Purpose of Collection

The purpose of this collection is to measure agricultural activity throughout Australia and provide information regarding agriculture's contribution to national production.

Collection Authority

The information asked for is collected under the authority of the *Census and Statistics Act 1905*. Your co-operation is sought in completing and returning this form by the due date. The Act provides me with the power, if needed, to direct you to provide the information sought.

Confidentiality

Your completed form remains confidential to the Australian Bureau of Statistics (ABS). Statistics will only be published in the form of aggregated data. Personal or financial statistics will not be released in such detail as to identify any individual but some very detailed commodity statistics could relate to data of a single holding. Respondents who can show that their holding may be identified in the detailed commodity statistics published by the ABS can apply to the ABS to further aggregate the data to avoid such identification.

Water use

22a Did you use water for agricultural production between 1 July 2006 and 30 June 2007?

No  Go to Question **23a**

Yes

22b Water used for agricultural production on your holding

Note

- Where any area of pasture or crop was watered more than once during the season, show this area only once.
- Where two or more crops have been grown on the same area during the year, the area watered should be shown for each crop.
- To convert acres to hectares, divide acres by 2.47.
- To convert gallons to litres, multiply gallons by 4.55.
- 1 megalitre = 1,000 kilolitres.
- 1 megalitre = 1.23 acre feet.
