* Half-year to 30th June. † The expenditure from Loans has been classified in this table under the headings made use of in the Schedules to the various Loan Acts, this being the method adopted by the Treasury. Information as to the total amount actually spent under some headings of Expenditure is consequently not obtainable, certain items being included under the indefinite heading "Development of Goldfields and Mineral Resources." "Electric Telegraphs," and "Water Supply and Sewerage" are probably most affected by this classification.

* It will be noticed that in several instances the Departmental Totals of Revenue and Expenditure are not identical with the Treasury amounts published under corresponding headings in Part II. "Public Finance." In explanation it must be stated that the figures supplied by the Treasury represent the amounts received and expended during the period under review, whilst the Departmental Returns include all amounts directly relating to that period, although not paid until after its expiration.

* Included under heading "Orchards."

† The apparent falling-off in 1896-97, as regards the heading "Orchards," is to some extent explained by the fact that the acreages now separately specified under "Onions," "Other Root Crops," "Market Gardens," etc., were in previous years all included under the one heading.

‡ The acreages under "Vines and Fruit Trees" in 1896-97 and subsequent years have been compiled on the basis of the actual number of vines and fruit trees planted according to a standard suggested by the Department of Agriculture, which allows 600 vines or 100 fruit trees to the acre; a comparison between the figures of these years and those of previous years is, therefore, valueless.

|| Includes 27½ acres miscellaneous crops.

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION.

No. 16.—Ore and Minerals, other than Gold, produced in Western Australia, as reported to the Mines Department during 1904 and previous years.

NOTE.—As the collection of statistics of minerals, other than gold, was only commenced by the Mines Department in 1899, the mineral production previous to that year has been taken from the Customs Records. See Table 18.

* Children under the age of seven years are not criminally responsible; those who have attained that age, but are still under fourteen, are only criminally responsible if it is proved that at the time of the offence they were capable of knowing that they ought to have acted otherwise. In the above table charges have been included concerning children under 7 and over 14. The total of 346 includes, as will be seen, 72 neglected children.

* Exclusive of cost of administration. † Up to and including 1895 the numbers given are those of the "Assisted" or State-aided Denominational Schools. By "The Assisted Schools Abolition Act, 1895," all grants-in-aid to these were abolished from the 31st December of that year. Thereafter these schools ranked as "Private" schools, as distinguished from "Government" schools. The figures for 1896 and onwards include all private schools, secondary as well as primary, though one of the former (the Perth High School) is subsidised by the State. The average attendance, and consequently the percentage of attendance to enrolment, at these schools from 1896 is partly estimated, some of the returns forwarded being obviously incorrect. ‡ Not ascertained previous to 1897. § From and including 1897 the percentage of attendance to enrolment has been calculated on the basis of "average attendance" to "average enrolment." ¶ Including one undenominational school, particulars of which are not included in Table No. 6, pages 8 and 9.

* Bursaries of the value of Ten pounds have been offered to the girls attending the Elementary Schools for several years past. In 1895 they were extended to the Boys also.

† The examination being similar to that laid down for the High School Scholarships, one of which happened to be vacant, this Scholarship was, in place of the bursary, offered to, and accepted by, the boy who had passed; no bursary was, therefore, actually given.

‡ In 1899, one boy and one girl obtaining equal marks, the prize was divided between them. In the above table each has been credited with winning a bursary.

§ In 1899, and subsequent years, the bursaries were for boys and girls without distinction of sex.

** Note.—Owing to an alteration in the date of the financial year from the 31st of December to the 30th of June having been made in the "Roads Act, 1902," no return relating to Road Districts appeared in the 1903 Statistical Register. In this issue, therefore, the Returns cover a period of 18 months, viz., from the 1st of January, 1903, to the 30th of June, 1904.

* The monthly barometer mean readings since 1885 are taken from the 9 a.m. and 3 p.m. daily readings. Prior to that, the mean of the noon readings was used as the monthly mean. † The thermometers were moved in August, 1885, to their present position in the Botanic Gardens, and as they have apparently given a slightly lower record since then, the means have been taken from 1886 only.

PART XII.—MISCELLANEOUS.

No. 5—Rainfall in Western Australia during 1904.

With averages (to the end of 1904) for all stations having at least five years' record. 100 Points=1 inch.

NOTE.—The stations are grouped into districts, and these are subdivided into square degrees, which are figured according to the latitude and longitude of the N.W. corner of each square, the first two figures representing the latitude and the last two the longitude, less 100°. Thus Perth is in the square 3115, showing that its latitude is 31° odd minutes, and its longitude 115° odd minutes. The mean rainfall for each square degree is adopted from all the stations situated in that square having complete records for 1904. The average is taken for all years up to and including 1904.

Square.	Locality.	Total for 1904.		Mean for Square Degree during 1904.	Average to 31st December, 1904, for Square Degree.	No. of Years for Average.
