WESTERN AUSTRALIA

Western Australia is the largest State in the Commonwealth, and lies approximately between the 13th and 35th parallels of south latitude and the 113th and 129th meridians of east longitude. It stretches about 2,400 kilometres in a north-south direction and about 1,600 kilometres west-east. A little more than one-third of the State lies within the tropics, while the remainder extends southward to the temperate zone.

Because of its size and its latitudinal position, Western Australia has entirely different climates in its northern and southern parts, while in the central regions there is a gradual change from the tropical climate of the north to the typical Mediterranean climate in the south.

Most of the State is a plateau between 300 and 600 metres above mean sea-level and there are no outstanding mountain ranges. Where the edge of the plateau forms the Darling Range along the southern part of the west coast, it exerts a marked influence on the rainfall, causing a rapid increase from the coastal plain to the higher land. Elsewhere the effect of topography is less marked and its main influence is seen in the general decrease of rainfall with increasing distance from the coast.

AREA 2,525,500 square kilometres, approximately one-third of the Australian Continent

COASTLINE 12,500 kilometres

CAPITAL Perth, founded 12 August 1829

GOVERNMENT

STATE GOVERNMENT

The Crown, represented by the Governor, and the Parliament, comprising a Legislative Council and a Legislative Assembly, constitute the legislature of Western Australia.

Executive government is based, as in the case of the Commonwealth and other States, on the system which evolved in Great Britain in the eighteenth century and which is generally known as the 'cabinet' system. The cabinet consists of Ministers of the Crown chosen for the Ministry from members of Parliament belonging to the political party, or coalition of parties, which is in the majority in the Legislative Assembly. The Constitution requires that at least one of the Ministers be selected from members of the Legislative Council. In Western Australia, as in the other Australian States, the office of principal Minister is designated 'Premier'.

Under the provisions of the Acts Amendment (Electoral Reform) Act 1987, the State is divided into fifty-seven electoral districts - thirty-four comprising the Metropolitan Area (as described in the Metropolitan Region Town Planning Scheme Act 1959, as at 1 January 1987) and twenty-three the remainder of the State. These districts return one member each to the Legislative Assembly.

The State is also divided into six regions - three Metropolitan regions consisting of the Metropolitan electoral districts, a South-West region, an Agricultural region and a Mining and Pastoral region consisting of the electoral districts comprising the remainder of the State. The North Metropolitan Region and the South-West Region each return seven members to the Legislative Council, and the other electoral regions return five Council members.
