STATISTICAL SUMMARY of WESTERN AUSTRALIA from 1829 to 1902, inclusive.

Main statistical table with columns for Year, Population, Vital Statistics, Public Finance, Lands, Agriculture, Live Stock, Government Railways, and Private Mines. It contains detailed data for each year from 1829 to 1902.

Table titled 'POST AND TELEGRAPH DEPARTMENT (Departmental Figures)' and 'EXPORT OF CERTAIN ARTICLES, THE PRODUCE OF THE STATE'. It includes data for telegraph lines, shipping, and various export commodities like wool, grain, and minerals from 1829 to 1902.

From the first settlement of the Colony up to the year 1827 there was no Blue Book issued, and the figures relating to arrivals and departures, shipping, imports and exports, were taken either from the reports of the Harbour-Master at Fremantle, or from the Blue Book issued only after the year 1827. From 1827 to 1836, inclusive, the Blue Book gives only the excess of arrivals over departures, of which no record was kept.

\* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount actually spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs." and "Water Supply and Sewerage" are probably most affected by this classification.

No. 11.—GENERAL IMPORTS into the State of Western Australia during the Year 1902.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII., No. 14). In cases where the duties under the Special W.A. Tariff prove higher than those imposed by the Commonwealth on the like goods, then such higher duties are collected.

Duties on goods of Commonwealth origin passing into Western Australia are collected under the provisions of "The Tariff Act, 1893" (57 Vict., No. 11), "The Customs Duties Acts of 1895 and 1896" (59 Vict., No. 8, and 60 Vict., No. 19), "The Customs Duties Amendment Act, 1898" (62 Vict., No. 5), and "An Act to Repeal Duties on Live Stock and Frozen Meats, 1900" (64 Vict., No. 4).

NOTE A.—The duties imposed under the Special W.A. Tariff were reduced by 20 per cent. on and after 8th October, 1902 (C. of A.C. Act, Sec. 95).

B.—On British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

C.—The differences between the quantities and values entered for Home Consumption and the duties collected are principally due to Credits per Interstate Certificates and to Excess Collections caused by applying the Special Rate of Duty to British and Foreign Imports.

D.—The "Quantities" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

† It will be noticed that in several instances the Departmental Totals of Revenue and Expenditure are not identical with the Treasury amounts published under corresponding headings in Part II, "Public Finance." In explanation it must be stated that the figures supplied by the Treasury represent the actual amounts received and expended within the period under review, whilst the Departmental Returns include all amounts directly relating to that period, although not collected or not paid until after its expiration.

\* Included under heading "Orchards."

† The apparent falling off in 1896-97, as regards the heading "Orchards," is to some extent explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

‡ The acreages under "Vines and Fruit Trees" in 1896-97 and subsequent years have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard suggested by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.

|| Includes 27½ acres miscellaneous crops.

\* In cases where blanks occur, the article was probably classified under some general heading, and not particularly specified. This table has been compiled with the special object of showing the values of the importations into Western Australia during the last 10 years of such products of the soil and of live stock as could have been produced within the State and to serve as a basis for calculations as to the market reasonably to be expected therein for home-grown products.

\* Not ascertained previous to 1897. † Exclusive of cost of administration. ‡ Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By the "Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and consequently the percentage of attendance to enrolment, at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. § From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment."

\* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools for several years past. In 1895 they were extended to the boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

§ In 1899, 1900, 1901, and 1902 the bursaries were for boys and girls without distinction of sex.

|| No special number offered.

— Signifies "No record."

## PART XII.—MISCELLANEOUS.

## No. 5.—Rainfall in Western Australia during 1902.

With averages (to the end of 1902) for all stations having at least five years' record. 100 Points=1 inch.  
The Sign ... signifies "no rain fell." The Sign -- signifies "no record."

NOTE.—The stations are grouped into districts, and these are sub-divided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1902. The average is taken for all years up to and including 1902.
