

# 2002 AUSTRALIAN CAPITAL TERRITORY AT A GLANCE

In 1911, an area of approximately 2,360 square kilometres was transferred to the Commonwealth of Australia by the State of New State Wales to become the Australian Capital Territory (ACT). The city of Canberra, Australia's national capital, is located in the northern part of this area, 300 km south-west of Sydney and 650 km north-east of Melbourne by road.

On 11 May 1989 self-government for the Territory was proclaimed. The ACT is the smallest of Australia's six states and two territories, but has the highest population density and is the only state or territory without a sea border.
