## VICTORIA-COURTS OF PETTY SESSIONS.

In 1951, Courts of Petty Sessions by stipendiary magistrates and honorary justices were held at 227 places in Victoria. Clerks of courts of ten years' standing, who have passed the prescribed examination, and barristers of five years' standing are eligible for appointment as stipendiary magistrates, but there is no legal training or knowledge of the law required as a condition precedent to the appointment of a person as an honorary justice of the peace. The jurisdiction in civil cases is limited to what may be called ordinary debts, damages for assault, and restitution of goods, where the amount in dispute does not exceed £50. Particulars of civil cases, &c., heard during the five years 1947 to 1951 as shown below, were compiled from quarterly statements prepared by Clerks of Petty Sessions for the Law Department.

## VICTORIA—COURTS OF PETTY SESSIONS AND CHILDREN'S COURTS.

In the following statistical tables details are given of the total number of cases dealt with in Courts of Petty Sessions and Children's Courts. If it be desired to compare the figures in these tables with those relating to other States or countries it is necessary that consideration be given to several points. The first is that the criminal law in the places compared be substantially the same; the second, that it be administered with equal strictness; and the third, that proper allowances be made for differences in the age and sex constitution of the population. These points must also be taken into account in comparing crime in recent years with that in previous periods when there may have been differences in the law and when the population was very differently constituted in regard to sex and age.

### CRIME AND DRUNKENNESS.

Atteration in method of tabulation. The statistics of crime and drunkenness for the years subsequent to 1932 were compiled on a basis which differed from that for the years 1893 to 1932. The particulars for the years 1933 to 1951 represent, in respect of multiple charges, the total number of all offences with which arrested persons were charged whereas, for the period 1893 to 1932, only the most serious offence in each case was tabulated. Summons cases in 1933 to 1951 relate, as in previous years, to all offences with which a person was charged. The statistics for the past nineteen years are comparable, therefore, with those for the years prior to 1893, appearing in earlier issues of the Year-Book.

Offences against the person and property. Almost all serious crimes are either offences against the person or offences against property. The first-named consist mainly of assault, but include murder, manslaughter, shooting, wounding, and all crimes of lust. Offences against property consist principally of larceny and similar offences, but include burglary, house and shop-breaking, robbery, &c., cattle stealing, and wilful damage to property.

Other offences. The only serious crimes included under "Other Offences" are forgery, counterfeiting, conspiracy, and perjury. These were very few in number, there having been in Victoria in 1951 only 133 of such charges out of a total of 75,713 in the category to which they belong. The cases under the heading "Other Offences" were mainly breaches of various Acts of Parliament, by-laws, &c., which indicate no degree of criminal instinct or intent on the part of the person charged. There was also among them a large number of offences against good order, including offensive behaviour, indecent language, vagrancy, &c.

The following table shows, for a series of years, the numbers of arrest and summons cases, and also the numbers per 1,000 of the population, tabulated according to the only classes of offences for which complete comparisons can be made. The particulars include cases (other than those of neglected children) disposed of in Children's Courts.

VICTORIA-DRUNKENNESS, 1874 TO 1951.

A considerable decrease in drunkenness is shown for the five years 1893-97, which was a period of general depression, followed by an increase in the subsequent five-yearly period. A similar trend is shown for the depression years 1928-32 and subsequent years. In the middle of the year 1915, an Act was passed reducing the number of hours during which alcoholic liquors could be sold in hotels, and a further reduction was made in the following year.

Young persons charged with drunkenness. The accompanying table shows for the five years 1947 to 1951 the number of persons under 20 years of age arrested for drunkenness.

#### INQUESTS.

**Goroner's** Jurisdiction. A Coroner has jurisdiction to hold an inquest concerning the manner of death of any person who is slain or drowned or who dies suddenly or in prison or while detained in any hospital for the insane and whose body is lying dead within the district in which such coroner has jurisdiction.

His duties in relation thereto are regulated by the *Coroners Act* 1928 and there are special provisions relating to inquests in other Acts, such as the Mines Act, Children's Welfare Act, and Registration of Births, Deaths, and Marriages Act. Coroners and deputy-coroners are appointed by the Governor in Council, every Stipendiary Magistrate being appointed a coroner for the State of Victoria. Deputy-coroners have jurisdiction in the districts for which they have been appointed. In addition, a justice of the peace has jurisdiction, within his bailiwick, to bold an inquest, but only if requested to do so by a police officer in charge of a station, or by a coroner.

In the majority of cases the coroner acts alone in holding an inquest, but in certain cases a jury is empanelled. This is done (a) when the coroner considers it desirable; (b) when in any specified case a law officer so directs; and (c) when it is expressly provided in any Act, (as is the case under the Mines Act) that an inquest shall be taken with jurors. It is an essential preliminary in all cases that the coroner and the jury, if any, shall view the body, otherwise the inquest is void.

When a person is arrested and charged before a justice or court with murder or manslaughter, those proceedings are adjourned from time to time pending the holding of the inquest. If the inquest results in a finding against that person of murder or manslaughter, the coroner issues his warrant committing him for trial, the other proceedings being then withdrawn.

The following shows the number of inquest cases in Victoria during the years 1947 to 1951, and the number of persons subsequently committed for trial. The information was furnished by the Department of Law.
