(a) This return is for the year ending 14th October, 1865.—(b) The revenue and expenditure returns of this Road District are for the financial year ending 16th October, 1865.—(c) Since the return for 1864, the Borough of Echuca has been taken from this District.—(d) This return includes the Borough of Steiglitz, which was only proclaimed in November, 1865.—(e) £596 17s. 6d. of this amount is received from the St. Kilda toll fund.—* Wherever an asterisk occurs, the information has not been received.

NOTE.—In several instances the above returns are incomplete, especially as regards the estimated population, number of dwellings, and total value of rateable property. The totals of these columns do not, therefore, represent the sum of these items in all the Shires and Road Districts. The balances for and against the several Shires and Road Districts are respectively represented by the plus sign (+) and the minus sign (-). All places not marked as Shires are Road Districts.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The Returns of Milch Cows for the three years marked with asterisks refer only to those on alienated land. The Milch Cows kept on Stations were not returned separately from the other stock until 1863; consequently, until then the total quantity of Milch Cows could not be ascertained. The Pigs kept on Stations, except those with purchased land attached, were not returned until 1863.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.

In the Ballarat district the machinery used in alluvial mining shows an increase as compared with the returns of 1864. The increase in steam-engines used in alluvial mining is 13 in the number and 485 in the horse-power. There is a decrease in the number of puddling-machines, and of whims and pulleys. The number of water-wheels employed is 8 in place of 4 in 1864, with an increase of 21 in the number of stamp-heads. In quartz mining there is an increase in the number of steam-engines of 5, in the horse-power of 127, and in the number of stamp-heads of 129. There is an increase of 15 in the number of derricks. The increased value of the mining plant in the district, as compared with last year, is £68,670.

In the Beechworth district the number of steam-engines used in alluvial mining is increased by 1, and the horse-power by 113. There is a decrease in the number of puddling-machines, whips, water-wheels, and sluice-boxes, and a small increase in pumps and hydraulic hoses. In quartz mining there is an increase of 8 in number, and of 170 in the horse-power, driving 170 additional stamps. There is a slight increase in the number of water-wheels and crushing machines. The increased value of the mining plant in the district, as compared with last year, is £77,411.

In the Sandhurst district there is a decrease of 4 in the number of engines employed in alluvial mining, and of 39 in the stamp-heads, but an increase of 22 in the horse-power. There is a decrease generally in other kinds of machinery used in alluvial mining. In quartz mining, on the contrary, there is a marked increase in the number of steam-engines employed, viz., of 29, of 672 in the horse-power, and of 261 in the stamp-heads. There is an increase of 21 in the number of whips. The increased value of the mining plant in the district, as compared with last year, is £110,500.

In the Maryborough district the returns show 6 more steam-engines employed in alluvial mining, with an increase of 51 in the horse-power. There is a small increase in the number of whims and pulleys and of whips, and a decrease of 252 in the number of puddling-machines, and of 18 in the number of sluice-boxes. In the machinery used in quartz mining there are 3 engines less in number than in 1864, with a decrease of 139 in the horse-power and of 76 in the stamp-heads. The number of other machines has not altered in any great degree. The decreased value of the mining plant in the district, as compared with last year, is £9,950.

In the Castlemaine district there is an increase in the number of engines employed in alluvial mining of 22, of 678 in the horse-power, and of 84 in the stamp-heads, crushing cement, &c. There is an increase in the number of whims and pulleys, whips, sluices and toms, and of sluice-boxes, and a decrease in that of puddling-machines and water-wheels. In quartz mining the number of engines employed is increased by 4, but the horse-power has decreased by 17. There is a decrease in the number of crushing-machines, and an increase in that of whims and pulleys. The increased value of the machinery in the district, as compared with last year, is £26,811.

In the Ararat district there is a decrease of 6 in the number of engines employed in alluvial mining, and of 32 in the horse-power; the number of sluices and toms is decreased by 130. There is an increase of 24 sluice-boxes. In quartz mining the only variation worthy of remark is, the increase of 58 in the number of stamp-heads. The increased value of the mining plant in the district, as compared with last year, is £3,130.

The increase in the total value of the mining plant on the gold fields, as compared with 1864, is £276,572.

R. BROUGH SMYTH, Secretary for Mines.

QUARTZ REEFS AND EXTENT OF GOLD WORKINGS.

RETURN of the Number of Distinct Quartz Reefs actually proved to be Auriferous, and the Total Extent, in Square Miles, of Auriferous Alluvial and Quartz Ground actually worked upon in the several Mining Districts.

Ararat District ...	42	63½
Total	2,029	725½

R. BROUGH SMYTH, Secretary for Mines.

NOTE.—The number of "distinct" quartz reefs cannot be strictly correct, as parts of the same reef, in some localities, are held to be distinct reefs, and named accordingly. As the reefs are further explored it is found, too, that what were supposed to be separate reefs are not really distinct. The return of the area of auriferous ground actually worked on for 1864 is in excess of that for 1865. As now set down, it is but a rough approximation, and indeed cannot be otherwise. The area is less, in consequence of the Surveyors and Registrars having been instructed to make the computations on an uniform plan, and with great care; and it is believed that the figures given this year are not very far from the truth. But large areas of non-auriferous ground are included in some claims; and in other places, ground which was formerly held and worked by the miner is now under cultivation.

Total	700,339½	410,696	5	0 11 17'4

NOTE.—The above table does not show the total quantity of Quartz crushed in the several localities, but only the yield of certain "crushings" respecting which the Mining Surveyors and Registrars have been able to obtain information. Owing to the circumstance that many of the machine-owners are unable to give, or are precluded from giving, information, it is impossible to get complete returns from every district; and in considering the relative importance of each district, as regards quartz mining, the tables relating to machinery should be examined and compared. Since the first publication of the statistics, information has been obtained concerning 3,110,328 tons which have been crushed, which yielded an average of 12 dwts. 6.375 grs. Except in the Beechworth District, where the crushing power has been much increased during the year, the amount of quartz crushed is less in the several districts than in 1864. This is owing in a great measure to the drought, which has caused the stoppage of many machines, whether worked by steam or water power.

NOTE.—The above results are only rough approximations. The Mining Surveyors and Registrars have given approximate returns of the gold obtained severally from quartz veins and alluviums in their divisions; but as the Surveyors and Registrars could at best furnish no more than estimates, derived from returns made by the banks and gold buyers, and from their own knowledge of the nature of the workings in their districts, the figures must not be considered as correct.

Ararat District	248,350
Total	£8,498,924

NOTE.—The instructions issued to the Mining Surveyors and Registrars, for the purpose of guiding them in forming an estimate of the value of claims in their divisions, were to the effect that they should consult the quotations on the share lists in cases where they would apply; and, in cases where the claims were not included in any share list, that they should endeavor, by their local experience, and by inquiries, to arrive at as fair an estimate as possible. It is believed that they have carefully followed their instructions.

NOTE.—As regards some of the denominations the year 1859 shows an apparent falling off in the number of buildings used for public worship, and in the amount of accommodation provided. This is in consequence of those denominations having for that year given returns only of the regular churches and chapels, and not of the other buildings in which services were held.

BENJ. F. KANE, Secretary to the Board of Education.

NOTE.—Up to the period of this page being printed, the Board of Education had been unable to supply a detailed return of Common Schools for the year 1865, and hence the above return for 1864, which was published last year, has been reprinted. Should the statement for 1865 be furnished in time, it will be given in a subsequent portion of this work.

(a) The amounts in these two columns, although approximating very closely to the correct figures, may not, perhaps, in every instance be strictly accurate.—(b) Of the amounts in this column, the whole for 1862, and £61 for 1863, were paid to the Lands Titles Commissioners, whose office was abolished by the Act 27 Vic. No. 180, which came into operation on the 9th September, 1863. After that date, the powers previously vested in the Lands Titles Commissioners were transferred to the Commissioner of Titles, and the fees for hearing applications were paid into the General Revenue.—(c) This column presents a statement of the amount realised for lands sold; but the value of the few acres granted without purchase is not included. The figures given do not, therefore, show the total value of the lands alienated during each year.—NOTE.—The returns for 1864 and 1865 have been supplied by the Secretary to the Commissioner of Titles.

(a) Prior to 1860, the Estates of Deceased Persons were collected by the Curator. They are not, therefore, until then included in the returns of Property sworn to. In 1860, the new Act (24 Vic. No. 99) came into force, and since that period the property administered to by the Curator has been included in the returns.

NOTE.—This table has been compiled from returns received from the Police Magistrates, Town Clerks, Chairmen of Road Boards, and other officials located in the various districts, in accordance with forms supplied them from the Immigration Office. These forms, in addition to columns for the above information, contained a request that the wages of any other prominent callings might be furnished. This request resulted in wages of miners being returned at 10s. per day for Buckland, at from 40s. to 50s. per week for Campbell's Creek, at 10s. per day for Chiltern, at from 45s. to 50s. per week for Daylesford, at 7s. per day for Fryers, at from 6s. 8d. to 8s. 4d. per day for Greuville, at 8s. 4d. per day for McIvor, at from 6s. to 80s. per week for Omeo, at 7s. per day for St. Andrew's, at 70s. per week for Wood's Point; in all cases

without rations. Also, in wages of general laborers being returned at 60s. per week without, and 30s. per week with rations, for Wood's Point; in wages of wood and water carriers being returned at 7s. per day, without rations, for Campaspe; in stonebreakers' wages being returned at 7s. per day for Lexton; in engineers' wages being returned at 11s. 8d. to 13s. 4d. per day, and engine-drivers' wages at 10s. per day, both without rations, for McIvor; in gardeners' wages being returned at 20s. per week, with rations, and splitters', sawyers', and fencers' wages at 7s. per day, without rations, for North Harrow; in male cooks' wages being returned at from 25s. to 30s. per week, with board and lodging, at Omeo; in tanners' wages being returned at 6s. 8d. per day, and carriers' wages at 13s. 4d. per day, both without rations, at Strathfieldsaye.

WILLIAM HENRY ARCHER, Registrar-General.
