INTRODUCTION.

The particulars given in the following tables relate to the quarter ended 30th June, 1907, with the exception of Tables No. 1 and 2, containing Summaries of Births ; No. 10, Summary of Marriages ; No. 17 and 18, Summaries of Deaths ; and No. 23, Causes of Deaths, in which it has been thought advisable to shew particulars for each month.

Several tables relating to the Commonwealth contain no information in regard to South Australia, owing to the fact that under the South Australian Registration Act at present in force, various particulars are not required to be furnished to the Registrars. In one table only, No. 14, had Western Australia to be omitted for the same reason.

Particulars relating to the Northern Territory are not included in the South Australian figures, and will be shewn only in the summary for the year.

Marine Births and Deaths are not included.

The mean population of the States and of the Commonwealth during the second quarter of 1907—on which the rates in Table No. 35 are worked out—was as follows :—
