§ 3. Average Weekly Wage Earnings.

Average Weekly Total Wages Paid and Average Earnings, p. 266.—Particulars of the average weekly total wages paid and the average earnings per employed male unit for the year 1954-55 are shown in the following table:—

AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS, 1954-55.

⁽a) Includes Australian Capital Territory. (b) Includes Northern Territory. (c) Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. The same ratio has been used in each State, and because the average ratio of female to male earnings may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

§ 4. Basic Wages in Australia.

Metal Trades Margins Case, 1953-54.—On 25th February, 1954, the Full Court of the Commonwealth Court of Conciliation and Arbitration (Kelly, C.J., Kirby, Dunphy and Morgan, JJ.) gave judgment on claims by metal trades unions for increased margins for workers covered by the Metal Trades Award. The Court decided not to determine the matter but to adjourn further hearing of the case till 9th November, 1954. The employers had counter-claimed for reduced margins for partly-skilled and unskilled workers, at the same time, accepting that margins for tradesmen should remain unaltered.

The hearing before the Court was an outcome of references of claims of the metal trades unions by Conciliation Commissioner J. M. Galvin to the Full Court of the Commonwealth Court of Conciliation and Arbitration. The employees' claims were in the nature of a test case in order to determine the attitude of the Court to applications for increased margins.

The actual claims of the trade unions were for an increase in the marginal rate payable to a skilled tradesman in the metal trades from the existing rate of 52s. to 8os. per week (86s. for certain electrical trades), with proportionate increases for other occupations. The margins then current, with few exceptions, had been in existence since 1947.

The Court rejected the main submission of the unions that margins should be reviewed because the relative marginal rate payable for skilled work above that for unskilled work had diminished owing to the decreased purchasing power of money since 1947. Other principles put forward by the unions, but rejected, were that the margins should bear a definite relationship to the basic wage, and that margins should be adjusted in accordance with variations in the purchasing power of money.

The judgment stated that the reason skilled workers had lost ground since the war in comparison with unskilled workers was due to the fact that all wage earners, irrespective of their skill and contribution to the economy, had obtained certain benefits. These include:—the increase in the real value of the basic wage; the extension of paid annual leave; the reduction of the standard working week to 40 hours; the increases obtained in "penalty" rates for week-end work; the increases in marginal rates; and the flat-rate over-award payments made to all workers at the instigation of the unions.

The Court stated that there was considerable unbalance in the economy with a drift of population to secondary industries from the more remunerative primary industries. Any increase in the wage rates payable in the metal trades industry would make correction of this unbalance more difficult.

The Court expressed concern at the level of costs in secondary industry especially in comparison with those in other countries and indicated that any increase in marginal rates would aggravate the competitive position of Australian industry.

The skilled worker had a prima facie case for a review of margins payable under the metal trades award, but the Court thought that the position of the economy was so uncertain that it had decided to adjourn further hearing of the matter till 9th November, 1954.

The Court pointed out that the judgment was not to be taken as being determinative of other claims for marginal increases which may be made, except in so far that these claims are based alone on the variation in the purchasing power of money. It was important to note also that claims of higher paid workers for increased salaries or wage rates may be justified on the principle that these workers had not received benefits which other workers had obtained since the war.

1126 APPENDIX.

Upon the request of the applicant organizations the Court decided that the further hearing of these claims should be brought forward and the hearing commenced on 5th October, 1954.

In a judgment delivered on 5th November, 1954 the Court granted marginal increases to skilled tradesmen under the Metal Trades Award. The increases were based on a formula of two and one-half times the margin prescribed for the same occupation in the 1937 Metal Trades Award. If the application of this formula resulted in a decrease in the margin presently being paid, no alteration was to be made.

Wage and Salary Earners in Civilian Employment, pp. 288-9.—The following are particulars of wage and salary earners in civilian employment, excluding rural wage earners, females in domestic work in private homes, persons on the paid strength of the Defence Forces and National Service trainees in camp, for the month of June, 1955.

⁽a) Where dates are not quoted wage rates operate from beginning of first pay-period commencing in month shown. (b) Automatic adjustment discontinued from 23rd October, 1953, following decision of the Commonwealth Court of Conciliation and Arbitration on 12th September, 1953 (see page 276). (c) No basic wage declared but rates shown (Melbourne) are those commonly adopted by Wages Boards. The Victorian Factories and Shops (Wages Boards) Act, 1953 (proclaimed 25th November, 1953), requires Wages Boards to provide for the automatic adjustment of wage rates in accordance with variations in retail price index numbers. (d) Between February, 1954 and May, 1955 the Queensland Industrial Court declined to make any adjustment to the basic wage rates consequent upon quarterly movement in the "C" Series of retail price index numbers. (e) The "living wage" declared for the metropolitan area is also adopted in country areas except at Whyalla where a loading of 5s. is generally payable. The "living wage" is subject to quarterly variation according to the amount of the general automatic quarterly adjustment in the Commonwealth basic wage (discontinued on 12th September, 1953) for Adelaide. (f) The Western Australian Arbitration Court from July, 1953 to May, 1955 declined to adjust the basic wage rates in accordance with movements in the cost of living statements supplied by the Government Statistician. (g) None declared but rates shown (Hobart) are those commonly adopted by Wages Boards.

⁽a) Includes those who stated that they were usually engaged in work but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc., or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. Particulars of unemployment in this sense will be available when full analysis is made of reasons stated by persons "Not at Work."

CHAPTER XI.—EDUCATION.

§ 8. Universities.

Commonwealth Grants, pp. 418-9.—The States Grants (Universities) Act No. 28 of 1955 (assented to 15th June, 1955) repealed the 1953 Act. Notwithstanding the repeal, a condition subject to which an amount of financial assistance was paid to a State under the 1953 Act continues to have effect in relation to that payment. The main provisions are summarized below:—

Section 4 (1.).—If the sum of the fees and State grants received by a University during the year 1955 exceeds the amount specified in column 2 of the table below, the grant to the State for that year is—

- (a) an amount equal to one-third of the excess, and
- (b) the amount shown in column 3 of the table.

Section 4 (2.).—The maximum amount payable under Section 4 (1.) (a) above is shown in column 4.

Section 5.—The State will, in the year in which payment is received, pay to the University concerned an amount equal to the grants received and will ensure that—

- (a) the grant under Section 4 (1.) (a) is applied for expenditure, not being capital
 expenditure, on university purposes;
- (b) of the grant under Section 4 (1.) (b), the amount shown in column 5 is applied towards the teaching and administrative costs of the residential colleges of the University and the remainder for expenditure, not being capital expenditure, on university purposes.

The Aged Persons Homes Act No. 81, 1954 operated from 16th December, 1954. The purpose of the Act is to encourage and assist the provision of suitable homes for aged persons, ("Aged Person" means a man who has reached the age of 65 years or a woman who has reached 60 years and includes the wife or husband of an aged person residing or desiring to reside with the aged person) and in particular homes at which aged persons may reside in conditions approaching as nearly as possible normal domestic life, and, in the case of married people, with proper regard to the companionship of husband and wife.

Subject to this section, a society, association or other organization is eligible for assistance under this Act if—

- (a) it is carried on otherwise than for purposes of profit or gain to the individual members; and
- (b) it is a religious organization; an organization, the principal objects or purposes of which are charitable or benevolent; an organization of former members of the Defence Forces established in every State or a State branch of such an organization; or an organization approved by the Governor-General for the purpose of this Act.

A trustee or trustees under a trust established for charitable or benevolent purpose shall, if the Governor-General so approves, be deemed to be an organization referred to in the last preceding sub-section.

An organization conducted or controlled by, or by persons appointed by, the Government of the Commonwealth or of a State or a local governing body established under the law of a State, is not eligible for assistance under this Act.

Where the Director-General is satisfied that a building or buildings erected or to be erected, or purchased or to be purchased, by an organization is or are intended to be used permanently by or on behalf of the organization as a home or homes for the accommodation of aged persons, he may, in his discretion, approve that building or proposed building or those buildings or proposed buildings as a home for the purposes of this Act.

A building or proposed building shall not be approved under this section unless-

- (a) it was in course of erection by the organization on the 4th May, 1954;
- (b) its erection by the organization was commenced after the date specified in the last preceding paragraph or is to be commenced after the date of the approval; or
- (c) it was purchased by the organization after the date specified in paragraph
 (a) of this sub-section or is to be so purchased after the date of the approval.

The Director-General may, in his discretion, on behalf of the Commonwealth, make a grant of moneys in accordance with this Act to an organization as assistance towards meeting the capital cost of an approved home.

A grant under this section shall be made at such time, or by such instalments and at such times, as are determined by agreement between the Director-General and the organization or, in the absence of agreement, by the Director-General.

A payment under this Act shall not be made except to a corporation in which, or to trustees in whom, the approved home is or is to be vested.

Subject to this section the amount of a grant under the Act in respect of an approved home shall be an amount not exceeding—

- (a) one half of the capital cost of the home, as determined by the Director-General; or
- (b) the sum of the moneys expended, and the moneys presently available for expenditure, by the organization towards the capital cost of the home, being moneys which the Director-General is satisfied did not become available as a result of the borrowing of those moneys or any other moneys by the organization and were not received by the organization from the Government of the Commonwealth or of a State or from a local governing body or other authority established by a State Act, whichever is the less.

The Director-General shall not make, or agree to make, a grant under this Act to an organization in respect of an approved home unless he is satisfied that the sum of the moneys expended, and the moneys presently available for expenditure, by the organization towards the capital cost of the home together with the amount of the grant, will be not less than the capital cost of the home.

⁽a) Includes 21 prisoners-of-war repatriated since the armistice and one who died while a prisoner-of-war.

(b) Prisoner-of-War Exchange Agreement. As a result of talks between United Nations and Chinese delegates at Panmunjom during April, 1953, the Chinese agreed to release 600 United Nations sick and wounded prisoners-of-war in exchange for 5,100 North Korean and 700 Chinese prisoners. The exchange programme commenced on 23rd April, 1953, and 100 United Nations personnel were exchanged daily. The only Australians released were four captured on 25th January, 1953, and one captured on 14th January, 1953. All were released at Panmunjom on 23rd April, 1953. Under the terms of the Armistice Agreement signed at Panmunjom at 1000 hours on 27th July, 1953, all prisoners-of-war who insisted on repatriation were to be handed over within 60 days to the side to which they belonged at the time of capture. Fifteen Australian Army personnel and six R.A.A.F. personnel were released as a result of the agreement.

LIST OF SPECIAL ARTICLES AND MISCELLANEOUS MATTER CONTAINED IN PREVIOUS ISSUES.

This list refers to special articles and other more or less important miscellaneous matter which have appeared in previous issues of the Official Year Book, but which are not included, or are included in abbreviated form only, in the present issue. The list is, in the main, restricted to articles, etc., to which references are not given in the various chapters of this issue.

The figures below indicate, respectively, the number and page of the Official Year Book to which reference is made. In cases where matter was published in more than one previous issue, the volume and page for the last issue containing such matter are given. For possible revisions, however, issues immediately following the one referred to should also be consulted.
