

**ESTIMATED RESIDENT POPULATION BY AGE AND SEX IN  
STATISTICAL LOCAL AREAS, SOUTH AUSTRALIA, 30 JUNE 1992 AND 30 JUNE 1993**

**MAIN FEATURES**

**South Australia**

- The estimated resident population of South Australia at 30 June 1993 was 1,461,721 persons, an increase of 5,297 persons during the previous twelve months. This increase was the smallest since 1978-79 (4,904 persons) and was caused by low levels of overseas migration and relatively large net losses of population to other states.

**Regional**

- At the regional level, the most significant declines in growth occurred in the central and southern parts of the Adelaide Statistical Division (ASD), the Riverland and Upper South East and most of the Northern Statistical Division.
- Those areas showing increased growth during the twelve months ended 30 June 1993 compared to the previous twelve months were some northern parts of the ASD, the Onkaparinga and Fleurieu Statistical Subdivisions and parts of Yorke Peninsula and the Lower South East. The demand for new housing remains strong in South Australia and these are the most popular areas. The outer parts of Adelaide and nearby Mount Barker attract young families while the population of retirement age are more likely to opt for the Fleurieu Peninsula.
- A further significant variation to the statewide trend is a marked slowdown of the decline in population in the rural areas of Eyre Peninsula and the Murray Mallee. The population of the Eyre Statistical Division decreased by 80 persons during the year ended 30 June 1993 compared to a decrease of 170 the previous year. In the Murray Mallee Statistical Subdivision the SLAs of Coonalpyn Downs (-71 in 1991-92 to -1 in 1992-93), Karoonda-East Murray (-11 to +14), Lameroo (-53 to -24) and Pinnaroo (-33 to -29) all experienced a smaller decline.

**Statistical Local Area**

- At the SLA level, some significant milestones were reached during the year. Both Tea Tree Gully and Noarlunga passed 90,000 persons with populations of 92,324 and 90,153 respectively while Mount Barker (20,243 persons) became the third SLA outside the ASD to have more than 20,000 persons, joining Whyalla and Mount Gambier (C).
- The upper Spencer Gulf cities of Whyalla, Port Augusta and Port Pirie all fell below the marks of 25,000 (for Whyalla) and 15,000 (for Port Augusta and Port Pirie) respectively. Port Augusta's population of 14,747 fell below that of Port Pirie (14,817) for the first time since 1980.
- The major growth for the 12 months occurred at Noarlunga (2,984 persons), Tea Tree Gully (2,541), Munno Para (1,387) and Mount Barker (1,149).
- The areas to experience major declines in population were Enfield Parts A and B with a combined loss of 1,016 persons, Woodville (-829 persons), Whyalla (-778) and Mitcham (-728).

Truro	1 Oct. 1991	Amalgamated with Ridley (DC) to form Ridley-Truro (DC)	850

(a) At date of effect.

**CHANGE IN STATISTICAL SUBDIVISION BOUNDARY**

The boundary between the Riverland and Murray Mallee Statistical Subdivisions has been adjusted because of the amalgamation of Ridley (DC) and Truro (DC). The new SLA of Ridley-Truro(DC) is in the Murray Mallee Statistical Subdivision. Truro (DC) was formerly in the Riverland Statistical Subdivision.

## EXPLANATORY NOTES

### Introduction

This publication contains preliminary estimates of the resident population by age and sex in statistical local areas (SLAs) in South Australia at 30 June 1992 and 30 June 1993.

2. The *estimated resident population* (ERP) is the official ABS estimate of the Australian population.

### Methodology

3. The total population of each SLA is based on results of the 1991 population census and calculated for post-census dates by a linear regression model which uses independent indicators of population change such as dwelling commencements, licensed drivers and Medicare enrolments for children aged 15 years and under. These inter-censal estimates of the resident population are revised each time a population census is taken.

4. The age and sex estimates were prepared using the cohort component method. Post-censal age distributions were obtained by advancing the age and sex estimates for 30 June 1991 and 30 June 1992 respectively to the next age, subtracting deaths and adding births and net estimated inter-regional and overseas migration. Inter-regional and overseas migration was estimated from analysis of arrivals and departures data and individual SLA profiles derived from the 1986 Census. More details can be provided by the ABS Adelaide Office.

5. After each census final estimates for the preceding inter-censal period are calculated by incorporating an additional adjustment (intercensal discrepancy) to ensure that the total inter-censal increase at each age agrees with the difference between the estimated resident population at the two respective census dates.

### Geographic boundaries

6. The geographic areas used in this publication are defined in the *Australian Standard Geographical Classification, Edition 2.3* (1216.0). The statistical local areas shown in this publication equate directly with local government areas except for Enfield which is split into two SLAs, Part A and Part B.

7. The SLA population estimates in this publication are calculated on SLA boundaries as at 30 June 1993.

### Small SLAs

8. The SLAs of Unincorporated Western and Unincorporated Lincoln have been combined with Port Adelaide (C) and Lower Eyre Peninsula (DC) respectively.

### Reliability

9. All SLA estimates are shown to the nearest person, although accuracy to this level is not claimed and should not be assumed.

### Data on floppy disk

10. The data in this publication is also available on floppy disk.

### Population Projections

11. The ABS compiles and publishes population projections for Australia, States and Territories (3222.0).

12. The ABS as part of its Statistical Consultancy Service can prepare ad hoc population projections at the SLA or higher level. The projections are based on the latest ERP by age and sex. Clients can supply their own assumptions or approve the use of ABS formulated assumptions.

13. For further details regarding data on floppy disk or population projections contact the ABS Demographic Analysis Section on (08) 237 7419.

## *For more information ...*

The ABS publishes a wide range of information on Australia's economic and social conditions. A catalogue of publications and products is available from any of our Offices (see below for contact details).

### **Information Consultancy Service**

Special tables or in-depth data investigations are provided by the ABS Information Consultancy Service in each of our Offices (see below for contact details).

### **Electronic Data Services**

A growing range of our data is available on electronic media. Selections of the most frequently requested data are available, updated daily, on DISCOVERY (Key \*656#). Our PC TELESTATS service delivers major economic indicator publications ready to download into your computer on the day of release. Our PC AUSSTATS service enables on-line access to a data base of thousands of up-to-date time series. Selected data sets are also available on diskette or CD-ROM. For more details on our electronic data services, contact Information Services in any of our Offices on the numbers below.

### **Bookshops and Subscriptions**

There are over 500 titles available from the ABS Bookshops in each of our Offices. You can also receive any of our publications on a regular basis. Join our subscription mailing service and have your publications mailed to you in Australia at no additional cost.
