## INTRODUCTION

Results from the quarterly Survey of Tourist Accommodation are published in *Tourist Accommodation, Australia* (cat. no. 8635.0), which contains information at the national, State and Tourism Region levels. As advised in the March quarter 1998 issue of that publication, the Survey of Tourist Accommodation has been substantially revised since the December 1997 quarter.

This data service provides additional information specific to the Northern Territory, including data for small areas within Tourism Regions. Following an agreement with the Northern Territory Tourist Commission, the scope of the survey has been enlarged from the March quarter 1998 for the Northern Territory to include:

- hotels, motels and guest houses and serviced apartments with five or more rooms or units;
- holiday flats, units and houses which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short-term letting;
- caravan parks; and
- visitor hostels.

The first group of tables in this data service contains data based on the enlarged survey scope for the Northern Territory. The second group of tables contains data based on the survey scope for other States, which includes only hotels, motels and guest houses and serviced apartments with 15 or more rooms.

Information in respect of 1997 has been retabulated on the basis of the new scope and included in this data service. Note that 1997 data presented in this data service will differ from previously published data. More detailed 1997 data may be available on request.

As well as reflecting the changes described above, this data service contains a new geographic classification for regional data. Data are now classified by Tourism Regions as defined by the relevant State and Territory Tourist Commissions or equivalent organisations. The composition of each Tourism Region is included at the back of this data service.

## INTRODUCTION

**1** This data service contains data for the Northern Territory from the ABS quarterly Survey of Tourist Accommodation (STA). Survey results for all States and Territories and Australia are published in Tourist Accommodation, Australia (Cat. no. 8635.0).

## SCOPE AND COVERAGE

**2** For the Northern Territory, the survey includes the following categories of establishments:

- Establishments which provide predominantly short-term non-residential accommodation to the general public. These include:
  - ◆ *Hotels and resorts with facilities*—establishments with five or more rooms which are licensed to operate a public bar and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
  - ◆ *Motels, private hotels and guest houses with facilities*—establishments with five or more rooms which are not licensed to operate a public bar, and which provide accommodation on a room/suite basis, with a bath/shower and toilet in most guest rooms, but which do not have full cooking facilities (i.e. hot plates and oven/microwave) in most guest rooms;
  - ◆ *Serviced apartments*—establishments with five or more units which mostly comprise self-contained units at the same location, and which are available on a unit/apartment basis to the general public for a minimum of one night; the units should have full cooking facilities (i.e. hot plates and oven/microwave), refrigerator and bath/shower and toilet facilities; all bed linen and towels should be provided, and daily servicing (i.e. cleaning and bed making) must be available through the on-site management, although this service may not necessarily be used;
  - ◆ *Holiday flats, units and houses*—establishments (excluding those predominantly operated on a time share basis) which are operated by owners, managers or real estate agents who have sole letting rights to at least five flats, units or houses for short-term letting. These establishments are mainly self-contained in terms of cooking, bath (or shower) and toilet facilities and do not have breakfast available for guests. Data for holiday flats, units and houses include short-term owner occupation as well as paying guest occupation.
  - ◆ *Visitor hostels* which provide accommodation to visitors on a bed basis (rather than by the room). This category does not include establishments providing charity type accommodation (e.g. Salvation Army hostels) nor hotels, motels and guest houses without in-room facilities which provide accommodation on a per room basis.
- *Caravan parks* which provide either short-term (i.e. for periods of less than two months) or long-term accommodation to the general public and which provide powered sites for caravans and toilet, shower and laundry facilities for guests.

**3** Data for each type of establishment (other than holiday flats, units and houses) include both long-term and short-term guests at these establishments.

**4** Establishments which provide more than one type of accommodation (e.g. a motel with attached caravan park) are treated as two or more separate establishments. However, self-contained units, flats, cabins, etc. attached to hotels, motels or to caravan parks are included in the capacity for those establishments and not treated as separate holiday flat, unit or house establishments.

**5** The scope of the survey has changed significantly since the December quarter 1997, for which Northern Territory results were published in *Tourist Accommodation, Northern Territory* (Cat. no. 8635.7). Following an agreement with the Northern Territory Tourist Commission, the survey scope for the Northern Territory (as described above) is different to the survey scope for other States and Territories, which comprises only licensed hotels, motels and guest houses with facilities and serviced apartments with 15 or more rooms or units. This data service for the Northern Territory contains tables on the basis of both survey scopes to enable interstate comparisons to be made.

**6** The short-term non-residential accommodation which is in scope of this survey is accommodation which is not let out on a lease basis, and which is let out to guests who would generally, although not necessarily, stay for periods of less than two months

**7** Some establishments included in the survey also provide long-term residential accommodation. For hotels, motels and guest houses, the amount of such activity is considered to be insignificant and is included in the data presented in this publication. For serviced apartments, only short-term non-residential accommodation is included.

### REGIONAL DATA

**8** From the March quarter 1998, survey results are aggregated to Tourism Regions as defined by relevant State and Territory Tourist Commissions or equivalent organisations. Details of the composition of Tourism Regions, including maps, follow.

### FUTURE COLLECTION STRATEGY

**9** As part of the future collection strategy of the STA, significant caravan parks, visitor hostels and remaining holiday flats, units and houses will be surveyed triennially, commencing with a year 2000 reference year.

**10** Each year, accommodation counts of number of establishments and capacity data will also be compiled in respect of the previous scope of the survey (but recognising serviced apartments separately). These counts are expected to be published annually in the December quarter issue of *Tourism Indicators, Australia* (Cat. no. 8634.0).

**11** Some units will have been reclassified following the implementation of the new survey scope and definitions. As a result, data will not be strictly comparable with previously published data for particular accommodation types.

### UNPUBLISHED STATISTICS

**12** The ABS may make available on request certain unpublished tourist accommodation statistics, including statistics for past quarters and for specific areas and more detailed information for specific data items. For example, detailed employment statistics showing the number of full-time, part-time or casual employees may be available. A charge may be made for this information.

## GLOSSARY

<b>Average length of stay</b>	<p>Average length of stay is expressed in numbers of days and calculated:</p> <ul style="list-style-type: none"> <li>▪ for hotels, motels and guest houses and serviced apartments, by dividing <i>Guest nights</i> by <i>Guest arrivals</i>; and</li> <li>▪ for holiday flats, units and houses, by dividing <i>Unit nights occupied</i> by <i>Unit lettings</i>.</li> </ul>
<b>Bed spaces</b>	Three-quarter beds are counted as one bed space; double beds as two bed spaces. Cots are excluded.
<b>Capacity</b>	Capacity in terms of <i>Guest rooms/units</i> or <i>Bed spaces</i> is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included.
<b>Caravan park capacity</b>	The total number of <i>On-site vans</i> , <i>Other powered sites</i> , <i>Unpowered sites</i> and <i>Cabins, etc.</i>
<b>Establishments</b>	For hotels, motels and guest houses and serviced apartments, caravan parks and visitor hostels, the number of establishments within the scope of the survey which operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons.
<b>Guest arrivals</b>	The total number of paying guests counted only on the first night they stayed at the accommodation establishment.
<b>Guest nights</b>	The total number of paying guests counted on each night they stayed at the accommodation establishment.
<b>Guest rooms</b>	The total number of rooms available at each establishment at the end of the survey period for accommodating short-term paying guests. Units and apartments within serviced apartments are treated as rooms in these survey results.
<b>Letting entities</b>	For holiday flats, units and houses, the number of owners, managers or real estate agents within the scope of the survey who operated for any part of the survey period.
<b>Occupancy</b>	<p>Occupancy in terms of <i>Room night</i>, <i>Unit nights</i> or <i>Site nights</i> refers to the total number of nights each guest room, unit or caravan park site, etc. was occupied during the survey period.</p> <p>Occupancy in terms of <i>Guest nights</i> refers to the total number of nights each paying guest stayed during the survey period.</p>
<b>Occupancy rates</b>	<p><i>Occupancy rates</i> represent occupancy expressed as a percentage of total capacity available during the survey period, e.g. for the period</p> $\text{Room occupancy rate (\%)} = \frac{\text{Room nights occupied}}{(\text{Guest rooms}) \times (\text{No. of days in the period})} \times 100$ <p>providing that, for establishments closing (other than for seasonal reasons) or opening during the survey period, the denominator of the above expression includes only operating periods.</p>
<b>Other sites permanently reserved</b>	The total number of powered and unpowered sites, on-site vans and cabins, etc. continuously let for two months or more by the end of the survey period to tenants who occupy the sites on a casual or sporadic basis.

- Persons employed** The total number of persons working at each accommodation establishment at the end of the survey period (including working proprietors and those working on other than accommodation activities)
- Room nights available** The number of guest rooms/units available multiplied by the number of days for which they were available during the survey period. For establishments closing (other than for seasonal reasons) or opening during this period, operating periods only are included.
- Sites occupied by long-term guests** The total number of sites, etc. occupied at the end of the survey period by guests who have stayed continuously for two months or more.
- Star grading** The grading of hotels and motels with facilities and serviced apartments based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication *Accommodation Australia*, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).
- Takings from accommodation** Gross revenue from the provision of accommodation, including bed taxes. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.
- Unit lettings** The total number of times a holiday flat, unit or house was occupied by a new tenant, counted only on the first night it was occupied by the new tenant.
