RETAIL SALES OF GOODS : AUSTRALIA

MONTH OF JULY, 1966 (PROVISIONAL) AND JUNE QUARTER, 1966 (PRELIMINARY)

A provisional estimate of the total value of retail sales in Australia (excluding motor vehicles, parts, petrol, etc.) for the month of July, 1966, is shown in Table 1 of this Bulletin. Preliminary estimates for the June quarter, 1966 are published in Tables 2 and 3. Figures for some earlier months and quarters are shown for purposes of comparison.

2. The provisional monthly estimates have been obtained from a sub-sample of establishments used to provide quarterly estimates of the value of retail sales. The sub-sample is designed to provide an estimate lying within a relatively small range above or below the true figure so as to give an early indication of trend. Undue significance should not be attached to very small movements or to the exact magnitude of any movements shown by these provisional estimates. These estimates are subsequently adjusted in accordance with quarterly estimates when the latter become available.

3. Month to month changes in retail sales figures are affected by seasonal factors and also by differences in the number of days in each month and by variation in types of trading day (the number of Mondays, Tuesdays, Wednesdays, etc. in the month). Adjustments for these factors have not been made in the sales estimates in this Bulletin.

4. The preliminary quarterly estimates have been compiled on the basis of a large response from the full quarterly sample. The movement over the corresponding quarter of the preceding year which is shown by the preliminary quarterly estimates of total value of retail sales in Australia (excluding motor vehicles, parts, petrol, etc.) normally differs by less than one per cent. from the corresponding movement shown by the estimates compiled from the full sample and published about three months after the end of the quarter.

5. The provisional figures previously published for the months of April, May and June, 1966 have now been adjusted in accordance with the preliminary estimates for June quarter, 1966.

6. All figures in this Bulletin are on a basis comparable with the 1961-62 Retail Census. Further information relating to the basis on which the statistics of retail sales of goods are compiled, is contained in Statistical Bulletin "Retail Sales of Goods" March quarter, 1966 of 1st July, 1966.
