COMMONWEALTH DEMOGRAPHY.

PREFACE.

The present Bulletin contains in one issue the information which prior to 1911 had been furnished in two Bulletins, under the titles "Commonwealth Demography" and "Vital Statistics of the Commonwealth for the Year." During the year 1911 it was decided to discontinue the publication of Quarterly Bulletins of Vital Statistics which had been issued by the Bureau from 1907 onwards, and to include in the annual publication the leading particulars relative to months and quarters. The Statistics contained in the present issue thus represent full details of Vital Statistics for the year 1912, together with a summary for the eleven years, 1902-12. These are furnished under the following heads :—

- I. Population.
- II. Births.
- III. Deaths.
- IV. Marriages.
- V. Rates and Percentages.
- VI. Statistical Summary.

In Section V. are given some of the more important demography rates and percentages for the year 1912, while Section VI. contains a summary of some of the leading Demographic Statistics of States and Commonwealth from 1860 to the end of 1912.

The population and migration figures given herein have been adjusted on the basis of the results disclosed by the several Censuses, and all rates have been computed on the basis of the amended populations and mean populations so ascertained.

G. H. KNIBBS,
Commonwealth Statistician.

Crude birth rate for the year	29.86	26.39	29.67	28.65	28.83	30.53	9.82	19.15	28.65

(a) Number of births per 1,000 of mean population.

NOTE.—The Law relating to Maternity Allowances which came into force on 10th October, 1912, had the effect of materially diminishing the interval between the dates of birth and the dates of registration. The number of births registered during October and November (Tables Nos. 30, a, b, c) and the monthly birth-rate for the same months (Table No. 31) are therefore higher than they would have been under ordinary circumstances. The annual birth-rate for 1912 would probably, without the more rapid registration induced by the above law, have been about 27.65 instead of 28.65 as shown.

No. 32.—Ex-nuptial Births registered during each month of 1912.
