## PREFACE

---

This Bulletin, which is the eighty-first in the series, furnishes detailed statistics relating to the year 1963. Some comparative tables showing particulars for earlier years are included in each Section, but where the comparison is on the basis of individual years the period covered is necessarily limited. The more widely used totals and rates for each State and Territory for each year from 1886 to 1963 are given in a separate Statistical Summary included as Section VIII.

Previous issues of this bulletin contained detailed tables on Causes of Death (Nos. 113-117, 120-124 and 143-145 of issue No. 80—1962). For 1963 and subsequent years, however, these detailed tables will be published in a separate bulletin *Causes of Death*.

Minor revisions to quarterly population estimates for Victoria and Tasmania, were made subsequent to the printing of the body of this Bulletin. These have been incorporated in an Appendix (*see p. 139*).

Thanks are expressed to the Deputy Commonwealth Statisticians, the State Government Departments responsible for the registration of births, deaths and marriages, and the Department of Territories for the valuable assistance rendered by them in furnishing the data for the compilation of the vital statistics.

K. M. ARCHER,  
Commonwealth Statistician.

## SECTION I.—POPULATION

**NOTE.—Estimated Population of States.** For dates subsequent to the Census of 30th June, 1961, the estimated population in each State represents the population ascertained at the Census, plus natural increase and recorded net migration into the State since the Census. As complete records of interstate migration are not available, the estimated State populations so derived are approximate, and are subject to revision when the actual population of each State is ascertained at the next Census.

The population estimates for dates prior to the Census of 30th June, 1961 have been revised, and are final. For some States the revisions were substantial.

(a) For total increase recorded for each year commencing with 1886, see Section VIII.—Statistical Summary. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) For the period September, 1939, to June, 1947, troop movements have been excluded and deaths of Australian defence personnel, whether in Australia or overseas, included.

NOTE.—Population increase is derived from the excess of births over deaths (natural increase) and the excess of arrivals over departures (net migration). Differences between total increase based on records of births, deaths, arrivals and departures, and total increase obtained by comparing the results of one population census with the preceding one are due to deficiencies in the records. Up to June, 1933, recorded overseas departures were adjusted for these differences; since then the differences have been shown as a separate item. For the period from September, 1939, to June, 1947, natural increase related only to births and civilian deaths.

Minus sign (-) denotes decrease.

NOTE.—The Metropolitan Urban Divisions relate to the capital cities of the States and Canberra, the capital city of Australia, together with adjoining urban municipal areas within boundaries used for Census purposes.  
 Other Urban Divisions comprise the capital city of the Northern Territory, all other municipal areas and non-municipal towns with a population of 1,000 persons or more (750 or more in Tasmania).  
 Rural Divisions comprise the remaining portion of each State and Territory, including not incorporated areas.  
 "Migratory" relates to persons not elsewhere enumerated who, at midnight between 30th June and 1st July, 1961, were travelling on ships or on long-distance trains or aircraft.

## SECTION II.—OVERSEA ARRIVALS AND DEPARTURES

NOTE.—This section contains statistics of persons arriving in Australia from overseas, or departing from Australia for overseas.

**Scope of Statistics.**—Crew members and "through" passengers (i.e. persons remaining on board a ship while in Australian waters, or travelling on an aircraft passing through Australia) are excluded. For the period September, 1939, to June, 1947, movements of Australian defence personnel were excluded.

**Stated Purpose of Travel.**—Oversea travellers are classified according to declared intention in regard to residence into two principal categories, distinguishing movements for short terms from movements for longer periods (including permanently). Prior to issue No. 75 of this Bulletin, these categories were *temporary* and *permanent*. Thereafter they were changed to *short-term*, and *permanent and long-term*, but the basis of classification was not changed and the figures are directly comparable for the whole period. For short-term movements, oversea visitors and Australian residents have been identified separately. This classification is substantially in accordance with international usage and is based on the purpose of travel stated by travellers on arrival in, or departure from, Australia. These statements represent the traveller's intention at that time. Many travellers subsequently change their intentions and this must be borne in mind in interpreting the statistics.

Revised questions for travellers were introduced in mid-1958, and these enabled the separation, from 1st January, 1959, of permanent from other long-term movements and also the identification of former settlers departing among the permanent departures.

The categories of travellers according to stated purpose of travel are as follows.

**Permanent movement** consists of persons arriving with stated intent to settle permanently in Australia, and Australian residents departing with stated intent to reside permanently abroad. *Settlers* are persons who, on arrival in Australia, indicated that they came intending to settle and include assisted settlers, i.e. persons who have received assistance from the Australian Government towards the cost of their passage to Australia. *Former settlers* are persons who, on departure from Australia, stated that they had come to Australia intending to settle, had stayed for a period of twelve months or more and were now departing permanently. Persons who stated a period of less than twelve months are classified to "visitors departing, short-term movement".

**Long-term movement** consists of the arrival of visitors and the departure of residents with stated intent to stay (in Australia or in a country abroad respectively) for twelve months or more; and the departure of visitors and the return of Australians who have stayed (in Australia or in a country abroad respectively) for twelve months or more.

**Short-term movement** consists of all other movements, including the movement of Australian troops irrespective of period of stay.

Visitors arriving and residents departing are further classified according to stated purpose of travel, the categories being for visitors, "In Transit", "Business", "Holiday", "Education" and "Other Purposes" and for residents "Business", "Holiday", "Education" and "Other Purposes". "In Transit" visitors include all those who state "In Transit" as their purpose of journey to Australia provided that their intended length of stay in Australia does not exceed one month.

## SECTION IV.—DIVORCE

The *Matrimonial Causes Act 1959* came into operation on 1st February, 1961. This Act established uniform grounds throughout Australia for the termination of marriage, and superseded the matrimonial causes laws of the States and Territories except in so far as the transitional provisions of the Act keep them in force for the purpose of completing pending proceedings. Because of differences in legislation and also some variations from State to State in the bases of compilation of divorce statistics prior to the introduction of the uniform system, the figures for 1961 and subsequent years are not strictly comparable with those for earlier years. See especially the footnotes to Tables No. 73, page 56 and No. 80, page 60.

Under the new legislation, a court may grant decrees of dissolution of marriage (commonly known as divorce), judicial separation, nullity of marriage, restitution of conjugal rights and jactitation of marriage (i.e. that a person has falsely claimed to be another person's wife or husband). Orders may be made for the custody of children, the provision of maintenance, damages and the settlement of marriage property.

The statistics shown hereunder refer only to petitions filed for and final decrees granted for dissolution, nullity and judicial separation. Statistics of petitions filed relate only to the original petition in a suit, i.e. a cross-petition contained in an answer by the respondent is not taken as a separate petition, nor are the grounds cited in a cross-petition included in table 68, page 53. Statistics of petitions filed since February, 1961, are on a uniform basis for all States and Territories, but statistics of decrees of dissolution, nullity and judicial separation granted since that date include some decrees made on petitions under the superseded laws and are to that extent not uniformly based. For 1963, 95 per cent. of decrees granted for dissolution were from petitions under the new legislation.

(a) Decrees absolute. (b) Statistics in respect of dissolutions of marriage for which petitions were lodged in or after February, 1961 are on a uniform basis in all States. Petitions lodged before that date were dealt with under the various, now superseded, State laws even if they were heard in 1961 or later years. Furthermore, there were changes made in some States regarding the way in which divorce statistics were compiled. For instance, dissolutions made on more than one ground were allocated to the more important ground in earlier years. For these reasons, comparisons from year to year of the figures shown in the above table should be made with caution. (c) Separation was a ground for dissolution in only two States under the old legislation. (d) This was a ground in one State only under the old legislation. Separate figures were not compiled before 1961, the dissolutions on this ground being included with desertion. (e) This was a ground for dissolution in only one State under the old legislation. (f) Not separately compiled before 1961. See footnote (b) above. (g) "Adultery and bigamy" is not a ground for dissolution under the new Commonwealth legislation.

(b) At time of petition. The term "children" used in this table is not used uniformly. For 1960 and previous years, "children" was defined according to State legislation and Court rules, as follows:—New South Wales, Victoria and Western Australia, issue of the marriage of all ages, living and dead; Queensland, including adoptions and stepchildren of all ages, living and dead; South Australia, living issue of the marriage under 16 years of age; Tasmania, living issue of the marriage. Since 1961, these definitions continued in respect of dissolutions arising from petitions lodged under the old legislation, except that "children" 21 years of age and over were excluded as far as possible. For dissolutions arising from petitions under the *Matrimonial Causes Act 1959* a uniform interpretation of number of children is applied. The Act requires that particulars should relate to "children of the marriage" aged under 21 years, these being defined to include all children born to the husband and wife (unless adopted by another person) or adopted since the marriage, and other children of either party (including adopted children) who were members of the household when the parties last lived together.

(a) Includes two cases of triplets.

NOTE.—(1) In the cases of multiple births included above, the following stillbirths were recorded:—Twins, Nuptial—New South Wales, 36; Victoria, 21; Queensland, 17; South Australia, 5; Western Australia, 8; Tasmania, 1; Northern Territory, 1; Australia, 89; Twins, Ex-nuptial—New South Wales, 1; Victoria, 1; Australia, 2; Triplets, Nuptial—New South Wales, 1; Queensland, 1; Western Australia, 1; Australia, 3.

(2) Owing to the registration procedure adopted in some States, it is possible that in some cases where only one child of a multiple pregnancy is live-born the confinement has been treated as a single birth. However, the number of multiple births is not significantly affected.

(a) Number of live births per 1,000 of mean population.

(b) Included with South Australia prior to 1901.

(c) Part of New South Wales prior to 1911.

NOTE.—The birth rates in the table above are based on live births registered in the respective States and Territories. Some confinements however, take place in a State other than the State in which the mother usually resides, particularly in areas near State borders. The variation thus caused in the birth rates for the States and Territories by referring the birth registrations to the mother's usual residence, are shown by the following corrected rates for 1963:—New South Wales, 20.83; Victoria, 21.44; Queensland, 22.92; South Australia, 21.07; Western Australia, 22.39; Tasmania, 23.41; Northern Territory, 31.81; Australian Capital Territory, 27.08. See *Demography Bulletin* No. 78 of 1960 (page 51) for the effect of the variations in the availability of hospital facilities on the birth rate in the Australian Capital Territory and in the neighbouring town of Queanbeyan in New South Wales.

## SECTION VII.—POPULATION AND VITAL STATISTICS OF EXTERNAL TERRITORIES

NOTE.—The particulars of estimated populations of the External Territories and the data for compilation of vital statistics are supplied by the Department of Territories.

In the population estimates for Papua, New Guinea and Nauru distinction is made as between the "indigenous" and "non-indigenous" population. The estimates of indigenous population for Papua and New Guinea are based on counts of the population by administrative patrols in areas under full administration control and in the remaining areas on whatever information is available. The variations that exist between the latest estimate and those for previous years are partly due to the extension of administrative control which makes possible the replacement of estimates by more accurate enumeration. The estimates of non-indigenous population are subject to revision when actual population figures are ascertained at the next Census.

The particulars of vital statistics relate to the total population for Norfolk Island and Christmas Island and to the non-indigenous population for Papua, New Guinea and Nauru.

For a number of reasons registration of vital events are often delayed (e.g. suspension of civil administration arising out of the 1939-45 War, access to the registration authorities) and particulars of births and deaths are shown in respect of events registered on the basis of "year of occurrence".

(a) For years prior to 1886, see *Demography*, Bulletin No. 67, 1949.

(b) Northern Territory figures included with those for South Australia prior to 1900.

(c) Part of New South Wales prior to 1st January, 1911. The estimated male population on 31st December, 1910, was 969.

(d) Population increased by 156 males owing to the transfer of the Jervis Bay area to the Australian Capital Territory.

NOTE.—All estimates have been corrected for discrepancies disclosed by the various Censuses of the Commonwealth up to the Census of 30th June, 1961. Figures from 1939 to 1946 include all living Australian defence service personnel according to the State in which they resided prior to their enlistment and irrespective of whether they were within Australia or overseas, but exclude members of Allied Services and prisoners of war and internees from overseas. The population estimates from 31st December, 1947, onwards include Australian defence personnel in Australia according to their actual location and are exclusive of members of the Forces overseas.

(a) For years prior to 1886, see *Demography*, Bulletin No. 67, 1949. (b) Northern Territory figures included with those for South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) See footnote (d) to Table No. 144, page 108. (e) For the period September, 1939, to June, 1947, troop movements were excluded and deaths of defence personnel, whether in Australia or overseas, included.

NOTE.—Population increase is derived from the excess of births over deaths (natural increase) and the excess of arrivals over departures (net migration). Differences between total increase based on records of births, deaths, arrivals and departures and total increase obtained by comparing the results of one population Census with the preceding one are due to deficiencies in these records. Particulars of total increase have been adjusted for these deficiencies. These adjustments have also been included in the figures of "Estimated Net Interstate and Overseas Migration" shown in Table No. 149, page 113.

For the period from September, 1939, to June, 1947, natural increase (Table No. 148, page 112) relates only to births and civilian deaths. Minus sign (-) denotes decrease.

(a) Recorded net interstate and overseas migration together with adjustments for the differences between the population estimated and recorded at census dates. As the records of migration, particularly interstate, are not complete, it is possible to attribute such differences largely to migration, though they may be due partly to differences in the coverage of census enumerations and deficiencies in the records of natural increase i.e., births and deaths. In making the estimates above the whole of the unexplained difference found at each census has been attributed to migration and the recorded migration figures have been adjusted accordingly. For years prior to 1886 see *Demography*, Bulletin No. 67, 1949. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) See footnote (d) to Table No. 144, page 108. (e) Excludes troop movements from September, 1939, to June, 1947. (f) Excludes interstate migration from July, 1943, to June, 1947.

NOTE.—See NOTE to Table No. 147, page 111.

Minus sign (-) denotes excess of departures over arrivals.

(a) The rates represent total increase in population during the year expressed as a proportion per cent. of the population at the end of the previous year. See NOTE to Table No. 142, page 106. For years prior to 1886 see *Demography*, Bulletin No. 67, 1949. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) Population increased by 156 males and 126 females owing to the transfer of the Jervis Bay area to the Australian Capital Territory. (e) For the period, September, 1939, to June, 1947, troop movements were excluded and the deaths of defence personnel, whether in Australia or overseas, included.

Minus sign (-) denotes rate of decrease.

(a) Excess of recorded interstate and overseas arrivals over departures together with adjustments for the difference between the population estimated and recorded at Census dates per 1,000 of mean population. See footnote (a) to Table No. 149, page 113. For years prior to 1886 see *Demography*, Bulletin No. 67, 1949. (b) Included with South Australia prior to 1901. (c) Part of New South Wales prior to 1911. (d) Increase due principally to inclusion of the Jervis Bay area in the Australian Capital Territory. (e) Excludes troop movements for the period September, 1939, to June, 1947. (f) Excludes interstate migration from July, 1943, to June, 1947.

Minus sign (-) denotes rate of decrease.

(a) Deaths of serving members of the Forces, whether occurring in Australia or overseas. The figures above are based on slightly incomplete records and show the State or Territory in which the deceased members of the Forces resided prior to enlistment. The complete total for Australia for deaths of defence personnel from September, 1939 to June, 1947 was 37,599 males, 179 females, 37,778 persons. It is not possible to show a dissection of these figures by State or Territory of residence.

## ISSUED BY THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

NOTE.—The publications listed below may be bought from the Government Printer, Canberra, and in each capital city from the Deputy Commonwealth Statistician and the Commonwealth Sub-Treasury. They may also be ordered through the leading booksellers in the principal cities of Australia.

In addition to printed publications, a number of mimeographed publications are available in limited numbers free of charge. Publications dealing with individual States only are produced by the Deputy Commonwealth Statistician in each State. A complete list of publications issued by the Bureau is given in *Publications of the Commonwealth Bureau of Census and Statistics* (with subject index) available from the Commonwealth Statistician, Canberra.
