¹ It is believed by the Registrar-General of Fiji that the births, deaths, and marriages here given are less than those which actually occurred.

² The total area alienated at the end of 1882 was 280,735 acres. The amount realized by the State was only £20,157, which, however, represents the price of but a small proportion of the acreage alienated. The majority of the grants issued were for lands acquired by whites and others previously to annexation, and these received their titles at the nominal price of one shilling.
