Local Government Finance, NSW 1998-99

Notes in this issue

On 19 February 1997, the ABS issued an Information Paper titled *Developments in Government Finance Statistics* (Cat. no 5516.0) which foreshadowed the adoption of an accrual accounting basis of recording government finance statistics (GFS). The first presentation of GFS on an accrual accounting basis was provided in 1999-2000 *Government Financial Estimates, Australia* (Cat. no 5501.0) on 3 April 2000.

The information contained in Local Government Finance, NSW 1998-99 is on the same basis as that in 1998-99 *Government Finance Statistics* (Cat. no 5512.0) to be released on 5 July 2000. It consists of details of the Operating Statement and Balance Sheet on a GFS basis for individual councils in NSW for 1998-99.

The principal cash-based classification has been replaced by an accrual version. The GFS basis uses a number of classifications based on international standards set out in the System of National Accounts 1993 and the draft accrual version of the International Monetary Fund's *A Manual on Government Finance Statistics*. The Economic Type Framework (ETF) is the main classification of stocks and flows used in Local Government Finance. The ETF resembles a set of financial statements, with sections for an operating statement, a cash flow statement and a balance sheet. In addition, there are sections to cater for the reconciliation of accounting net operating result measure with cash flows from operating activities and to capture like assets acquired under finance leases, intra-unit transfers, and revaluations and other changes in the volume of assets.

For the current issue, details of the operating statements and balance sheets have been provided. It is intended in subsequent issues to release details of the cash flow statements.

Concepts and definitions

An information paper (*Information Paper: Accruals-based Government Finance Statistics* (Cat. no.5517.0) aimed at helping users understand the statistics presented in this publication was issued on 13 March 2000. That Information Paper outlines the conceptual changes which have been implemented in moving from a cash to an accrual basis of recording.
