# DECEMBER QTR KEY POINTS

### **GROWTH IN DEMAND GREATER THAN SUPPLY**

- The room occupancy rate for licensed hotels with 15 or more rooms or units increased by 0.6 percentage points to 65.1% in December quarter 1999 compared with the corresponding quarter in 1998. Demand in terms of room nights occupied rose by 4.6%. The corresponding increase in room supply was 3.7%.
- For motels and guest houses, room nights occupied increased by 1.9%, while room supply increased by 1.6%. As a result the room occupancy rate increased by only 0.1 percentage point to 54.8%.
- Serviced apartments recorded a 15.9% increase in room nights occupied, while available capacity rose by 15.4%. The room occupancy rate in December quarter 1999 was 60.8%, an increase of 0.2 percentage points over the same period in the previous year.

### **ACCOMMODATION TAKINGS**

■ Takings from accommodation for all accommodation types increased by 6.6% in December quarter 1999 compared with December quarter 1998. Average takings per room night occupied remained unchanged for licensed hotels at \$131, but rose for motels and guest houses from \$78 to \$80 and for serviced apartments from \$110 to \$112.

# NOTES

### FORTHCOMING ISSUES

ISSUE

RELEASE DATE

March Quarter 2000

7 July 2000

#### INTRODUCTION

From the March quarter 1998, the scope of the quarterly Survey of Tourist Accommodation has included licensed hotels, motels and guest houses with facilities and serviced apartments with 15 or more rooms or units.

Data are now classified by Tourism Regions as defined by the relevant State and Territory Tourist Commissions or equivalent organisations. See the Explanatory Notes for more information.

The former State and Territory Tourist Accommodation publications (Cat. nos 8635.1 to 8635.8) have been replaced by a Standard Data Service (SDS) for each State/Territory (except the ACT). The SDS products contain releasable data at Local Government Area level and Statistical Local Area level within Tourism Regions. SDS copies can be purchased by calling the ABS Inquiries number shown on the back of this publication. To subscribe to the SDS for any State/Territory, please telephone 1300 366 323.

### REVISIONS IN THIS ISSUE

A minor revision was made to data relating to guest arrivals in the Great Southern Tourism Region of Western Australia for the December quarter 1998. This revision affects tables for Western Australia and Australia.

......

INTRODUCTION

SCOPE

- **1** This publication contains data for Australia and each State and Territory from the ABS quarterly Survey of Tourist Accommodation (STA).
- **2** The survey includes the following categories of establishments which provide predominantly short-term non-residential accommodation to the general public:
- Hotels and resorts with facilities—establishments with 15 or more rooms which are licensed to operate a public bar and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- Motels, private botels and guest houses with facilities—establishments with 15 or more rooms which are not licensed to operate a public bar, and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- Serviced apartments—establishments with 15 or more units which mostly comprise self-contained units at the same location, and which are available on a unit/apartment basis to the general public for a minimum of one night; the units should have full cooking facilities (i.e. hot plates and oven/microwave), refrigerator and bath/shower and toilet facilities; all bed linen and towels should be provided, and daily servicing (i.e. cleaning and bed making) must be available through the on-site management, although this service may not necessarily be used.
- **3** As a result of the separate classification of serviced apartments from the March quarter 1998, there have been several changes to definitions of accommodation units. Some units which were formerly in categories such as hotels, motels or holiday flats, units and houses are now classified as serviced apartments. A small number of establishments which were previously classified as motels have been reclassified as holiday flats, units and houses and are therefore no longer in scope of the quarterly STA.
- **4** The short-term non-residential accommodation which is in scope of this survey is accommodation which is not let out on a lease basis, and which is let out to guests who would generally, although not necessarily, stay for periods of less than two months.
- **5** Some establishments included in the survey also provide long-term residential accommodation. For hotels, motels and guest houses, the amount of such activity is considered to be insignificant and is included in the data presented in this publication. For serviced apartments, only short-term non-residential accommodation is included.
- **6** From the March quarter 1998, data presented in this publication series which relate to the 1997 calendar year have been recompiled on the basis of the new scope. Data for the calendar year 1997 are also available on a recompiled basis for smaller geographic areas. These are available on request.

REGIONAL DATA

**7** From the March quarter 1998, survey results are aggregated to Tourism Regions as defined by relevant State and Territory Tourist Commissions or equivalent organisations. Details of the composition of Tourism Regions, including maps, are available on request.

### FUTURE COLLECTION STRATEGY

- **8** As part of the future collection strategy of the STA, significant caravan parks, visitor hostels and remaining holiday flats, units and houses will be surveyed triennially, commencing with a year 2000 reference year.
- **9** Each year, accommodation counts of number of establishments and capacity data are compiled in respect of the previous scope of the survey (but recognising serviced apartments separately) as follows:
- hotels, motels and guest houses and serviced apartments with facilities and having five or more rooms;
- holiday flats, units and houses (other than those included with serviced apartments) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short term letting;
- caravan parks; and
- visitor hostels.
- **10** Some units will have been reclassified following the implementation of the new survey scope and definitions. As a result, data will not be comparable with previously published data for particular accommodation types.
- **11** These counts are expected to be published annually in a quarterly issue of *Tourism Indicators*, *Australia* (Cat. no. 8634.0). Counts in respect of December 1998 were published in the June quarter 1999 edition of that publication.

### UNPUBLISHED STATISTICS

**12** The ABS may make available on request certain unpublished tourist accommodation statistics, including statistics for past quarters and for specific areas and more detailed information for specific data items. For example, detailed employment statistics showing the number of full-time, part-time or casual employees may be available. A charge may be made for this information.

### RELATED PUBLICATIONS

**13** Other ABS publications and products which may be of interest include: *Directory of Tourism Statistics* (Cat. no. 1130.0) (irregular: latest issue; 2000) *Overseas Arrivals and Departures, Australia* (Cat. no. 3401.0) (issued monthly)

Tourism Indicators, Australia (Cat. no. 8634.0) (issued quarterly)

Tourist Accommodation, Small Area Data Standard Data Service (SDS)

products for each State/Territory (except the ACT) (Cat. no. 8635.n.40.001)

(issued quarterly).

**14** Current publications produced by the ABS are listed in the *Catalogue of Publications and Products* (Cat. no. 1101.0). The ABS also issues the *Release Advice* (Cat. no. 1105.0) on Tuesdays and Fridays which lists publications to be released in the next few days. Both the Catalogue and Release Advice are available from any ABS office.

### EFFECTS OF ROUNDING

**15** Where figures have been rounded, discrepancies may occur between totals and the sums of the component items.

Guest rooms

Occupancy

Occupancy rates

Persons employed

Room nights available

Average length of stay Average length of stay is expressed in numbers of days and calculated by dividing Guest nights by Guest arrivals.

**Bed spaces** Three-quarter beds are counted as one bed space; double beds as two bed spaces. Cots are excluded.

Capacity Capacity in terms of *Guest rooms/units* or *Bed spaces* is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included.

**Establishments** The number of hotels, motels and guest houses and serviced apartments within the scope of the survey which operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons.

**Guest arrivals** The total number of paying guests counted only on the first night they stayed at the accommodation establishment during the survey period.

The maximum number of rooms available at each establishment during the survey period for accommodating short-term paying guests. Units and apartments within serviced apartments are treated as rooms in these survey results.

Occupancy in terms of *Room nights* refers to the total number of nights each guest room or unit was occupied during the survey period.

Occupancy in terms of *Guest nights* refers to the total number of paying guests counted on each night they stayed at the accommodation establishment during the survey period.

Occupancy rates represent occupancy expressed as a percentage of total capacity available during the survey period, e.g. for the period

Room occupancy rate (%) =  $\frac{Room\ nights\ occupied}{(Guest\ rooms)\times (No.\ of\ days\ in\ the\ period)} \times 100$ 

providing that, for establishments closing (other than for seasonal reasons) or opening during the survey period, the denominator of the above expression includes only operating periods.

The total number of persons working at each accommodation establishment at the end of the survey period (including working proprietors and those working on other than accommodation activities).

The number of guest rooms/units available multiplied by the number of days for which they were available during the survey period. For establishments closing (other than for seasonal reasons) or opening during this period, operating periods only are included.

### Star grading

The grading of hotels, motels and guest houses with facilities and serviced apartments based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

From the June quarter 1999, some (very few) large establishments not star graded by the AAA have been allocated a star grade by the ABS for Survey of Tourist Accommodation statistical tabulation purposes.

### Takings from accommodation

Gross revenue from the provision of accommodation, including bed taxes. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.
