SUMMARY OF FINDINGS

NUMBER OF PRISONERS

RATES PER 100,000

ADULTS

The average daily number of prisoners in Australia in the December quarter 2004 was 23,816, an increase of 326 (1%) on the September quarter 2004 and 938 (4%) on the December quarter 2003. These increases reflect the upward trend of the annual average daily prisoner numbers. The annual average daily number of prisoners for 2004 (23,312) was 3% higher than for 2003 (22,578), which was 4% higher than 2002 (21,713).

AVERAGE DAILY IMPRISONMENT RATE(a)

Nationally, the average daily imprisonment rate was 154 prisoners per 100,000 adult population during the December quarter 2004, an increase of 3% since the December quarter 2003 (151 prisoners). The Northern Territory had the highest imprisonment rate (532 prisoners per 100,000 adult population), followed by Western Australia (221) and Queensland (180). The Australian Capital Territory (including Australian Capital Territory prisoners held in New South Wales prisons) and Victoria had the lowest imprisonment rates (74 and 93 prisoners per 100,000 adults respectively).

Of all states and territories, the largest proportional increase (17%) in imprisonment rates since the December quarter 2003 was recorded in Tasmania. The next highest increase was Western Australia (10%), followed by New South Wales (6%). Victoria recorded a decrease in its imprisonment rate (6%) over the same period.

SUMMARY OF FINDINGS continued

Of the average daily number of full-time prisoners in Australia in the December quarter 2004, 22,217 (93%) were male and 1,599 (7%) were female. The average daily imprisonment rate for males was 293 prisoners per 100,000 adult male population. The average daily imprisonment rate for females was 20 prisoners per 100,000 adult female population. Males were 15 times more likely to be in prison than females.

INDIGENOUS PRISONERS

SEX

INDIGENOUS PERSONS IN FULL-TIME CUSTODY

In the December quarter 2004, there were 5,358 Indigenous prisoners. The number of Indigenous prisoners has increased by 9% (455) since the December quarter 2003. Of all Indigenous prisoners, 9% (456) were female, which is slightly higher than the overall proportion of female prisoners in full-time custody (7%).

The average of the number of unsentenced Indigenous prisoners on the first day of each of the three months in the December quarter was 1,043 (19%). This compares to a proportion of 21% of all prisoners who were unsentenced in the quarter.

TYPE OF FULL-TIMEThe average daily number of prisoners in secure prison custody in the December quarterCUSTODY2004 was 16,995 (71% of prisoners in full-time custody). The remaining prisoners were
held in open prison custody. Nationally, the proportions of prisoners held in secure and
open prison custody have remained stable over the past two years.

In the December quarter 2004, all prisoners held in full-time custody in the Australian Capital Territory were in secure custody. In other states and territories, the highest proportions of prisoners held in secure full-time prison custody were recorded in Victoria (90%) and South Australia (89%). The proportion of prisoners in secure full-time custody was lowest in New South Wales (including Australian Capital Territory prisoners held in New South Wales prisons) at 53%. This represents 49% of all persons held in New South Wales, including periodic detainees.

LEGAL STATUS ANDThe average of the number of prisoners in full-time custody on the first day of each of
the three months in the December quarter 2004 was 23,779. Of these, the average
number of unsentenced prisoners was 4,931 (21%). The Australian Capital Territory
(including Australian Capital Territory prisoners held in New South Wales prisons) and
South Australia had the highest proportions of unsentenced prisoners

LEGAL STATUS AND SENTENCE TYPE continued (34% and 32% respectively). The lowest proportion of unsentenced prisoners was recorded in Western Australia (15%).

PERSONS IN PRISON CUSTODY, Proportion unsentenced per month

Rates per 100,000 adults *continued*

COMMUNITY-BASED CORRECTIONS RATE(a)

In the December quarter 2004, the male rate of participation in community-based corrections was 557 per 100,000 adult male population in comparison to 119 females per 100,000 adult female population. Males were five times more likely to be in community-based corrections than females.

for that month.

. . not applicable

(c) Prior to December quarter 2004, the figures are a single count taken on a specific day of the month and are not an average of the daily prisoner population

(a) Data for NSW include ACT prisoners held in NSW prisons. The ACT in NSW figures are a subset of the NSW figures and are not separately counted in the Australian totals – see Explanatory Notes, paragraph 22.

(b) Refers to unsentenced persons in ACT prison custody and may include some sentenced fine default only prisoners - see Explanatory Notes, paragraph 22.

(d) ACT in ACT figures and ACT in NSW figures may not add to ACT total due to rounding.

— nil or rounded to zero (including null cells)

np not available for publication but included in totals where applicable, unless otherwise indicated

(a) Data for NSW include ACT prisoners held in NSW prisons. The ACT in NSW figures are a subset of the NSW figures and are not separately counted in the Australian totals – see Explanatory Notes, paragraph 22.

(b) Tasmanian data prior to the September quarter 2003 are under enumerated – see Explanatory Notes, paragraph 13.

(c) Refers to unsentenced persons in ACT prison custody and may include some sentenced fine default only prisoners – see Explanatory Notes, paragraph 22.

(d) ACT in ACT figures and ACT in NSW figures may not add to ACT total due to rounding.

(e) Figures for the quarter and year for first day of month counts are calculated as a simple average – see Explanatory Notes, paragraph 5.

EXPLANATORY NOTES

INTRODUCTION	1 This publication presents statistical series on persons held in either adult corrective services custody or who are serving adult community-based orders in Australia. It contains data on the number of persons by their sex, Indigenous status, type of custody, legal status and sentence type; the number of sentenced persons received into corrective services custody each month; and the number of federal prisoners.
	 2 Statistics presented in this publication are compiled in three ways: Average daily prisoner population: Counts taken on each day of the month are summed and divided by the number of days in that month to determine the average daily prisoner population for that month. The average daily periodic detainee population is a count of persons on periodic detention on each day a centre is open divided by the number of days a centre is open. Sentenced prisoner reception figures: Counts are provided each month on the number of receptions where a prisoner is received as a sentenced prisoner. This includes prisoners with a change of legal status from unsentenced to sentenced. First day of the month prisoner population: Counts of prisoner populations, taken on or near the first day of the month (see Explanatory Notes, paragraphs 4 and 5), and counts of persons serving community-based corrections orders. 3 Although national standards and classifications are used in the compilation of these statistics, some discrepancies remain between the states and territories. These are due to legislative and procedural differences between jurisdictions and the way that these differences are reflected in agencies' administrative data systems. As part of its quality assurance strategy, the ABS is working with corrective services agencies to minimise the effect of these differences.
REFERENCE PERIOD/DATE	4 The reference period for average daily prisoner population statistics and sentenced reception counts is the complete reference month. Prior to the December quarter 2004, average daily statistics for Australian Capital Territory prisoners held in New South Wales could not be supplied, and a single count taken on a specific day of the month was used instead. The reference date for all other figures is the first day of the reference month. However, not all states and territories report strictly according to this 'first day of the month' rule:
	 The Western Australian and Victorian prison population and Australian Capital Territory prisoners in New South Wales prisons are counted as at midnight on the last day of the month. In these cases the figures provided are taken to represent the prison population at the beginning of the following month to align with practices in other states and territories. Prior to the September quarter 2004, the New South Wales prison population was counted on the last Sunday of the month. The New South Wales community-based corrections population is counted on the first day of the month.
	 5 Calculation of figures for the entire quarter and entire year varies depending on the counting unit and method of counting prisoners. These figures may be subject to rounding: Average daily figures: Figures are calculated by weighting the average according to the number of days in each month or year. First day of the month: Figures are simple averages. For quarterly figures, the sum of the monthly data is divided by three; for yearly figures, the figures for each month are added and the total divided by twelve. Sentenced receptions: Figures are totals of each month.
SCOPE	6 The scope of the statistics in this publication includes all persons remanded or sentenced to adult custodial corrective services agencies (including Work Outreach Camps and Community Custody Centres in Queensland), or who are serving adult

SCOPE continued

7 Counts of prisoners in the following custodial facilities are included in the collection:

- gazetted prisons in all jurisdictions
- periodic detention centres in New South Wales and the Australian Capital Territory
- Community Custody Centres and Work Outreach Camps in Queensland
- cells in court complexes administered by corrective services in New South Wales
- transitional centres in New South Wales
- lock-ups in Western Australia operated by the police but designated as a prison by the Chief Executive Officer of Corrective Services.

8 The prisons and community corrections collection excludes the following custodial facilities:

- police lockups, police prisons and cells in court complexes not administered and controlled by corrective services
- gazetted police prisons in the Northern Territory
- juvenile detention centres
- immigration detention centres
- military prisons.

9 This collection includes counts of persons remanded or sentenced to adult custody facilities, or directed to serve community based orders administered by adult corrective service agencies. In all states and territories except Victoria and Queensland, persons are considered adults if aged 18 years and over. In Victoria and Queensland persons are considered adults if aged 17 years and over. The vast majority of persons counted in the collection are adults, however, juveniles may be included in exceptional circumstances.

10 Federal prisoners include those persons charged and sentenced under a Commonwealth statute, and those persons who are charged and sentenced under the laws of another country, but transferred to an Australian prison to serve their sentence under the *International Transfer of Prisoners Act 1997* (Cwlth). To give practical effect to this legislation in Australia, the framework was introduced in January 2003. For the purposes of this publication, federal sentenced prisoners are those persons who are recognised by the Criminal Law Division of the Australian Government Attorney-General's Department as having been charged and sentenced under a Commonwealth statute, or transferred from another country to serve their sentence in Australia.

11 Community-based corrections includes those persons with breached or suspended orders, with the exception of Victoria and Tasmania.

DATA SOURCE**12** Statistics in this publication are derived from information provided to the ABS from
administrative records held by corrective services agencies within each state and
territory. Statistics on federal prisoners are derived from records kept by the Criminal
Law Division of the Australian Government Attorney-General's Department.

13 Tasmanian first day of month data for reference periods prior to the September quarter 2003 are under enumerated. Data are currently being investigated and may be revised. Prior to January 2004, sentenced reception figures for Tasmania do not include all prisoners changing from unsentenced custody to sentenced custody.

14 New South Wales community-based corrections data are subject to ongoing quality assurance processes undertaken in this state. Prior to the September quarter 2003, pre-sentence reports were omitted from reported bail figures. Bail figures relating to earlier reference periods are under enumerated.

15 A revised method for determining Queensland fine default only sentences has been used from the September quarter 2004. Data on fine default only sentences for earlier reference periods have been compiled on different bases and historical comparisons should be made with caution.

COUNTING RULES	16 Statistics for persons held in custody are presented by the state or territory in which they are held, which may not be the sentencing jurisdiction. The only exception to this are data for federal sentenced prisoners. These are presented by the state or territory in which they were sentenced, not where they were held in custody.
	17 Sentenced prisoners who have other offences which are unsentenced are counted as sentenced. Prisoners may be unsentenced because they are awaiting the outcome of their trial, convicted but awaiting sentence, or awaiting deportation.
	18 Prisoners who are serving fine default sentences concurrently with other sentences of imprisonment are counted under the other sentenced type and not as fine default only prisoners. Offenders serving fine default sentences while on remand for other offences are counted as sentenced fine default only prisoners.
	19 If an offender has two or more different types of community-based orders operating simultaneously, then each order will be counted. If two or more community-based orders are of the same type, these orders together will only be counted as one order.
INDIGENOUS IDENTIFICATION	20 In all states and territories persons are asked during entry into custody whether they are of Aboriginal or Torres Strait Islander origin. It is uncommon for corrective services agencies to collect Indigenous status information from sources other than the person's own identification.
	21 Some persons in custody are recorded as of unknown Indigenous status on the information systems of corrective services agencies, but unknown Indigenous status data have not been provided for this collection. Such persons are designated as non-Indigenous. It is intended that unknown Indigenous status will be collected from these systems in future.
AUSTRALIAN CAPITAL TERRITORY PRISONERS	22 The Australian Capital Territory has two remand centres for unsentenced prisoners and a periodic detention centre. In January 1999, the Australian Capital Territory corrections commenced sending some unsentenced prisoners to New South Wales prisons. With the exception of some sentenced fine default only prisoners, persons sentenced to full-time custody by Australian Capital Territory criminal courts are held in New South Wales prisons. During 2000 the Australian Capital Territory commenced detaining prisoners sentenced for fine default only at their centre for unsentenced persons.
	23 To provide greater understanding of the number of prisoners attributed to the Australian Capital Territory, while presenting an accurate picture of the New South Wales prisoner population, statistics relating to Australian Capital Territory prisoners in New South Wales prisons are presented as a subset of the New South Wales figures.
	24 Imprisonment rate data for the Australian Capital Territory are included in the publication and are calculated on the basis of the total number of Australian Capital Territory prisoners (i.e. Australian Capital Territory prisoners held in New South Wales prisons, and Australian Capital Territory prisoners held in the Australian Capital Territory) divided by the estimated resident Australian Capital Territory adult population and multiplied by 100,000. For New South Wales, the imprisonment rate is based on the count of New South Wales prisoners, excluding Australian Capital Territory prisoners held in New South Wales prisons, divided by the estimated resident Australian Capital Territory prisoners held in New South Wales prisons, divided by the estimated resident New South Wales adult population and multiplied by 100,000. Time series data have also been derived on this basis.
RATES	25 Imprisonment and community-based corrections rates enable comparisons of prisoner numbers to be made across states and territories. Prisoner and community-based corrections rates are expressed per 100,000 adult population.

RATES continued

26 In this publication the population figures used in the calculation of rates are for persons aged 18 years and over for all states and territories except Victoria and Queensland where the population used is of persons aged 17 years and over (see Explanatory Notes, paragraph 9).

27 Rates for the total adult prisoner population and persons in community-based corrections are calculated using the estimated resident population for each of the states and territories (refer *Australian Demographic Statistics* (cat. no. 3101.0)). All estimates for the Australian Capital Territory exclude Jervis Bay Territory. All estimates for Australia exclude the external territories of Christmas Island and the Cocos (Keeling) Island. As the population changes over time the denominator used for the calculation of rates varies, depending on the reference period. Rates are calculated using the ERP for two quarters prior to their respective quarters. Thus for this quarter, the ERP for the June quarter 2004 was used in the calculation of rates. This approach uses the latest ERP available at the time of publication.

28 In previous issues of this publication rates for the adult Indigenous imprisonment population were presented based on projections from *Experimental Projections of the Aboriginal and Torres Strait Islander Population, 30 June 1996 to 30 June 2006* (cat. no. 3231.0). These projections were based on the results of the 1996 Census of Population and Housing. A new set of projections for the Indigenous population, based on the 2001 Census of Population and Housing, was released on 27 September 2004 in the publication *Experimental Estimates and Projections, Aboriginal and Torres Strait Islander Nustralians, 30 June 1991 to 30 June 2009* (cat. no. 3238.0). In future issues of this publication, adult Indigenous imprisonment rates (including the revision of previously published rates) will be published using population projections based on the 2001 Census of Population and Housing.

SIGNIFICANT EVENTS

29 The Maryborough Correctional Centre, Queensland, was officially opened in April 2003. The Centre has the capacity to hold 500 prisoners.

30 During 2002 the following factors in Western Australia impacted on the prisoner population: an increase in the acquittal and dismissal rates in courts; greater use by the courts of suspended imprisonment and community orders as penalties; and a decrease in the breach rate for early release orders. The impact of these factors has been proportionally greater on the number of Indigenous prisoners who tend to be convicted of offences which attract shorter sentences.

31 During 2003 in Western Australia there was an increase in the number of Indigenous persons sentenced to imprisonment by the courts, mostly in relation to 'Driving/Traffic', 'Against the Person' and 'Justice/Good Order' offences.

32 A range of amendments to Western Australian corrections legislation came into effect in 2003 and 2004. As a result of these, bail figures were included for the first time in Western Australia in the December quarter 2003. Prior to the September quarter 2004, counts of restricted movement orders included conditional bail orders (which may have a restricted movement condition). All conditional bail orders are now counted as bail orders.

33 During the March and June quarters of 2002, Tasmania recorded a large increase in the number of unsentenced prisoners. This overall increase was due to an increase in lodgments in the Supreme Court coupled with the move by police to more actively oppose bail. The variation over the period is explained primarily by the availability of judicial resources. A Supreme Court judge was allocated to a long running trial in the March and June quarters of 2002 – this represented 25% of the judicial resources allocated to crime by the court. There was also a reduction in the number of magistrates available in the Court of Petty Sessions due to a number of long running coronial inquests.

SIGNIFICANT EVENTS continued	34 In the Northern Territory, over the 12 months to 30 June 2003, there has been an increase in the number of Indigenous persons sentenced to imprisonment for a range of assault and driving offences.

	36 The <i>Information Paper: Measuring Crime Victimisation, Australia: The Impact of Different Collection Methodologies</i> (cat. no. 4522.0.55.001) was released by the ABS in 2004. The main aim of this paper is to increase community understanding of the nature of crime measurement in Australia and why the findings from different data sources may differ. The paper outlines national crime victimisation statistics available from several different sources in the Australian context and draws comparisons between the statistics from these sources. The paper also describes methodological differences between survey sources and the possible impacts of the methodological differences between the survey vehicles.

GLOSSARY

Bail	This is generally a pre-sentence option where a person is released into the community for a period before they appear in court for trial or final sentencing. Bail orders can require a financial surety to be lodged with the court, and a number of conditions including supervision and residential requirements designed to ensure the re-appearance of the person at court. Bail counts are available only in states and territories where bail orders are supervised by corrective services. Bail is a sub-category of Supervision where the person is under the supervision of corrective services (<i>see</i> Supervision).
Community-based corrections	This refers to the community-based management of court-ordered sanctions, post-prison administrative arrangements and fine conversions, which principally involve the provision of one or more of the following activities: supervision, programs or community work.
Community service	This category of community-based correction orders includes sentencing options requiring offenders to undertake a specified number of hours of unpaid, supervised work to benefit the community on an approved project. Community service is a sub-category of Reparation <i>(see</i> Reparation).
Corrective services custody	Confinement in a place intended primarily for the purpose of confining prisoners, such as a prison, prison farm, Periodic Detention Centre or Community Custody Centre.
Federal sentenced prisoner	Persons charged and sentenced under a Commonwealth statute or transferred from another country to serve their sentence in Australia.
Fine default only	A custodial sentence type where the prisoner is serving a sentence for default of a fine and no other sentence.
Fine option	A community-based sentence type where the offender is serving a sentence for default of a fine. In most jurisdictions this order type requires an offender to complete community service as a reparatory act. Fine option is a sub-category of Reparation (<i>see</i> Reparation).
Full-time prison custody	A type of custody where a prisoner is required to be held in custody on a full-time basis. This includes prisons, Queensland Community Custody Centres and work outreach camps. Full-time prison custody excludes periodic detention (<i>see</i> Periodic detention).
Home detention	(see Restricted movement)
Indigenous prisoner	A prisoner who identifies as being of Aboriginal or Torres Strait Islander origin, or both.
Legal status	A person may be either sentenced or unsentenced depending on the warrant(s) or court order(s) which provide the legal basis for the administration of the person through the criminal justice system.
Open custody	Refers to prisoners housed in minimum security custodial facilities, that do not require them to be confined by a secure perimeter physical barrier, irrespective of whether a physical barrier exists.
Other sentenced	A custodial sentence type where a person is serving a sentence other than, or in addition to, a fine default sentence.
Parole	A parole order is made following a period of imprisonment and requires an offender to be subject to supervision in the community. Additional conditions may also be applied such as programs, counselling or drug testing. Parole is a sub-category of Supervision (<i>see</i> Supervision).
Periodic detention	A type of custody or order where a sentenced prisoner is required to be held in custody on a part-time basis. Currently this consists of two consecutive days in a one-week period, while remaining at liberty during the rest of the week.
Prisoner	A person held in custody. For the purposes of this collection, prisoners are those whose confinement is the responsibility of a corrective services agency.

GLOSSARY continued

Reparation	Reparation refers to all offenders with an order that requires them to undertake unpaid, justice agency-approved community service work.
Restricted movement	This refers to persons who are subject to a system of restricted movement, including supervision and/or electronic monitoring. This category includes home detention which may restrict residence to a nominated place. Restricted movement can be either a pre-sentence or post-sentence order.
Secure custody	Refers to prisoners housed in medium or maximum security custodial facilities requiring them to be confined by a secure physical barrier.
Sentenced	A legal status indicating that a person has received a custodial or community-based order from a court in response to a conviction for an offence.
Sentenced prisoner reception	Refers to entry into corrective services custody from the community, having received a sentence of imprisonment as an outcome of a court proceeding. It also includes persons who are sentenced to custody while in custody on remand (i.e. change status from a remand to a sentenced prisoner). Sentenced prisoners in custody who receive a further sentence of imprisonment are not counted as sentenced receptions.
	 Two types of sentenced prisoner reception are distinguished: A <i>fine default only</i> reception is a sentenced reception where a person enters custody as a result of defaulting on the payment of a fine and no other sentence. An <i>other sentenced</i> reception is a sentenced reception (including changes of status from unsentenced to sentenced) for anything other than a fine default only reception.
Sentenced probation	A supervision order made following an original sentence handed down in court following conviction. A probation order generally requires 'good behaviour' and compliance with the directions of supervisors. The order may also require compliance with conditions such as program attendance and residential requirements.
Supervision (compliance)	This includes community-based orders other than those categorised as restricted movement or reparation (e.g. parole, bail and sentenced probation).
Unsentenced	A legal status indicating that a person is confined to custody or supervision while awaiting the outcome of their trial.
