SEPTEMBER Q T R KEY POINTS

TOURIST ACCOMMODATION REMAINS FLAT

- Total accommodation takings for licensed hotels, motels and guest houses and serviced apartments were \$1,238m in the September quarter 2002, an increase of just under 1% compared with the September quarter 2001. There were 10,787 room nights occupied, an increase of 1.6% over the same quarter in the previous year.
- Accommodation takings for serviced apartments increased by 10.4%, takings for motels and guest houses increased by 1.9%, while those for licensed hotels decreased by 3.1%. The strong takings growth in the serviced apartments sector, was reflected in room nights occupied, which increased by 7.9% in the September quarter 2002 compared with the September quarter 2001. Room nights occupied in motels and guest houses increased by 1.1%, while those in licensed hotels decreased by 0.8% over the same period.

SMALLER STATES DEFY THE TREND

■ The smaller states showed increases well above the national average for both accommodation takings and room nights occupied. South Australia recorded the largest growth in total takings from accommodation between the 2001 and 2002 September quarters with an increase of 8.7%, while room nights occupied increased by 6.5%. Accommodation takings in Tasmania were up 8.0%, with room nights occupied recording an even stronger growth of 9.3%. Western Australia recorded increases of 7.8% and 4.4% respectively.

⁽a) Changes in the Statistical Local Areas making up these Tourism Regions have resulted in changes to previously published figures.

⁽b) Includes those parts of other Tourism Regions which fall within the Great Barrier Reef geographic area. Great Barrier Reef (TR) data is not included in Queensland totals because the establishments in this Region are included in the figures for other Tourism Regions.

INTRODUCTION

SCOPE

- **1** This publication contains data from the ABS quarterly Survey of Tourist Accommodation (STA). The STA is a mailout collection that completely enumerates all in-scope accommodation establishments.
- **2** From the March quarter 1998, the scope and collection strategy for the STA was changed to include only significant accommodation establishments (these are defined below).
- **3** On a quarterly basis, the STA includes hotels, resorts, motels, guest houses and serviced apartments with 15 or more rooms or units.
- **4** Every third year beginning with 2000, the STA expands to also include:
- holiday flats, units and houses of letting entities with 15 or more rooms or units:
- caravan parks with 40 or more powered sites;
- visitor hostels with 25 or more bed spaces.
- **5** The short-term non-residential accommodation which is in scope of the STA is accommodation which is not leased, and which is provided to guests who would generally stay for periods of less than two months.
- **6** Some establishments also provide long-term residential accommodation. For hotels, motels, guest houses and serviced apartments, the amount of such activity is considered to be insignificant and is included in the data presented in this publication.
- **7** The STA includes the following categories of establishments which provide predominantly short-term non-residential accommodation to the general public:
- hotels and resorts with facilities establishments with 15 or more rooms which are licensed to operate a public bar and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- motels, private hotels and guest houses with facilities establishments with 15 or more rooms which are not licensed to operate a public bar, and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
- serviced apartments establishments with 15 or more units which mostly comprise self-contained units at the same location, and which are available on a unit/apartment basis to the general public for a minimum of one night; the units should have full cooking facilities (i.e. hot plates and oven/microwave), refrigerator and bath/shower and toilet facilities; all bed linen and towels should be provided, and daily servicing (i.e. cleaning and bed making) must be available through the on-site management, although this service need not necessarily be used.

DEFINITIONS OF ACCOMMODATION ESTABLISHMENTS

EXPLANATORY NOTES continued

CLASSIFICATION CHANGES

8 As a result of the separate classification of serviced apartments from the March quarter 1998, there have been several changes to definitions of accommodation units. Some units, which were formerly in categories such as hotels, motels or holiday flats, units and houses are now classified as serviced apartments. A small number of establishments which were previously classified as motels have been reclassified as holiday flats, units and houses and are therefore no longer in scope of the quarterly STA, except as described in paragraph 4.

COVERAGE

9 Coverage is comprehensive and from the September quarter 1999, is obtained from the Australian Automobile Association accommodation guide, supplied as an electronic file, which is updated twice yearly. This is supplemented by notification of new tourism developments and their likely opening dates in selected guides, major tourism journals and periodicals and newspapers. Periodic comparison with lists of accommodation establishments provided by the various tourism commissions and industry associations is also undertaken.

DATA QUALITY

- **10** The survey does not have a sample component and the data are not subject to sampling variability. However, other inaccuracies collectively referred to as non-sampling error may affect the data. These non-sampling errors may arise from a number of sources, including:
- errors in the reporting of data by respondents;
- errors in the process of capturing data;
- estimation for missing data; and
- definition and classification errors.

Every effort has been made to reduce non-sampling error to a minimum by careful design and testing of questionnaires, and efficient operating procedures and systems used to compile statistics.

- **11** The September quarter 2002 response rates were:
- 94% licensed hotels
- 94% motels and guest houses
- 97% serviced apartments

TAKINGS FROM ACCOMMODATION

12 From 1 July 2000, takings from accommodation include gross revenue from the provision of accommodation, including GST. Takings from meals are excluded. Where businesses are unable to provide the data inclusive of GST, it is automatically adjusted by the ABS prior to aggregation and release in output.

EXPLANATORY NOTES continued

REGIONAL DATA

13 Survey results are aggregated to tourism regions as defined by relevant state and territory tourist commissions or equivalent organisations. Tourism regions are reviewed annually and are subject to boundary and name changes. Where changes have occurred care should be taken when making comparisons with previously published data at this level.

Details of the composition of tourism regions and major changes to tourism regions can be found in *Tourist Accommodation, Small Area Data* standard data service products for each state/territory (cat. no. 8635.n.40.001) issued quarterly. Outline maps of tourism regions are also provided in these small area data products.

ANNUAL CAPACITY DATA

- **14** ABS releases counts of accommodation establishments and their capacity as at the end of December each year in respect of the pre-1998 scope of the survey (but recognising serviced apartments separately) as follows:
- hotels, motels and guest houses and serviced apartments with facilities and having five or more rooms;
- holiday flats, units and houses (other than those included with serviced apartments) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short term letting;
- all caravan parks regardless of size; and
- all visitor hostels regardless of size.
- **15** As a result of classification changes applied from March quarter 1998 onward, data will not be comparable with that previously published for particular accommodation types.
- **16** These counts are published annually in a quarterly issue of *Tourism Indicators, Australia* (cat. no. 8634.0).

STATISTICS AVAILABLE ON REQUEST

17 The ABS makes tourist accommodation data available on request, including statistics for past quarters, for specific areas and specific data items. For example, detailed employment statistics showing the number of full-time, part-time or casual employees may be available. Normally such data are made available on a fee for service basis.

RELATED PUBLICATIONS

18 Other ABS publications and products which may be of interest include: Directory of Tourism Statistics, 2001 cat. no. 1130.0 (irregular)
Overseas Arrivals and Departures, Australia cat. no. 3401.0 (issued monthly)

Tourism Indicators, Australia cat. no. 8634.0 (issued quarterly)

Tourist Accommodation, Small Area Data cat. no. 8635.n.40.001 standard data service (SDS) products for each state/territory (except the ACT) (issued quarterly).

19 Current publications and other products released by the ABS are listed in the *Catalogue of Publications and Products* (cat. no. 1101.0). The catalogue is available from any ABS office or the ABS web site http://www.abs.gov.au. The ABS also issues a daily release advice on the web site which details products to be released in the week ahead.

EFFECTS OF ROUNDING

20 Where figures have been rounded, discrepancies may occur between totals and the sum of the component items.

Average length of stay Average length of stay is expressed in numbers of days and calculated by dividing

Guest nights by Guest arrivals.

Bed spaces Three-quarter beds are counted as one bed space; double beds as two bed

spaces. Cots are excluded.

Capacity Capacity in terms of *Guest rooms/units* or *Bed spaces* is the maximum number

available to accommodate paying guests during the survey period. Capacity

closed temporarily for seasonal reasons is included.

Establishments The number of hotels, motels and guest houses and serviced apartments within

the scope of the survey which operated for any part of the survey period, or

which closed temporarily for the quarter for seasonal reasons.

Guest arrivals The total number of paying guests counted only on the first night they stayed at

the accommodation establishment during the survey period.

Guest rooms The maximum number of rooms available at each establishment during the

survey period for accommodating short-term paying guests. Units and apartments within serviced apartments are treated as rooms in these survey

results.

Occupancy Occupancy in terms of *Room nights* refers to the total number of nights each

guest room or unit was occupied during the survey period.

Occupancy in terms of *Guest nights* refers to the total number of paying guests counted on each night they stayed at the accommodation establishment during

the survey period.

Occupancy rates Occupancy rates represent occupancy expressed as a percentage of total

capacity available during the survey period, e.g. for the period

Room occupancy rate (%) = $\frac{Room\ nights\ occupied}{(Guest\ rooms)\times (No.\ of\ days\ in\ the\ period)}\times 100$

providing that, for establishments closing (other than for seasonal reasons) or opening during the survey period, the denominator of the above expression

includes only operating periods.

Persons employed The total number of persons working at each accommodation establishment at

the end of the survey period (including working proprietors and those working

on other than accommodation activities).

Room nights available The number of guest rooms/units available multiplied by the number of days for

which they were available during the survey period. For establishments closing (other than for seasonal reasons) or opening during this period, operating

periods only are included.

Star grading

The grading of hotels, motels and guest houses with facilities and serviced apartments based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

From the September quarter 1999, some (very few) large establishments not star graded by the AAA have been allocated a star grade by the ABS for Survey of Tourist Accommodation statistical tabulation purposes.

Takings from accommodation

Since 1 July 2001, takings from accommodation include gross revenue from the provision of accommodation, including GST. Takings from meals are excluded. In cases where takings from accommodation data cannot be provided inclusive of GST the amount of GST payable is estimated and the data revised accordingly.

Prior to 1 July 2001, takings from accommodation for some jurisdictions included bed taxes. From 1 July bed taxes were abolished being replaced by GST. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month.

FOR MORE INFORMATION...

INTERNET www.abs.gov.au the ABS web site is the best place to

start for access to summary data from our latest publications, information about the ABS, advice about upcoming releases, our catalogue, and Australia Now—a

statistical profile.
