**Analysis of Table 1.2**

In the twelve months to 30 June 1996 the population increased by 31,600 compared with an increase of 30,100 in the previous twelve months. The natural increase dropped slightly from 14,700 in 1994-95 to 14,200 in 1995-96. This was more than offset by a significant increase in the level of net estimated overseas migration up from 10,500 in 1994-95 to 13,500 in 1995-96. This component has increased each year from a low of 4,600 in 1992-93.

## Analysis of Table 2.1

Total arrivals in November 1996 were 14% lower than the high of the previous month, but were 11% higher than in November 1995.

The number of Australian residents returning from short-term visits overseas fell by 35% from the previous month to 25,040. However, this was still 10% higher than in November 1995.

Overseas visitors arriving in Western Australia for short-term visits increased by 8% to be the third-highest month in the last year, behind December and February.

The number of long-term arrivals remained fairly constant at approximately 2% of total arrivals. In November there were significantly more Australian residents returning than overseas visitors.

Total departures in November 1996 increased by 4% from the previous month to be 9% higher than in November 1995.

Short-term departures of Australian residents fell by 7% or 1,980 persons from October 1996. This was offset by an increase of 3,880 overseas visitors departing after short-term stays.

The number of long-term departures, although only a small proportion of total departures, increased by 35% from the previous month.
