STATISTICAL BULLETIN : APPARENT CONSUMPTION OF TEA AND COFFEE, AUSTRALIA

NO. 6 : 1966-67

This bulletin contains particulars of the estimated quantities of tea and coffee available for consumption (i.e. the apparent consumption), together with details of imports of tea and coffee, for the years 1962-63 to 1966-67.

Consumption data have, in general, been obtained by deducting quantities of these commodities exported from imports cleared for home consumption. An adjustment has been made for changes in stocks held by firms which imported tea and coffee products in each of the years ended 30 June. Stocks held by **retailers and other distributing agencies** have been excluded from these estimates.

COFFEE

The basic information on stocks, imports cleared and exports of coffee covers a variety of coffee products such as raw beans, processed whole or ground pure coffee, instant coffee, etc. For the purpose of obtaining apparent consumption of coffee, these commodities have been converted to the processed whole or ground pure coffee equivalent, and it is on this basis that details are shown in Table 3 and the third part of Table 4.
