Subject: Action: conduct of University officer

Dear [REDACTED]

I write to bring the conduct of a [REDACTED] to your attention. The Australian Statistician received the attached email from one of your staff today.

Irrespective of their personal opinions, I feel sure that you would expect a higher standard of conduct from staff engaging under the signature block and logo of your esteemed institution.

Further, as a large employer and research consumer of Census statistics, your support in encouraging staff to complete the Census would be greatly appreciated. The 2016 Census *Pause Partner Pack* contains suggestions on how you can get involved by spreading the word about the 2016 Census. [Click here](#) to download if interested.

I look forward to hearing your response and thank you for your consideration on these important matters.

Kind regards

[REDACTED]

Mr Kalisch,

Who the fuck do you think you are changing the scope of the census by collecting my family members' personal data electronically to be stored indefinitely. My family's personal information is none of your fucking business! I work in IT Mr Kalisch and know you won't (actually can't) keep that data safe.

The Australian Government has been illegally spying on my family's private emails, private phone conversations, actual physical movements (and god knows what else) for years and treasonously sharing that data with other countries without our knowledge - we wouldn't even know about this outrage now if it weren't for whistle blowers like Edward Snowden and Julian Assange who are now being persecuted by these same governments.

The world has changed Mr Kalsich and the Australian people no longer trust the Australian Government, especially as you are not asking us to complete the census but instead are threatening huge fines for those who do not 'comply.'

Tell you what why don't you just use the data you stole from me for all these years and put that in

your fucking Census!

Regards

Dear [REDACTED]

On behalf of [REDACTED] I would like to say thank you for taking the time to bring this matter to our attention and express my apologies for the delay in responding.

We take the matters you have raised, very seriously and will pursue the matter accordingly.

We have also looked to suitable opportunities to encourage our staff to complete the 2016 Census and appreciate once again, your correspondence.

Kind Regards

[REDACTED]
