nya not yet available

(a) Derived from current price data.

(b) Ratios for the current quarter are derived using previous quarter GDP and GNI.

(c) Ratios for the Net International Investment Position are derived using levels for those series at the end of the period and GDP or GNI for the year ended with that period. Net International Investment Position data are not seasonally adjusted, however, GDP and GNI are seasonally adjusted.

(d) Net income on foreign debt is not seasonally adjusted, however the Goods and services credits series used to derive the ratio are still seasonally adjusted.
