Australia comprises a land area of 7,682,300 square kilometres. The land lies between latitudes 10° 41' South (Cape York) and 43° 39' South (South East Cape, Tasmania) and between longitudes 113° 09' East (Steep Point) and 153° 39' East (Cape Byron).

The area of Australia is almost as great as that of the United States of America (excluding Alaska), about 50% greater than Europe (excluding former USSR) and 32 times greater than the United Kingdom.

Australia is composed of six States, New South Wales (NSW), Victoria (Vic.), Queensland (Qld), South Australia (SA), Western Australia (WA), Tasmania (Tas.) and two Territories: the Northern Territory (NT) and the Australian Capital Territory (ACT). The longest river in Australia is the Murray River (2,520 kilometres), which forms a natural border between NSW and Vic. The highest mountain in Australia is Mount Kosciusko, 2,230 metres, which is situated in NSW.
