EMBARGOED UNTIL 11.30 A.M 30 May 1994

## BALANCE OF PAYMENTS, AUSTRALIA, APRIL 1994

### MAIN FEATURES

Estimates of the main balance of payments aggregates for April 1994, the three preceding months and year-to-date are shown below. These estimates are preliminary and subject to revision. Particular care should be taken in interpreting month-to-month movements, as indicated in the note on page 6 on *Reliability of Contemporary Trend Estimates* and in paragraph 4 of the *Explanatory Notes* on page 14. Certain items have been estimated using extrapolation techniques until source data become available.

(a) For current account aggregates a minus sign means an increase in a deficit or a reduction in a surplus and a plus sign means a decrease in a deficit or an increase in a surplus. (b) Period averages.

In seasonally adjusted terms, the current account deficit for April rose \$251 million, or 18 per cent, to \$1,632 million.

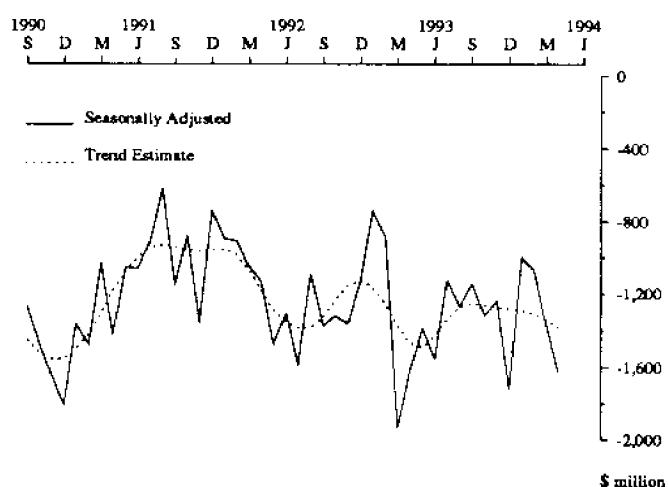

The increase in the deficit was caused by:

- an increase of \$96 million (51 per cent) in the merchandise trade deficit, (merchandise exports fell 5 per cent, while merchandise imports fell 3 per cent); and
- an increase of \$192 million (18 per cent) in the net income deficit.

Partly offsetting these movements in merchandise trade and income were a decrease of \$8 million (6 per cent) in the net services deficit; and a turnaround of \$29 million, from a deficit to a surplus, in the net unrequited transfers balance.

The provisional trend estimate for the April current account deficit was \$1,383 million, up \$39 million, or 3 per cent, on the provisional trend estimate for March.

## ANALYSIS OF SELECTED MAJOR AGGREGATES

*April 1994 compared with March 1994*

### *Balance on goods and services*

The seasonally adjusted *balance on goods and services* recorded a deficit of \$405 million, an increase of \$88 million on the deficit recorded in March.

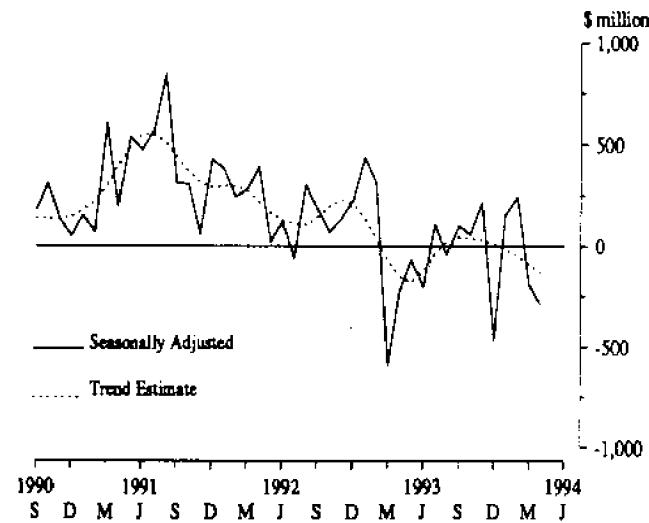

**GRAPH 2: BALANCE ON GOODS AND SERVICES**

### *Balance on merchandise trade*

The seasonally adjusted *balance on merchandise trade* recorded a deficit of \$286 million, an increase of \$96 million on the deficit recorded in March.

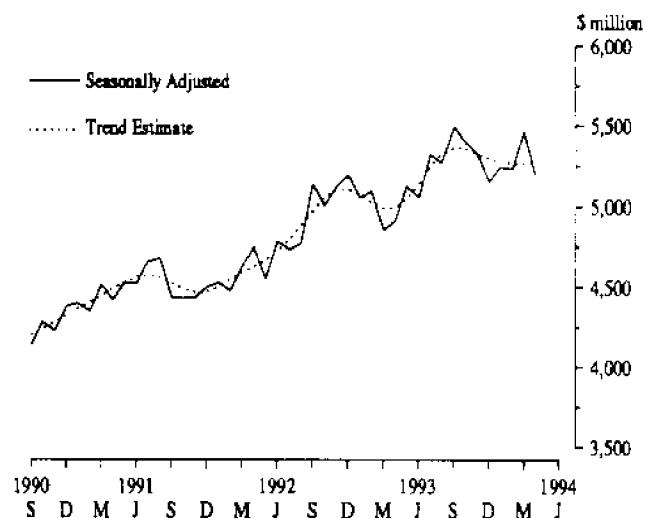

**GRAPH 3: BALANCE ON MERCHANDISE TRADE**

### *Merchandise exports*

Seasonally adjusted *exports f.o.b.* fell \$269 million, or 5 per cent, to \$5,192 million. *Rural exports* fell \$168 million, or 10 per cent, to \$1,448 million. *Non-rural exports* fell \$101 million, or 3 per cent, to \$3,744 million.

**GRAPH 4: MERCHANTISE - EXPORTS F.O.B.**

In original terms, *exports* fell \$454 million, or 8 per cent, to \$5,134 million.

*Rural exports* in original terms fell \$186 million, or 11 per cent, to \$1,519 million. Decreases were recorded in:

- cereals, down \$70 million or 19 per cent (due mainly to decreased volumes of wheat exports);
- wool, down \$57 million or 15 per cent (due mainly to decreased volumes of greasy wool exports);
- "other" rural exports, down \$43 million or 7 per cent (due mainly to decreased exports of dairy products); and
- meat, down \$27 million or 8 per cent.

These decreases were partially offset by an increase in sugar, up \$11 million or 21 per cent.

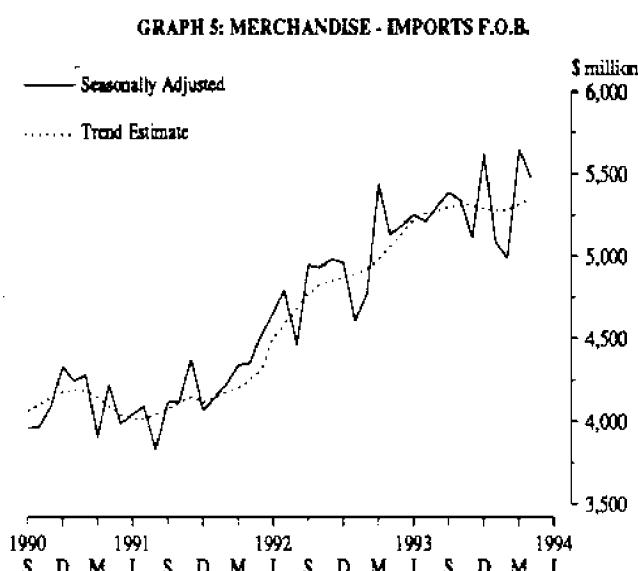

*Non-rural exports* in original terms fell \$268 million, or 7 per cent, to \$3,615 million. The most significant decreases were recorded in:

- gold, down \$135 million or 27 per cent (due to decreased volumes);
- machinery, down \$106 million or 21 per cent (with most components recording decreases, the largest being office machines and ADP equipment);
- "other" manufactures, down \$100 million or 15 per cent (with most components recording decreases); and
- "other" metals, down \$59 million or 12 per cent (due mainly to decreased volumes of aluminium exports).

The most significant increases were recorded in "other" mineral fuels, up \$57 million or 25 per cent (due mainly to increased volumes of crude petroleum exports); and transport equipment, up \$51 million or 32 per cent.

#### *Merchandise imports*

Seasonally adjusted *imports f.o.b.* fell \$173 million, or 3 per cent, to \$5,478 million. *Consumption goods* rose \$20 million, or 1 per cent, to \$1,465 million. *Capital goods* fell \$182 million, or 13 per cent, to \$1,267 million. *Intermediate and other goods* fell \$11 million, to \$2,746 million.

In original terms, *imports* fell \$871 million, or 15 per cent, to \$4,925 million.

Imports of *consumption goods*, in original terms, fell \$214 million, or 14 per cent, to \$1,278 million. Decreases were recorded in all groups, with the largest being:

- textiles, clothing and footwear, down \$66 million or 28 per cent (due mainly to decreased imports of articles of apparel);
- non-industrial transport equipment, down \$57 million or 16 per cent (due mainly to decreased imports of passenger motor vehicles); and
- consumption goods nes, down \$40 million or 10 per cent.

Imports of *capital goods*, in original terms, fell \$199 million, or 15 per cent, to \$1,140 million. Decreases were recorded in all groups, with the largest being:

- machinery and industrial equipment, down \$67 million or 12 per cent (with most sub-groups recording decreases); and
- industrial transport equipment nes, down \$53 million or 26 per cent (due mainly to decreased imports of motor vehicles for transporting goods).

Imports of *intermediate and other goods*, in original terms, fell \$458 million, or 15 per cent, to \$2,507 million. Decreases were recorded in all groups, with the largest being:

- processed industrial supplies nes, down \$97 million or 13 per cent (with most sub-groups recording decreases);
- "other" parts for capital goods, down \$63 million or 14 per cent; and
- parts for transport equipment, down \$59 million or 15 per cent.

#### *Net services*

The seasonally adjusted *net services* deficit decreased \$8 million, or 6 per cent, to \$119 million. Services credits rose \$67 million or 5 per cent, while services debits rose \$59 million or 4 per cent.

#### *Net income*

The seasonally adjusted *net income* deficit rose \$192 million, or 18 per cent, to \$1,243 million. Income credits fell \$23 million, or 5 per cent, while income debits rose \$169 million or 11 per cent.

#### *Net unrequited transfers*

Seasonally adjusted, *net unrequited transfers* turned around by \$29 million, to record a surplus of \$16 million. Unrequited transfers credits rose \$20 million, or 9 per cent, while unrequited transfers debits fell \$9 million or 4 per cent.

#### *Net capital transactions*

In original terms, the *net capital transactions of the official sector* recorded a net outflow of \$852 million in April, up \$136 million on the net outflow recorded in March.

The April estimate consisted of:

- a net outflow of \$665 million in general government transactions, a decrease of \$74 million on the net outflow recorded in March; and
- a net outflow of \$187 million in Reserve Bank transactions, a turnaround of \$210 million on the March inflow.

The change in general government transactions was the result of a decrease of \$385 million in the net outflow from general government borrowing domiciled in Australia, and a turnaround of \$83 million, to a net inflow of \$25 million, in "other" transactions. Partly offsetting this was a decrease of \$394 million in the inflow from general government borrowing domiciled abroad.

The change in Reserve Bank transactions in April reflected net purchases of official reserve assets following net sales in the preceding month and an increased net outflow from "other" transactions.

### Exchange rates

During April the \$A was relatively steady on a trade-weighted index basis (using period average exchange rates) against the currencies of Australia's major trading partners. The \$A appreciated by 1 per cent against the \$US and depreciated by 1 per cent against the Japanese yen.

Comparing rates at the end of April 1994 with those at the end of June 1993, the \$A has appreciated by 6 per cent on a trade-weighted basis against the currencies of Australia's major trading partners, by 6 per cent against the \$US and by 1 per cent against the Japanese yen.

### Ten months ended April 1994 compared with ten months ended April 1993 —

In original terms, the *balance on current account* deficit for the ten months ended April 1994 was \$13,048 million, down \$376 million, or 3 per cent, on the deficit for the ten months ended April 1993.

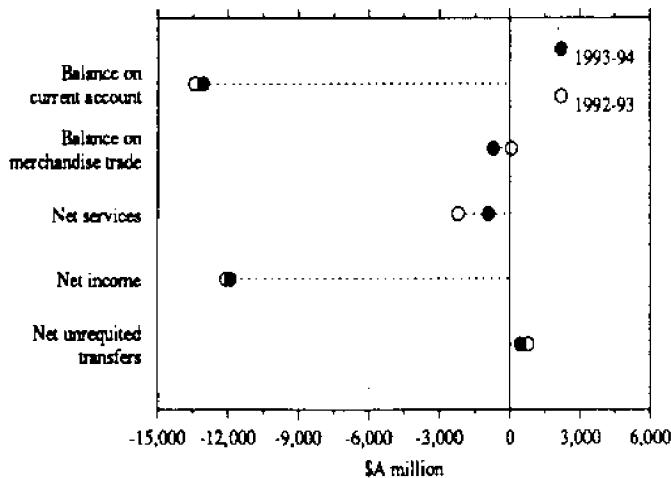

The result was due to:

- a decrease of \$1,289 million (58 per cent) in the net services deficit; and
- a reduction of \$183 million (2 per cent) in the net income deficit.

The movements in services and income were partly offset by:

- a turnaround of \$777 million, from a surplus to a deficit, in the balance on merchandise trade; and
- a decrease of \$319 million (41 per cent) in the net unrequited transfers surplus.

**GRAPH 6: BALANCE OF PAYMENTS AGGREGATES - TEN MONTHS ENDED APRIL**

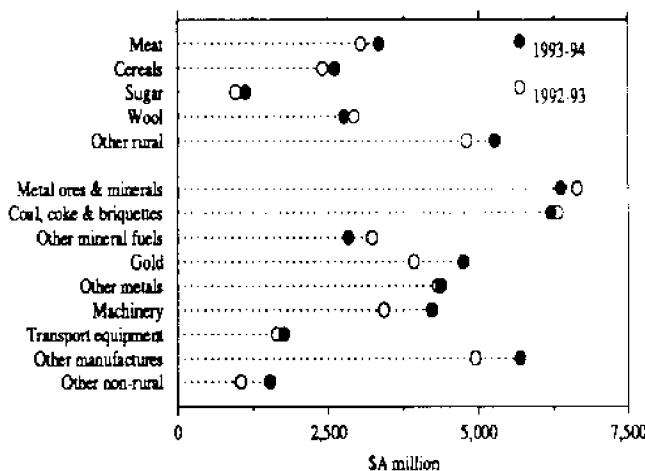

Merchandise exports rose \$3,210 million, or 6 per cent, to \$52,833 million. The largest increases were recorded in:

- gold, up \$825 million (21 per cent);
- machinery, up \$800 million (23 per cent);
- "other" manufactures, up \$746 million (15 per cent);
- "other" non-rural exports, up \$477 million (45 per cent);
- "other" rural exports, up \$469 million (10 per cent);
- meat, up \$298 million (10 per cent); and
- cereal, up \$200 million (8 per cent).

Decreases were recorded in "other" mineral fuels, down \$390 million (12 per cent); metal ores and minerals, down \$269 million (4 per cent); wool, down \$175 million (6 per

**GRAPH 7: MERCHANDISE EXPORTS - TEN MONTHS ENDED APRIL**

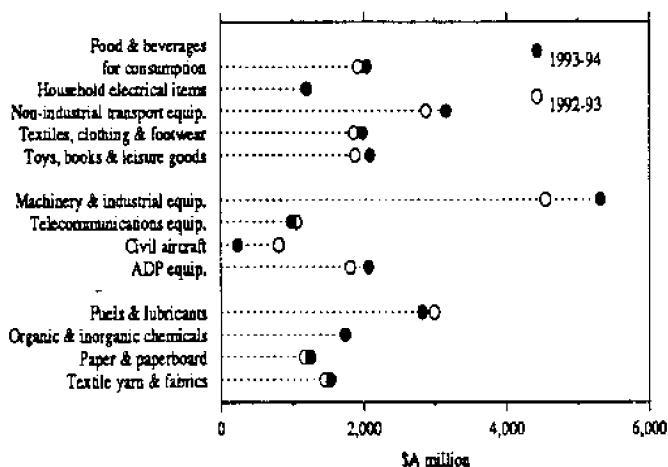

cent); and coal, coke and briquettes, down \$122 million (2 per cent).

Merchandise imports rose \$3,987 million, or 8 per cent, to \$53,538 million. Consumption goods rose \$1,010 million (8 per cent); capital goods rose \$820 million (7 per cent); and intermediate and other goods rose \$2,157 million (9 per cent). Increases were recorded in 21 of the 26 groups, with the largest being:

- machinery and industrial equipment, up \$769 million (17 per cent);
- "other" parts for capital goods, up \$712 million (21 per cent);
- processed industrial supplies nes, up \$576 million (10 per cent);
- parts for transport equipment, up \$413 million (14 per cent);
- non-industrial transport equipment, up \$281 million (10 per cent);
- capital goods nes, up \$277 million (17 per cent);
- ADP equipment, up \$257 million (14 per cent); and
- consumption goods nes, up \$247 million (7 per cent).

The most significant decreases were recorded in civil aircraft, down \$573 million (71 per cent); and fuels and lubricants, down \$172 million (6 per cent).

GRAPH 8: SELECTED MERCHANDISE IMPORTS -  
TEN MONTHS ENDED APRIL

The net services deficit fell \$1,289 million, or 58 per cent, to \$919 million. Services credits increased by \$1,675 million, or 13 per cent, due largely to increases of \$958 million in travel credits, \$371 million in "other" transportation credits and \$293 million in "other" services credits. Services debits rose \$386 million or 3 per cent, due largely to increases of \$184 million in "other" services debits, \$86 million in travel debits and \$69 million in shipment debits.

The net income deficit fell \$183 million, or 2 per cent, to \$11,884 million. Income credits rose \$119 million, or 3 per cent, due mainly to an increase in reinvested earnings, which was partly offset by a fall in other investment income receivable. Income debits fell \$64 million, due mainly to a decrease in other investment income payable. This latter decrease was partly offset by increases in interest payable on official sector borrowing, reinvested earnings and "other" property income.

The net unrequited transfers surplus fell \$319 million, or 41 per cent, to \$460 million. Unrequited transfers credits fell \$266 million, or 10 per cent, due mainly to a decline in migrants' transfers. Unrequited transfers debits rose \$53 million or 3 per cent.

Official sector capital transactions for the ten months ended April 1994 yielded a net inflow of \$7,617 million, com-

pared with a net inflow of \$13,974 million for the corresponding period of the previous financial year. The change was a result of:

- an inflow of \$8,299 million in general government transactions, down \$945 million on the inflow for the ten months to April 1993; and
- an outflow of \$682 million in Reserve Bank transactions, a turnaround of \$5,412 million on the inflow for the ten months to April 1993.

The decreased inflow from general government transactions was largely due to Commonwealth government borrowing domiciled abroad, which turned around \$1,486 million to a net outflow of \$1,092 million. This movement was partly offset by an increase of \$497 million, to a net inflow of \$8,822 million, in State government borrowing domiciled abroad; and an increase of \$179 million in general government borrowing domiciled in Australia. Net purchases of official reserve assets, compared with net sales for the corresponding period of the previous financial year, was the main factor underlying the change in Reserve Bank transactions.

#### REVISIONS

Revisions have reduced the deficit for the first nine months of 1993-94 by \$694 million. The main factors contributing to these revisions were:

- for merchandise trade, the incorporation of the latest available information on recorded exports. The effect of this revision was to increase the current account deficit by \$13 million;
- for income, incorporation of the latest investment income estimates from the March quarter 1994 Survey of Foreign Investment. This has reduced the net income deficit by \$580 million; and
- for services and unrequited transfers, mainly the incorporation of January and February 1994 preliminary overseas arrivals and departures data. Revisions to services have decreased the net services deficit by \$90 million and revisions to unrequited transfers have increased the net transfers surplus by \$37 million.

Revisions to the capital account are due to the incorporation of the latest data from the March quarter 1994 Survey of Foreign Investment.

#### Release date for May 1994 issue

The expected release date for the May issue of this publication is 30 June 1994.  
Any variations which might occur will be notified in the ABS Publications Advice (1105.0) and on DISCOVERY.

The date can be confirmed a few days prior to release by telephoning  
Canberra (06) 252 6627.

## RELIABILITY OF CONTEMPORARY TREND ESTIMATES

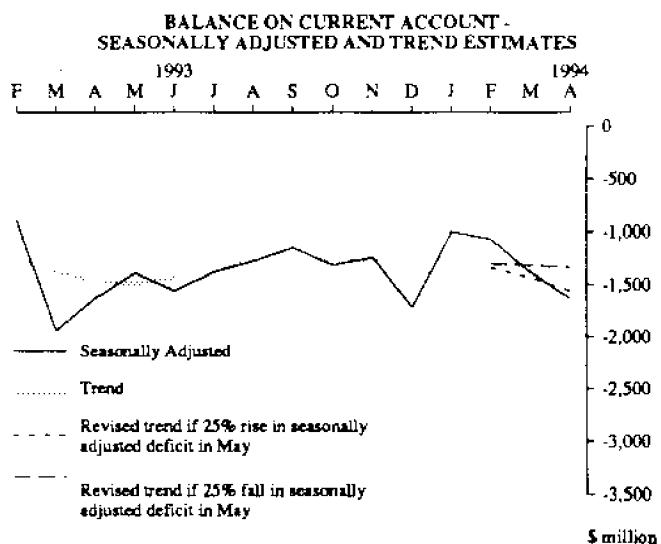

The table below presents trend estimates of the deficit on current account from February 1993 onwards, including provisional trend estimates for the latest three months (February, March and April 1994).

To illustrate the possible impact of future months' observations on the provisional trend estimates for the latest three months, the table also shows the revisions to these trend estimates that would result if the seasonally adjusted estimate of the current account balance next month (May 1994) is 25 per cent higher or lower than this month and if there are no revisions to the current or previous months' estimates. The 25 per cent range has been chosen because in the last decade the average monthly percentage movement, without regard to sign, of the seasonally adjusted current account deficit has been about 25 per cent.

If the deficit were to increase in May by 25 per cent, to \$2,040 million, the provisional trend movement for that month would be 8.7 per cent. The movements in the trend estimates for February, March and April which are provisionally 1.4 per cent, 2.8 per cent and 2.9 per cent respectively, would be revised to 4.5 per cent, 7.4 per cent and 8.8 per cent, respectively. On the other hand, a 25 per cent decline in the seasonally adjusted deficit next month,

to \$1,224 million, would produce a trend movement of 1.6 per cent for May with the movements in the trend estimates for February, March and April revised to 0.5 per cent, 1.2 per cent and 1.4 per cent, respectively.

The graph below illustrates this potential degree of revision at the current end of the trend series.

(a) The entries carry the opposite sign to corresponding entries in Tables 1 and 6. (b) These exchange rates and the trade-weighted index are derived using rates provided by the Reserve Bank of Australia in respect of each trading day. (c) These exchange rates and index numbers relate to the last trading day of the reference period. (d) These exchange rates and index numbers are derived by averaging figures for each trading day.

## EXPLANATORY NOTES

### **Introduction**

1. This publication contains preliminary estimates of Australia's balance of payments for April 1994, together with revised estimates for previous months.

2. Descriptions of the underlying concepts and structure of the balance of payments and the sources and methods used in compiling the estimates are presented in *Balance of Payments, Australia: Concepts, Sources and Methods* (5331.0). The publication also provides item definitions; explanations of seasonal adjustment and trend estimates; and an analysis of the quality of the estimates.

### **Accuracy, reliability and volatility**

3. Care should be exercised in the use and interpretation of estimates in this publication. The sources available for the production of timely and reliable monthly estimates are limited and the initial estimates are made available very quickly. Consequently, the latest estimates in this publication, to a greater extent than estimates in quarterly and annual balance of payments publications, are preliminary and subject to revision as more complete and accurate information becomes available. Certain items are estimated using extrapolation techniques until source data become available. Further, the more detailed estimates may be less accurate in relative terms than broader items and aggregates of which they form components.

4. Particular care should be exercised in interpreting month-to-month movements in original and seasonally adjusted series as short term movements cannot be assumed to indicate changes in trend. The monthly estimates are volatile, being subject to seasonal factors (except where adjusted in Table 2) and large irregular influences. The irregular influences may reflect both random economic events and difficulties of statistical recording. Seasonal adjustment does not aim to remove the irregular or non-seasonal influences which may be present in any particular month. This means that the month-to-month movements of the seasonally adjusted estimates may not be reliable indicators of trend behaviour. For example, irregular factors unrelated to the trend account for more than half the seasonally adjusted monthly movements with the following frequency:

Balance on current account: 9 in 10 months  
 Merchandise exports f.o.b: 8 in 10 months  
 Merchandise imports f.o.b: 9 in 10 months

5. The impact of the irregular influences upon the seasonally adjusted series is reduced by smoothing, as shown by the trend estimates in Table 2 and the graphs. The trend estimates are generally derived by applying a 13-term Henderson-weighted moving average to the seasonally adjusted series.

### **Seasonal adjustment**

6. The factors used in seasonally adjusting the monthly balance of payments statistics during 1994 can be obtained, for \$65.00, from Mr Damian Dwyer on Canberra (06) 252 6820.

7. The seasonally adjusted statistics in this publication should not be regarded as in any way definitive as results from seasonal adjustment vary according to the method used.

### **Available longer term series**

8. Estimates for months prior to those shown in this publication are available and can be obtained by contacting Mr Damian Dwyer on Canberra (06) 252 6820. There may be a charge for this information.

## For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

### Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

### National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L premium rate 25c/21.4 secs.)

This number gives 24-hour access, 365 days a year for a range of statistics.

### Electronic Data Services

DISCOVERY (Key \*656#): The ABS intends discontinuing its statistical information service on DISCOVERY. Please contact Peter Davidson (Phone 06 252 6684) to discuss possible alternatives for acquiring statistics or if you wish to comment on this proposal. For details on electronic data services available, contact Information Services in any of the ABS Offices (see Information Inquiries below for contact details).

### Bookshops and Subscriptions

There are over 400 titles of various publications available from ABS bookshops in all ABS Offices (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are provided by mail on a regular basis at no additional cost (telephone Publications Subscription Service toll free on 008 02 0608 Australia wide).
