

CATALOGUE NO. 8635.4 EMBARGOED UNTIL 11.30 A.M. 20 JUNE 1994

TOURIST ACCOMMODATION, SOUTH AUSTRALIA, MARCH QUARTER 1994

MAIN FEATURES

MARCH QUARTER 1994 COMPARED WITH MARCH QUARTER 1993

HOTELS, MOTELS AND GUEST HOUSES

- Rooms available decreased by 1.1 per cent from 10,739 to 10,625 and bed spaces fell by 0.7 per cent from 30,093 to 29,876.
- Room nights occupied increased by 5.4 per cent from 453,181 to 477,807 overall with four star rated establishments and five star rated establishments recording increases of 9.7 per cent and 20.5 per cent respectively.
- The room occupancy rate overall rose from 47.0 per cent to 50.0 per cent with rises ranging from 1.2 percentage points for two star rated establishments to 11.1 percentage points for five star rated establishments. Regional variations ranged from a rise of 5.8 percentage points for Adelaide Statistical Division to a fall of 3.3 percentage points for South East Statistical Division. The biennial Adelaide Festival of Arts was held in March 1994.
- Guest nights increased by 4.4 per cent from 778,564 to 813,146 and the bed occupancy rate increased from 28.8 per cent to 30.3 per cent.
- Guest arrivals increased by 9.6 per cent from 399,040 to 437,448, while the average length of stay dropped from 2.0 days to 1.9 days overall.
- Takings from accommodation increased by 8.7 per cent from \$32.2m to \$35.0m with average takings per room night occupied rising by 3.1 per cent from \$71 to \$73.

HOLIDAY FLATS, UNITS AND HOUSES

- The number of units, etc. available for short-term letting increased from 1,313 to 1,321 while unit nights occupied increased by 2.6 per cent from 58,970 to 60,475.
- The unit occupancy rate consequently rose from 49.9 per cent to 50.9 per cent.
- Unit lettings increased by 1.6 per cent from 10,097 to 10,258 and the average length of stay increased from 5.8 days to 5.9 days.
- Accommodation takings increased by 8.7 per cent from \$3.3m to \$3.5m while the
 average takings per unit night occupied increased by 6.0 per cent from \$55 to \$59.

CARAVAN PARKS

- Caravan park capacity available decreased by 1.3 per cent from 24,466 to 24,142 powered and unpowered sites and cabins, etc. of which 1,982 sites, etc. (8.2 per cent) were occupied by long-term residents, 1,542 sites (6.4 per cent) were permanently reserved but only casually occupied by their tenants and an average of 3,768 sites (15.6 per cent) were occupied by other short-term guests.
- Site nights occupied increased by 3.1 per cent from 636,370 to 656,243 and the site
 occupancy rate thus rose by 1.3 percentage points from 28.9 per cent to 30.2 per cent.
- Accommodation takings increased by 9.0 per cent from \$7.5m to \$8.2m with the average takings per site night occupied remaining at \$12.

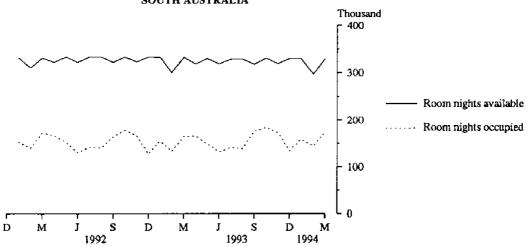

VISITOR HOSTELS

- Bed spaces available increased by 6.5 per cent from 1,970 to 2,098.
- Guest nights occupied rose by 13.5 per cent from 59,084 to 67,089 and the bed occupancy rate increased from 33.6 per cent to 35.5 per cent.
- Guest arrivals fell from 32,142 to 31,479 but the average length of stay increased from 1.8 days to 2.1 days.
- Accommodation takings rose from \$0.60m to \$0.67m while average takings per guest night remained at \$10.

EXPLANATORY NOTES

INTRODUCTION

1 This publication contains data for South Australia from a quarterly survey of tourist accommodation establishments. The period covered by the latest survey is the 3 months ended 31 March 1994.

SCOPE

- 2 Tourist accommodation establishments currently included in the survey comprise two groups:
 - Establishments which provide predominantly short-term accommodation (i.e. for periods of less than 2 months) to the general public. These include:

Hotels, motels and guest houses, with facilities being hotels licensed to operate a public bar and motels, private hotels and guest houses all of which provide a bath (or shower) and toilet in most guest rooms and have breakfast available for guests.

NOTE: From December quarter 1993, hotel, motel and guest house establishments with fewer than five rooms have been formally excluded from the scope of this statistical collection. This change in scope resulted in the exclusion of 16 establishments which in the September quarter 1993 Survey aggregates for South Australia represented 4.5 per cent of hotel, motel and guest house establishments but accounted for less than 0.6 per cent of accommodation capacity, occupancy and takings respectively.

Holiday flats, units and houses (excluding establishments predominantly operated on a time share basis) which are operated by owners or managers who have sole letting rights to at least five flats, units or houses or by real estate agents for short-term letting. They are mainly self-contained in terms of cooking, bath (or shower) and toilet facilities and do not have breakfast available for guests. Data for holiday flats, units and houses include short-term owner occupation as well as paying guest occupation.

Visitor hostels which provide accommodation to visitors on a bed basis (rather than by the room). This category does not include establishments providing charity type accommodation (e.g. Salvation Army hostels) nor hotels, motels and guest houses without in-room facilities which provide accommodation on a per room basis.

- Caravan parks which provide either predominantly short-term (i.e. for periods of less than 2 months) or predominantly long-term (i.e. for periods of 2 months or more) accommodation to the general public and which provide powered sites for caravans and toilet, shower and laundry facilities for guests.
- 3 Data collected and published for each type of establishment (other than holiday flats, units and houses) include both long-term and short-term guests at these establishments.
- 4 Establishments which provide more than one type of accommodation (e.g. a motel with attached caravan park) are treated as two or more separate establishments. However, self-contained units, flats, cabins, etc. attached to hotels, motels or to caravan parks are included in the capacity for those establishments and not treated as separate holiday flat, unit or house establishments.
- 5 Number of establishments. For hotels, motels and guest houses, caravan parks and visitor hostels, the number of establishments within the scope of the survey which operated for any part of the survey period, or which closed temporarily for the quarter for seasonal reasons.
- 6 Number of letting entities. For holiday flats, units and houses, the number of owners, managers or real estate agents within the scope of the survey who operated for any part of the survey period.
- 7 Capacity in terms of *Guest rooms*, *Bed spaces*, *Holiday units* or *Caravan park sites*, *etc*. is the maximum number available to accommodate paying guests during the survey period. Capacity closed temporarily for seasonal reasons is included.
- 8 Bed spaces. Three-quarter beds are counted as one bed space; double beds as two bed spaces. Cots are excluded.
- 9 Total caravan park capacity comprises On-site vans, Other powered sites, Unpowered sites and Cabins, etc.

DEFINITIONS

EXPLANATORY NOTES —continued

DEFINITIONS -continued

- 10 Room nights available. The number of guest rooms available multiplied by the number of days for which they were available during the survey period. Includes operating periods only for establishments closing (other than for seasonal reasons) or opening during the survey period.
- 11 Occupancy in terms of *Room nights*, *Unit nights* or *Site nights occupied* refers to the total number of nights each guest room, holiday unit or caravan park site, etc. was occupied during the survey period.

NOTE: From September quarter 1992, caravan park sites, etc. permanently reserved for 2 months or more at the end of the survey period but only casually occupied by their tenants have been recorded continuously as *Site nights occupied* irrespective of whether the tenants of individual sites were in residence on any particular night. (See also paragraph 14 below). Previously, usage of these sites was recorded as *Site nights occupied* only when their tenants were in the park. Total site occupancy rates from September quarter 1992 are therefore not comparable with those from previous quarters.

- 12 Occupancy in terms of *Guest nights* refers to the total number of nights each paying guest stayed during the survey period.
- 13 Sites occupied by long-term guests. The total number of sites, etc. occupied at the end of the survey period by guests who have stayed continuously for 2 months or more.
- 14 Other sites permanently reserved. The total number of powered and unpowered sites, on-site vans and cabins, etc. continuously let for 2 months or more by the end of the survey period to tenants who occupy the sites only on a casual or sporadic basis. Separate data for this item are available only from September quarter 1992.
- 15 Occupancy rates represent occupancy expressed as a percentage of total capacity available during the survey period e.g.

Room occupancy rate (%) for the period =

 $\frac{Room \ nights \ occupied}{(Guest \ rooms) \times (No. \ of \ days \ in \ the \ period)} \times 100$

providing that, for establishments closing (other than for seasonal reasons) or opening during the period, the denominator of the above expression includes only operating periods.

- 16 Guest arrivals. The total number of paying guests counted only on the first night they stayed at the accommodation establishment.
- 17 Unit lettings. The total number of times a holiday flat, unit or house was occupied by a new tenant, counted only on the first night it was occupied by the new tenant.
- 18 Average length of stay is expressed in number of days and calculated:
 - for hotels, motels and guest houses and for visitor hostels, by dividing Guest nights by Guest arrivals and
 - for holiday flats, units and houses, by dividing Unit nights occupied by Unit lettings.
- 19 Takings from accommodation. Revenue received from the provision of accommodation. Takings from meals are excluded. Takings from accommodation for each month generally represent the takings received during that month. Where payments are received in advance of, or after, the provision of accommodation to guests, the monthly figure for takings from accommodation may not necessarily bear a direct relationship to the number of guests accommodated during the month. Rental and storage fees paid to caravan parks for the keeping of private vans in parks are included in the takings of the month they are received.
- 20 Star grading. The grading of hotels and motels with facilities based on the classification system used by members of the Australian Automobile Association (AAA). The gradings are allocated according to a points system based on the amenities and facilities available to guests. Details of the grading scheme are contained in the RACV-RAASA members' publication Accommodation Australia, or the individual tour guides produced by members of the AAA. For the purpose of classifying establishments to a star

EXPLANATORY NOTES—continued

grading in this publication, 'half' star gradings are ignored (e.g. a two and a half star grading has been shown as two star).

21 Employment. The number of persons working at accommodation establishments at the end of the survey period (including working proprietors and those working on other than accommodation activities).

AUSTRALIAN STANDARD GEOGRAPHICAL CLASSIFICATION

22. Statistics presented in this publication have been classified according to the Australian Standard Geographical Classification (ASGC), Edition 2.3. This classification incorporates a number of hierarchic structures of geographic areas. The appropriate spatial units of the main structure of the ASGC used in this publication are shown in the appendix and are defined as follows.

Statistical Local Areas (SLAs) are legal local government areas or equivalent spatial units which serve as the smallest type of spatial unit considered appropriate for the presentation of statistics. In aggregate, SLAs cover the whole of the State without gaps or overlaps.

Statistical Subdivisions (SSDs). These consist of one or more SLAs and form the intermediate size spatial unit for the presentation of regional data.

Statistical Divisions (SDs). These consist of one or more SSDs. The divisions are designed to be relatively homogeneous regions characterised by identifiable social and economic units within the region, under the unifying influence of one or more major towns or cities. For more detailed information, refer to the ASGC (1216.0).

UNPUBLISHED STATISTICS

23 The ABS may make available on request certain unpublished tourist accommodation statistics. A charge may be made for this information.

RELATED PUBLICATIONS

- 24 Publications for Australia, and each State and Territory, are released by the respective offices of the ABS. Tourist accommodation statistics for past quarters are available on request.
- 25 Other ABS publications which may be of interest include:

Directory of Tourism Statistics, 1991 (1130.0) (irregular)

Overseas Arrivals and Departures, Australia (3401.0) (monthly)

Tourism Indicators Australia (8634.0) (quarterly)

Tourist Accommodation, Australia (8635.0) (quarterly)

26 Current publications produced by the ABS are listed in the Catalogue of Publications and Products (1101.0). The ABS also issues the Publications Advice (1105.0) on Tuesdays and Fridays which lists publications to be released in the next few days. Both the Catalogue and Publications Advice are available from any ABS office.

SYMBOLS AND OTHER USAGES

- n.a. not available
- n.p. not available for publication but included in totals where applicable
- r figure or series revised since previous issue
- .. not applicable
- nil or rounded to zero
- (C) Municipality with city status
- (DC) District council
- (M) Municipality
- (RC) Rural City
- 27 Where figures have been rounded, discrepancies may occur between totals and the sums of the component items.

P. M. GARDNER
Deputy Commonwealth Statistician
and Government Statist

TOURISM STATISTICS 1991

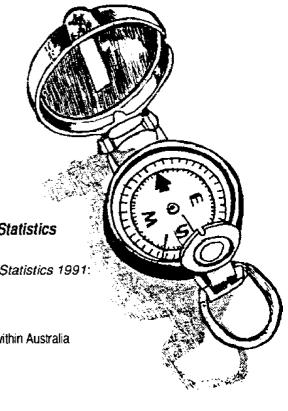

An essential tool for tourism business decisions, the Directory of Tourism Statistics 1991:

- ♦ offers quick reference sources of tourism data
- provides a comprehensive listing of public sector statistical data sources available within Australia
- provides appropriate contact details
- ♦ presents data to illustrate the uses of the surveys presented
- outlines industry standard definitions and measures of tourism activity, for survey designers.

For more information ...

The ABS publishes a wide range of information on Australia's economic and social conditions. A catalogue of publications and products is available from any of our Offices (see below for contact details).

Information Consultancy Service

Special tables or in-depth data investigations are provided by the ABS Information Consultancy Service in each of our Offices (see below for contact details).

Electronic Data Services

A growing range of our data is available on electronic media. Our PC TELESTATS service delivers major economic indicator publications ready to download into your computer on the day of release. Our PC AUSSTATS service enables on-line access to a data base of thousands of up-to-date time series. Selected data sets are also available on diskette or CD-ROM. For more details on our electronic data services, contact Information Services in any of our Offices on the numbers below.

Bookshops and Subscriptions

There are over 400 titles available from the ABS Bookshops in each of our Offices. You can also receive any of our publications on a regular basis. Join our subscription mailing service and have your publications mailed to you in Australia at no additional cost. Telephone our Publications Subscription Service toll free on 008 02 06 08 Australia wide.
