(b) Includes quarries, brick and clay pits, &amp;c.

Forty-three fatal mining accidents occurred below ground in Australia during the year 1943, as compared with 17 above ground. Fatal accidents in metalliferous mines in 1943 numbered 37, as against 23 in coalmines. The number of non-fatal mining accidents below ground was 1,179 and above ground 530.

**CHAPTER V.—ASSOCIATIONS.****§ 1. Labour Organizations.**

**1. General.**—In Labour Report No. 2 an outline was given of the method adopted to ascertain the number of members of labour organizations in Australia, and tabulated results up to the end of 1912 were included. From the beginning of 1913 quarterly returns were obtained from a considerable number of trade unions, both as to membership and unemployment, and these were supplemented at the end of each year by special inquiries as to the membership of those unions which, owing to the nature of the callings and industries covered, were unable to furnish quarterly unemployment returns. The following pages show the general situation in regard to the trades union movement in Australia at present, and its development since 1936. The affairs of single unions are not disclosed in the published results and this has assisted in securing complete information. The Bureau is greatly indebted to the secretaries of Trade Unions for their cordial co-operation in regard to the supply of information.

The figures published in this chapter cover the years 1939 to 1943. Particulars for the years 1912 to 1938 will be found in preceding issues of the Labour Report.

**2. Trade Unions and Branches—Number and Membership, 1939 to 1943.**  
 The following table gives particulars of the number of separate unions and branches with the number of members at the end of the years 1939 to 1943 :—

**Trade Unions : Branches and Membership.**

(a) Allowing for interstate duplication. The figures represent the number of distinct organizations and interstate groups of organizations. They do not represent the total number of organizations which are practically independent and self-governing (see following remarks). (b) Includes not only branches of separate State unions and sub-branches in each State of interstate unions, but also head State branches of interstate unions. (c) On preceding year. (d) Decrease.

The types of trade unions in Australia vary greatly, and range from the small independent association to the large interstate organization, which, in its turn, may be a branch of an international union. Broadly speaking, there are four distinct classes of labour organizations:—(i) the local independent; (ii) the State; (iii) the interstate; and (iv) the Australasian or international.

In the table just given, under the heading "Number of Separate Unions," each union represented in a State is counted once only, regardless of the number of branches in that State. In the total number of separate unions in each State (see last column but one), it is obvious that there will be duplication in the case of interstate and similar unions, since each such union is counted once in each State in which it is represented by a Branch. The figures in the last column, therefore, have been obtained by making due allowance for this duplication.

**3. Trade Unions—Industrial Groups, 1939 to 1943.**—The following table gives the number and membership of trade unions in Australia in industrial groups at the end of the years 1939 to 1943. In previous Reports it was pointed out that the number of unions classified in Group XIV. (Miscellaneous), increased considerably during the period 1918 to 1920, and a correspondingly large increase occurred in the membership of the group. During recent years many associations of employees of public and semi-public bodies have been organized, and such unions are now included in the tabulations. Public Service, municipal, banking and insurance associations, which were not previously recognized, are now registered under the provision of the Commonwealth and State Industrial Arbitration Acts, and are therefore classified as industrial bodies. The inclusion of these organizations is responsible, to a great extent, for the increase in Group XIV.

**4. Trade Unions—Number of Male and Female Members and Percentage to Total Wage and Salary Earners.**—(i) *States, 1943.* The following table shows for each State the numbers of males, females and persons who are members of trade unions and the percentages of all adult wage and

salary earners who are members of unions. Age twenty years is taken as approximating the age of admission to membership, but the age at which persons become eligible varies in different unions. The total numbers of Trade Union members of each sex as at December, 1943, have been related to the estimated total numbers of wage and salary earners (including unemployed) age 20 years and over at the same date.

The total numbers of wage and salary earners in employment or unemployed in pre-war years were estimated approximately by bringing up to date the data obtained from the Census, 1933, in the manner described in earlier issues of the *Labour Report*. In the abnormal war-time conditions, however, it has been necessary to allow for the influx into wage and salary earning employment of persons who would not normally be wage earners. The latter have been measured by using the results of the Civil Registration (C.R. 7) of June, 1943, in conjunction with figures of enlistments in the defence forces.

It should be noted that the estimated total numbers of wage and salary earners in 1943 as shown in the table include, in addition to persons who are only temporarily wage earners and wage earners in the forces, large numbers who are not eligible for membership of any trade union (such as persons employed in certain professional occupations) as well as others who, while eligible for membership so far as their occupations are concerned, do not reside in a locality where there is any organization of the appropriate unions. Members of the forces who at the time of enlistment were members of trade unions are included in the membership figures shown.

PERCENTAGE ON TOTAL MEMBERSHIP.											
1939 ..	62.1	9.5	14.7	6.5	4.0	1.1	0.8	0.8	0.3	0.2	100.0
1940 ..	61.7	8.0	16.4	6.7	3.9	1.4	0.7	0.7	0.3	0.2	100.0
1941 ..	66.1	10.1	12.6	5.0	9.3	1.1	0.7	0.6	0.3	0.2	100.0
1942 ..	69.0	9.5	12.4	3.6	2.9	1.1	0.6	0.6	0.2	0.1	100.0
1943 ..	70.7	9.9	10.7	3.7	2.7	0.9	0.5	0.6	0.2	0.1	100.0

In the last part of the preceding table the percentage which the membership in each group bears to the total membership of all groups is given for the years 1939 to 1943. The tendency towards closer organization is evidenced by the fact that though membership of trade unions has increased since 1912 by 178 per cent., the number of unions having less than 2,000 members has considerably decreased, namely, from 360 to 279.

**6. Interstate or Federated Trade Unions.**—The following table gives particulars regarding number and membership of interstate or federated trade unions having branches in two or more States. The figures include interstate unions registered under the Commonwealth Conciliation and Arbitration Act, as well as federated unions which are not so registered:—

Interstate or Federated Trade Unions: Number and Membership.

(a) Certain unions in this group have, in addition to branches in each of the six States, branches in the Northern Territory and in the Australian Capital Territory.

The number of organizations operating in two or more States has increased from 72 in 1912 to 117 in 1943, and the percentage of the membership of such organizations on the total membership of all organizations has risen from 65 per cent. to 88 per cent. during the same period.

**7. Central Labour Organizations.**—In each of the capital cities, as well as in a number of other industrial centres, delegate organizations, consisting of representatives from a group of trade unions, have been established. Their revenue is raised by means of a *per capita* tax on the members of each affiliated union. In the majority of the towns where such central organizations exist, most of the local unions are affiliated with the central organization, which is usually known as the Labour or Trades Hall Council, or the Labour Federation. In Western Australia a unified system of organization extends over the industrial centres throughout the State, and there is a provincial branch of the Australian Labour Party, having a central council and executive, and metropolitan and branch district councils to which the local bodies are affiliated. The central council, on which all district councils are represented, meets periodically. In the other States, however, the organization is not so close, and though provision usually exists in the rules of the central council in the capital city of each State for the organization of district councils, or for the representation on the central council of the local councils in the smaller industrial centres of the State, the councils in each State are, as a matter of fact, independent bodies. The table hereunder gives the number of metropolitan and district or local labour councils, together with the number of unions and branches of unions affiliated therewith in each State at the end of the years 1939 to 1943.

**Central Labour Organizations : Number, and Branch Unions Affiliated.**

Particulars.	N.S.W.	Vic.	Q'land.	S.A.	W.A.	Tas.	N. Ter.	A.C.T.	Total.

	1940 ..	105	177	81	50	209	57	..	9 688
	1941 ..	205	177	81	50	208	57	..	9 687
	1942 ..	207	248	92	57	250	88	..	9 937
	1943 ..	210	256	101	61	274	71	..	9 932

The figures regarding number of unions do not necessarily represent separate unions, since the branches of a large union may be affiliated with the local trades councils in the several towns in which they are represented.

Between the trade union and the central organization of unions may be classed certain State or district councils organized on trade lines and composed of delegates from separate unions, the interests of the members of which are closely connected by reason of the occupations of their members such, for example, as delegate councils of bakers, bread carters and mill employees, or of unions connected directly or indirectly with the metal trades, or with the building trades.

A Central Labour Organization, called the Australasian Council of Trade Unions, came into being during 1927. The Council was created to function on behalf of the Trade Unions of Australia, and was founded at an All-Australian Trade Union Congress, held in Melbourne in May, 1927. The Australasian Council is based on the Metropolitan Trades and Labour Councils in each State, such bodies having the right to appoint two representatives to act on the Executive of the Council. In addition to the representatives from the Metropolitan Councils, the Executive consists of four officers, viz., the President, two Vice-Presidents, and a Secretary, who are elected by and from the All-Australian Trade Union Congress.

The objective of the Council is the socialization of industry, i.e., production, distribution and exchange. The methods to be adopted are:—  
(a) The closer organization of the workers by the transformation of the Australian Trade Union Movement from the Craft to an Industrial basis by the establishment of one Union in each industry; (b) the consolidation of the Australasian Labour Movement with the object of unified control, administration, and action; (c) the centralized control of industrial disputes; and (d) educational propaganda among Unions.

The A.C.T.U. is the first interstate body in Australia with authority to deal with industrial matters of an interstate character affecting the Trade Union movement generally. It is also the body responsible for submitting the names of suitable persons from which the Commonwealth Government selects the Australian Workers' delegate to the Annual International Labour Conference.

**8. Organizations Registered under Commonwealth Conciliation and Arbitration Act.**—Under Part V. of the Commonwealth Conciliation and Arbitration Act any employer or association of employers in any industry who has employed not less than 100 employees during six months preceding

application for registration, and any association of not less than 100 employees in any industry may be registered.\* Registered unions include both interstate associations and associations operating within one State only.

At the end of 1943 the number of employers' organizations registered under the provisions of the Act was 40, and the number of unions registered 153, with a membership of approximately 1,020,000 representing 85 per cent. of the total membership of all trade unions in Australia.

### § 2. International Labour Conferences.

In Chapter XVII. of Labour Report No. 14, information was given with regard to the clauses in the Peace Treaty referring to labour conditions. Provision was made in the Treaty for the holding of International Labour Conferences, and the institution of the International Labour Office. The Report referred to also contains information regarding the activities of the Labour Office, together with a brief reference to the five Annual Labour Conferences which had then been held. Particulars of the proceedings at subsequent Conferences were given in later reports. The 25th session of the International Labour Conference was held at Geneva from 8th to 28th June, 1939, and the Agenda and decisions appear in *Labour Report* No. 30, 1939.

A special Conference of this Organization was held at the Columbia University, New York, from 27th October to 5th November, 1941, but on 6th November at the invitation of President Roosevelt the Conference held its final sitting at the White House. Thirty-four Member States were represented and 197 persons attended the Conference.† The matters dealt with at this Conference will be found on page 136 of Labour Report No. 31, 1940.

The 26th session† of the International Labour Conference opened at Philadelphia, U.S.A. on 20th April, 1944, and the Agenda was as follows:—

- (1) Future policy, programme and status of the International Labour Organization.
- (2) Recommendations of the United Nations for present and post-war social policy.
- (3) The organization of employment in the transition from war to peace.
- (4) Social Security; principles and problems arising out of the war.
- (5) Minimum standards of social policy in dependent territories.
- (6) Reports on the application of conventions. (Article 22 of the Constitution.)
- (7) Director's report.

The Australian delegation comprised the following:—Government Delegates—Hon. J. A. Beasley, M.P., Minister for Supply and Shipping (Leader) and H. C. Barnard, Esq., M.P., of Joint Parliamentary Committee on Social Security (Second Delegate); Employers' Delegate—H. Crawford Condie, Esq., Member of Associated Chambers of Manufactures; Workers' Delegate—Hon. P. J. Clarey, M.L.C., President Australasian Council of Trade Unions.

\* Under the Arbitration (Public Service) Act an association of less than 100 employees may be registered as an organization, provided that its members comprise at least three-fifths of all persons engaged in that industry in the Service.

† The Special Conference of 1941 was not included in the system of numeration applicable to these Conferences.

Amongst the recommendations to Governments which were adopted was the following proposed by the Australian Government Delegate:

The Conference recommends to governments that a conference of representatives of the Governments of the United, Associated, and other Nations, willing to attend, be called at an early date, in association with the Governing Body of the International Labour Office, to consider an international agreement on domestic policies of employment and unemployment; and this Conference pledges the full co-operation and the assistance of the International Labour Organization in calling such a conference on employment, and in helping to carry into effect appropriate decisions it might make.

Recommendations were made in respect of all items of the Agenda, and included recommendations concerning:

Income Security,  
Medical Care,  
Social Policy in Dependent Territories,  
Employment Organization in the Transition from War to Peace,  
Employment Service,  
National Planning of Public Works.

The full texts of the Recommendations and Resolutions of the Conference have been reproduced in the Government Paper "Reports of the Australian Delegates to the Twenty-sixth Session of the International Labour Conference, 1944", No. 6360.

## Section IV.

**Minimum Rates of Work for Adult Male Workers in the Main Occupations in the Capital City of each State for a Full Week's Work at 31st December, 1943.**

**NOTE.**—These rates are quoted from the latest Awards, Determinations, or Agreements which were in force at the 31st December, 1943, except in the case of the rates for certain farming occupations which are the ruling or predominant rates at that date. Where two or more Award, Determination, or Agreement Rates are quoted, the reason for such is that different rates of wage have been fixed for various classes or grades of work. In certain cases of this nature the wages are shown in the form (say) 111s. Od. to 131s. Od., indicating that in addition to the two rates specified there are also certain intermediate rates in force. In other cases the rates are shown in the form 122s. Id. and 123s. Id., indicating that there are only two intermediate minimum or standard rates in force for different classes or grades of work, and that there are no minimum or standard rates. Except where otherwise specified by a numerical prefix in small type, the hours of labour constituting a full week's work are 44, see footnotes below.

(a) Index of nominal weekly wage rates for adult males divided by "C" series index of retail prices.

(b) Taken back from true base (November, 1914) by means of the Food and Rent of All Houses ("A" Series) Index.

\* The Index-numbers given in the separate columns of the table cannot be compared with each other in order to show, for example, the relative cost of housing, and food and groceries, since the cost in 1911 in each group or combination is made equal to 1,000.

# INDEX.
