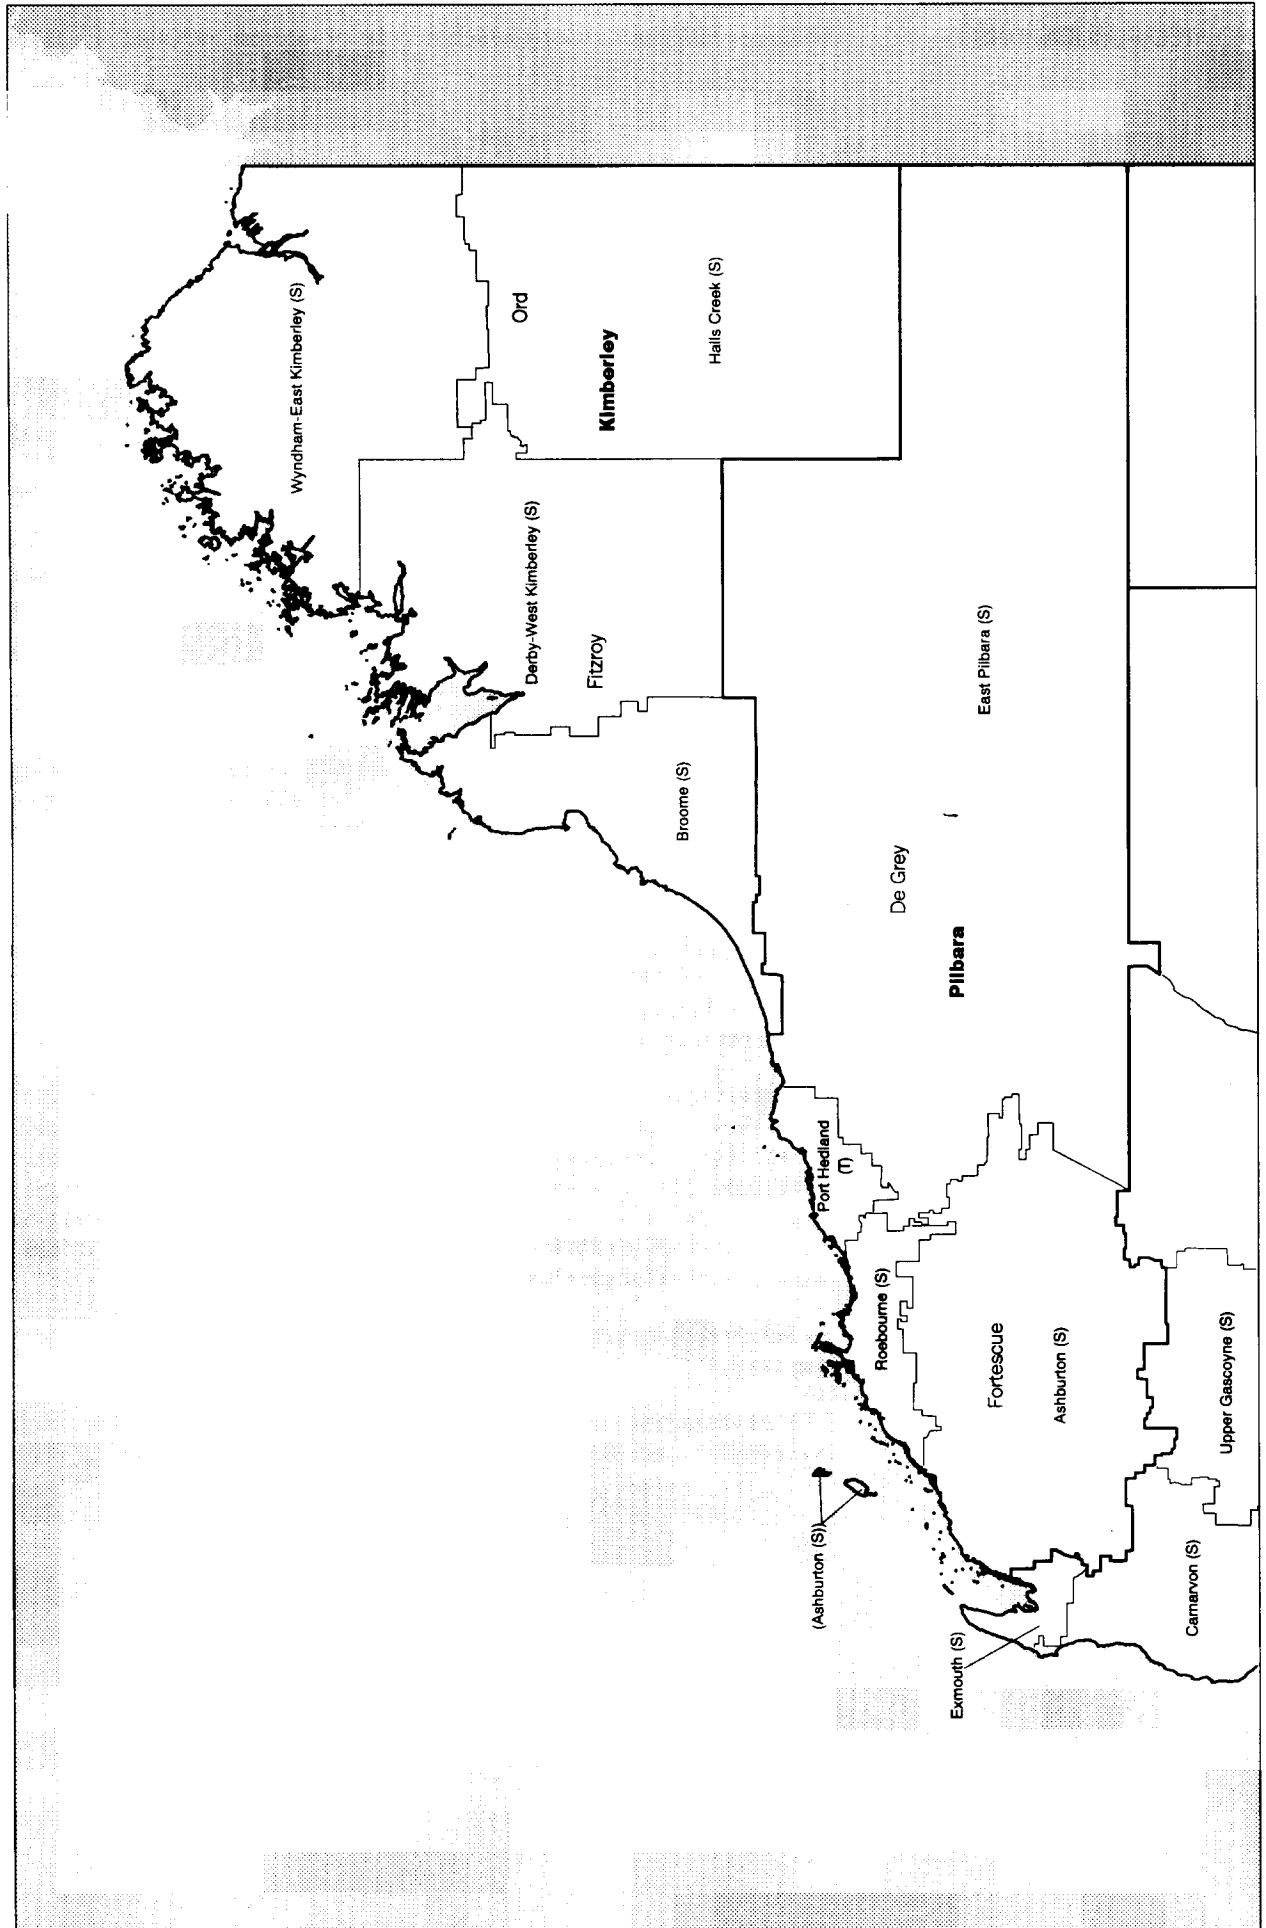

**13** Population projections data at the CD, SLA or postcode level are available on a standard or customised basis. Standard projections are by sex and 5-year age groups and project to the year 2012. Prices commence at \$100 per SLA or postcode based region with discounts for multiple regions. Customised projections can project to the year 2041 and prices range from \$300 to \$500 per region, depending on the level of detail requested. Discounts also apply for multiple regions.

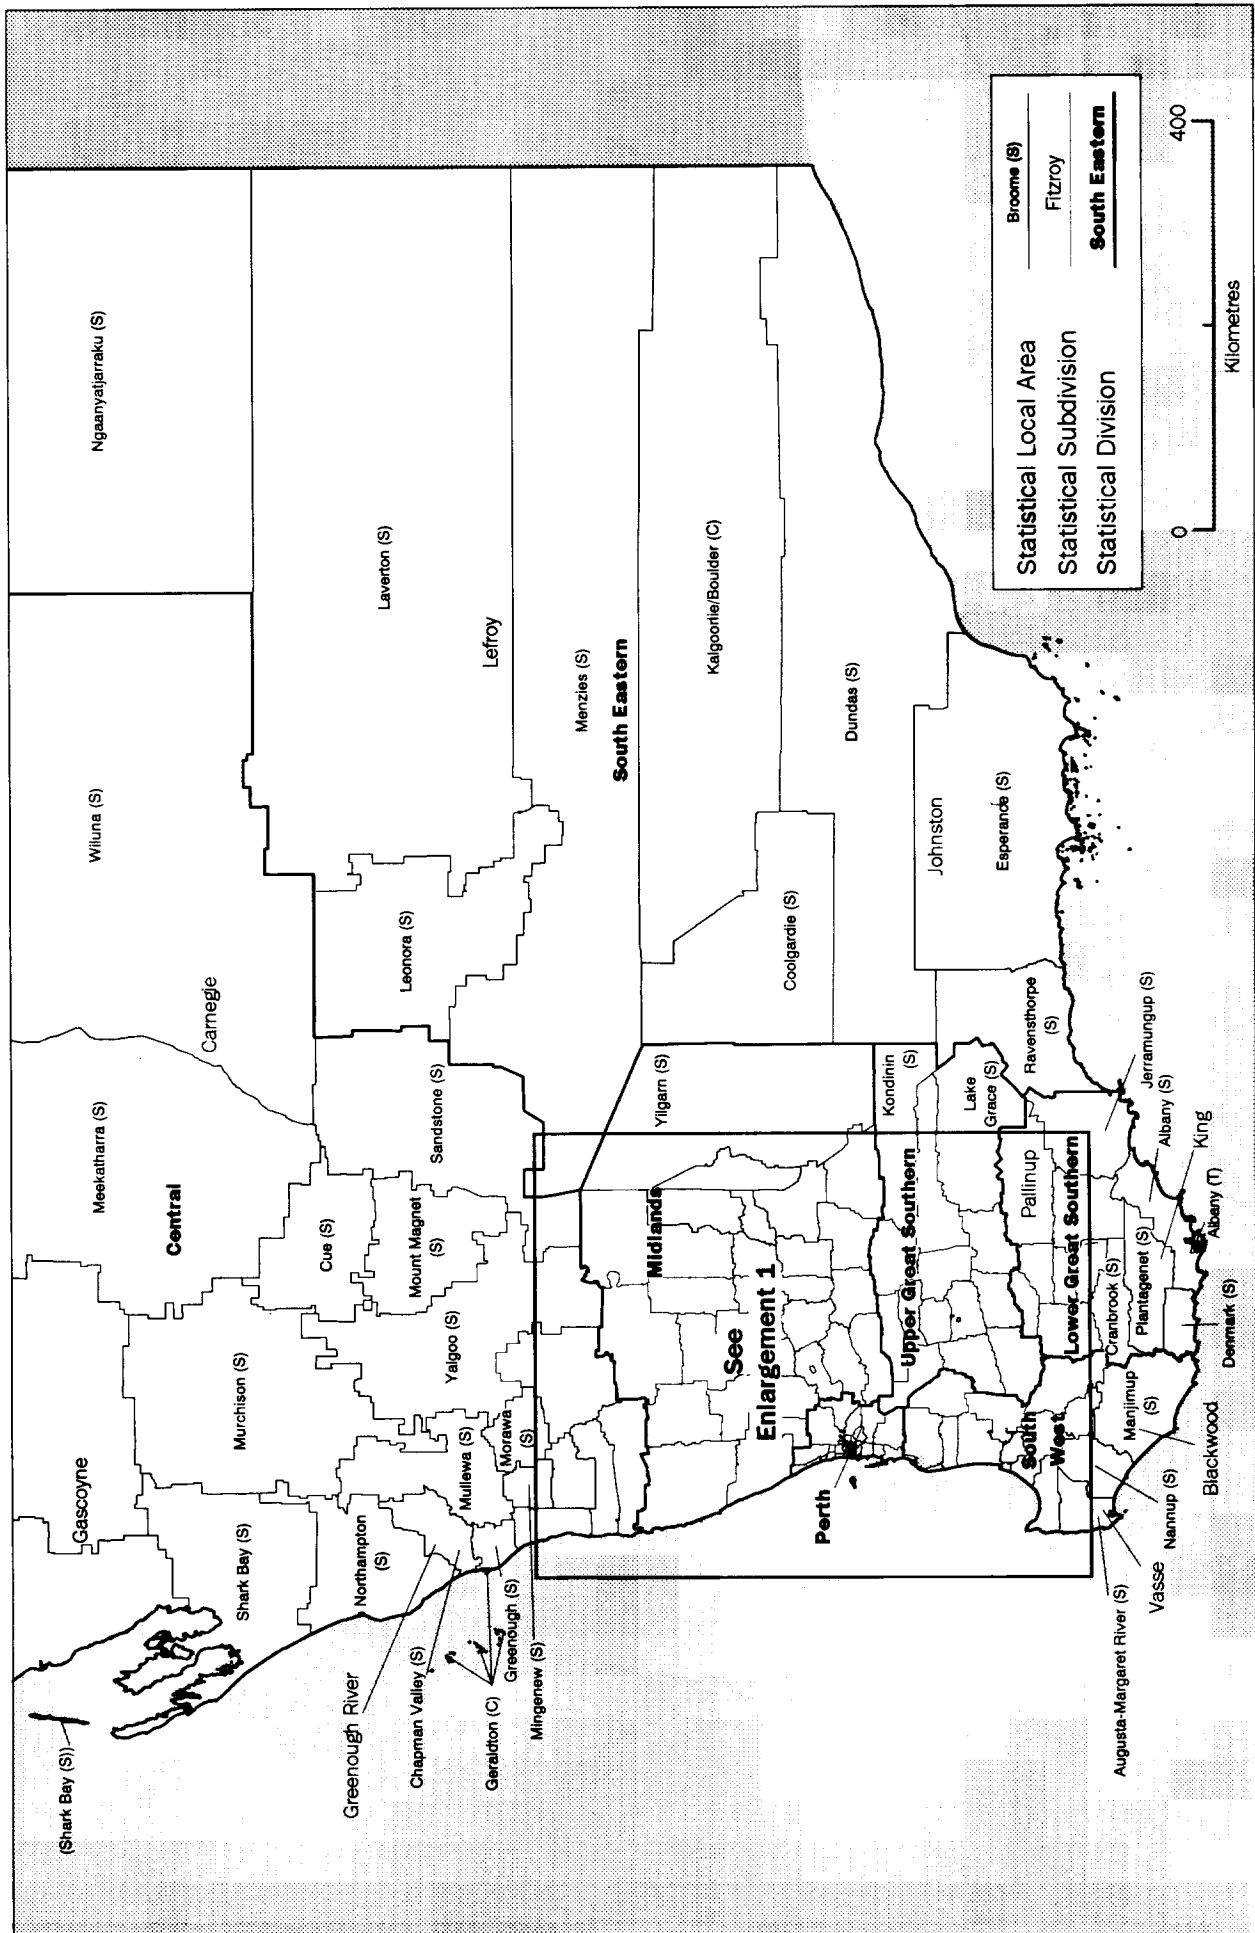

## OTHER SERVICES

**14** Selected demographic statistics for Western Australia are available on floppy disk.

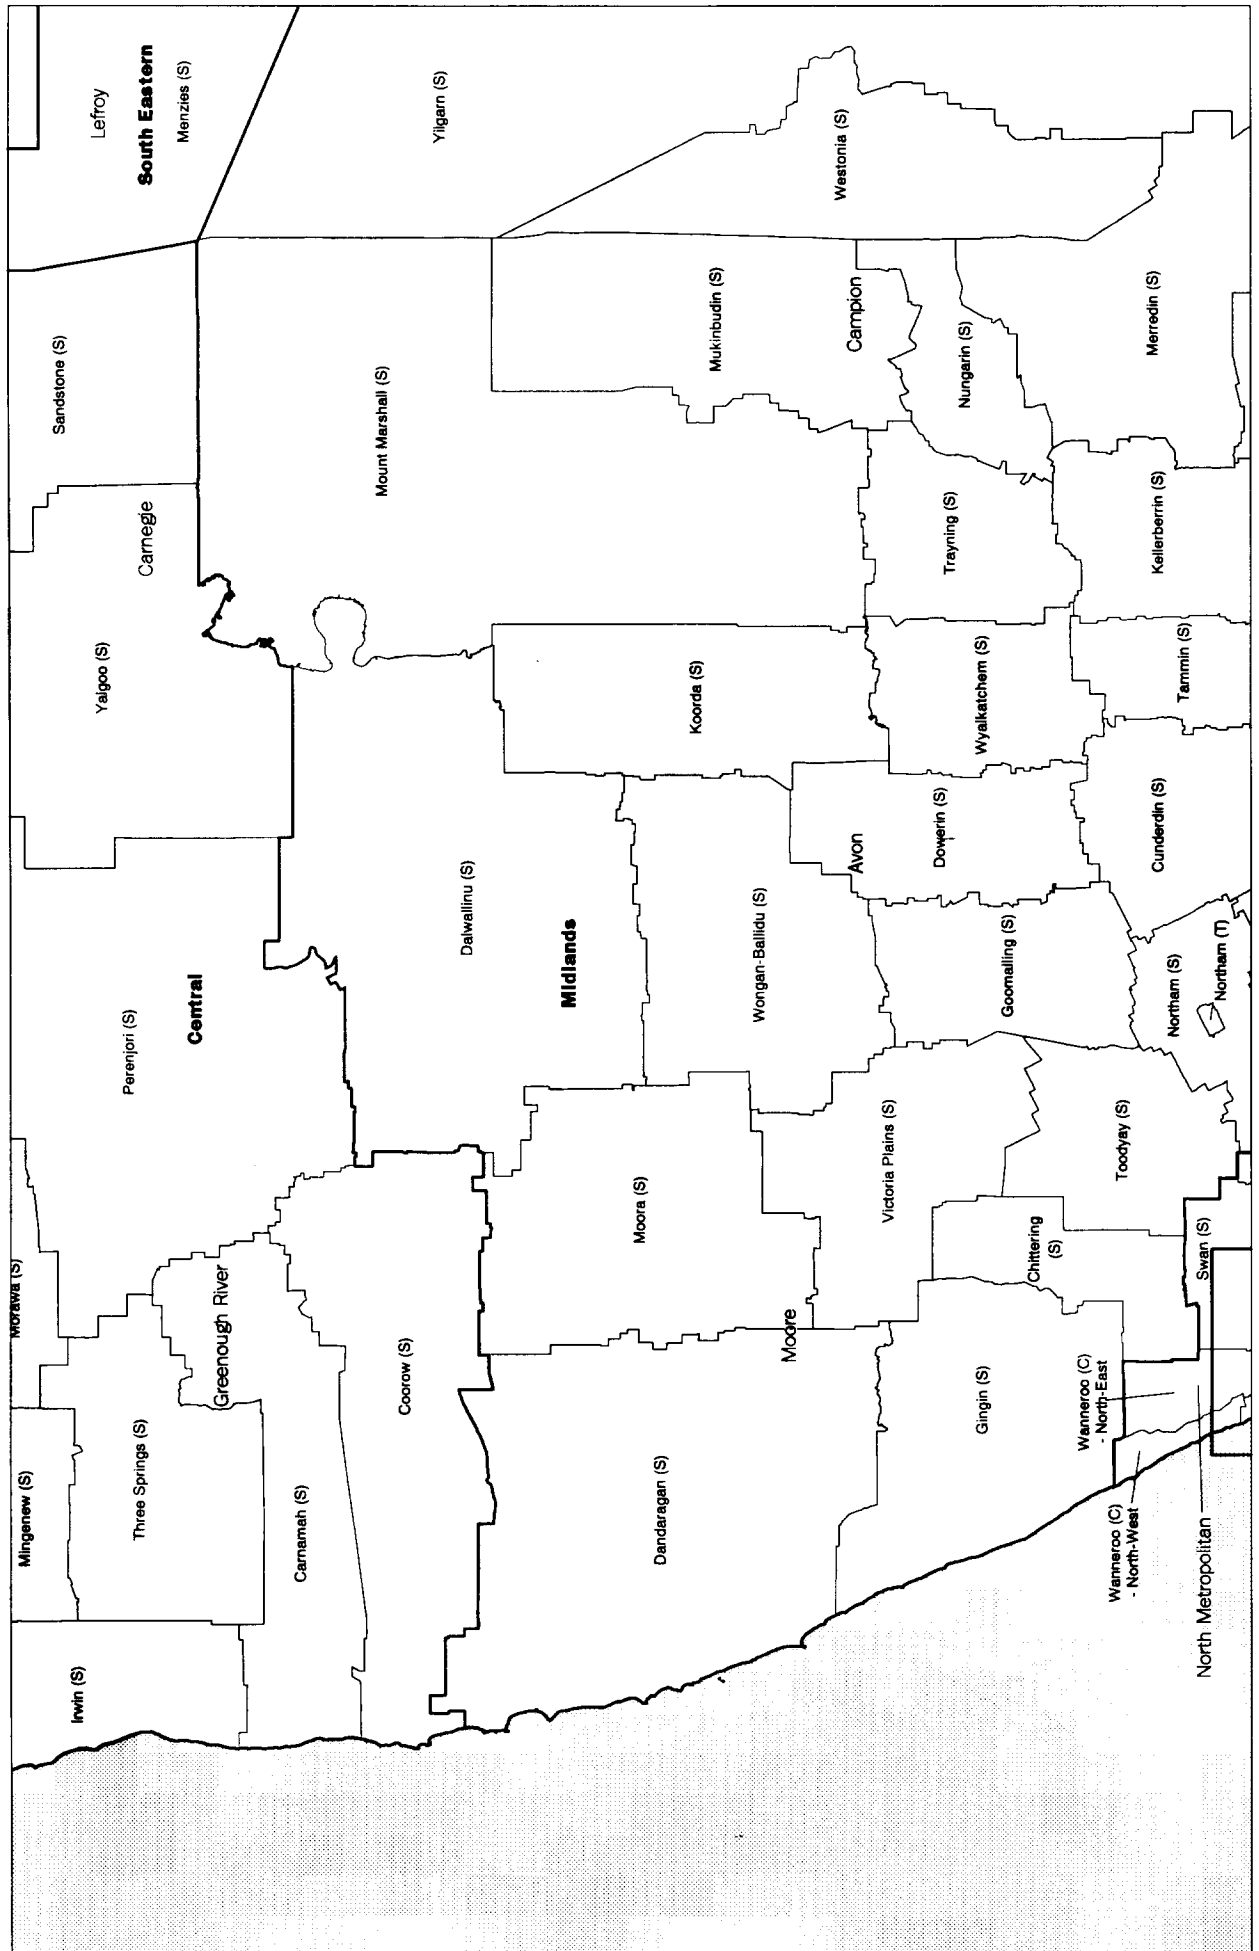

**15** Further information on the above services can be obtained by ringing Peter Ruthven on (08) 9360 5367.

ENLARGEMENT 2 - STATISTICAL SUBDIVISIONS AND STATISTICAL LOCAL AREAS, 1996 EDITION

**FOR MORE INFORMATION**

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the ABS Catalogue of Publications and Products available from all ABS Offices.

**ABS Products and Services**

Many standard products are available from ABS bookshops located in each State and Territory. In addition to these products, information tailored to the needs of clients can be obtained on a wide range of media by contacting your nearest ABS Office. The ABS also provides a Subscription Service for standard products and some tailored information services.
