NOTE.—The Metropolitan Division relates to the capital city and adjoining urban municipal areas within boundaries used for Census purposes. In 1933 and 1947 these boundaries were identical.

The Urban-Provincial Division comprises urban areas outside the Metropolitan Division which are separately incorporated as Corporations. Some variations have been made in these areas since 1933.

The Rural Division comprises the balance of the State i.e. District Councils and the Unincorporated Areas and is affected by the inter-censal changes in the area of the Urban-Provincial Division.

In view of the foregoing the figures for the Urban-Provincial and Rural Divisions represent only a broad general classification based on administrative principles rather than geographical.

Minus sign (-) denotes decrease.

NOTES.

1. Wage-earners who were employed part-time in 1933 were asked to indicate that fact on the Census Schedule in answer to the question regarding occupational status, and all those who so described themselves are included in the work force for that year. In 1947, however, persons working regularly, but for considerably less than normal working hours, were instructed on the Census Schedule to exclude themselves from the work force unless their earnings from such work formed their principal means of livelihood.
